

Türkiye: Virbac acquires its companion animal distributor

Carros, France, public release dated December 3, 2024 before market opening

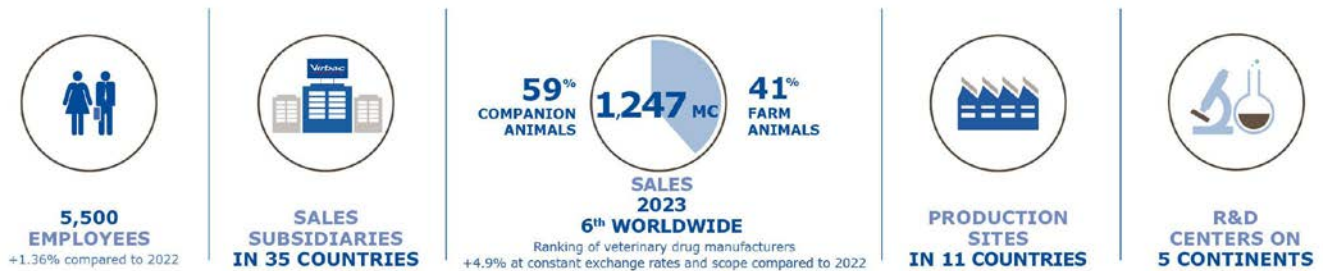

On December 2, we finalized the acquisition of Turkish company Mopsan, specialized in the distribution of petfood and companion animal health products.

Present in Türkiye for over 20 years via various local distributors, then with our own subsidiary since 2018, we are today taking a new step forward with the acquisition of our companion animal products distributor: Mopsan. Working alongside Turkish veterinarians for over 30 years, Mopsan has extensive experience in the petfood and companion animal health products sector, a fast growing market.

Through this acquisition, we are strengthening our proximity to the field to better meet the expectations of the animal health industry. Mopsan brings a team of 47 talented employees who will be largely dedicated to Virbac's companion animal business. The former owner and managing director of Mopsan, Alican İnceç, is appointed managing director of Virbac for all our activities in Türkiye.

Always working for animal health

At Virbac, we provide innovative solutions to veterinarians, breeders and animal owners in more than 100 countries around the world. Covering more than 50 species, our range of products and services makes it possible to diagnose, prevent and treat the majority of pathologies. Every day, we are committed to improving the quality of life of animals and together shaping the future of animal health.
