

Atos to provide Australia's Federal Government Agencies Cloud services

Melbourne, Australia, August 10, 2021 – Atos has been appointed by the Australian Federal Government's Digital Transformation Agency Cloud Marketplace to provide cloud offerings across two areas, Cloud Services and related Cloud Consulting expertise, under a 3-year Head Agreement. Atos OneCloud offers a unique set of 10 offerings in a powerful one-stop shop.

Atos OneCloud has been designed to meet the needs of citizens, governments, and public agencies by giving them essential agility, cost-efficiency and sustainability. Atos OneCloud aims at developing a digital strategy based on business drivers and defines an actionable path forward in the digital transformation journey of government organisations. Atos' Orchestrated Cloud service and Cloud First approach includes Digital Hybrid Cloud (DHC), Digital Cloud Services (DCS) and value-added managed services.

*"We are proud to be part of the DTA Cloud Marketplace panel to provide Cloud offerings to federal government agencies," said **Mike Green, Managing Director of Atos in Australia.** "When governments have control over their national sovereign data in the cloud they can not only provide better and faster public services but also generate trust and provide leadership in times of challenges and disruption."*

The DTA Cloud Marketplace has been created to meet the complex needs of government agencies who are looking to easily source value-for-money cloud solutions. Atos' Cloud offerings have been appointed on the DTA Cloud Marketplace within 2 categories, found on [BuyICT](#):

- Cloud Consulting category: includes cloud-based professional services using a simple rate-card system that gives buyers greater flexibility in how those services are used.
- Cloud Services category: includes ICT capabilities offered under 'as a service' delivery models. To promote a common approach and ease of access, descriptions of cloud services aligned with the International Standard ISO/IEC17788.
