NOTES TO FINANCIAL STATEMENTS

1. Basis of preparation

The interim financial statements of the Group and the Company for the nine months ended 30 September 2021 are prepared in accordance with IAS 34 Interim Financial Reporting

These financial statements do not include all the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU) and should be read in conjunction with the Group's and Company's interim financial statements for the period ended 30 September 2020 as well as last annual financial statements for the year ended 31 December 2020.

The accounting policies adopted in the preparation of these interim financial statements are consistent with those described in the audited annual financial statements of the Group and Company for the financial year ended 31 December 2020.

These financial statements of the Group and the Company for the 9-month period ended 30 September 2021 have been prepared under the assumption that the Group and the Company will continue as a going concern.

All amounts in these financial statements of the Group and the Company are presented in the euros. Amounts are rounded to the nearest thousand (EUR thousands), unless otherwise stated.

Accounting estimates and assessments

The preparation of the Group's and Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Estimates and judgements are based on the management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The significant judgements made by management in applying the Group's and Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual audited financial statements for the year ended 31 December 2020.

Useful lives of property, plant and equipment

The estimation of the useful lives of items of property, plant and equipment is a matter of judgment based on the experience with similar assets. The management assesses the remaining useful lives in accordance with the current technical conditions of the assets and estimated period during which the assets are expected to earn benefits for the Group. In assessing the remaining useful life of property, plant and equipment, the management considers conclusions presented by the employees responsible for technical maintenance of assets.

Impairment of goodwill

Goodwill is tested for impairment annually by calculating the recoverable value. The recoverable value of goodwill is calculated by discounting future cash flows to their present value. The management tested goodwill of EUR 3,001 thousand, which was recognised upon the acquisition of subsidiary Grigeo Klaipėda AB, for impairment and did not establish any indications of impairment.

Legal processes

Subsidiary Grigeo Klaipėda AB has received a claim in relation to indemnification for damage to the environment. Based on the management's estimate, the outcome of the claim involves a high degree of uncertainty. More information is presented in [Note 29 of year 2020 financial statements](#).
