Additional information

On 19 May 2016, Bekaert issued senior unsecured convertible bonds due 9 June 2021 in a principal amount of € 380 million. Those bonds will from 20 July 2016 till 31 May 2021 be convertible into Bekaert shares at a conversion price of € 50.71 (adjusted conversion price, effective as of 11 May 2018).

Upon receipt of a request for conversion, Bekaert will be able to elect to convert the bonds into new and/or existing Bekaert shares or to redeem them in cash. With a view to mitigate dilution for existing shareholders, Bekaert expects to make use of such possibilities to the extent possible.

If all of the bonds were to be converted into new Bekaert shares at a conversion price of € 50.71, Bekaert would have to issue 7 493 591 new shares, each of which entitling the holder to one vote. The conversion price might have to be revised further in accordance with the conditions of the bonds.

Thresholds set by the Articles of Association

According to Article 12 of the Articles of Association, the provisions of Articles 6 through 17 of the Act apply not only to the legal thresholds of 5 % and of each multiple of 5%, but also to the thresholds of 3% and 7.50%.
