

PRESS RELEASE

12 August 2020

Saniona invites investors to participate in a conference call and webcast presentation regarding its recent \$65 million financing

Saniona (OMX: SANION), a clinical stage biopharmaceutical company focused on rare diseases, today announced a conference call and webcast presentation regarding its recent directed share issue generating gross proceeds of USD 65 million (approximately SEK 567 million).

The event will take place on Friday August 14th at 2 p.m. CET and will feature a presentation by Saniona's management team to discuss the strategy and rationale for the financing, as well as an update on Saniona's advancement of its late-stage clinical trials with Tesomet in two rare eating disorders, hypothalamic obesity (HO) and Prader Willi Syndrome (PWS), as well as progress building its U.S.-based organization in support of these programs.

About Saniona

Saniona is a rare disease biopharmaceutical company focused on research, development and commercialization of treatments for the central nervous system. The company has four programs in clinical development. Saniona intends to develop and commercialize treatments for rare disease indications such as hypothalamic obesity and Prader-Willi syndrome on its own. The research is focused on ion channels and the company has a broad portfolio of research programs. Saniona also has out-licensing agreements with Boehringer Ingelheim GmbH, Productos Medix, S.A de S.V and Cadent Therapeutics. Saniona is based in Copenhagen, Denmark, and in Boston, US. The company's shares are listed on Nasdaq Stockholm Small Cap (OMX: SANION). Read more at www.saniona.com.
