Quarterly report – highlights

- The net profit of DKK 616 million is unchanged compared to last year and equivalent to a 22% p.a. return on equity
- Earnings per share (net profit) increase by 5% to DKK 24.5 in the quarter
- Core income increases by 2% to DKK 1,056 million
- Costs increase by 5%, and the cost/income ratio is 24.5%
- · Continued strong credit quality means that impairment charges of DKK 24 million were carried to income in the quarter
- Highly satisfactory increase in customer numbers and growth of 10% in loans and 8% in deposits
- The Ringkjøbing Landbobank brand remains in first place in the annual Voxmeter image survey
- Decision to launch a new share buyback programme for DKK 1 billion
- The expectations for net profit for 2025 are maintained unchanged in the range DKK 1.8 2.2 billion

Key figures and ratios

Key figures for the bank (DKK million)	Q1 2025	Q1 2024	2024	2023	2022	2021
Total core income	1,056	1,040	4,068	3,828	2,862	2,433
Total expenses and depreciation	259	247	1,044	963	891	817

Share price, end of period	1,227.0	1,209.0	1,204.0	991.5	948.0	878.0

Core earnings

Core income

Interest

Net interest income was DKK 638 million in the first quarter of 2025, compared to DKK 691 million in the first quarter of 2024 and DKK 656 million in the fourth quarter of 2024.

Net interest income

(DKK million)	Q1 2025	Q1 2024	2024
Net interest income	638	691	2,702

Since peaking in October 2023, the interest margin has been under constant pressure. The declining interest rate level put pressure on the interest margin and continuing keen competition for loans resulted in pressure on the lending margin.

To mitigate the pressure on the interest margin, the bank has been able to grow the business. The bank's loan portfolio thus increased by 9.8% over the past year. The increase in the first quarter of 2025 was 1.1%. The increase in loans in the past year is related mainly to the niches and less to retail.

The bank considers the growth in loans satisfactory and continues to see good opportunities for growth.

Fee, commission and foreign exchange income

Overall, fee, commission and foreign exchange income amounted to DKK 327 million in the first three months of 2025, compared to DKK 282 million in the same period in 2024, equivalent to an increase of 16%.

Net fee, commission and foreign exchange income

(DKK million)	Q1 2025 (Q1 2024	2024
Securities trading	55	59	189
Asset management and custody			
accounts	66	55	239
Payment handling	39	31	132
Loan fees	21	16	72
Guarantee and mortgage credit			
commission etc.	72	68	276
Pension and insurance commission	27	20	86
Other fees and commission	12	10	33
Foreign exchange income	35	23	87
Total	327	282	1,114

Income from "Securities trading" and "Asset management and custody accounts" and "Foreign exchange income" is assessed as one item, as it relates primarily to the bank's focus on private banking and other asset management.

Assets in custody accounts etc.

(DKK million)	31 Mar.	31 Mar.	31 Dec.
	2025	2024	2024
Custody account holdings	87,539	94,775	93,026
Deposits in pooled schemes	7,005	6,311	7,126
Letpension/PFA Pension	6,027	5,150	5,998
Total	100,571	106,236	106,150

Total income from these three items amounted to DKK 156 million in the first quarter of 2025, compared to DKK 137 million in 2024, an increase of 14%.

Income from payment handling was DKK 39 million in the first quarter of 2025 compared to DKK 31 million in 2024, an increase of 26% related to the continued increase in customer numbers and the return of the fee level to normal.

Income from loan fees was DKK 21 million in the first quarter of the year compared to DKK 16 million in 2024 and attributable to a higher level of trading activity for properties.

Income from "Guarantee and mortgage credit commission etc." amounted to DKK 72 million in the first quarter of 2025, compared to DKK 68 million the year before.

The bank's continued focus on pensions contributed to the increase in income from this source from DKK 20 million in the first quarter of 2024 to DKK 27 million in 2025, an increase of 38%.

Sector shares and other operating income

Total earnings from banking sector shares amounted to DKK 90 million in the first three months of the year, compared to DKK 67 million in 2024. The earnings derive from the bank's shares in DLR Kredit, PRAS and BankInvest. A general revaluation of the BankInvest shares was carried out following a guideline issued by the Danish FSA, which specifies that true and fair values must be used when redistributing shares in co-owned asset management companies. As a result, DKK 34 million was extraordinarily carried to income in the quarter. The remaining earnings in the quarter are attributable as in the past to the usual ongoing earnings in the sector companies.

Sector shares and other operating income

(DKK million)	Q1 2025	Q1 2024	2024
Sector shares	90	67	244
Other operating income	0	0	7

Core income

Total core income in the first quarter of the year increased from DKK 1,040 million in 2024 to DKK 1,056 million in 2025.

Expenses, depreciation and write-downs

Total expenses including depreciation and write-downs on tangible assets amounted to DKK 259 million in the first quarter of 2025, compared to a total of DKK 247 million in 2024, an increase of 5%.

Expenses, depreciation and write-downs

(DKK million)	Q1 2025 Q	1 2024	2024
Staff and management expenses	153	146	603
IT and other administration expenses	102	94	405
Depreciation and write-downs,			
tangible assets	4	4	25
Other operating expenses	0	3	11
Total	259	247	1,044

The cost increase reflects higher staff costs, higher IT expenses and higher administration expenses.

An increase of approximately 4% in total expenses is expected for the full year 2025, as in 2024.

The cost/income ratio was 24.5% in the first quarter of 2025, compared to 23.7% in 2024.

A low cost/income ratio combined with good credit quality is the foundation for the bank's business model. This combination provides a high free cash flow and a strong revenue shield.

Impairment charges for loans etc.

The development in the bank's expenditure for losses and impairment charges in the first quarter of 2025 was satisfactory and better than expected. The bank thus realised net income of DKK 24 million from this item in the first quarter of 2025. This follows a period of 12 quarters in which the expenditure for losses and impairment charges was around zero in each quarter.

Impairment charges for loans etc.

(DKK million)	Q1 2025	Q1 2024	2024
Impairment charges for loans etc.	+24	0	+3

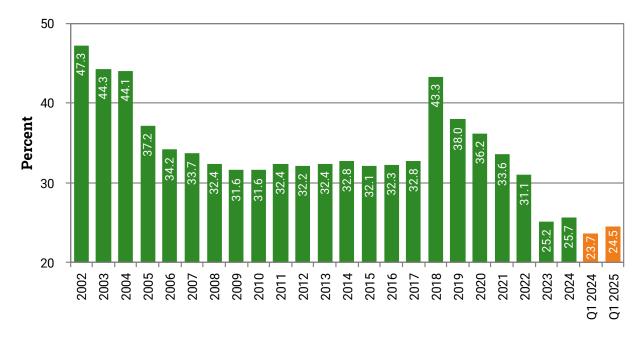

In the first quarter of 2025, the bank received and published the Danish FSA's "Report on the inspection of Ringkjøbing Landbobank A/S". During the inspection, the FSA reviewed around 7% of the bank's total loans. The FSA generally agreed with the bank's risk classification of the individual loans. At 31 December 2024, 76.0% of the bank's exposures were classified in stage 3 or 2a (the FSA's two best stages) compared to 57.7% overall for Group 2 institutions.

The bank still assesses the credit quality of its loan portfolio as good, and the highest credit quality increased from 76.0% to 76.5% in the quarter. In addition, the bank was able to reduce the individual impairment charges for customers in the first quarter of 2025, from DKK 863 million at the end of 2024 to DKK 849 million at the end of the first quarter of 2025. Actual losses in the first quarter of 2025 were also very modest, and the net item is positive.

Overall, a very strong labour market continues to support the bank's portfolio of loans to both personal and business customers.

However, the bank is very aware of the considerably higher global economic risks arising during the first quarter of 2025, principally as a result of the aggressive US statements regarding the introduction of significant tariffs. The bank's exposure to customers with any considerable direct sales to the US is very modest.

Cost/income ratio

The geopolitical tension, however, increases the risk of a setback to the economy at large. The bank has made considerable management estimates to counter these risks. The total management estimate increased by DKK 11 million in the first quarter of 2025 and thus amounted to DKK 990 million at the end of March 2025, equivalent to 42% of the bank's total account for impairments.

Loans with suspended interest amounted to DKK 185 million at the end of the first quarter of 2025 compared to DKK 183 million at the end of 2024.

Core earnings

Core earnings for the first quarter of 2025 were DKK 821 million compared to last year's DKK 793 million, an increase of 4%.

Core earnings

(DKK million)	Q1 2025	Q1 2024	2024
Total core income	1,056	1,040	4,068
Total expenses and depreciation	259	247	1,044
Core earnings before impairment			
charges	797	793	3,024
Impairment charges for loans etc.	+24	0	+3
Core earnings	821	793	3,027

Earnings per share

The bank places emphasis on the key figures "Core earnings per share" and "Net profit per share" and how they develop.

Core earnings per DKK 1 share were DKK 32.6 in the first quarter of 2025 compared to DKK 30.0 in 2024, and net profit also per DKK 1 share was DKK 24.5 in the first quarter of 2025 compared to DKK 23.3 in 2024. The latter is equivalent to an increase of 5% compared to the first quarter of 2024.

The development both in the bank's earnings and in the share buyback programmes had a positive effect on the key figures.

Result for the portfolio etc.

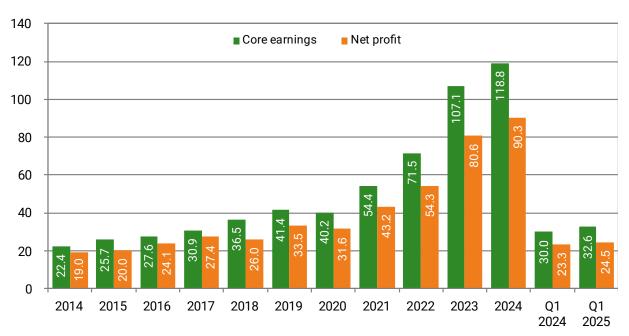

The result for the portfolio etc. including portfolio funding costs was negative by DKK 6 million net for the first three months of the year, compared to a positive result of DKK 23 million net for the first three months of 2024.

Result for the portfolio etc.

(DKK million)	Q1 2025	Q1 2024	2024
Result for the portfolio etc.	-6	+23	+62

The negative result for the portfolio in 2025 is primarily attributable to an increase in the long-term mortgage interest rates in March 2025, which caused a decline in prices of the bank's portfolio of long-term mortgage bonds.

Core earnings per share

Amortisation and write-downs on intangible assets

The bank treats amortisation and write-downs on intangible assets as a special item, since expensing them enhances the quality of equity and helps to reduce the deduction when computing total capital.

Amortisation and write-downs on intangible assets amounted to DKK 5 million in the first quarter of 2025, unchanged relative to 2024.

Amortisation and write-downs on intangible assets

(DKK million)	Q1 2025	Q1 2024	2024
Amortisation and write-downs			
on intangible assets	5	5	20

Profit before and after tax

The profit before tax was DKK 810 million, equivalent to a 29.4% p.a. return on average equity.

The profit after tax was DKK 616 million, equivalent to a 24.5% p.a. return on average equity.

The effective tax rate was 24.0% in the first quarter of 2025, compared to 24.1% in the first quarter of 2024.

Core earnings - alternative performance measure

The bank uses the alternative performance measure "Core earnings". Core earnings is used as a measure of performance for both external and internal financial reporting because it's deemed to better reflect the actual banking operations.

Overall, core earnings contains the same items as the traditional measure of performance "Profit before tax," but the calculation method and degree of specification are different.

Core earnings shows the bank's income and expenses adjusted for temporary fluctuations following from the development in the bank's trading portfolio of securities (the securities portfolio less sector shares etc.). The profit before tax is divided into two main elements: core earnings and result for the portfolio.

The result for the trading portfolio is composed of value adjustments for the portfolio plus the actual return in the form of interest and dividends from the portfolio and less the calculated funding costs for the portfolio.

Core earnings is shown on page 11 and comments provided on the preceding pages.

The income statement

Net interest income

Net interest income was DKK 637 million in the first quarter of 2025 compared to DKK 688 million in 2024.

Net interest income

(DKK million)	Q1 2025	Q1 2024	2024
Interest income	857	957	3,784
Interest expenses	220	269	1,092
Total net interest income	637	688	2,692

The development reflects the pressure on the interest margin caused by the declining interest rate level and the pressure on the lending margin resulting from the continuing keen competition for loans.

To mitigate the pressure on the interest margin, the bank has been able to grow the business. The bank's loan portfolio thus increased by 9.8% over the past year. The increase in the first quarter of 2025 was 1.1%. The increase in loans is related mainly to the niches and less to retail.

The bank's deposit base also increased in 2025, which is described on page 8.

Dividends from shares etc.

Dividend income from shares etc. totalled DKK 6 million in the first quarter of the year, which is slightly higher than in 2024.

Dividends from shares etc.

(DKK million)	Q1 2025	Q1 2024	2024
Dividends from shares etc.	6	4	119

Dividends in the quarter derive from both sector shares etc. and other shareholdings.

Fee and commission income and fee and commission expenses

Net fee and commission income was DKK 292 million in the first quarter of 2025 compared to DKK 259 million in 2024, an increase of 12%.

Net fee and commission income

(DKK million)	Q1 2025 Q	1 2024	2024
Fee and commission income	318	284	1,134
Fee and commission expenses	26	25	107
Total net fee and commission			
income	292	259	1,027

Please see the comments below and note 3 to the income statement for a specification of net fee and commission income.

Overall, the income items "Securities trading" and "Asset management and custody accounts" developed positively in the first quarter of 2025 compared to 2024 as a result of a continued increase in new customers and the bank's continued focus on the private banking segment and other asset management.

Total net income from the two items thus increased by DKK 6 million, from DKK 115 million in the first quarter of 2024 to DKK 121 million in 2025.

Income from "Guarantee and mortgage credit commission etc." also increased during the quarter – from DKK 68 million in 2024 to DKK 72 million in 2025.

Income from "Payment handling" and "Pension and insurance commission" in the first quarter of the year was DKK 66 million net compared to DKK 50 million net from this source in 2024. The increase is driven by the continued increase in customer numbers, a return to normal payment handling fees and the bank's continued focus on pension advice.

There was an increase of DKK 4 million in income from "Loan fees" in 2025 compared to the year before because the level of trading activities was higher.

Finally, the income from "Other fees and commission" was marginally higher by DKK 2 million compared to 2024.

Value adjustments

The value adjustments in the first quarter of 2025 resulted in income totalling DKK 114 million compared to income totalling DKK 112 million in 2024.

This development is specified as follows:

Value adjustments

(DKK million)	Q1 2025	Q1 2024	2024
Other loans and receivables	-4	-2	4
Bonds	-13	12	76
Shares etc.	93	76	142
Investment properties	0	0	6
Foreign exchange	35	23	87
Derivative financial instruments	-7	-4	11
Issued bonds etc.	10	10	-33
Debt to credit institutions	0	-3	-8
Total value adjustments	114	112	285

As shown above, value adjustments of the bank's portfolio of shares and foreign exchange income in particular contributed to the positive value adjustments for the quarter.

Staff and administration expenses

Total staff and administration expenses increased by 6% in the first quarter of 2025, from DKK 241 million in 2024 to DKK 255 million in 2025.

Staff and administration expenses

Q1 2025 Q	1 2024	2024
153	146	603
102	94	405
255	240	1,008
	153 102	102 94

Expenses for staff and management totalled DKK 153 million in the first quarter of 2025 compared to DKK 146 million in 2024, an increase of 4%. The average number of full-time employees (FTEs) increased from 665 in the first quarter of 2024 to 674 in the first quarter of 2025.

Other administration expenses totalled DKK 102 million in the first quarter of 2025 compared to DKK 94 million in 2024, an increase of 8%.

Amortisation, depreciation and write-downs on intangible and tangible assets

Amortisation, depreciation and write-downs totalled DKK 9 million in the first quarter of 2025 compared to a total of DKK 8 million in 2024.

Amortisation, depreciation and write-downs on intangible and tangible assets

taligible accets			
(DKK million)	Q1 2025	Q1 2024	2024

and write-downs on intangible			
and tangible assets	9	8	45

Impairment charges for loans and other receivables etc.

The item represented DKK 0 million in the first quarter of 2024, compared to income of DKK 24 million in 2025. The development in the item was thus satisfactory and better than expected.

Impairment charges for loans and other receivables etc.

(DKK million)	Q1 2025	Q1 2024	2024
Impairment charges for loans and			
other receivables etc.	+24	0	+3

The bank still assesses the quality of its loan portfolio as

For further details on the development in impairment charges for loans etc., see page 4 of the management's review and notes 11 and 26 to the quarterly report.

Balance sheet etc.

Balance sheet items and contingent liabilities

The bank's balance sheet total stood at DKK 79,381 million at the end of March 2025, compared to DKK 73,438 million the year before.

Loans in the period March 2024 to March 2025 increased from DKK 51,417 million to DKK 56,444 million, an increase of 9.8%. In the first three months of the year, loans increased by DKK 607 million, equivalent to 1.1%.

Deposits including pooled schemes increased by 7.8%, from DKK 52,824 million at the end of March 2024 to DKK 56,926 million at the end of March 2025. The increase in the bank's deposits in the first three months of the year was DKK 274 million, equivalent to 0.5%.

The bank's contingent liabilities including guarantees amounted to DKK 7,543 million at the end of March 2025, compared to DKK 6,533 million at the end of March 2024 and DKK 7,198 million at the end of December 2024.

Credit intermediation

In addition to the traditional bank loans shown on its balance sheet, the bank also arranges mortgage loans on behalf of both Totalkredit and DLR Kredit.

The bank's total credit intermediation increased by 6.8% compared to March 2024 and by 1.3% in the first three months of the year.

The development is shown in the following summary:

Total credit intermediation

(DKK million)	31 Mar.	31 Mar.	31 Dec.
	2025	2024	2024
Loans etc.	56,444	51,417	55,837
Mortgage credit - Totalkredit	49,511	46,912	48,554
Mortgage credit – DLR Kredit			
and others	9,263	9,569	9,321
Total	115,218	107,898	113,712

Securities and market risk

The bank measures its portfolio of securities at fair value.

The item "Shares, etc." amounted to DKK 1,543 million at the end of March 2025, with DKK 68 million in listed shares and investment fund certificates and DKK 1,475 million in sector shares etc., mainly in the companies DLR Kredit, BI Holding and PRAS.

The bond portfolio amounted to DKK 6,193 million on 31 March 2025, of which the majority consisted of AAA-rated Danish mortgage credit bonds.

The total interest rate risk – impact on profit of a one percentage point change in interest level – was computed as 0.5% of the bank's tier 1 capital on 31 March 2025.

The bank's total market risk within exposures to interest rate risk, listed shares etc. and foreign currency remains at a moderate level, and this policy will continue.

Liquidity

In terms of liquidity, the bank's short-term funding liabilities total DKK 1.8 billion, comprising debt to credit institutions and issued bonds with term to maturity of less than 12 months. This is balanced by short-term liquidity management deposits in the central bank of Denmark, Danmarks Nationalbank, receivables from credit institutions with term to maturity of less than 12 months and listed securities totalling DKK 12.0 billion. This means the total excess cover is DKK 10.2 billion.

The bank strengthened its liquidity in the first quarter of the year. Agreements on new issues of tier 2 capital, non-preferred senior capital and preferred senior capital equivalent to a total of DKK 1,555 million were thus entered into in the first quarter of the year. See also "Capital structure" below.

In terms of liquidity, the bank must comply with the statutory requirement of at least 100% for both the liquidity ratios LCR and NSFR.

On 31 March 2025 the bank's LCR was 184% and its NSFR 119%. The bank thus met the statutory requirement for both ratios by a good margin.

Capital structure

Parts of the CRR3 capital adequacy rules entered into force with effect from the beginning of 2025. The regulation contains changed weighting principles for exposures to real estate and new rules on calculating risk-weighted items in relation to operational risks.

The overall effect of the new rules is an unchanged level of risk-weighted assets.

The bank's equity at the beginning of 2025 was DKK 11,034 million. The profit for the period must be added to this, while the dividend paid and the value of the bank's own shares bought must be subtracted. After this, equity at the end of March 2025 was DKK 11,009 million.

Core earnings

Ongoing earnings contribute 57% to the computation of the common equity tier 1. A new DKK 1 billion share buyback programme has already been deducted from the common equity tier 1 in the first quarter of 2025. Following approval by the Danish FSA, the board of directors decided today to launch the new programme when the current DKK 500 million share buyback programme has been completed. The capital ratios will thus improve gradually in step with the recognition of ongoing earnings, but with the biggest effect in the fourth quarter of 2025.

Adjusted tier 1 capital ratio	31 Mar. 2025	31 Mar. 2024
Common equity tier 1 capital ratio Effect of share buyback programme Effect of deduction for expected	15.0 2.4	15.3 2.7
distribution Adjusted common equity tier 1	0.5 17.9	0.8 18.8

The individual solvency requirement at the end of March 2025 was calculated as 8.9%.

At the end of March 2025, the countercyclical capital buffer for exposures to customers located in Denmark was implemented at 2.5%. The bank's countercyclical buffer was 2.1% at the end of March 2025, calculated as an exposure-weighted average of the specific buffer rates in the home countries of the customers to whom the bank is exposed. The capital conservation buffer of 2.5% and a sector-specific systemic buffer of 0.9% for exposures to real estate companies at the end of March 2025 should be added to this.

The total requirement for the bank's total capital was thus 14.4% at the end of the first quarter of 2025. Compared with the actual total capital of DKK 10.1 billion, the capital buffer at the end of March 2025 was thus DKK 2.0 billion, equivalent to 3.8 percentage points.

For further information, see the summary below.

Individual solvency requirement, total capital requirement and excess cover

excess cover			
(%)	31 Mar.	31 Mar.	31 Dec.
	2025	2024	2024
Individual solvency requirement	8.9	8.8	8.9
Capital conservation buffer	2.5	2.5	2.5

Excess cover in percentage points relative to individual solvency requirement Excess cover in percentage	9.3	10.4	10.9
points relative to total requirement for total capital	3.8	5.4	5.4

In December 2024, the bank received an updated MREL requirement of 18.9% from the Danish FSA, applicable from the beginning of 2025. The Danish FSA at the same

The bank's total capital ratio and the tier 1 capital ratio were 18.2% and 15.0% respectively at the end of March 2025.

Capital ratios	31 Mar.	31 Mar.	31 Dec.
	2025	2024	2024
Common equity tier 1 capital ratio	15.0	15.3	16.6
Tier 1 capital ratio	15.0	15.3	16.6
Total capital ratio	18.2	19.2	19.8
MREL subordination ratio	27.8	26.0	27.7
MREL capital ratio	28.5	27.1	28.8

Adjusted for the part of the share buyback programmes not yet used and the expected distributions, the bank's tier 1 capital ratio would have been as shown in the table:

| 31 Dec. |
|---------|---------|---------|---------|---------|
| 2024 | 2023 | 2022 | 2021 | 2020 |
| 16.6 | 18.9 | 17.4 | 17.6 | 17.5 |
1.1	0.1	0.1	0.2	-
17.7	19.0	17.5	17.8	17.5

time notified the bank of a subordination requirement of 23.7%.

The subordination requirement must be met, as a minimum, with non-preferred senior capital, while the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement can be met with preferred senior capital.

Both the MREL requirement and the subordination requirement must always be met.

To meet the MREL requirement, the bank has issued non-preferred senior capital over time. At the end of March 2025, non-preferred senior capital equivalent to a total of DKK 5.3 billion and preferred senior capital equivalent to a total of DKK 1.1 billion had been issued. The preferred senior capital complies with the eligibility provisions and can be used to cover the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement.

In the first three months of the year, the bank entered into agreements on new issues of non-preferred senior capital equivalent to DKK 798 million, preferred senior capital equivalent to DKK 516 million and tier 2 capital equivalent to DKK 241 million. However, the last-mentioned was not disbursed until the beginning of April 2025.

For further information on capital, please see page 19 of this quarterly report.

The bank operates with four different capital targets. The capital targets specify that the common equity tier 1 capital ratio must be at least 13.5%, the total capital ratio at least 17.0%, the MREL subordination ratio for covering the subordination requirement at least 25.5% and the

MREL capital ratio for covering the MREL requirement at least 26.0%, including the capital buffers.

All capital targets must be met at the end of the year. The capital ratios may fluctuate during the year.

The bank expects not to need refinancing of non-preferred senior capital and tier 2 capital in the rest of 2025.

Share buyback programmes and capital reduction

The bank's annual general meeting of 5 March 2025 again renewed its previous authorisation of the board of directors to permit the bank, in accordance with the applicable law, to acquire its own shares to a total nominal value of 10% of the bank's share capital.

The share buyback programme totalling DKK 500 million which was already in progress is proceeding as planned.

On 31 March 2025, a total of 229,100 shares had been bought back under the programme which the overview below shows.

The general meeting further decided to cancel the 1,315,042 of the bank's own shares that were bought during 2024 and in early 2025. The capital reduction is expected to be finalised in May 2025.

On 31 March 2025, the bank's actual share capital was thus DKK 25,162,597 in nom. DKK 1 shares: see below.

	Share capital/ Number of shares
Beginning of 2025	26,706,739
Expected finalisation of capital reduction in May	
2025	-1,315,042
Number of shares after the capital reduction	25,391,697
Bought under the DKK 500 million share	
buyback programme at the end of March 2025	-229,100
Actual number of shares on 31 March 2025	25,162,597

Following approval by the Danish FSA, the board of directors today decided to launch a new share buyback programme for DKK 1 billion when the current DKK 500 million share buyback programme has been completed.

The Supervisory Diamond

The bank complies with the Danish FSA's Supervisory Diamond. The Supervisory Diamond contains four different benchmarks and associated limit values which Danish banks are expected to observe.

The Supervisory Diamond benchmarks and limit values and the bank's key figures are given in the following table.

Benchmark	Limit	Q1	Q1	2024	2023
	value	2025	2024		
Liquidity benchmark	>100%	160.8%	183.2%	153.9%	224.9%
Large exposures	<175%	136.2%	130.6%	125.2%	116.9%
Growth in loans	<20%	10.1%	5.0%	10.1%	5.0%
Real estate exposure	<25%	18.7%	21.1%	18.2%	21.1%

As shown above, Ringkjøbing Landbobank meets all four current limit values by a good margin.

Financial rating and ESG rating

The bank is rated by the international credit rating agency Moody's Investors Service (Moody's Ratings).

On 11 June 2024, Moody's Ratings reaffirmed the rating "Aa3" with stable outlook for both the long-term bank deposits and the long-term issuer rating.

In the environmental, social and governance (ESG) area, the bank is rated, for example, by MSCI, one of the world's most used ESG rating agencies. Here, the bank's rating "AA", the second-highest on MSCI's scale, was reaffirmed on 26 July 2024.

Danish FSA inspection

Using a risk-based approach, the Danish FSA carried out an ordinary inspection of the bank in the fourth quarter of 2024.

A large number of areas were reviewed during the inspection and the bank received two orders for the board of directors.

In its review of exposures, the FSA generally agreed with the bank's risk classification of exposures. The bank is thus pleased that its strong credit quality was confirmed.

Image survey

Voxmeter published its annual image and reputation survey in March 2025. The survey is by far the biggest in Denmark and based on more than 39,000 respondents. The Ringkjøbing Landbobank brand again takes first place.

Expected results for 2025

On 22 January 2025, the bank announced its initial expectations for 2025, which are net profit in the range DKK 1.8 - 2.2 billion.

On the basis of the profit for the first quarter of 2025, the bank maintains its previously announced expectations for 2025.

Accounting policies

The accounting policies are unchanged relative to those in the submitted and audited 2024 annual report.

Management statement

The board of directors and the general management have today discussed and approved the quarterly report of Ringkjøbing Landbobank A/S for the period 1 January to 31 March 2025.

The quarterly report is drawn up in accordance with statutory requirements, including the provisions of the Danish Financial Business Act and other Danish disclosure requirements for listed financial companies. We consider the chosen accounting policies to be appropriate and the estimates made responsible, so that the quarterly report provides a true and fair view of the bank's assets, liabilities and financial position as at 31 March 2025 and of the result of the bank's activities for the period 1 January to 31 March 2025. We also believe that the management's review contains a true and fair account of the development in the bank's activities and financial circumstances as well as a description of the most important risks and uncertainties which can affect the bank.

The quarterly report has not been audited or reviewed, but the bank's external auditors have verified the profit by carrying out procedures corresponding to those required for a review and have thereby checked that the conditions for ongoing recognition of the profit for the period in the common equity tier 1 capital have been met.

^{*} Statistics Denmark introduced new industry codes at the beginning of 2025, which means that some business types have changed industry category. The majority of the shifts from the end of 2024 to the end of the first quarter of 2025 in the marked industries are attributable to this change.

^{*} The categories high, medium and low credit quality do not translate directly into the Danish FSA's rating classes but, as a rule, high credit quality can be viewed as FSA rating classes 3 and 2a, medium credit quality as the best part of FSA rating class 2b, while low credit quality covers the rest of FSA rating classes 2b and 2c as well as the customers with objective evidence of impairment where losses are not expected in the most probable scenario. Exposures which are in stage 3 or credit-impaired on initial recognition are those where losses are expected in the most probable scenario.

 $^{^{1}}$ Calculated on the basis of a denomination of DKK 100 per share.

 $^{^{\}rm 2}\,\text{Calculated}$ on the basis of number of shares in circulation at the end of the period.

³ Calculated on the basis of the average number of shares. The average number of shares is calculated as a simple average of the shares at the beginning and the end of the period.
