Strong half-year results with confirmation of the expected net result per share, despite an increase in the number of shares due to the optional dividend

- Increase in net rental income by 15.2% to € 36.7M (€ 31.8M at 30 June 2024);
- Increase of the net result from core activities per share of 16.2% to € 2.72 at 30 June 2025 (€ 2.34 at 30 June 2024);
- Increase of the fair value of the investment property portfolio (+11.3% compared to 31 December 2024);
- Decrease in net asset value per share of € 78.79 (-3.9% vs. 2024: € 82.02);
- Slight decrease in EPRA occupancy rate of 0.4% to 96.6% for the entire portfolio (97.0% at 31 December 2024) due to a significantly higher number of pop-up contracts by year-end;
- Healthy debt ratio of 34.5% at 30 June 2025 (28.4% at 31 December 2024);
- Outlook of net result from core activities maintained between € 5.35 € 5.45 per share.

| Number of shares (#) | 9,355,204 | 8,886,001 |

¹The net result from core activities is the operating result before the portfolio result minus the financial result and taxation, and excluding variations in the fair value of financial derivatives (that are not treated as hedge accounting in accordance with IFRS 9) and other non-distributable items on the basis of the company financial statements of Wereldhave Belgium.

²The result from non-core activities (portfolio result) comprises the result on sale of property investments, the variations in the fair value of property investments, the other portfolio result, the variations in the fair value of financial assets and liabilities and taxes on capital gain latencies and the exit taxes paid.

³Fair value has been computed after deduction of the transaction costs (2.5%) incurred at the sales process. The independent valuation expert has carried out the valuation in conformity with 'International Valuation Standards' and 'European Valuation Standards'.

⁴Before profit distribution and after dividend payment.

Message to the shareholders

The first half of 2025 was marked by further strengthening of Wereldhave Belgium's position as a leading player in the retail real estate market in Belgium and Luxembourg. Several key events underline this strategic progress.

On 13 February 2025, the acquisition of Knauf Shopping Pommerloch SàRL — the owner and operator of the shopping center of the same name in Luxembourg — was completed. This acquisition represents an important step in the Company's growth strategy and contributes to the diversification of its real estate portfolio beyond Belgium. Knauf Shopping Pommerloch, strategically located near the Belgian border, is a high-performing retail complex with a complementary tenant mix, solid footfall, and proven commercial appeal.

In addition, the optional dividend for the 2024 financial year was successfully completed in May 2025. Shareholders were given the choice between a cash dividend or new shares. The outcome was particularly positive: a significant majority — nearly 80% of the Company's shareholders — opted to receive their dividend in new shares. This result confirms the shareholders' confidence in the Company's long-term strategy and contributes to the strengthening of its balance sheet and solvency. Thanks to this transaction, a substantial cash outflow was avoided, providing the Company with additional financial flexibility to seize future investment opportunities.

Finally, the Company recorded strong leasing, operational, and financial results in the first half of 2025, which are explained in more detail in this half-year report. In a context of ongoing macroeconomic uncertainty, these strong results reflect the continued confidence of tenants and customers in the Company, as well as the resilience and quality of its assets. The high occupancy rate, rising rental income, and strict cost control confirm the effectiveness of its strategy and the Company's ability to maintain a sustainable position in a challenging market environment.

These strong performances have led the Board of Directors to maintain the previously communicated guidance for the expected net result from core activities per share, despite a 5.3% increase in the number of outstanding shares due to the optional dividend. Overall, this represents an increase in the underlying result.

Nicolas Rosiers Deputy CEO Effective Leader Brigitte Boone Chairwoman of the Board of Directors Matthijs Storm CEO Effective Leader

Company business activities

(This information forms an integral part of the condensed financial statements presented in the fourth chapter of this report)

Leasing activities

The Belgian retail market remains strong, with solid demand from both new and existing business partners. Vacancies resulting from bankruptcies in 2024 were quickly relet to attractive new tenants. Moreover, several new brands entering the Belgian market chose to open their first stores in the Company's shopping centers, further strengthening its portfolio.

In the first half of 2025, the Company concluded no fewer than 31 lease agreements and lease renewals within its Belgian portfolio. On average, these leases were signed at rental levels 7% above market rent and 2% above the previous rent, highlighting the quality of the Company's assets.

Commercial highlights during the first half of the year include Bestseller, which doubled the retail space of ONLY in Shopping Nivelles and relocated ONLY to a new, larger unit in Ring Kortrijk, expanding from 410 sqm to 1,150 sqm. Cosmetics retailer Douglas continues to expand its presence in Belgium with a second store in the Company's Belgian portfolio, also in Ring Kortrijk, following its earlier opening in Genk Stadsplein. Vero Moda has signed a lease agreement for a new 314 sqm store in Shopping 1 in Genk.

Dutch discount retailer Wibra is opening its first store within the Company's Belgian portfolio in Ring Kortrijk (645 sqm) and will also open a location at Genk Stadsplein (789 sqm). Skechers will launch a brand-new store in Shopping 1, Genk. At the 'De Mael' retail park in Bruges, a major milestone was achieved with the execution of an amicable agreement with Carrefour, paving the way for its replacement by Albert Heijn as part of the site's redevelopment.

Earlier in 2025, the Company welcomed brands such as Maison123, Cabaïa, and an expanded Jack & Jones to Shopping Belle-Île, while Levi's opened in Shopping Les Bastions in Tournai and NewYorker expanded its presence in Shopping 1, Genk. Several promising transactions are still in the pipeline, highlighting the continued strength and market interest in the Company's Belgian assets.

The acquisition of Knauf Shopping Pommerloch and the management of Knauf Shopping Schmiede in Luxembourg during the first quarter of 2025 marked an important step in the growth phase of the Company's portfolio. Both centers have now been fully integrated, and the local teams have been successfully onboarded. Recently, significant lease renewals were concluded with parapharmacy retailer Medi Market in both centers, as well as with fashion retailer Veritas in Knauf Shopping Schmiede.

Operational activities

In the first quarter of 2025, the Company experienced a stabilisation in footfall across its shopping centers, with a very slight decline of 0.2% compared to the same period in 2024. The most notable impact was observed at Ring Shopping in Kortrijk, where the bankruptcy of the Lunch Garden chain — a significant footfall driver — had a noticeable effect. February and March also proved to be more challenging months in terms of visitor numbers, both for the Company and for the retail sector in general.

In contrast, the second quarter showed an increase in footfall compared to the same period last year, with growth exceeding 1.8%. April and May were particularly strong months, with increases of 2.9% and 4.2% respectively. Only the month of June saw a decline of 2.4% in visitor numbers, mainly due to an additional public holiday in June and exceptionally sunny weather in recent weeks.

Notably, the Company's shopping center footfall in the second quarter was in line with the overall market trend (+1.8%), with slightly better results than the market average in April and June, and a slightly lower result in May.

Overall, footfall across the Company's shopping centers during the first half of 2025 increased by 0.8% compared to the first half of 2024.

These positive figures underscore the success of the Company's long-term strategy, which is focused on the transformation of its shopping centers into 'Full Service Centers'. In this regard, the first half of the year was marked by a wide range of activities, achievements, and performance across several of the Company's centers.

During the second quarter, the Company's teams worked intensively on the integration of the Luxembourg assets — particularly in terms of IT, finance, and technical management — with the aim of bringing them to the same quality level in terms of operations and contribution to financial performance as the Company's other shopping centers.

The most important development project of the past semester was focused on Shopping Nivelles, where three parallel initiatives were launched to enhance the customer experience. The first initiative involves a full renovation of the parking facilities, including both the underground parking and traffic flow on the outdoor parking lot. A new circulation plan is being implemented to make it easier for visitors to enter the parking area and find a space.

The second initiative concerns the upgrade of the main entrance to Shopping Nivelles, which provides access to the Delhaize supermarket, in order to ensure an optimal first impression for customers. The third initiative, aligned with the "Customer Journey" projects, includes the construction of new covered outdoor terraces along the southern façade to benefit the food & beverage outlets in that area, as well as the development of a new outdoor children's playground.

The second shopping center that underwent a transformation at the beginning of 2025 is Ring Shopping in Kortrijk. A new outdoor children's playground was also completed there, along with the creation of new terraces surrounding the area. The goal is to provide a pleasant outdoor space where customers and their families can relax and enjoy a welcoming atmosphere. In addition, the operational teams are actively working on the final phase of the parking expansion project, which began in 2024. These ongoing works will significantly improve the experience for customers arriving by car or bicycle.

The final project of the first semester concerns the 'De Mael' retail park in Bruges, where renovation works have gained momentum. Following the execution of an amicable agreement to replace the Carrefour supermarket with Albert Heijn, the Company has initiated a comprehensive refurbishment of the main building, including a complete reconfiguration of the retail units and a technical renovation.

In terms of sustainability, the Company entered into a partnership during the past quarter with 50five — a technology partner in which JP Morgan is a shareholder. As a result of this collaboration, the rollout of 82 charging points across the existing retail and office sites began in 2025. These include Shopping Nivelles, Shopping Les Bastions, Shopping Belle-Île, Ring Kortrijk, Shopping 1, as well as the office sites The Sage in Berchem and Vilvoorde. This initiative responds to the growing demand for charging infrastructure among visitors.

This first phase includes both the replacement and significant expansion of the existing AC charging infrastructure. Installation, monitoring, and maintenance will be handled by 50 five. By 2026, approximately 290 additional AC charging points will be added across the aforementioned locations, along with more than 60 ultra-fast DC chargers at strategic sites — an investment fully funded by 50 five. In addition, the charging stations are expected to have a positive impact on the Company's operational results.

The Belgian operational teams experienced a dynamic semester, supported by a wide range of initiatives. Among them were "Auto Shows" organised in collaboration with local car dealers, aimed at strengthening ties with regional businesses. Sustainability-themed events, such as the "Eco-Days," were also held to showcase various eco-friendly concepts and raise visitor awareness about current environmental issues.

Finally, the Company proudly announces the relocation and opening of a completely renewed "The Point" in Shopping Les Bastions. This internal concept, first launched in 2016 in Nivelles, brings together various visitor services such as information desks, parcel handling, tailoring services, and ticket sales. Since its launch, the concept has grown significantly and now accounts for 5% of total footfall in the Company's shopping centers. The new location in Shopping Les Bastions offers improved reception infrastructure and expanded capacity to handle the growing number of parcels — over 140,000 items were processed there in 2024 alone, making the previous location no longer sufficient.

Financial activities

The Company benefits from a solid balance sheet structure, with a stable debt ratio of 34.5% as of 30 June 2025 (28.4% as of 31 December 2024). The increase of 6.1% compared to year-end is a result of the acquisition of Knauf Shopping Pommerloch and is lower than the 6.5% initially anticipated at the time of the transaction announcement.

The Company had a remaining available amount of \in 64.5M on its committed credit lines on 30 June 2025, taking into account a 100% coverage of the outstanding commercial paper by a back-up line with Wereldhave NV. Drawdowns on the credit lines amount to \in 377.5M at 30 June 2025. The average remaining maturity of the debt is 3.4 years. During the second quarter of 2025, the Company entered into a new interest rate swap, which became effective on 30 June 2025. The swap has a notional value of \notin 50M and matures on 31 December 2031. This transaction improved the hedge ratio, which stood at 66.2% at the end of the first semester. This hedge ratio is subject to continuous monitoring. For more details, please refer to the financing policy section.

In terms of diversification, the Company uses various sources of funding such as 81% bank funding, 11% commercial paper and 8% bond funding.

Net result

The net result for the first half year, consisting of the result from core and non-core activities, amounted \in 25.4M (\in 62.5M as of 30 June 2024). The net result per share decreased from \in 7.03 as of 30 June 2024 to \in 2.81 per share as of 30 June 2025. This decline compared to the same period in 2024 is mainly attributable to the significantly higher results from non-core activities in the first half of 2024, and more specifically to variations in the fair value of investment properties (+ \in 3.9M as of 30 June 2025 compared to + \in 41.5M as of 30 June 2024). The positive impact at 30 June 2024 can be explained by the effect that, over recent years, rental levels within the Company's portfolio consistently exceeded market rents (ERVs), prompting the valuation experts to structurally adjust the market rents as of 30 June 2024.

Net result from core activities

The Company reported a net result from core activities of \in 24.6M for the first half year (\in 20.8M at 30 June 2024). The net rental income for the first half of 2025 amounted to \in 36.7M, representing an increase of 15.2% compared to the same period in 2024 (\in 31.8M as of 30 June 2024). This increase is primarily attributable to the inclusion of Knauf Shopping Pommerloch in the results since mid-February (see section "Message to Shareholders" and "Movements in Investment Properties"). The net rental income excluding this acquisition amounted to \in 33.5M, still representing a 9.5% increase in the existing portfolio compared to the same period last year. This increase is the result of an improved occupancy rate (+1.8%) in the first half of 2025 compared to the first half of 2024, combined with rent indexation.

Net rental charges and taxes on let properties remained stable and amounted to \in 2.1M as of 30 June 2025. Property charges decreased by \in 0.1M compared to the first half of 2024, mainly due to a reduction in costs and taxes related to vacant properties. In contrast, the Company's general costs remained unchanged versus the first half of 2024 and amounted to \in 3.8M. Finally, net financial charges increased by \in 1.0M, primarily as a result of the acquisition of Knauf Shopping Pommerloch.

Taking into account the impact described above the net result from core activities increased to \in 2.72 per share (\in 2.34 at 30 June 2024).

Net result from non-core activities

The net result from non-core activities amounted to \in 0.8M as of 30 June 2025 (\in 41.7M as of 30 June 2024). The net result from non-core activities mainly includes the result of revaluation within the properties portfolio (\in 3.9M), the variations in fair value of hedging instruments (- \in 2.0M), other result on portfolio (- \in 0.3M) and a deferred tax liability (- \in 0.8M). The other portfolio result includes the implementation costs of the ERP system, restructuring expenses and other costs.

The positive revaluation of \in 3.9M is mainly attributable to higher market-based rents (ERVs) for certain investment properties, combined with a favourable impact from net inflows generated by solar panels and electric vehicle charging stations. The fair value of the hedging instruments is based on interest rate developments and the maturity profile of the derivatives portfolio. As a result of the addition of several new products to the Company's derivatives portfolio and interest rate fluctuations, the change in the fair value of the derivatives portfolio declined from \in 0.5M to - \in 2.0M as of 30 June 2025.

Shareholders' equity and net asset value

Shareholders' equity as of 30 June 2025 amounted to € 737.1M (€ 728.8M at 31 December 2024).

The net asset value per share (total equity / number of issued shares), including profit for the current financial year, amounted to \in 78.79 on 30 June 2025 (\in 82.02 at 31 December 2024), due to the increase in the number of shares following the optional dividend in May 2025.

Trade receivables/Accrued charges and deferred income

Trade receivables (\leq 27.4M as of 30 June 2025) and accrued charges and deferred income (\leq 23.7M as of 30 June 2025) on the balance sheet were impacted by \leq 15.5M of rent relating to the third quarter of 2025, which were not yet due at 30 June 2025 but had already been invoiced.

Trade payables and other current liabilities

Trade payables and other current liabilities decreased from \in 9.4M at 31 December 2024 to \in 9.0M at 30 June 2025. This decrease is a combination of lower provisions for invoices to be received related to capital expenditures (\in -1.5M) and more outstanding trade payables (\in + 1.0M) compared to year-end 2024.

10

Investment properties

Properties available for lease

The fair value of the portfolio of properties available for lease amounted to \in 1,100.2M as of 30 June 2025, which represents a significant increase compared to the fair value of \in 987.9M as of 31 December 2024. Excluding the acquisition of Knauf Shopping Pommerloch and investments in the portfolio, the property values increased by 0.2% compared to year-end 2024.

As of 30 June 2025, the EPRA occupancy rate for the retail portfolio was 98.3%, compared with 99.0% on 31 December 2024. This slight decrease is the effect of pop-up contracts being significantly higher by year-end.

The EPRA occupancy rate of the office portfolio slightly decreased compared to 31 December 2024 and amounted to 85.2% on 30 June 2025 (-0.2% versus 31 December 2024).

Development projects

The fair value of the development projects remained unchanged in the first half of 2025 compared to 31 December 2024 and amounted to \in 7.0M on 30 June 2025.

Outlook

Following the acquisition of Knauf Shopping Pommerloch on 13 February 2025, the Company revised its earnings guidance to a range between \in 5.35 and \in 5.45 per share. Taking into account the results of the first half of the year, the Company confirms this revised forecast, despite the dilution resulting from the increase in the number of outstanding shares, which overall represents an increase in the underlying result.

Given the uncertainties arising from the (inter)national context (U.S. tariffs policies, fluctuating interest rates, inflation, etc.) and their potential impact on the economy and consumption in general, and on the activities of the Company's tenants in particular, this range should be viewed with caution.

The Company will keep the market informed of the evolution of the situation and the impact that the evolution of the above circumstances could have on this indication of result.

Vilvoorde, 18 July 2025

| ¹ Rental value vacancy is the estimated rental va | lue on the vacant units. | | | | |

²The theoretical rental value equals the contractual rent increased with the value of rental vacancy.

³To determine the estimated rental value, external valuation experts rely on their knowledge of the property market and on recent transactions. The rental value is influenced by the location of the property, the suitability of the site, the qualities of the building and the market conditions. ⁴The occupancy rate is calculated by dividing the (indexed) contractual rental of current leases by the sum of contractual rents and estimated rental value

(market rent) of the vacancy. The latter are determined based on the level of the current rents, in accordance with the EPRA guidelines.

Acquisition

The Company acquired on February 13, 2025 all the shares of the company owning Knauf Shopping Pommerloch (Grand Duchy of Luxembourg), for a total acquisition price of \in 103M, including transaction costs. This represented a net initial yield (NIY) of 7.2%, well above the Company's current internal threshold. This acquisition, which was unanimously positively received by the market, marked the first step in the growth phase of its LifeCentral strategy since 2018.

Sensitivity analysis

| Sensitivity analysis | | | | | | | | |
|--|--|---------------------------------|---------------------------|---------|---------|------------|-----------|-----------|
| | | | Non-financial | | | | | |
| | Financial asso | ts and liabilities ¹ | assets and liabilities | | | | | |
| | | | | | | | | |
| | | c value | Book value | | | Fair value | 9 | |
| | Fair value - Hedging instruments | Other financial liabilities | At cost | Total | Level 1 | Level 2 | Level 3 | Total |
| (x € 1,000) | | | | | | | | |
| Assets measured at fair value | | | | | | | | |
| Properties available for lease | | | | | | | 1,100,246 | 1,100,246 |

| | | | | | | | | |

¹Trade receivables, other receivables and cash and cash equivalents, as well as trade debts and other debts were not included in the above table. Their book value is considered to be a reasonable approximation of the fair value.

There were no reclassifications between the different levels during the reporting year.

There have been no changes in the underlying valuation techniques compared to the 2024 annual report. The effect of changes in the fair value of assets valued at fair value (level 3) is recorded as changes in the fair value of investment properties in the profit and loss account.

The sensitivity of the fair value can be estimated as follows:

- The effect of an increase (decrease) of 1% of rental income leads to an increase (decrease) of the fair value of the portfolio of about € 11.1M (€ -11.1M)
- The effect of an increase (decrease) of the average initial yield (total rental income at balance sheet date divided by the investment value of the investment properties portfolio) of 25 basis points leads to a decrease (increase) of the portfolio of about € 40.2M (€ 43.3M).

Valuation experts' report

We received from Cushman & Wakefield and Stadim (valuation experts), a report, prepared on 30 June 2025, following the valuation of the property portfolio, as referred to the Royal Decree of 13 July 2014 with respect to regulated real estate companies, the RREC's.

Cushman & Wakefield

The fair value determined by Cushman & Wakefield amounted to \in 455,580,000 for the retail properties valuated by them and \in 102,270,000 for the office portfolio valuated by them.

Stadim

The fair value determined by Stadim amounted to € 535,885,718 for the retail properties valuated by them.

Financing policy

In the first half of 2025, the total drawn financing increased from \in 274.7M as of 31 December 2024, to \in 377.5M as of June 30, 2025. More specifically, financial debt rose by \in 102.8M compared to the end of 2024, mainly due to the acquisition of Knauf Shopping Pommerloch, the cash dividend distribution of \in 17.0M and investment expenditures. The dividend distribution and investment expenditures were offset by rental income collected during the same period.

In the first quarter of 2025, the Company secured new financing totaling \in 100M to successfully complete the acquisition of Knauf Shopping Pommerloch. These new financings include two credit lines with BNP Paribas of \in 20M and \in 15M respectively, a \in 20M credit line with Belfius, a \in 30M financing with KBC, and a \in 15M credit line with ING. The new credit facilities contain the same covenants as previously outlined in the 2024 annual report, including maintaining the REIT status, a negative pledge, and compliance with financial ratios. The average cost of financing as of 30 June 2025, amounts to 3.22% (30 June 2024: 2.81%). The above should be read in conjunction with the financial activities section.

Basis of preparation of half year figures 2025

These are the condensed half year financial statements of Wereldhave Belgium, a limited company and regulated real estate company (RREC) under Belgian law. These statements are in thousands of euros.

The condensed financial information regarding the first half year 2025 has been prepared in accordance with IAS 34, 'Interim financial reporting' and the requirements of the Royal Decree of 13 July 2014 regarding the RREC.

This interim financial information should be read in conjunction with the financial annual report for the year ending on 31 December 2024. During the first half year 2025, the Company has not adopted any amendments.

New standards and interpretations not yet effective

A number of new accounting standards and amendments to existing standards are effective for annual periods beginning on or after 1 January 2025. The Group has not early adopted any of the forthcoming new or amended accounting standards in preparing these condensed consolidated interim financial statements.

The amendments are not expected to have a material impact on the Group's condensed interim consolidated financial statements. Furthermore, the Company did not make any changes to its accounting policies, nor to its significant estimates or judgements during the first half of 2025.

Standards and interpretations applicable for the annual period beginning on or after 1 January 2025

Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability

Standards and interpretations published, but not yet applicable for the annual period beginning on 1 January 2025

• IFRS 18 Presentation and Disclosure in Financial Statements (applicable for annual periods beginning on or after 1 January 2027, but not yet endorsed in the EU)

• IFRS 19 Subsidiaries without Public Accountability – Disclosures (applicable for annual periods beginning on or after 1 January 2027, but not yet endorsed in the EU)

• Amendments to IFRS 9 and IFRS 7 Classification and Measurement of Financial Instruments (applicable for annual periods beginning on or after 1 January 2026)

• Annual Improvements – Volume 11 (applicable for annual periods beginning on or after 1 January 2026, but not yet endorsed in the EU)

• Amendments to IFRS 9 and IFRS 7 Contracts Referencing Nature-dependent Electricity (applicable for annual periods beginning on or after 1 January 2026)

Consolidation

The published figures in this half yearly statement are consolidated figures. In accordance with the relevant legislation, the subsidiaries are consolidated.

No statutory half year financial report is prepared at 30 June. The statutory annual accounts are only prepared at year end.

Risk management

The risks with which the RREC may be confronted during the remaining financial period of 2025 (business, financial, operational and strategic risks), are identical to those described in the financial annual report 2024.

In order to limit the possible impact for the Company and its shareholders, the Board of Directors continuously monitors these risks.

The focus on shopping centers and retail parks involves a higher geographical concentration, in the sense that the apportionment is implemented only on a limited number of real estate as well as a higher risk concentration in case of technical problems and fire.

In accordance with article 88 of the law of 3 August 2012, the Board of Directors confirms taking into account social, ethical and environmental aspects when controlling the financial means and executing rights conferred by securities in the portfolio. See Annual Financial Report 2024, pages 31-42 Section 'Sustainability: A better tomorrow'.

Related parties

Intra-group fees, invoiced by Wereldhave SA for IT support (ICT), among other items, amounted to € 0.8M (excl. VAT) at 30 June 2025.

Except for the transactions mentioned above, there have been no other transactions with other group companies in the first half of 2025. Regarding the intercompany loan, see Annual Financial Report 2024, page 102.

Significant events after 30 June 2025

No significant events occurred after 30 June 2025 that would have an impact on this Half-Yearly Financial Report or should be mentioned therein.

Obligations regarding the provision of information

Obligations regarding the provision of information (R.D. of 14 November 2007)

Mr. M. Storm, CEO and effective leader of the Company, and Mr. N. Rosiers, Deputy CEO and effective leader of the Company, declare, in the name and on behalf of the Board of Directors, in the capacity of managing entity of the RREC, that, as far as they know,

- the condensed consolidated interim financial information which have been prepared in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union and the requirements of the Royal Decree of 13 July 2014 with respect to public regulated real estate companies, give a true and fair view of the equity, financial position and financial performance of the issuer, and the entities included in the consolidation as a whole;
- the interim management report includes a fair overview of the information required under Article 13, § 5 and 6 of the Royal Decree of 14 November 2007 on the obligations of issuers of financial instruments admitted to trading on a regulated market.

Auditor's review report

SNODD

Report on the review of the consolidated interim financial information of Wereldhave Belgium NV for the six-month period ended 30 June 2025

In the context of our appointment as the company's statutory auditor, we report to you on the consolidated interim financial information. This consolidated interim financial information comprises the condensed consolidated balance sheet as at 30 June 2025, the condensed consolidated profit and loss account, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of movements in equity and the condensed consolidated cash flow statement for the period of six months then ended, as well as the attached selective notes.

Report on the consolidated interim financial information

We have reviewed the consolidated interim financial information of Wereldhave Belgium NV ("the company") and its subsidiaries (jointly "the group"), prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting" as adopted by the European Union.

The condensed consolidated balance sheet shows total assets of 1159 776 (000) EUR and the condensed consolidated profit and loss account shows a consolidated profit (group share) for the period then ended of 25 369 (000) EUR.

The board of directors of the company is responsible for the preparation and fair presentation of the consolidated interim financial information in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

Scope of review

We conducted our review of the consolidated interim financial information in accordance with International Standard on Review Engagements (ISRE) 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit performed in accordance with the International Standards on Auditing (ISA) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated interim financial information.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information of Wereldhave Belgium NV has not been prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union.

Signed at Zaventem.
