Note 5 - Subscription tax (*taxe d'abonnement*)

The Company is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the Company is subject to an annual subscription tax (*taxe d'abonnement)* of 0.05%, except for those share classes, which may benefit from a lower rate of 0.01% as more fully described in Article 174 of the 2010 Law. The tax is calculated and payable quarterly, on the aggregate Net Asset Value of the outstanding shares of the Company at the end of each quarter.

Pursuant to Article 175 (a) of the 2010 Law the net assets invested in undertakings for collective investment already subject to the *taxe d'abonnement* are exempt from this tax.

Note 6 - Pooling of assets

The assets of certain Sub-Funds are managed in common "pools". Shareholders are advised that such pools are used solely for facilitating the internal management process. These pools do not constitute separate entities and can therefore not directly be accessed by shareholders. Assets and profits and losses of each pool are allocated on a prorata basis to the participating Sub-Funds. The assets attributable to each participating Sub-Fund have been initially determined by reference to its initial allocation of assets to such a pool and will change in the event of additional allocations or withdrawals from the participating Sub-Funds. The entitlements of each participating Sub-Fund to the pool apply to each and every investment position of such pool. Additional investments made on behalf of the pooled Sub-Funds shall be allotted to such Sub-Funds in accordance with their respective entitlements according to above-mentioned definition, whereas assets sold shall be levied similarly on the assets attributable to each participating Sub-Fund.

Note 7 - Swing Pricing

Investments in the Sub-Funds are intended for long-term purposes only. The Company takes reasonable steps to seek to prevent short-term trading. Excessive short-term trading into and out of a Sub-Fund can disrupt portfolio investment strategies and may increase expenses, and adversely affect investment returns, for all shareholders, including long-term shareholders.

A Sub-Fund may indeed suffer a reduction in value as a result of the costs incurred in the dealings in the Sub-Funds' investments (caused by subscriptions, redemptions and/or conversions in and out of the Sub-Funds).

In order to mitigate against the above-described excessive trading and dilution, and consequent potential adverse effect on remaining shareholders, the Board of Directors of the Company may apply "swing pricing", i.e. adjust upwards or downwards the Net Asset Value of the Sub-Funds in the manner described below.

If on any Valuation Date the aggregate transactions in shares of all Classes of a Sub-Fund result in a net increase or decrease of shares which exceeds a threshold set by the Board of Directors of the Company from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the Net Asset Value of the Sub-Fund is adjusted by an amount (not exceeding 2.5% of that Net Asset Value) which reflects in particular but not exclusively the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment is an addition when the net movement results in an increase of all shares of the Company and a deduction when it results in a decrease.

The Net Asset Value per share as disclosed in the statistical information and in the statement of net assets is the published Net Asset Value per share (swing adjustment included, if any), whereas the total net assets disclosed in the statement of net assets is the total net assets excluding any year-end swing adjustment.

A "full swing" on subscriptions and redemptions for all Sub-Funds was applied during the reporting period. This means, that the price is swung on every dealing date on a net deal basis regardless of the size of the net capital activity, except when there is no net flow in a Sub-Fund, in which case the Net Asset Value is not swung.

Sub-Funds which were swung as at 30th June 2026 are identified in the statement of net assets.
