PRESS RELEASE

Millicom (Tigo) Q3 2023 Earnings Release

Luxembourg, October 26, 2023 – <u>Millicom</u> is pleased to announce its third quarter 2023 results. Please find below links to the Q3 2023 Earnings Release and IAS 34 Interim Condensed Consolidated Financial Statements.

Highlights*

- Revenue grew 2.6%, reflecting both organic growth and the effect of stronger currencies. Excluding currency impacts, revenue increased 1.4% year-on-year.
- Service revenue increased 1.8% organically, as Mobile accelerated to 3.0% in Q3 fueled by improved ARPU trends, while Fixed and other services was flat.
- Operating profit increased 6.8%, as increased profit from joint ventures and other income more than offset a 1.2% decline in EBITDA, which was impacted by \$33 million of one-off severance costs and a legal ruling. Excluding one-off items in both years, organic EBITDA growth was 2.6%, in excess of service revenue growth.
- Operating cash flow increased 23.3% to \$353 million, as a result of capital allocation and price discipline in our Home business in some countries.
- Equity free cash flow of \$100 million in the quarter, up strongly from \$26 million in Q3 2022. We reiterate our guidance of cumulative EFCF of at least \$500 million for the 2022-2024 period.

Financial highlights (\$ millions)	Q3 2023	Q3 2022	% change	Organic %	9M 2023	9M 2022	% change	Organic %

*See page 11 for a description of non-IFRS measures and for reconciliations to the nearest equivalent IFRS measures.

PRESS RELEASE

Millicom Chief Executive Officer Mauricio Ramos commented:

"During the third quarter, we continued to advance on the four key priorities I outlined last quarter:

- Colombia: performance was solid with 9% EBITDA local currency growth, record EBITDA
 margins, and OCF growth of more than 70% year-to-date; we obtained regulatory approval
 to share our mobile network and spectrum with Telefonica's; and in October, we reached an
 agreement with our partner EPM to jointly capitalize the business to tap the growth and
 value creation potential we see in that market;
- Guatemala: we have achieved our objective of sustaining our market share and leadership; we acquired spectrum critical to preserving our brand quality; we took price action to mitigate the effects of inflation, and we saw signs of stabilization during the quarter;
- Project Everest: during Q3, we significantly increased the scope and accelerated the implementation of our efficiency program; the actions taken in Q3 are expected to add \$35 million to our original \$100 million target, with more initiatives planned for Q4.
- Lati, our Tower and Infrastructure company: we began transferring tower assets to Lati in October, and we expect to launch a monetization process in Q4.

The steps we are taking position the company to achieve its equity free cash flow target of at least \$500 million in the 2022-2024 period"
