

FirstFarms A/S strengthens the management further

Hiring Production Director for the crop production in Slovakia

FirstFarms has hired Ricki Dandanell Pedersen, 29, in a newly created position as Production Director, Field, in Slovakia.

Ricki is responsible for the operation of FirstFarms' complex crop production in Western Slovakia – the largest crop unit in the group. Together with the rest of the regional management team, Ricki will develop and grow FirstFarms in Slovakia.

Ricki comes from a position as production manager for crop production at Goodvalley in Ukraine and has solid experience in large-scale agriculture and management.

It is only a month and a half ago that FirstFarms announced the employment of Jørgen Lindberg as Production Director in Hungary. In addition, the company has rearranged several leading functions internally in recent months. This is to ensure that the management is optimally organised to execute on FirstFarms' ambitious 2028 strategy, where the goal is strong growth towards 2028.

FirstFarms' solid financial foundation for the upcoming growth task was further strengthened on 29 February 2024, when the group secured a capital injection of 186 mDKK from the Heartland group.
