

## EUROPEAN LOGISTICS NETWORK EXPANDED WITH HUISMAN GROUP

To further expand and develop DFDS' European logistics services, DFDS has acquired 100% of the share capital of the Dutch logistics company Huisman Group BV headquartered in Wjichen.

"Huisman Group is an excellent provider of part-load solutions between the Netherlands and the UK that complements our existing strong full-load business in these markets. We can now offer customers an even wider scope of solutions," says Niklas Andersson, Executive Vice President and Head of Logistics Division.

### Huisman Group

Huisman Group is a provider of part-load transport solutions and contract logistics focused on time-critical freight between the UK/Ireland and continental Europe.

Operations include warehouses and cross-docking facilities in Wjichen, the Netherlands, and Corby, England, as well as a fleet of around 55 trailers and 50 trucks. The company has 104 employees and annual revenues of EUR 23m.

### Strategic fit

Huisman Group expands DFDS' activities between continental Europe and the UK/Ireland and adds, in particular, expertise in part-load solutions. This is expected to enable a further development of part-load solutions in DFDS' logistics network as well as access to new customers. The acquisition is thus expected to bring synergies from both business development and operational integration.

### Transaction

Closing of the transaction has taken place today and Huisman Group will be consolidated in the DFDS Group.

The transaction has no material impact on DFDS' outlook for 2019.
