# GENERAL INFORMATION ABOUT THE FUND

## Baltic Horizon Fund

Baltic Horizon Fund (the "Fund" or the "Group") is a regulated closed-end contractual investment fund registered in Estonia on 23 May 2016. Northern Horizon Capital AS is the Management Company (AIFM) of the Fund. Both the Fund and the Management Company are supervised by the Estonian Financial Supervision Authority.

The Fund is a public fund with no particular lifetime (evergreen). Units of the Fund are made available to the public in accordance with the Fund Rules and applicable laws. The Fund is currently dual-listed on the Fund List of the Nasdaq Tallinn Stock Exchange and the Nasdaq Stockholm Alternative Investment Funds market.

Baltic Horizon Fund was merged with Baltic Opportunity Fund ("BOF") on 30 June 2016. Baltic Horizon was the remaining entity which took over 5 assets of BOF and its investor base.

## Key information

Fund name	Baltic Horizon Fund
Management Company	Northern Horizon Capital AS
Financial year	1 January – 31 December
Address of the Fund	Tornimäe 2 Tallinn 10145, Estonia
Type of fund	Contractual public closed-ended real estate fund
Style of fund	Core / Core plus
Market segment	Retail / Offices / Leisure
Life time / Investment stage	Evergreen
Stock exchanges	Nasdaq Tallinn Nasdaq Stockholm
Depository	Swedbank AS
Auditor of the Fund	KPMG Baltics OÜ
Fund Manager	Tarmo Karotam
Management Board of the Management Company	Tarmo Karotam (Chairman) Aušra Stankevičienė Algirdas Vaitiekūnas

## Investment strategy

The Fund's primary focus is to invest directly in commercial real estate located in Estonia, Latvia and Lithuania with a particular focus on the capitals - Tallinn, Riga and Vilnius.

The Fund's focus is on established cash flow generating properties with potential to add value through active management within the retail, office, leisure and logistics segments in strategic locations and strong tenants or a quality tenant mix and long leases. Up to 20% of the Fund's assets may be allocated to investments of a more opportunistic nature such as forward funding development projects and undeveloped land purchases.

The Fund aims to use a 50% long-term leverage strategy. At no point in time may the Fund's leverage exceed 65%.

The Fund aims to grow through making attractive investments for its investors while diversifying its risks geographically, across real estate segments, tenants and debt providers.

## KEY FIGURES

1. According to new EPRA BPR, three new EPRA NAV figures should be disclosed starting from the 2020 financial year.

2. EPRA NAV and EPRA NNNAV figures are disclosed to provide a comparison between the new NAV figures and the old NAV figures.

# SIGNIFICANT EVENTS IN Q4 2020

## Quarterly cash distribution

On 6 November 2020, the Fund distributed EUR 3.11 million to investors (EUR 0.026 per unit). This equals approx. 2.25% of the Fund's Q3 2020 weighted average net asset value. The pay-out also represents a 7.5% rolling distribution yield for the past 12 months based on the closing unit price of the last day of Q3 2020 on the Nasdaq Tallinn Stock Exchange.

## Secondary public offering

On 23 October 2020, the Fund announced the issue of new units in a secondary public offering. In total, gross equity of EUR 7.2 million was raised through the transaction. The new units were issued at a price of EUR 1.1566, which was calculated according to the procedure adopted at the general meeting and was equal to the year-to-date weighted average price of units on the Nasdaq Tallinn Stock Exchange at a date 7 calendar days prior to the first day of the subscription period. After the transaction, the total number of Fund units registered in the Estonian Register of Securities increased to 119,635,429.

## COVID-19

At the beginning of 2020, a new coronavirus (COVID-19) started spreading all over the world, which has had an impact on businesses and economies, including in the Baltics. The virus outbreak has caused significant shifts in the Fund's operating environment, which has had a negative overall impact on the Fund's performance in 2020.

It is evident that the operating results of Q2-Q4 2020 and property valuations were affected by the COVID-19 effects on the tenants' financial performance and the relief measures taken to deal with the pandemic. However, based on the currently available information, the Management Company believes that the COVID-19 pandemic should rather have a temporary effect on the Fund's results. Broad portfolio diversification should allow the Fund to limit the COVID-19 impact on the whole portfolio and maintain healthy consolidated operational performance.

In response to the COVID-19 outbreak, Northern Horizon Capital AS, the Management Company of the Fund, has taken assertive action to manage the risks arising from the pandemic and to protect the long-term value for the investors. The Management Company is focusing on

optimizing operating costs and continuing active communication with the tenants to ensure long-term rent collection.

The Fund has opted to retain approx. EUR 4.4 million of distributable cash flow from the results to strengthen the Fund's financial position. The Management Company believes that it was in the best interest of the investors and the Fund to reduce its quarterly cash distribution during the outbreak of COVID-19 in order to protect and strengthen the Fund's financial position. The management team will continue to actively monitor the economic impact of the pandemic and reassess future distribution levels depending on the upcoming operating results.

## Risk management

On 20 March and 27 March 2020, the Fund published a press release on the stock exchange and the Fund's website stating the Fund's position, action plan and measures taken to mitigate the risks during the virus outbreak.

The following measures are also in place to further mitigate the risks and protect the long-term interests of Baltic Horizon Fund and its investors:

- We actively communicate with our tenants and property managers who on a regular basis inform us of the measures they are taking to ensure their business continuity. We have agreed on regular updates on tenants' performance and any issues in relation to COVID-19;
- We have approached the developers and construction companies to inform us promptly of any interruptions in the supply chain of materials or any other potential delays in development projects. None have been reported thus far;
- There is a sufficient liquidity buffer in the form of the cash balance to meet financial obligations in case of worst case scenarios in 2020 including a second lockdown;
- We are continuously performing stress testing of debt covenants to be able to take any necessary measures in due time;
- The Management Company has initiated additional measures to protect the key staff of the Fund and ensure continuity: all employees are working remotely, all business travel is suspended, and the succession plan has been reviewed and updated.

### Relief measures

The Fund has implemented a number of relief initiatives focused on alleviating the financial hardship of the most vulnerable group of tenants whose operations were most severely affected by the outbreak. The Fund has agreed to grant rent payment deferral for a period of 90 days and waive all penalties and interest arising from the rent deferral for the most affected tenants during lockdowns in the Baltic states.

Baltic Horizon Fund has been in negotiations mainly with retail tenants regarding rent reductions and waivers during the lockdown and post-lockdown periods, which has had a negative impact on the Fund's performance in Q2-Q4 2020. As of 15 February 2021, the Fund

management has decided on various discounts for the quarantine period based on discussions with retail and other tenants. The Fund assessed the impact of COVID-19 on each tenant's operating performance during the lockdown and granted discounts to the most affected tenants, while at the same time protecting the best interests of unitholders and other stakeholders. The Fund's management team reviewed each rent discount request individually in order to find suitable solutions for all parties.

Relief measures granted to tenants helped to improve collection rates and maintain trade receivables and operating cash inflows at healthy levels during Q2-Q4 2020.

## ECONOMIC OVERVIEW

The spread of COVID 19 has had a major impact on the global economy and in 2020 Europe witnessed sharp fluctuations in GDP movements. After a sharp decline of -11.8% in Q2, GDP in the euro area grew by 12.7% in Q3 (compared to the quarter before). According to the first estimation by Eurostat of annual change for 2020, based on seasonally and calendar adjusted quarterly data, GDP fell by -6.8% in the euro area and -6.4% in the EU.

The quarter-on-quarter fluctuations in the Baltic states were one of the lowest in the EU in 2020. Tourism, accommodation and catering were among the hardest-hit sectors during the previous quarters. Among the EU member states for which data are available for Q4 2020, Austria recorded the highest decrease -4.3% compared to the previous quarter, followed by Italy -2.0% and France -1.3% while Lithuania and Latvia recorded the highest increases, 1.2% and 1.1% respectively. GDP change compared with the same quarter of 2019 showed similarly the strongest EU performance with the economies having contracted only by -1.3% and -1.7% respectively. In Estonia, where tourism contribution to GDP is higher, the drop is expected to be -2.5%.

The Estonian economy adapted very quickly to the changed environment when the COVID-19 crisis started and the blow was softened quite effectively by the local economic and employment stimulus package. Imports decreased substantially while exports decreased less than expected. The drop in Estonia's GDP was mainly due to a decrease in private spending and lower investments but the recovery in Q3 was stronger than expected. The months in Q4 were more difficult due to the second wave of the coronavirus and the subsequent new restrictions but the economy should be able to recover quickly in 2021.

Latvian GDP growth in Q3 was also better than expected. GDP was supported by strong performance in retail

trade. Better than expected results were recorded also in manufacturing and exports of goods, while exports of services have shown little improvement since spring and the second wave is casting further shadow on their quick recovery. Still, compared to Q3 of 2020, Q4 GDP increased by 1.1%, according to seasonally and calendar adjusted data from Leta.

In Q3, the Lithuanian GDP was supported by great performance in exports of goods of national origin and better than expected results in retail trade. Once the lockdown restrictions were lifted, Lithuanians were eager to quickly get out and consume. The second wave of COVID-19 with its restrictions arrived in December and is likely to have an impact on the economy again, albeit less than in Q2. In Q4 2020, the change in GDP was positively influenced by the results of professional, scientific and technical, industrial, wholesale and retail trade enterprises.

It is expected that the Baltic economies will continue to be one of the fastest growing economies in the EU after the pandemic will be controlled by vaccines. The rapid bounce back of the economy and retail spending in Q3 of 2020 demonstrated that it is able to grow rapidly once restrictions are removed.

The labour market impact has thus far been lower than expected, largely due to the governments' crisis support measures for employers and the overall economy, leaving the unemployment rate below 10% across the Baltics. The low public debt levels of the Baltic States allowed the governments to make decisive supportive decisions without increasing the public debt to critical levels. The latest economic forecasts from the Baltic National Banks expect the Baltic economies to recover quickly from the crisis and return to pre-COVID levels in the second half of 2021.

# PROPERTY REPORT

## Portfolio and market overview

The diversified property portfolio of Baltic Horizon Fund consists of 15 cash flow generating properties, and one property under development in the search of an anchor tenant, in the Baltic capitals. Baltic Horizon believes it has established a portfolio of strong retail and office assets with well-known and long-term tenants including local commercial leaders, governmental tenants, nearshoring shared service centres and the Baltic headquarters of leading international companies.

The Fund had a successful Q1 2020 before COVID-19 started impacting the Baltic economies. During 2020 net rental income of the portfolio on a like-for-like basis decreased by 7.4% compared to 2019 due to the temporary lockdowns of the shopping centres. The office segment decreased only by 0.1% in terms of net rental income during 2020. Occupancy drop on a year-over-year basis and rent reliefs led to like-for-like net rental income decrease of 15.4% and 20.8% in the retail and leisure segments, respectively.

Food stores and pharmacies were allowed to remain operational during the lockdown from March to May. Larger shopping centres were allowed to be open from the beginning of May, remaining closed for only about 6 weeks. During Q3, the sales figures for neighbourhood shopping centres recovered to pre-COVID levels whereas in centrally located centres the sales and footfall is still on average 20-30% lower mainly due to a lower number of tourists. Q3 2020 saw stronger recovery in footfall and tenant turnovers but due to the second wave of the virus and the associated restrictions, December to February is expected to experience lower sales, especially in central Riga and Vilnius. In terms of segments, the winners during this year have been home improvements stores, DIY, gardening and pet stores. The biggest negative impact has been recorded in high street fashion and restaurant businesses.

The vacancies in all shopping centres remained stable in Q4 2020 at around 4-6% on average in Tallinn and Riga and around 1% in Vilnius. Higher vacancies were recorded in centrally located retail centres and high streets.

The COVID crisis has had virtually no impact on Baltic Horizon's office segment due to fixed lease agreements. The CC Plaza cinema building was closed for a month and reopened on 1 February, however with 50% visitor limitations. The number of blockbuster movies to be premiered in 2021 is estimated to be at a record level as most films have been postponed from 2020.

The Fund has been forced to implement a number of relief initiatives focused on alleviating the financial hardship of the most vulnerable group of tenants, whose operations were most severely affected by the lockdowns. The Fund has agreed to grant limited rent payment deferrals for a period of 90 days and temporary discounts for the most affected tenants.

Although Baltic retail centres have been affected by the COVID lockdown restrictions and the increase in e-commerce, it is important to note that retail influences and trends are different in the US, Canada, Asia and the Nordics including the Baltics. For example, the Baltic states have considerably less big box mid-sized destination shopping centres and retail parks like those in the US which have been affected the most, with some of them never opening again. In the Baltics, most of the shopping centres are major destination hubs or are located in the hearts of the cities, near the old towns. There are also small supermarkets with direct residential catchment areas which have worked especially well during the COVID crisis. With mid-sized centres suffering, the increased focus of Baltic Horizon together with its tenants will be on established flagship stores, own parcel terminals, pick up-points and other services appealing to the catchment areas of each retail centre. River Island, Blender, Yamamay closed their stores and pulled out in 2020, at the same time, several notable international brands PEPCO, Deichmann, Peek & Cloppenburg, C&A, Van Graaf, H&M brands, IKEA) remain interested in entering or further expanding in 2021-2023.

When it comes to e-commerce in the Baltics, then the share of consumer goods bought online to total sales of 3-5% is one of the lowest in Europe, the share of services bought online being between 4-10% (the UK, Sweden and Denmark being close to 20%). While the share of online shopping will be increasing, so will traditional retail spending as shopping centres are virtually only a "15-minute drive away". Furthermore, the increase in average salaries has been 30-50% over the past 5 years

and is likely to maintain strong growth as the modern start-up tech sector continues to boom and industries are moving up the value-added productivity curve.

During the past quarters, in the office segment across the Baltics, many tenants adopted remote working practices where the nature of the job allowed it. Several tenants had employees work remotely already before the pandemic and looking ahead, especially SMEs intend to allow employees to work from home once the situation stabilizes on more flexible schedules (e.g. home Fridays). At the same time, it is also apparent from several interviews that employees are eager to return to the offices as social interaction and collaboration in physical meetings are still highly valued. The future of office work

will very likely include an additional level of flexibility for tenants as they are continuously evaluating their future needs. Being able to expand or decrease their leased areas will become increasingly important and so will flexible working hours, rotating team working and being able to work partly from remote locations, if the nature of the job allows it.

In summary, it may be concluded that the COVID virus induced lockdown in the Baltics has impacted mainly Baltic Horizon's centrally located retail and entertainment centres. Retail assets located in the central business districts (Postimaja, Europa and Galerija Centrs) accounted for 26.5% of total portfolio NOI in Q4 2020.

## Developments

### Meraki

In 2018, the Fund completed the acquisition of 0.87 hectares of land next to the Domus Pro complex. The plots were acquired with the goal to further expand the Domus Pro complex. The building permit received in Q4 2019 allows to build approx. 15,800 sq. m. of leasable office space along with a parking house. The construction preparations were started in Q4 2019.

On 6 February 2020, the Group signed a construction contract for the Meraki development project in Vilnius, Lithuania. The total capital commitment in respect of construction costs contracted amounts to EUR 4.3 million for the current construction phase. The total construction

commitment could increase to EUR 22.9 million once the Fund approves all construction phases.

At the end of Q4 2020, 22% of the net leasable area of one tower was pre-let to 3 local tenants and the management team is in negotiations to find additional anchor tenants for the property. The building is expected to be completed in Q4 2021. Meraki development costs amounted to EUR 6.6 million as of 31 December 2020, while the expected total development costs amount to EUR 26.5 million.

### CC Plaza and Postimaja complex

A final design and construction project was started in Q1 2020 for phase I of the CC Plaza and Postimaja expansion. A building permit to connect underground parking has been received from the City of Tallinn. Final interior design concept details including tenant mix and a new name for the complex are being finalized. The final building permit for the joining of the two buildings was received in January 2021. The team is now involved in signing on new anchor tenants in order to be able to start construction in 2022.

### Pirita SC

Pirita SC reconstruction project has been finalized and a building permit has been received for a small expansion. Tenant negotiations for the new premises are ongoing as the goal is to strengthen the tenant mix for Pirita SC to become an attractive local retail centre for its immediate catchment area.

## Property performance

Fund segment distribution as of 31 December 2020

The Fund maintains a well-diversified mix of office, leisure, and retail buildings. At the end of Q4 2020, the portfolio was comprised of 49.0% retail assets, followed by 46.8% office assets and 4.2% leisure assets. Portfolio properties in the office segment contributed 58.0% of net rental income in Q4 2020 despite accounting for only 46.8% of the Fund's portfolio.

Fund country distribution as of 31 December 2020

In terms of country distribution, in Q4 2020 Lithuania's share in the Fund's portfolio increased due to ongoing Meraki development works and better investment property valuation results compared to Latvia and Estonia. At the end of Q4 2020, the Fund's assets were located as follows: 38.8% in Latvia, 36.0% in Lithuania and 25.2% in Estonia.

**Rental concentration of the Fund’s subsidiaries: 10 largest tenants as of 31 December 2020**

The tenant base of the Fund is well diversified. The rental concentration of the Fund’s subsidiaries (rental income from the 10 largest tenants) is shown in the picture above with the largest tenant Rimi Baltic accounting for 9.5% of the annualised rental income. As further discussed in the risk management section, credit risk is mitigated by the high quality of the existing tenant base.

The management of the Fund provides two different yield calculations in this management review section. Direct property yield (DPY) is calculated by dividing NOI by the acquisition value and subsequent capital expenditure of the property. The net initial yield (NIY) is calculated by dividing NOI by the market value of the property.

The graph below shows the age of assets in the Fund’s portfolio since construction or the last major refurbishment. The management team is working on new development projects and expects to improve the Fund’s average portfolio age in the future.

During Q4 2020, the average actual occupancy of the portfolio was 94.5% (Q3 2020: 94.6%). Taking into account Duetto II rental guarantee, the effective occupancy rate was 94.5% (Q3 2020: 94.6%). The occupancy rate as of 31 December 2020 was 94.3% (30 September 2020: 94.7%). The Fund’s tenant base remains strong despite several tenants vacating premises in Q3 and Q4 2020. Occupancy rates in the retail segment decreased further because of additional vacancies in Europa SC, Pirita SC and Galerija Centrs. The Fund signed a new rental agreement with F8 Outlet in Domus PRO Retail Park which increased the occupancy level of property to 100.0% during Q4 2020. Occupancy rates in the office segment still remain strong albeit Lithuania Tax Inspectorate vacated part of their premises in North Star resulting in a minor negative effect on the occupancy levels.

**Fund portfolio by age as of 31 December 2020**

The average direct property yield during Q4 2020 remained stable at 5.5% (Q3 2020: 5.5%). The net initial yield for the whole portfolio for Q4 2020 was 5.6% (Q3 2020: 5.6%). Property yields showed signs of improvement up until December 2020, yet December results suffered due to lockdowns and yields ultimately remained stable compared to Q3 2020. Turnover rents from retail tenants decreased significantly during December due to lockdowns in Latvia and Lithuania. Simultaneously the Fund granted additional rent

concessions to tenants whose operations were restricted by government regulations. In conclusion, government restrictions are still heavily affecting investment portfolio performance. Compared to pre-COVID-19 pandemic performance levels, the leisure and retail segments took the biggest hit mainly due to the COVID-19 incentives, while the office segment continued to perform well and remained largely unaffected. The average rental rate for the whole portfolio for Q4 2020 was EUR 11.7 per sq. m.

### Overview of the Fund's investment properties as of 31 December 2020

Property name	Sector	Fair value <sup>1</sup> (EUR '000)	NLA (sq. m.)	Direct property yield Q4 2020 <sup>2</sup>	Net initial yield Q4 2020 <sup>3</sup>	Occupancy rate for Q4 2020

1. Based on the latest valuation as at 31 December 2020 and recognised right-of-use assets.

2. Direct property yield (DPY) is calculated by dividing NOI by the acquisition value and subsequent capital expenditure of the property.

3. The net initial yield (NIY) is calculated by dividing NOI by the market value of the property.

## Breakdown of NOI development

Property	Date of acquisition	2016	2017	2018	2019	2020
Galerija Centrs	13 June 2019	-	-	-	2,552	3,023
Postimaja & CC Plaza complex	8 March 2013 <sup>1</sup>	972	985	2,447	2,495	1,932
Europa SC	2 March 2015	2,360	2,365	2,332	2,467	1,681
Upmalas Biroji BC	30 August 2016	515	1,693	1,710	1,701	1,661
Vainodes I	12 December 2017	-	75	1,463	1,462	1,464
North Star	11 October 2019	-	-	-	315	1,419
Duetto II	27 February 2019	-	-	-	1,090	1,354
Lincona	1 July 2011	1,202	1,172	1,192	1,276	1,212

Sky SC	7 December 2013	425	410	407	370	402
<b>Total portfolio</b>		<b>7,153</b>	<b>10,768</b>	<b>14,804</b>	<b>19,219</b>	<b>19,934</b>

1. The Fund completed the acquisition of Postimaja SC on 13 February 2018.

The Fund's portfolio produced EUR 19.9 million of net operating income (NOI) during the twelve months of 2020 and EUR 4.7 million during Q4 2020 (Jan-Dec 2019: EUR 19.2 million; Q4 2019: EUR 5.6 million). Net rental income for 2020 reflected an increase of 3.7% year on year resulting from a larger number of investment properties. The increase in net rental income would have been significantly higher if no rent reliefs had been granted in 2020. Please refer to the table above for a breakdown of NOI development by each property, which has been generating stable rental income over the years.

Like-for-like net rental growth provides a more clear view on the performance of the underlying assets, as these calculations exclude the impact of net rental growth or decline due to acquisitions, developments or disposals in 2019 and 2020. The change in the Fund's like-for-like net rental income compares the growth in the net rental income of the portfolio that has been consistently in operation, and not under development, during the two full periods that are presented.

Net rental income of the portfolio on a like-for-like basis decreased by 7.4% or EUR 1,124 thousand in 2020, as compared to the same period last year. The decrease in net rental income from retail and leisure segments was

mainly driven by an increase in provisions associated with overdue receivables from tenants and temporary discounts granted with the aim to provide support to tenants in connection with the lockdown periods of the COVID-19 crisis. Retail segment like-for-like performance improved during Q4 2020, while office and leisure performance slightly worsened during the last quarter of 2020.

The Fund's office segment properties have barely been affected by the COVID-19 pandemic. The office segment showed only a slightly negative change with a decrease of like-for-like net rental income of 0.1%. The slight decrease in office performance was caused by a temporary vacancy in Upmalas Biroji and increased vacancies in Lincona compared to last year. The Fund's portfolio diversification strategy has proved that a well-balanced mix of retail, leisure and office segments can help optimize the risk of the portfolio and withstand the challenges arising from the COVID-19 pandemic.

### EPRA like-for-like net rental income by segment

EUR '000	Fair value 31.12.2020	Net rental income Q1-Q4 2020	Net rental income Q1-Q4 2019	Change (EUR '000)	Change (%)
<b>Like-for-like assets</b>					
Retail	99,221	4,960	5,861	(901)	(15.4%)
Office	115,783	8,354	8,360	(6)	(0.1%)
Leisure	14,170	824	1,041	(217)	(20.8%)
<b>Total like-for-like assets</b>	<b>229,174</b>	<b>14,138</b>	<b>15,262</b>	<b>(1,124)</b>	<b>(7.4%)</b>

Development assets	5,474	-	-	-	-
<b>Total portfolio assets</b>	<b>339,992</b>	<b>19,934</b>	<b>19,219</b>	<b>715</b>	<b>3.7%</b>

Assets in Latvia saw a slight increase in Q1-Q4 2020 net rental income on a like-for-like basis, which was offset by the drop in the net rental income for Lithuanian and Estonian properties. The results of Lithuanian assets were significantly affected by the provisions made in relation to the overdue receivables and a sizeable amount of discounts granted to retail tenants in Domus PRO Retail and Europa SC during the temporary closure of shopping centres under lockdown restrictions in Lithuania.

Temporary discounts to Forum Cinemas and other Postimaja/CC Plaza tenants as well as increased vacancies in Lincona negatively influenced Estonian market results during Q4 2020. Operating cost reductions across the portfolio helped to minimise the negative impact on the portfolio performance arising from the COVID-19 related rental income loss.

### EPRA like-for-like net rental income by country

EUR '000	Fair value 31.12.2020	Net rental income Q1-Q4 2020	Net rental income Q1-Q4 2019	Change (EUR '000)	Change (%)
<b>Like-for-like assets</b>					
Estonia	85,790	5,044	5,336	(292)	(5.5%)

#### Estonia

Portfolio properties based in Estonia started the year with significant growth in the net rental income and improvement in the key portfolio metrics, although rapid growth abruptly ended once the Fund started to grant COVID-19 relief measures to tenants starting from Q2 2020. Relief measures were granted after extensive discussions with mostly retail/leisure tenants in order to support them during the hardship, as well as to improve tenant rental payment discipline which was significantly affected by the lockdown in Estonia. Additional safety restrictions imposed by the government during Q4 2020

had a direct impact on the Estonian portfolio's net rental income through lower amounts of tenant turnover rents and lower footfalls.

Estonian properties like-for-like rental income decreased in 2020 by 5.5%. During Q4 2020, the average direct property yield increased to 5.3% (Q3 2020: 4.9%), while the average net initial yield reached 5.5% (Q3 2020: 5.0%). The increase in yields and net rental income during Q4 2020 is mainly related to rental income recovery in Postimaja and Coca Cola Plaza complex. Net rental income growth was partially offset by additional vacancies

in Lincona office building. The average occupancy level for Q4 2020 was down to 94.1% (Q3 2020: 94.5%). At the end of Q4 2020, 2 out of the 5 properties in Estonia were fully leased to local and international tenants.

### Latvia

Latvian properties recognized a like-for-like growth in net rental income year over year resulting in a total increase of 0.3% for the Latvian market, which could be considered as a positive result under current market conditions. Like-for-like net rental income improved in 3 out of 4 Latvian properties – Vainodes, LNK Centre and SKY SC. Meanwhile, Galerija Centrs underperformed during Q4 2020 compared to Q4 2019 due to significantly reduced turnover rents during the quarantine period, rent concessions and doubtful debt provisions resulting from weakened tenant payment discipline. The occupancy rate of Galerija Centrs increased to 85.1% at 31 December 2020 compared to 84.4% at 30 September 2020.

The average direct property yield of Latvian portfolio decreased to 4.6% during Q4 2020 (Q3 2020: 5.2%). The average net initial yield decreased to 4.9% during the quarter (Q3 2020: 5.4%). The decrease in the Latvian portfolio yields was entirely caused by the drop in Galerija Centrs net rental income following new COVID-19 related government restrictions. Latvian properties have development potential, which the Fund's management team aims to execute in the coming years in order to maximise the value of the properties. The average occupancy level for Q4 2020 increased to 92.3% (Q3 2020: 91.7%) mostly due to increased take-up in Upmalas Biroji. During Q4 2020, the Fund leased vacant premises in Upmalas Biroji to SEB expanding their current premises by approx. 1,000 sq.m. At the end of Q4 2020, 3 out of the 5 properties in Latvia were fully leased to local and international tenants.

### Lithuania

Across all Baltic Horizon Fund markets, the properties in Lithuania showed the least promising results due to mandatory closure of all shopping centres during March-April 2020 and December 2020 periods. Results suffered due to the quarantine period and post-quarantine effects on the footfalls and turnovers of retail shops. The closure of retail operations resulted in the financial distress of several tenants in Europa SC and required immediate action from the Fund. The management of the Fund decided to grant discounts to tenants most affected by COVID-19 which together with government compensation helped the tenants to save at least 80% of rental expenses and overcome financial difficulties. No government

compensation mechanisms were implemented during the second quarantine period which started in November 2020. Rent concessions, recognized doubtful debts and increased vacancies in Europa SC and Domus PRO complex resulted in a combined like-for-like decline in rental income of 15.9% of Lithuanian properties during 2020.

During Q4 2020, the average direct property yield improved to 6.7% (Q3 2020: 6.5%), while the average net initial yield was up to 6.4% (Q3 2020: 6.3%). Changes in yields reflect recovery in retail assets' performance during the first part of Q4 2020. The average occupancy level of Lithuanian properties dipped to 96.5% during Q4 2020 (Q3 2020: 97.0%). The change in occupancy levels was mostly driven by a new vacancy in North Star. The effective vacancy rate of Duetto II was zero because net rental is covered by a rental guarantee provided by YIT Lietuva for two years after each acquisition. Both Duetto assets as well as the Domus PRO complex were fully leased out at the end of Q4 2020.

## Property valuation

All real estate properties belonging to the Fund must be appraised at least once a year at the end of the financial year to determine the market value of the real estate portfolio. During 2020 and 2019, the Fund's property portfolio was appraised twice a year by an independent real estate appraiser. External property appraisals were carried out as of 30 June and 31 December 2020 (2019: 30 June 2019 and 31 December 2019).

The Management Company ensures that only a licensed independent real estate appraiser of high repute and sufficient experience in appraising similar property and operating in the country where the relevant real estate property is located evaluates real estate belonging to the Fund. As at 31 December 2020, new external valuations were performed by the independent property valuator Newsec.

Independent appraisals are performed in accordance with the Practice Statements and Relevant Guidance Notes of the RICS Appraisal and Valuation approved by both the International Valuation Standards Committee (IVSC) and the European Group of Valuers' Associations (TEGoVA). The appraisal methodology employed by the external appraiser is explained in more detail in notes 10 and 11 to the financial statements.

As of 31 December 2020, the fair value of the Baltic Horizon Fund portfolio decreased to EUR 340.0 million as compared to EUR 358.9 million as of 31 December 2019. During 2020, the Fund recognised valuation losses on investment properties of EUR 25.2 million (2019: EUR 2.1 million) in the consolidated financial statements. The fair values of investment properties in the portfolio decreased mainly due to downward adjustments to the main valuation assumptions compared to previous valuations resulting from the uncertainty associated with the COVID-19 pandemic. All valuations were prepared on the basis of "material valuation uncertainty". The table below does not reflect any capital investments during the year.

Property appraisers have reflected the increasing investment market uncertainty by adjusting discount rate assumptions and lowering cash flow projections

compared to the previous valuations. Discount rates for the majority of the portfolio were raised by 0.3% to reflect the expected increase in the cost of debt. Operating cash flow projections of the portfolio were lowered as a result of a decrease in the EU and Baltic consumer price index level projections and increased vacancy assumptions during the years 2021-2023. Exit yields remained the same compared to 2019 valuations due to a lack of comparable market deals during the COVID-19 pandemic.

The table below shows the Baltic Horizon Fund investment portfolio fair value movements during 2020. The values of the properties are based on the valuation of investment properties performed by Newsec, which have been increased by the value of right-of-use assets (IFRS 16).

#### Portfolio fair value movements by segment

EUR '000	Fair value 31.12.2020	Fair value 31.12.2019	Change (EUR '000)	Change (%)	Proportion of portfolio (%) 31.12.2020
<b>Like-for-like assets</b>					
Retail	166,667	180,740	(14,073)	(7.8%)	49.0%
Office	153,681	160,685	(7,004)	(4.4%)	45.2%
Leisure	14,170	15,150	(980)	(6.5%)	4.2%
<b>Total like-for-like assets</b>	<b>334,518</b>	<b>356,575</b>	<b>(22,057)</b>	<b>(6.2%)</b>	<b>98.4%</b>
<b>Development assets</b>					
Office	5,474	2,367	3,107	131.3%	1.6%
<b>Total portfolio assets</b>	<b>339,992</b>	<b>358,942</b>	<b>(18,950)</b>	<b>(5.3%)</b>	<b>100.0%</b>

The like-for-like value of the property portfolio excluding developments decreased by EUR 22.1 million (6.2%) in 2020, compared to year-end 2019. The decrease was mainly due to a more conservative valuation approach on CBD shopping centres, single tenant office buildings and the cinema building, out of which the Galerija Centrs property fair value drop amounted to EUR 9.0 million. Multi-tenant office buildings and small neighbourhood shopping centres were less affected by the downward valuation adjustments related to COVID-19 due to a strong tenant base and payment discipline. Appraisers are expecting that the retail portfolio will have higher than usual vacancies during 2021, 2022 and 2023.

Compared to year-end 2019, the property valuation results in Lithuania decreased by EUR 3.8 million (3.2%) of which only EUR 1.3 million related to office buildings. Property valuations for Duetto I (-0.24%) and Duetto II (-0.90%) together with SKY SC (+2.47%) showed the best valuation results across the whole portfolio. Valuation results in Latvia were mostly affected by generally worsened key valuation inputs (discount rates, vacancy assumptions, rent indexation), while results in Estonia were affected by generally worsened valuation inputs and additional building-specific adjustments for cinema and single tenant office buildings. For a summary of property valuations, please visit the Fund's website.

# FINANCIAL REPORT

## Financial position and performance of the Fund

### Net profit and net rental income

During 2020, the Group recorded a net loss of EUR 13.5 million against a net profit of EUR 8.8 million for 2019. The net result was significantly impacted by the negative valuation result of EUR 25.2 million recognized in June and December 2020. The negative impact of valuation losses on investment properties was partially offset by an increase in net rental income, other operating income and a slight decrease in administrative expenses. Excluding the valuation impact on the net result, the net profit for 2020 would have amounted to EUR 11.7 million (2019: EUR 10.9 million). In Q4 2020, the Fund earned a net loss of EUR 6.7 million due to the negative valuation result (Q4 2019: net profit of EUR 3.4 million). Earnings per unit for 2020 were negative at EUR 0.12 (2019: positive EUR 0.09). Earnings per unit excluding valuation losses on investment properties would have amounted to EUR 0.10 (2019: EUR 0.11).

In 2020, the Group earned net rental income of EUR 19.9 million exceeding the previous year's net rental income for the same period by EUR 0.7 million or 3.7% (2019: 19.2 million). The increase was achieved through new acquisitions that were made following the capital raisings in 2019. The acquisition of Galerija Centrs and North Star had a significant effect on the Group's net rental income growth in 2020 as compared to 2019, albeit rental income growth in Q2-Q4 2020 was slower due to relief measures granted to tenants during the COVID-19 pandemic. The addition of Galerija Centrs added EUR 3.0 million to the net rental income during 2020, while North Star added EUR 1.4 million.

On an EPRA like-for-like basis, portfolio net rental income decreased by 7.4% year on year mainly due to weaker performance in retail and leisure segments. The decrease was partially offset by the relatively stable performance of the office segment which remained largely unaffected by the lockdown in the Baltic States.

Portfolio properties in the office segment contributed 55.8% (2019: 50.8%) of net rental income in 2020

followed by the retail segment with 40.1% (2019: 43.8%) and the leisure segment with 4.1% (2019: 5.4%).

### Net rental income by segment and country (%)

Retail assets located in the central business districts (Postimaja, Europa and Galerija Centrs) accounted for 29.2% of total portfolio net rental income in 2020. Total net rental income attributable to neighbourhood shopping centres accounted for 10.9% in 2020.

During 2020, investment properties in Latvia and Lithuania contributed 38.3% (2019: 37.2%) and 36.4% (2019: 35.0%) of net rental income respectively, while investment properties in Estonia contributed 25.3% (2019: 27.8%).

### Gross Asset Value (GAV)

At the end of December 2020, the GAV decreased to EUR 355.6 million (31 December 2019: EUR 371.7 million) which was a drop of 4.3% over 2020. The decrease is mainly related to the negative property revaluation of EUR 25.2 million. Compared to the previous quarter, the Fund's GAV decreased by EUR 2.8 million during Q4 2020. The Group made a capital investment (EUR 1.4 million) in the Meraki office building development project during Q4 2020. The Fund aims to continue the construction of the Meraki office building throughout 2021. The Management Company will continue to actively monitor the economic impact of the pandemic and ensure sufficient liquidity levels during the construction period.

## Key earnings figures

### Investment properties

The Baltic Horizon Fund portfolio consists of 15 cash flow investment properties in the Baltic capitals and investment property under construction on the Meraki land plot. At the end of Q4 2020, the fair value of the Fund's portfolio was EUR 340.0 million (31 December 2019: EUR 358.9 million) and incorporated a total net leasable area of 153,345 sq. m.

The valuation losses on the property portfolio came to EUR 25.2 million during 2020 (2019: EUR 2.1 million).

Valuations were negatively affected primarily due to downward adjustments to valuation assumptions resulting from the uncertainty associated with the COVID-19 pandemic. Due to global market uncertainty caused by the virus, valuations were reported on the basis of "material valuation uncertainty". During Q4 2020, the Group invested EUR 0.4 million in the existing property portfolio and an additional EUR 1.4 million in the Meraki development project.

### Interest bearing loans and bonds

Interest bearing loans and bonds (excluding lease liabilities) remained at a similar level of EUR 205.6 million compared to year-end 2019 figures (31 December 2019: EUR 205.8 million). Outstanding bank loans decreased slightly due to regular bank loan amortization. Annual loan amortization forms 0.2% of total debt outstanding.

### Cash flow

Cash inflow from core operating activities for 2020 amounted to EUR 16.1 million (2019: cash inflow of EUR 16.4 million). Cash outflow from investing activities was EUR 4.3 million (2019: cash outflow of EUR 78.2 million) due to subsequent capital expenditure on existing portfolio properties and investments in the Meraki development project. Cash outflow from financing activities was EUR 8.3 million (2019: cash inflow of EUR 59.4 million). During 2020, the Fund made four cash distributions of EUR 9.7 million and paid regular interest on bank loans and bonds. At the end of December 2020, the Fund's consolidated cash and cash equivalents amounted to EUR 13.3 million (31 December 2019: EUR 9.8 million) which demonstrates sufficient liquidity and financial flexibility.

### Net Asset Value (NAV)

At the end of December 2020, the Fund net asset value (NAV) decreased to EUR 136.3 million (31 December 2019: EUR 152.5 million) as a result of the negative portfolio revaluation which was impacted by the high market uncertainty surrounding the COVID-19 pandemic. Compared to the year-end 2019 NAV, the Fund's NAV decreased by 10.6%. Positive operational performance over the period was offset by EUR 25.2 million valuation losses, EUR 9.7 million dividend distributions to the unitholders and a negative cash flow hedge reserve movement of EUR 0.1 million. Compared to the previous quarter, the Fund's NAV decreased by EUR 2.5 million as a result of recognized portfolio valuation losses and new unit issuance at a lower price than NAV during secondary public offering. At 31 December 2020, NAV per unit stood at EUR 1.1395 (31 December 2019: EUR 1.3451), while NAV per unit based on EPRA standards was EUR 1.2219 (31 December 2019: EUR 1.4333).

## FINANCING

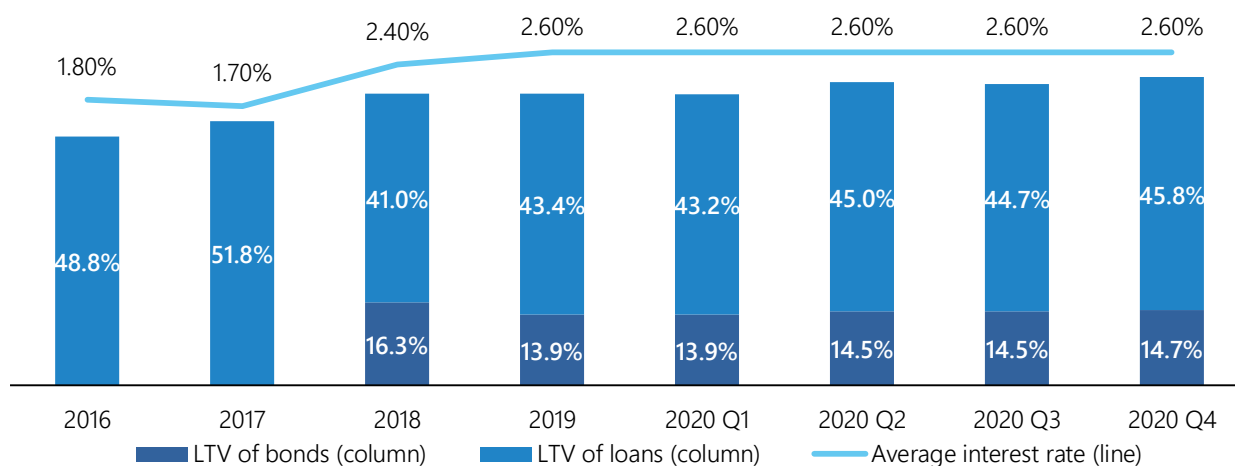

The Fund currently aims to use a 55% long-term leverage strategy. At no point in time may the Fund's leverage exceed 65%. The ability to borrow on attractive terms plays a major role in the investment strategy and cash distributions to unitholders.

On 27 July 2020, S&P Global Ratings affirmed Baltic Horizon Fund "MM3" mid-market rating and removed the Fund from CreditWatch with negative implications, where the Fund was placed on 7 May 2020. The indicative corresponding rating for "MM3" on the global rating scale is "BB+/ BB".

During Q4 2020, the regular bank loan amortisation remained low at 0.2% (EUR 97 thousand per quarter), while the average interest rate as of 31 December 2020 remained stable at 2.6% (31 December 2019: 2.6%). LTV ratio increased during the quarter and reached 60.5% after the revaluation of the investment portfolio. The management team is working on maintaining a low average interest rate and reducing LTV in the future.

Weighted debt financing average time to maturity was 2.1 years and weighted hedge average time to maturity was 2.2 years at the end of Q4 2020.

### Debt financing terms of the Fund's assets

The table below provides a detailed breakdown of the structure of the Fund's consolidated financial debt as of 31 December 2020. Interest bearing debt was comprised of bank loans with a total carrying value of EUR 155.8 million and bonds with a carrying value of EUR 49.8 million. 100% of the debt instruments were denominated in euros.

The Fund's debt financing is diversified between 4 most reputable domestic and international banks in the Baltics and unsecured bonds. Bank loans have been obtained by subsidiaries that hold the Fund's properties and the properties have been pledged as loan collateral. The parent entity holds the 5-year unsecured bonds.

Loan arrangement costs are capitalised and amortised over the terms of the respective loans. At the end of Q4 2020, the unamortised balance of loan arrangement costs for all loans and bonds was EUR 383 thousand.

As of 31 December 2020, 83% of total debt had fixed interest rates while the remaining 17% had floating interest rates. The Fund fixes interest rates on a portion of its debt by acquiring IRS-type hedging instruments or limits the impact of rising interest rates with interest rate cap instruments (CAP). The unsecured bonds have a fixed coupon rate of 4.25%.

### Financial debt structure of the Fund as of 31 December 2020

Property	Maturity	Currency	Carrying amount (EUR '000)	% of total	Fixed rate portion (%)
Galerija Centrs	26 May 2022	EUR	30,000	14.6%	100%
Europa SC	5 July 2022	EUR	20,900	10.1%	88%
CC Plaza and Postimaja	12 February 2023	EUR	17,200	8.3%	100% <sup>1</sup>
Duetto I and II	31 March 2023	EUR	15,376	7.5%	47% <sup>2</sup>
Upmalas Biroji BC	31 August 2023	EUR	11,750	5.7%	90%
Domus Pro	31 May 2022	EUR	11,000	5.3%	64%
Vainodes I	13 November 2024	EUR	9,842	4.8%	50%
North Star	15 March 2024	EUR	9,000	4.4%	-%
LNK	27 September 2023	EUR	8,864	4.3%	65%
G4S Headquarters	16 August 2021	EUR	7,750	3.8%	100%
Lincona	31 December 2022	EUR	7,188	3.5%	95%
Pirita SC	20 February 2022	EUR	4,944	2.4%	119%
Sky SC	1 August 2021	EUR	2,174	1.1%	-%
<b>Total bank loans</b>		<b>EUR</b>	<b>155,988</b>	<b>75.8%</b>	<b>78%</b>
Less capitalised loan arrangement fees <sup>3</sup>		EUR	(223)		
<b>Total bank loans recognised in the statement of financial position</b>		<b>EUR</b>	<b>155,765</b>		
5 year-unsecured bonds	8 May 2023	EUR	50,000	24.2%	100%
Less capitalised bond arrangement fees <sup>3</sup>		EUR	(161)		
<b>Total debt recognised in the statement of financial position</b>		<b>EUR</b>	<b>205,604</b>	<b>100.0%</b>	<b>83%</b>

1. CC Plaza and Postimaja loan has an interest rate cap at 3.5% for the variable interest rate part.

2. Duetto loan has an interest rate cap at 1% for the variable interest rate part.

3. Amortised each month over the term of a loan/bond.

The graph below shows that around 86% of total debt financing matures in 2022-2023. G4S Headquarters and SKY SC bank loans, which account for 4.8% of total debt, will be maturing in August 2021. The Management Company is looking at potential options to refinance these loans during 2021.

### Financial debt term structure of the Fund as of 31 December 2020 (EUR '000)

## Covenant reporting

As of 31 December 2020, the Fund was in compliance with all the covenants set under the bond issue terms and conditions dated 8 May 2018.

As of 31 December 2020, the Fund was in compliance with all special conditions and covenants set under the bank loan agreements except for the Interest Service Coverage Ratio (ISCR) of the Europa property (carrying amount – EUR 20.9 million) which was below the required minimum level of 4.00 for the year 2020. The Fund received a formal waiver from the lender for the mentioned covenant breach. The waiver is valid until the end of Q3 2021. Covenant breach will not result in a loan default until that date.

In July 2020, the Fund applied for temporary reduction of the equity covenant in the terms and conditions of the Bonds in relation to Baltic Horizon Fund EUR 50 million 5-year unsecured bonds maturing in 2023 by way of

written procedure announced on 6 July 2020. The bondholders adopted the decision by the way of written procedure to temporarily reduce the equity ratio bond covenant to 25% or greater (previously 35% or greater). The original equity ratio covenant of 35% or greater will be automatically reinstated as of 1 August 2021.

Equity Ratio - Equity adjusted for the cash flow hedge reserve divided by total assets excluding financial assets and cash equivalents as defined in the accounting policies.

Debt Service Coverage Ratio - EBITDA divided by the principal payments and interest expenses of interest-bearing debt obligations, on a rolling 12 month basis.

Interest Service Coverage Ratio - EBITDA divided by the interest expenses of interest-bearing debt obligations, on a rolling 12 month basis.

### Financial covenants for bonds

Covenant	Requirement	Ratio 31.12.2019	Ratio 31.03.2020	Ratio 30.06.2020	Ratio 30.09.2020	Ratio 31.12.2020
Equity Ratio	> 25.0 <sup>1</sup> / 35.0%	42.6%	42.4%	40.0%	40.2%	40.3%
Debt Service Coverage Ratio	> 1.20	3.32	3.35	3.30	3.16	3.05

1. On 28 July 2020, the bondholders adopted the decision by the way of written procedure to temporarily reduce the equity ratio bond covenant to 25% or greater, until 31 July 2021.

## EPRA PERFORMANCE MEASURES

The European Public Real Estate Association (EPRA) publishes recommendations for disclosing and defining the main financial performance indicators applicable to listed real estate companies. Baltic Horizon supports the standardisation of reporting designed to improve the quality and comparability of information to investors.

In October 2019, EPRA published new best practices recommendations (BPR) for financial disclosures by listed real estate companies. New EPRA BPR introduced three new measures of net asset value: EPRA net tangible assets (NTA), EPRA net reinvestment value (NRV) and EPRA net disposal value (NDV). Three new measures of net asset value will replace the old net asset value indicators: EPRA NAV and EPRA NNAV.

New best practices recommendations are effective for accounting periods starting on 1 January 2020 and have been adopted by the Group to present the financial figures for the 12-month period ended 31 December 2020.

The Fund will provide a bridge between the previous EPRA NAV metrics, as calculated in line with the EPRA November 2016 BPR, and the three new net asset value indicators in 2020 reporting for both the current and comparative accounting periods. A reconciliation

between the new EPRA NAV indicators and old EPRA NAV indicators are presented below.

Baltic Horizon Fund received two prestigious accolades at the European Public Real Estate Association (EPRA) virtual annual conference 2020. The Fund scored a “Gold Award” for the adoption of EPRA Best Practices Recommendations (BPR) – widely accepted industry standards for the highest level of transparency, comparability and compliance in financial reporting. Baltic Horizon was also awarded a “Most Improved Annual Report Award” for the outstanding improvement in reporting quality and compliance with the Association’s BPR. EPRA assessed the financial statements of 168 European listed real estate as part of its annual award process.

### Key performance indicators – definition and use

EPRA Indicators	EPRA definition	EPRA purpose
1. EPRA Earnings	Earnings from operational activities	A key measure of a company’s underlying results and an indication of the extent to which current dividend payments are supported by earnings.
2. EPRA NRV	Assumes that entities never sell assets and aims to represent the value required to rebuild the entity.	
3. EPRA NTA	Assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax.	Makes adjustments to IFRS NAV to provide stakeholders with the most relevant information on the fair value of the assets and liabilities of a real estate investment company, under different scenarios.
4. EPRA NDV	Represents the shareholders’ value under a disposal scenario, where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax.	

EPRA Indicators	EPRA definition	EPRA purpose
5. EPRA NAV	Net Asset Value adjusted to include properties and other investments at fair value and to exclude certain items not expected to crystallise in a long-term investment property business model.	Makes adjustments to IFRS NAV to provide stakeholders with the most relevant information on the fair value of the assets and liabilities within a true real estate company with a long-term investment strategy.
6. EPRA NNAV	EPRA NAV adjusted to include the fair values of (i) financial instruments, (ii) debt and (iii) deferred taxes.	Makes adjustments to EPRA NAV to provide stakeholders with the most relevant information on the current fair value of all the assets and liabilities within a real estate company.
7. EPRA Net initial yield (NIY)	Annualised rental income based on the cash rents passing at the reporting date, less non-recoverable property operating expenses, divided by the market value of the property, increased by (estimated) purchasers' costs.	A comparable measure for portfolio valuations. This measure should make it easier for investors to judge themselves, how the valuation of portfolio X compares with portfolio Y.
8. EPRA Topped-up NIY	This measure incorporates an adjustment to the EPRA NIY in respect of the expiration of rent-free periods (or other unexpired lease incentives such as discounted rent periods and step rents).	
9. EPRA Vacancy rate	Estimated Market Rental Value (ERV) of vacant space divided by ERV of the whole portfolio.	A 'pure' (%) measure of investment property space that is vacant, based on ERV.
10. EPRA Cost ratio	Administrative & operating costs (including & excluding the costs of direct vacancy) divided by gross rental income.	A key measure to enable meaningful measurement of the changes in a company's operating costs.

# INVESTOR RELATIONS

Baltic Horizon Fund units are currently dual-listed on the Fund List of the Nasdaq Tallinn Stock Exchange and the Nasdaq Stockholm Alternative Investment Funds market. Trading with Baltic Horizon units on the Nasdaq Tallinn Stock Exchange began on 6 July 2016. The first trading day on Nasdaq Stockholm was on 23 December 2016.

As at 31 December 2020, the market capitalisation for Baltic Horizon Fund was approx. EUR 138.4 million (31 December 2019: EUR 151.2 million) based on the closing unit market prices on the Nasdaq Tallinn Stock Exchange and the Nasdaq Stockholm Alternative Investment Funds market. During Q4 2020, Baltic Horizon Fund units on the Nasdaq Tallinn Stock Exchange were trading at a discount compared to the net asset value per unit. The COVID-19 outbreak had a negative impact on the capital and real estate markets all around the world including the Baltics. Despite the heavy initial downtrend in the unit price at the beginning of the COVID-19 outbreak, Baltic Horizon Fund units regained investors' confidence at the end of Q2 2020 and remained relatively stable throughout Q3 and Q4 2020. At the end of the Q4 2020,

unit price on the Nasdaq Tallinn Stock Exchange (EUR 1.155 per unit) increased significantly from the lowest unit trading price this year (EUR 0.95 per unit) which was reached at the end of March 2020.

## Capital raisings

On 23 October 2020, the Fund announced the issue of new units in a secondary public offering. In total, gross equity of EUR 7.2 million was raised through the transaction. The new units were issued at a price of EUR 1.1566, which was calculated according to the procedure adopted at the general meeting and was equal to the year-to-date weighted average price of units on the

Nasdaq Tallinn Stock Exchange at a date 7 calendar days prior to the first day of the subscription period. After the transaction, the total number of Fund units registered in the Estonian Register of Securities increased to 119,635,429.

### Summary of issued units

Date	Description	Price per unit (EUR)	Number of units
<b>31 December 2019</b>	<b>Total number of units</b>		<b>113,387,525</b>
October 2020	Issue of new units	1.1566	6,247,904
<b>31 December 2020</b>	<b>Total number of units</b>		<b>119,635,429</b>

## Dividend capacity

According to the Fund Rules issued as of 23 May 2016, a distribution to investors will be made if all of the following conditions are met:

- The Fund has retained such reserves as required for the proper running of the Fund;
- The distribution does not endanger the liquidity of the Fund;
- The Fund has made the necessary follow-on investments in existing properties, i.e. investments in the development of the existing properties of the Fund, and new investments. The total of the Fund's annual net income that may be retained for making such investments is 20% of the Fund's annual net income of the previous year.

The Fund sets a target of dividend distributions to its unitholders in the range between 80% of generated net cash flow (GNCF) and a net profit after unrealized P&L items are adjusted. The distribution is based on the Fund's short-term and long-term performance projections. Management has a discretion to distribute lower dividends than 80% of generated net cash flow (GNCF) if the liquidity of the Fund is endangered.

### Generated net cash flow (GNCF) calculation formula

Item	Comments
(+) Net rental income	
(-) Fund administrative expenses	
(-) External interest expenses	Interest expenses incurred for bank loan financing
(-) CAPEX expenditure	The expenditure incurred in order to improve investment properties; the calculation will include capital expenditure based on annual capital investment plans
(+) Added back listing related expenses	
(+) Added back acquisition related expenses	Include the expenses for acquisitions that did not occur
<b>Generated net cash flow (GNCF)</b>	

### Distributions to unitholders for Fund results

On 20 October 2020, the Fund declared a cash distribution of EUR 3,111 thousand (EUR 0.026 per unit) to the Fund unitholders for Q3 2020 results. This represents a 2.25% return on the weighted average Q3 2020 net asset value to its unitholders.

On 4 February 2021, the Fund declared a cash distribution of EUR 1,316 thousand (EUR 0.011 per unit) to the Fund unitholders for Q4 2020 results. This represents

a 0.93% return on the weighted average Q4 2020 net asset value to its unitholders.

With reduced pay-outs over 2020 in the light of prevailing market uncertainty, the Fund has opted to retain EUR 4.4 million of distributable cash flow. The Management Company of the Fund will continue to actively monitor the economic impact of the pandemic and reassess future distribution levels depending on the upcoming operating results.

### Dividend per unit (EUR)

The management of the Fund remains committed to target a 7-9% yield of annual dividends to investors on invested equity, which is defined as paid-in-capital since listing the Fund on the stock exchange on 30 June 2016. The table below provides a summary of historical calculations.

### Dividend capacity calculation

EUR '000	Q4 2019	Q1 2020	Q2 2020	Q3 2020	Q4 2020
(+) Net rental income	5,635	5,772	4,618	4,799	4,745
(-) Fund administrative expenses	(846)	(889)	(634)	(682)	(713)
(-) External interest expenses	(1,346)	(1,331)	(1,327)	(1,327)	(1,362)
(-) CAPEX expenditure <sup>1</sup>	(225)	(95)	(97)	(230)	(131)
(+) Added back listing related expenses	-	39	29	114	85
(+) Added back acquisition related expenses	-	-	-	-	26
<b>Generated net cash flow (GNCf)</b>	<b>3,218</b>	<b>3,496</b>	<b>2,589</b>	<b>2,674</b>	<b>2,650</b>
<b>GNCf per weighted unit (EUR)</b>	<b>0.029</b>	<b>0.031</b>	<b>0.023</b>	<b>0.024</b>	<b>0.022</b>
<b>12-months rolling GNCf yield<sup>2</sup> (%)</b>	<b>8.6%</b>	<b>11.5%</b>	<b>9.6%</b>	<b>9.4%</b>	<b>8.6%</b>
<b>Dividends declared for the period</b>	<b>3,175</b>	<b>1,701</b>	<b>1,701</b>	<b>3,111</b>	<b>1,316</b>
<b>Dividends declared per unit<sup>3</sup> (EUR)</b>	<b>0.028</b>	<b>0.015</b>	<b>0.015</b>	<b>0.026</b>	<b>0.011</b>
<b>12-months rolling dividend yield<sup>2</sup> (%)</b>	<b>8.0%</b>	<b>9.6%</b>	<b>7.2%</b>	<b>7.5%</b>	<b>5.8%</b>

1. The table provides actual capital expenditures for the quarter. Future dividend distributions to unitholders are aimed to be based on the annual budgeted capital expenditure plans equalised for each quarter. This will reduce the quarterly volatility of cash distributions to unitholders.
2. 12-month rolling GNCf and dividend yields are based on the closing market price of the unit as at the end of the quarter (Q4 2020: closing market price of the unit as of 31 December 2020).
3. Based on the number of units entitled to dividends.

# STRUCTURE AND GOVERNANCE

Baltic Horizon Fund is a closed-end contractual investment fund registered in Estonia on 23 May 2016. The Fund is defined as a real estate fund under the Estonian Investment Funds Act. The Fund cannot enter into agreements on its own. The unitholders own all the Fund's assets.

The Fund is a tax transparent and cost-efficient vehicle. The management fee is linked to the market capitalisation of the tradable units. It is also embedded in the Fund Rules that the management fee will decrease from 1.5% to as low as 0.5% of the market capitalisation as the Fund's assets grow.

The Fund operates under the REIT concept whereby the vast majority of the Fund's cash earnings are paid out and only 20% can be reinvested.

The Fund is managed by the Management Company, which is Northern Horizon Capital AS. The immediate team comprises of the Management Board, which is headed by the Fund Manager, and the Supervisory Board of the Management Company. The Fund also has its own Supervisory Board, which comprises of 4 independent board members.

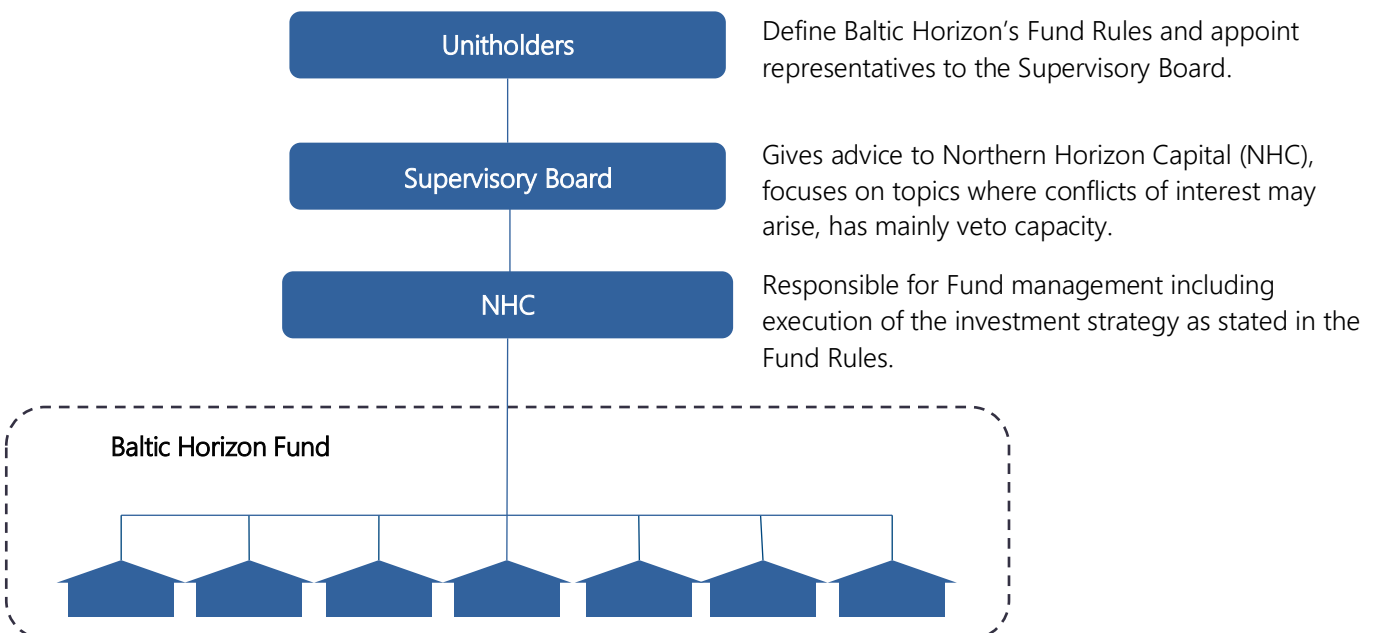

Northern Horizon Capital AS is an experienced real estate asset manager. Northern Horizon Capital Group

has proven itself as one of the leading real estate investors in the Baltic countries and elsewhere with an in-depth knowledge of the markets of operation. Over the course of the organization's life, Northern Horizon Capital Group has been able to build a strong and cohesive team from diverse backgrounds with a focus on being conservative and thorough, yet dynamic in real estate acquisitions and management.

Commitment to corporate governance is rooted in the Management Company's focus on long-term business relations with investors, partners, and tenants. In all relations, the Management Company encourages a professional and open dialogue based on mutual trust and strives to earn the respect of its business partners through strong commitment, transparency and fair dealings. The investor's best interest is always considered by the Management Company to make sure that the investor is treated fairly. The Management Board ensures that conflicts of interests between related parties are avoided or are as small as possible.

The Management Company is obliged to establish, maintain and document procedures to identify, prevent and manage conflicts of interest and, when necessary, issue supplementing instructions to the policies, instructions and guidelines.

## Governance chart

### Management Board and Supervisory Board of the Management Company

The Management Board bears overall responsibility for the daily business of Baltic Horizon Fund. The Management Company's Management Board is composed of three members. The Management Board is supervised and advised by the Supervisory Board of the Management Company.

### Supervisory Board of the Fund

The Fund has a Supervisory Board which consists of qualified members with recognised experience in the real estate markets in Estonia, Latvia, and Lithuania, impeccable reputation and appropriate education. In accordance with the Fund Rules, members of the Supervisory Board are appointed by the General Meeting. The Supervisory Board consists of three to five members.

The Supervisory Board acts solely in an advisory capacity and the Management Company remains responsible for making the decisions in connection with the Fund's management. The Supervisory Board members fulfil their consultation responsibilities collectively.

Supervisory Board members are entitled to remuneration for their service in the amount determined by the General Meeting. The chairman of the Supervisory Board is entitled to an annual remuneration of EUR 15,000 and a regular member is entitled to an annual remuneration of EUR 11,000. On the basis of the agreements concluded

with each Supervisory Board member, Supervisory Board members are not entitled to any benefits from the Fund or the Management Company upon the termination of their term of office.

The Fund administration services are provided by the Management Company. Accounting and depository services have been outsourced to Swedbank AS.

The real estate property valuation policies of the Fund are determined in the Fund Rules based on common market practice. Only a licensed independent real estate appraiser of high repute and sufficient experience in appraising similar property and operating in the country where the relevant real estate property is located may evaluate real estate belonging to the Fund.

Each potential acquisition opportunity is subject to extensive commercial, legal, technical and financial/tax due-diligence performed by the Management Company in cooperation with reputable local and international advisers. The auditor of the Fund is KPMG Baltics OÜ which is a member of the Estonian Association of Auditors. In addition to statutory audit services, KPMG Baltics OÜ has provided the Fund with translation services and other assurance services.

The Fund's activities are monitored on a regular basis by the Estonian Financial Supervision Authority and the Supervisory Board of the Fund.

# RISK MANAGEMENT

The risk management function of the Fund is outsourced to a sister company of the Management Company: Northern Horizon Capital AIFM Oy, which is a licensed AIFM in Finland. The Risk Manager of the Fund is responsible for identifying the Fund's market risk portfolio, preparing proposals regarding market risk limits, monitoring the utilization of the limit and producing overall market risk analyses. The Risk Manager maintains a list of all risk management related instructions, monitors these compared to internationally recommended best practice, and initiates changes and improvements when needed. The Risk Manager reports to the Fund's boards on a regular basis. The Risk Manager assessed at the end of the reporting period that the Fund is currently in compliance with the intended risk management framework.

## Principal risks faced by the Fund

### Market risk

The Fund is exposed to the office and retail markets in Riga, Tallinn, and Vilnius through its indirect investments in investment property (through subsidiaries).

Currently, the yields of prime office and retail properties in the Baltic countries are decreasing as competition between real estate investors is consistently increasing. Investment yields in the Baltic countries are on average around 6.5% and 7.5% in the office and retail segments, with prime office yields at approx. 6%.

### Interest rate risk

The Group's interest rate risk is related to interest-bearing borrowings. The Fund's policy is that long-term loans should be hedged to a fixed rate for their whole life. This converts floating rate liabilities to fixed rate liabilities. In order to achieve this, the Fund either takes fixed rate loans or swaps fixed interest rates for floating ones using interest rate derivatives. As 1) the Fund seeks to obtain financing on the best terms and conditions and 2) in the current market, fixed rate loans are often more expensive, the Fund hedges interest rate exposure by using derivative instruments such as interest rate swaps, forwards and options. The Fund and its subsidiaries acquire swaps only for cash flow hedging purposes and not for trading.

### Credit risk

The Fund is aiming to diversify its investments, and counterparties with low credit risk are preferred. Major acquisition and project finance credit risks are minimized by sharing these risks with banks and insurance companies. Credit risks related to the placement of liquid funds and trading in financial instruments (counterparty credit risks) are minimized by making agreements only with the most reputable domestic and international banks and financial institutions.

### Liquidity risk

Liquidity risk is the possibility of sustaining significant losses due to the inability to liquidate open positions, to realise assets by the due time at the prescribed fair price or to refinance loan obligations.

Real estate investments have low liquidity and there can be no assurance that the Fund will be able to exit the investments in a timely manner. By their nature, real estate investments or interests in other non-public entities are subject to industry cyclicality, downturns in demand, market disruptions and the lack of available capital for potential purchasers and therefore often difficult or time consuming to liquidate.

The Management Company makes its best efforts to ensure sufficient liquidity by efficient cash management, by maintaining a "liquidity buffer" and organizing long-term diversified financing for real estate investments.

### Operational risk

Operational risk represents the potential for loss resulting from inadequate or failed internal processes or systems, human factors, or external events, including business disruptions and system failure. The Fund is exposed to many types of operational risk and attempts to mitigate them by maintaining a system of internal control procedures and processes that are designed to control risk within appropriate levels. Also, training and development of personnel competencies, and active dialogue with investors help the Fund to identify and reduce the risks related to its operation.

# SUSTAINABILITY

## Our Commitment

At Baltic Horizon we acknowledge that our business activities affect the society and the environment around us, and that we have an opportunity and an implicit duty to ensure this impact is positive. We also believe that efficient and sustainable operations are a necessity for long-term value creation.

Consequently, we are committed to taking being responsible when conducting our business by integrating environmental, social and governance ("ESG") factors into our investment decisions and operational processes.

We strongly feel that continued commitment to high ESG standards is the best way for our investors to achieve their investment goals while at the same time and to ensure that the environment and communities can benefit as well. For that we align our efforts with leading market standards: the Management Company of Baltic Horizon Fund and Northern Horizon group are members of EPRA, INREV, SIPA and GRESB, as well as a signatories of the United Nations-supported Principles for Responsible Investment since 2014.

## Environmental Impact

Baltic Horizon maintains that all its employees are committed to environmental responsibility at all times. We are firmly of the belief that making the right environmental decision leads to better investment outcomes and increased wellbeing of our stakeholders and society at large. As such, It is our aim to ensure that we can continuously improve the environmental impact of our business.

We are taking steps to integrate ESG factors into our investment process in all steps of the investment life cycle by assigning positive value to measures that improve ESG. In Baltic Horizon our responsibility to national and international ESG legislation is recognized by monitoring present compliance and actively managing the risks of future proposed ESG regulation.

## Stakeholder Engagement

By ensuring that our investment activities have a positive environmental impact, we put a strong emphasis on the benefits that our business can have to our stakeholders. We define 4 core groups of stakeholders that are key to the success of our business:

**Investors:** we build relationships with our investors on transparency by ensuring strong performance together positive ESG impacts.

**Tenants:** tenant retention and commitment to our assets is a core focus of our asset management efforts. We aim to be a considerate asset owner that reacts to the needs and suggestions of our tenants.

**Partners:** we continuously engage with our business partners to ensure smooth communication that is built on mutual values of trust, transparency and professionalism.

**Employees:** we are committed to creating sustainable value to our shareholders with integrity, and believe empowering our employees is the key in maintaining and creating excellent performance.

## Governance

Baltic Horizon is dedicated to good corporate governance principles. We strive to have a transparent, fair and professional dialogue with our investors, business partners and employees. A lot of emphasis is put on identifying, monitoring, managing and minimizing potential risks, while protecting the full upside potential of investments. We will refuse any investment opportunity, which challenges our integrity or is in conflict with our mission statement and values.

We hold ourselves accountable to the highest standards of professionalism and ethics. Northern Horizon Capital Group Code of Conduct ensures that our business activities are undertaken in an environment of integrity, transparency and accountability. This approach allows Baltic Horizon to be a trustworthy and accountable partner to all of our stakeholders.

## OUTLOOK FOR 2021

The spread of COVID-19 is having a major impact on global economies and many countries are heading for a recession. A lockdown of the Baltic societies during the period from March to May has led to an economic downturn but less than recorded in most other EU countries. The partial recovery of the economies is being hampered by the second wave restrictions. However, the road to quick recovery is expected in 2021 when vaccines are distributed, which will then allow again free movement of people.

The diversified property portfolio of Baltic Horizon Fund consists of 15 cash flow generating properties, and one property under development and in the search of an anchor tenant, in the Baltic capitals. Baltic Horizon believes it has established a portfolio of strong retail and office assets with well-known and long-term tenants including local commercial leaders, governmental tenants, nearshoring shared service centres and the Baltic headquarters of leading international companies.

In summary, it may be concluded that the COVID virus induced lockdown in the Baltics has impacted mainly Baltic Horizon's centrally located retail and entertainment centres. Retail assets located in the central business districts (Postimaja, Europa and Galerija Centrs) accounted for 29.2% of total portfolio NOI in 2020.

It is quite certain that international tourism will recover slowly over the next 1-2 years. Therefore, bringing our CBD shopping centres back to full performance will take a similar amount of time. The economy is forecasted to rebound back to growth in 2021 as domestic and external demand gradually strengthen. An improving labour market is poised to support incomes and thus private consumption, while reduced uncertainty will support investment.

It is expected that the Baltic economies will continue to be one of the fastest growing economies in the EU after the pandemic will be controlled by vaccines. The rapid bounce back of the economy and retail spending in Q3 of 2020 demonstrated that they are likely to grow rapidly once restrictions are removed.

The low public debt levels of the Baltic States allowed the governments to make decisive supportive decisions without increasing the public debt to critical levels. The latest economic forecast from the Baltic National Banks expect the Baltic economies to recover quickly from the crisis and return to pre-COVID levels in the second half of 2021.

The Fund management team continues to focus on filling up the increased vacancies caused by the lockdowns, mainly in CBD shopping centres,

## MANAGEMENT BOARD'S CONFIRMATION

Members of the Management Board of the Management Company Tarmo Karotam, Algirdas Vaitiekūnas and Aušra Stankevičienė confirm that according to their best knowledge, the condensed consolidated interim financial statements for the twelve months of 2020, prepared in accordance with IFRS as adopted by the European Union, present a correct and fair view of the assets, liabilities, equity, financial position, financial performance and cash

flows of the Fund and its subsidiaries, taken as a whole, and the management report gives a true and fair view of the development, the results of the business activities and the financial position of the Fund and its subsidiaries, taken as a whole, as well as of the significant events which took place during the twelve months of the financial year and their effect on the condensed consolidated accounts.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 1. Corporate information

Baltic Horizon Fund is a regulated closed-end contractual investment fund registered in Estonia on 23 May 2016. The Fund is managed by Northern Horizon Capital AS. Both the Fund and the Management Company are supervised by the Estonian Financial Supervision Authority. The Depository of the Fund is Swedbank AS. The Fund is the ultimate parent and controlling entity of the group comprising the Fund and its subsidiaries (the "Group" or the "Fund").

The Fund is a public fund with no particular lifetime (evergreen). Units of the Fund are made available to the public in accordance with the Fund Rules and applicable laws. The Fund is currently dual-listed on the NASDAQ Stockholm and the NASDAQ Tallinn Stock Exchanges.

The Fund's registered office is at Tornimäe 2, Tallinn, Estonia.

The objective of the Fund is to combine attractive income yields with medium to long-term value appreciation by investing primarily in commercial real estate, portfolios of real estate, and/or real estate companies and making exits from these investments. The objective of the Fund is to provide its investors with consistent and above average risk-adjusted returns by acquiring and managing a portfolio of high quality cash flow-generating commercial properties, thereby creating a stable stream of high yielding current income combined with capital gains at the exit. Although the objective of the Fund is to generate positive returns to investors, the profitability of the Fund is not guaranteed to investors.

At the reporting date, the Fund held the following 100% interests in subsidiaries:

Name	31.12.2020	31.12.2019
BH Lincona OÜ	100%	100%
BOF SKY SIA	100%	100%
BH CC Plaza OÜ	100%	100%
BH Domus Pro UAB	100%	100%

BH P80 OÜ	100%	100%
Kontor SIA	100%	100%
Pirita Center OÜ	100%	100%
BH Duetto UAB	100%	100%
Vainodes Krasti SIA	100%	100%
BH S27 SIA	100%	100%
BH Meraki UAB	100%	100%
BH Galerija Centrs SIA	100%	100%
BH Northstar UAB	100%	100%

## 2. Basis of preparation

The condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*, and should be read in conjunction with the Group's latest consolidated annual financial statements as at and for the year ended 31 December 2019. These interim condensed consolidated financial statements do not include all of the information required in the complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are relevant to understanding the changes in the Group's financial position and performance since the last annual financial statements.

These interim condensed consolidated financial statements were authorised for issue by the Management Company's Board of Directors on 15 February 2021.

### Going concern assessment

The management of the Fund has performed an assessment of the Fund's future consolidated financial position, consolidated financial performance and cash flows and has concluded that the continued application of the going concern assumption is appropriate.

### New standards, amendments and interpretations

A number of new standards and amendments to standards are not effective for annual periods beginning on 1 January 2020 but their earlier application is permitted. However, the Group has not early adopted any of the new or amended standards in preparing these interim condensed consolidated financial statements.

## 3. Summary of significant accounting policies

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the reported item in the future. The assumptions and judgements applied in these interim condensed consolidated financial statements were the same as those applied in the Group's consolidated financial statements for the year ended 31 December 2019.

### Significant accounting policies

The accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements for the year ended 31 December 2019.

### Measurement of fair values

The Group measures certain financial instruments such as derivatives, and non-financial assets such as investment property, at fair value at the end of each reporting period. Also, the fair values of financial instruments measured at amortised cost are disclosed in the financial statements.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The Group must be able to access the principal or the most advantageous market at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### 4. Operating segments

The Group's reportable segments are as follows:

- Retail segment – includes Europa Shopping Centre (Lithuania), Domus Pro Retail Park (Lithuania), SKY Shopping Centre (Latvia), Piritä Shopping Centre (Estonia), Postimaja Shopping centre (Estonia), and Galerija Centrs Shopping Centre (Latvia) investment properties.
- Office segment – includes Lincona Office Complex (Estonia), G4S Headquarters (Estonia), Upmalas Biroji (Latvia), Duetto I (Lithuania), Duetto II (Lithuania), Domus Pro Business Centre (Lithuania), Vainodes I (Latvia), LNK Centre (Latvia), Meraki (Lithuania) and North Star (Lithuania) investment properties.
- Leisure segment – includes Coca-Cola Plaza (Estonia) investment property.

For management purposes, the Group is organized into three business segments based on the type of investment property. Management monitors the operating results of business segments separately for the purpose of making decisions about resources to be allocated and assessing performance. Segment performance is evaluated based on net rental income and net profit or loss.

Information related to each reportable segment is set out below. Segment net rental income is used to measure performance because management believes that this information is the most relevant in evaluating the results of the respective segments relative to other entities that operate in the same industries.

#### Operating segments – 31 December 2020

Other administrative expenses	92	83	287	276
<b>Total administrative expenses</b>	<b>713</b>	<b>846</b>	<b>2,918</b>	<b>3,251</b>

The Management Company is entitled to receive an annual management fee which is calculated quarterly, based on the 3-month average market capitalisation of the Fund.

The Management Company is entitled to calculate the performance fee based on the annual adjusted funds from operations (AFFO) of the Fund. If AFFO divided by paid in capital during the year exceeds 8% per annum, the Management Company is entitled to a performance fee in the amount of 20% of the amount exceeding 8%. The performance fee based on this formula is calculated starting from 1 January 2017. The performance fee first becomes payable in the fifth year of the Fund (i.e. 2020). Transactions with related parties are disclosed in note 19.

## 7. Financial expenses

EUR '000	01.10.2020- 31.12.2020	01.10.2019- 31.12.2019	01.01.2020- 31.12.2020	01.01.2019- 31.12.2019

<b>Total financial expenses</b>	<b>1,406</b>	<b>1,402</b>	<b>5,524</b>	<b>4,718</b>

## 8. Earnings per unit

The calculation of earnings per unit is based on the following profit attributable to unitholders and weighted-average number of units outstanding.

(Loss) profit attributable to the unitholders of the Fund:

EUR '000	01.10.2020- 31.12.2020	01.10.2019- 31.12.2019	01.01.2020- 31.12.2020	01.01.2019- 31.12.2019
(Loss) profit for the period, attributed to the unitholders of the Fund	(6,678)	3,415	(13,541)	8,791
<b>(Loss) profit for the period, attributed to the unitholders of the Fund</b>	<b>(6,678)</b>	<b>3,415</b>	<b>(13,541)</b>	<b>8,791</b>

Weighted-average number of units:

	01.10.2020- 31.12.2020	01.10.2019- 31.12.2019	01.01.2020- 31.12.2020	01.01.2019- 31.12.2019
Issued units at 1 January	113,387,525	78,496,831 <sup>6</sup>	113,387,525	78,496,831 <sup>6</sup>
Effect of units issued in April 2019 <sup>1</sup>	-	18,839,239	-	13,508,355
Effect of units issued in May 2019 <sup>2</sup>	-	627,974	-	400,247
Effect of units issued in July 2019 <sup>3</sup>	-	2,951,158	-	1,370,181
Effect of units issued in October 2019 <sup>4</sup>	-	11,770,937	-	2,942,734
Effect of units issued in October 2020 <sup>5</sup>	4,737,422	-	1,181,111	-
<b>Weighted-average number of units</b>	<b>118,124,947</b>	<b>112,686,139</b>	<b>114,568,636</b>	<b>96,718,348</b>

1. In April 2019, the Fund issued 18,839,239 units through two private placements, which were part of the BH Galerija Centrs SIA acquisition deal.
2. In May 2019, the Fund issued 627,974 units through a private placement, which was part of the BH Galerija Centrs SIA acquisition deal.
3. In July 2019, the Fund issued 2,951,158 units through a private placement, which was part of the BH Galerija Centrs SIA acquisition deal.
4. In October 2019, the Fund issued 12,472,323 units through two private placements, which were part of the North Star acquisition deal.
5. In October 2020, the Fund issued 6,247,904 units through a secondary public offering.
6. The number of units excludes 255,969 units acquired by the Fund and cancelled in February 2019 as part of the unit buy-back program.

Basic and diluted earnings per unit:

EUR	01.10.2020- 31.12.2020	01.10.2019- 31.12.2019	01.01.2020- 31.12.2020	01.01.2019- 31.12.2019
Basic and diluted earnings per unit*	(0.06)	0.03	(0.12)	0.09

\*There are no potentially dilutive instruments issued by the Group, therefore, the basic and diluted earnings per unit are the same.

## 9. Income tax

Real estate revenues, or capital gains derived from real estate are subject to taxes by assessment in the countries where the real estate is situated. The Fund's subsidiaries in Lithuania depreciate their historical property cost in accordance with applicable tax regulations. Depreciation is deducted from taxable profits in determining current taxable income. Deferred tax is only applicable to the Fund's subsidiaries in Lithuania.

The Group's consolidated effective tax rate in respect of continuing operations for the twelve-month period ended 31 December 2020 was 0.0% (twelve-month period ended 31 December 2019: 4.6%). The low effective tax rate for the period ended 31 December 2020 is related to a decrease in the deferred tax liability due to a drop in the fair values of Lithuanian investment properties.

The major components of income tax for the periods ended 31 December 2020 and 2019 were as follows:

EUR '000	01.10.2020- 31.12.2020	01.10.2019- 31.12.2019	01.01.2020- 31.12.2020	01.01.2019- 31.12.2019
<b>Consolidated statement of profit or loss</b>				
Current income tax for the period	(1)	(9)	(182)	(27)
Deferred tax for the period	167	(342)	187	(399)
<b>Income tax expense reported in profit or loss</b>	<b>166</b>	<b>(351)</b>	<b>5</b>	<b>(426)</b>
<b>Consolidated statement of other comprehensive income</b>				
Deferred income tax related to items charged or credited to equity:				
Revaluation of derivative instruments to fair value	(10)	(48)	3	44
<b>Income tax reported in other comprehensive income</b>	<b>(10)</b>	<b>(48)</b>	<b>3</b>	<b>44</b>

On 19 June 2020, the Fund as the sole shareholder of Kontor SIA decided to distribute dividends from the retained earnings of the subsidiary resulting in a one-off corporate income tax charge of EUR 181 thousand.

## 10. Investment property

EUR '000	31.12.2020	31.12.2019
<b>Balance at 1 January</b>	<b>356,575</b>	<b>245,160</b>

Initial recognition of right-of-use assets at 1 January (IFRS 16)	-	163
Additions to right-of-use assets (new leases)	-	158
Net revaluation loss on right-of-use assets	(17)	(16)
<b>Closing balance</b>	<b>334,518</b>	<b>356,575</b>
<b>Closing balance excluding right-of-use assets</b>	<b>334,230</b>	<b>356,270</b>

Investment property comprises buildings, which are rented out under lease contracts.

The fair value of the investment properties is approved by the Management Board of the Management Company, based on independent appraisals. Independent appraisals are performed in accordance with the Practice Statements and Relevant Guidance Notes of the RICS Appraisal and Valuation approved by both the International Valuation Standards Committee (IVSC) and by the European Group of Valuers' Associations (TEGoVA). In accordance with that basis, the market value is an estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The appraisers derive the fair value by applying the methodology and valuation guidelines as set out by the Royal Institution of Chartered Surveyors in the United Kingdom and in accordance with IAS 40.

As at 31 December 2020, new external valuations were performed by independent property valuator Newsec.

Fair value does not necessarily represent the liquidation value of the properties which would be dependent upon the price negotiated at the time net of selling costs. Fair value is largely based on estimates which are inherently subjective.

Valuation techniques used to derive Level 3 fair values

The values of the properties are based on the valuation of investment properties performed by Newsec as at 31 December 2020 increased by right-of-use assets.

The table below presents the following for each investment property:

- A description of the valuation techniques applied;
- The inputs used in the fair value measurement;
- Quantitative information about the significant unobservable inputs used in the fair value measurement.

As of 31 December 2020:

Property	Valuation technique	Key unobservable inputs	Range
<b>Europa Shopping centre, Vilnius (Lithuania)</b> Net leasable area (NLA) – 16,982 sq. m. Segment – Retail Year of construction/renovation – 2004	DCF	- Discount rate - Rental growth p.a. - Long-term vacancy rate - Exit yield - Average rent (EUR/sq. m.)	8.1% 0.0% - 2.0% 2.0% - 5.0% 6.8% 13.0

Segment – Retail		- Long-term vacancy rate	2.0% - 5.0%
Year of construction/renovation – 1939 / 2006		- Exit yield	6.8%
		- Average rent (EUR/sq. m.)	20.3
<b>North Star, Vilnius (Lithuania)</b>	DCF	- Discount rate	8.1%
Net leasable area (NLA) – 10,550 sq. m		- Rental growth p.a.	0.0% - 2.0%
Segment – Office		- Long-term vacancy rate	5.0%
Year of construction/renovation – 2009		- Exit yield	7.0%
		- Average rent (EUR/sq. m.)	12.3

\*Postimaja, G4S and Vainodes I property valuations also include building expansion rights. The market value of the additional building rights is EUR 4.4 million for Postimaja, EUR 0.1 million for G4S and EUR 2.7 million for Vainodes I.

The table below sets out information about significant unobservable inputs used at 31 December 2020 in measuring investment properties categorised to Level 3 in the fair value hierarchy.

Type of asset class	Valuation technique	Significant unobservable input	Range of estimates	Fair value measurement sensitivity to unobservable inputs
Investment property	Discounted cash flow	Exit yield	2020: 6.0% - 8.0%	An increase in exit yield in isolation would result in a lower value of Investment property.
		Discount rate	2020: 7.4% - 9.9%	An increase in discount rate in isolation would result in a lower value of Investment property.
		Rental growth p.a.	2020: 0.0% - 3.1%	An increase in rental growth in isolation would result in a higher value of Investment property.
		Long-term vacancy rate	2020: 1.0% - 5.0%	An increase in long-term vacancy rate in isolation would result in a lower value of Investment property.

The book values of investment properties as at 31 December 2020 were as follows:

EUR '000	Total fair value Level 3
Latvia - Galerija Centrs (retail)	67,446
Lithuania – Europa (retail)	38,811
Estonia – Postimaja (retail)	29,770
Lithuania – Domus Pro (retail/office)	23,680
Latvia – Upmalas Biroji (office)	23,474
Latvia – Vainodes I (office)	19,970
Lithuania – North Star (office)	19,133
Lithuania – Duetto II (office)	18,765
Lithuania – Duetto I (office)	16,419
Estonia – G4S (office)	16,160
Estonia – Lincona (office)	16,110
Latvia – LNK Centre (office)	16,060
Estonia – Coca-Cola Plaza (leisure)	14,170
Estonia – Pirita (retail)	9,580
Latvia – SKY (retail)	4,970
<b>Total</b>	<b>334,518</b>

## 11. Investment property under construction

EUR '000	31.12.2020	31.12.2019
<b>Balance at 1 January</b>	2,367	-
Transfer from investment property	-	1,700
Capital expenditure	4,181	746
Net revaluation loss	(1,074)	(79)
<b>Closing balance</b>	<b>5,474</b>	<b>2,367</b>

In December 2019, the Group started construction and development works to build an office on the land plot near Domus Pro Retail Park. On 6 February 2020, the Group signed a construction contract for the Meraki development project in Vilnius, Lithuania.

As of 31 December 2020, the investment property under construction was valued by the independent external valuator Newsec.

### Valuation techniques used to derive Level 3 fair values

The value of the investment property under construction is based on the valuation of investment properties performed by Newsec as at 31 December 2020.

Property	Valuation technique	Key unobservable inputs	Range
<b>Meraki, Vilnius (Lithuania)</b>	DCF	- Discount rate	18.0%
Net leasable area (NLA) – 15,621 sq. m		- Rental growth p.a.	0.0% - 2.0%
Segment – Office		- Long-term vacancy rate	5.0%
Year of construction/renovation – 2021		- Exit yield	7.3%
		- Average rent (EUR/sq. m.)	12.0

## 12. Trade and other receivables

EUR '000	31.12.2020	31.12.2019
Trade receivables, gross	2,021	1,644
Less impairment allowance for doubtful receivables	(589)	(399)
Accrued income	410	477
Other accounts receivable	59	72
<b>Total</b>	<b>1,901</b>	<b>1,794</b>

Trade receivables are non-interest bearing and are generally on 30-day terms.

As at 31 December 2020, trade receivables at a nominal value of EUR 589 thousand were fully impaired (EUR 399 thousand as at 31 December 2019). Movements in the impairment allowance for doubtful receivables were as follows:

EUR '000	31.12.2020	31.12.2019
Balance at 1 January	(399)	(221)
Acquisitions of subsidiaries	-	(190)
Charge for the period	(505)	(233)
Amounts written off	25	177
Reversal of allowances recognised in previous periods	290	68
<b>Balance at end of period</b>	<b>(589)</b>	<b>(399)</b>

The ageing analysis of trade receivables not impaired is as follows (at the end of the period):

EUR '000	Total	Neither past due nor impaired		Past due but not impaired			
		<30 days	>30 days	30-60 days	60-90 days	90-120 days	>120 days
31.12.2020	1,432	742	397	165	53	-	75
31.12.2019	1,245	920	210	48	13	9	45

### 13. Other current assets

Other current assets comprise of prepaid expenses related to future investment property acquisitions and development projects in Lithuania, Latvia and Estonia.

### 14. Cash and cash equivalents

EUR '000	31.12.2020	31.12.2019
Cash at banks and on hand	13,333	9,836
<b>Total cash</b>	<b>13,333</b>	<b>9,836</b>

As at 31 December 2020, the Group had to keep at least EUR 350 thousand (31 December 2019: EUR 350 thousand) of cash in its bank accounts due to certain restrictions in bank loan agreements.

### 15. Equity

#### 15a. Paid in capital

The units are currently dual-listed on the Fund List of the Nasdaq Tallinn Stock Exchange and the Nasdaq Stockholm Alternative Investment Funds market. As at 31 December 2020, the total number of the Fund's units was 119,635,429 (as at 31 December 2019: 113,387,525). Units issued are presented in the table below:

EUR '000	Number of units	Amount
<b>As at 1 January 2020</b>	<b>113,387,525</b>	<b>138,064</b>
Units issued in October 2020	6,247,904	7,136
<b>Total change during the period</b>	<b>6,247,904</b>	<b>7,136</b>
<b>As at 31 December 2020</b>	<b>119,635,429</b>	<b>145,200</b>

A unit represents the investor's share in the assets of the Fund. The Fund has one class of units. The investors have the following rights deriving from their ownership of units:

- to own a share of the Fund's assets corresponding to the number of units owned by the investor;
- to receive, when payments are made a share of the net income of the Fund in proportion to the number of units owned by the investor (pursuant to the Fund Rules);
- to call a general meeting in the cases prescribed in the Fund Rules and the law;
- to participate and vote in a general meeting pursuant to the number of votes arising from units belonging to the investor and the number of votes arising from units which have been issued and not redeemed as at ten days before the general meeting is held.

Subsidiaries did not hold any units of the Fund as at 31 December 2020 and 31 December 2019.

The Fund did not hold its own units as at 31 December 2020 and 31 December 2019.

### 15b. Cash flow hedge reserve

This reserve represents the fair value of the effective part of the derivative financial instruments (interest rate swaps), used by the Fund to hedge the cash flows from interest rate risk in the period ended on 31 December 2020 and 31 December 2019.

EUR '000	31.12.2020	31.12.2019
<b>Balance at the beginning of the year</b>	<b>(1,556)</b>	<b>(1,005)</b>
Movement in fair value of existing hedges	(108)	(595)
Movement in deferred income tax (note 9)	3	44
<b>Net variation during the period</b>	<b>(105)</b>	<b>(551)</b>
<b>Balance at the end of the period</b>	<b>(1,661)</b>	<b>(1,556)</b>

### 15c. Dividends (distributions)

EUR '000	2020	2019
Declared during the period	(9,687)	(10,253)
<b>Total distributions made</b>	<b>(9,687)</b>	<b>(10,253)</b>

On 13 February 2019, the Fund declared a cash distribution of EUR 2,119 thousand (EUR 0.027 per unit).

On 17 May 2019, the Fund declared a cash distribution of EUR 2,449 thousand (EUR 0.025 per unit).

On 2 August 2019, the Fund declared a cash distribution of EUR 2,624 thousand (EUR 0.026 per unit).

On 18 October 2019, the Fund declared a cash distribution of EUR 3,061 thousand (EUR 0.027 per unit).

On 31 January 2020, the Fund declared a cash distribution of EUR 3,175 thousand (EUR 0.028 per unit).

On 24 April 2020, the Fund declared a cash distribution of EUR 1,701 thousand (EUR 0.015 per unit).

On 24 July 2020, the Fund declared a cash distribution of EUR 1,701 thousand (EUR 0.015 per unit).

On 20 October 2020, the Fund declared a cash distribution of EUR 3,111 thousand (EUR 0.026 per unit).

On 4 February 2021, the Fund declared a cash distribution of EUR 1,316 thousand (EUR 0.011 per unit).

## 16. Interest bearing loans and borrowings

EUR '000	Maturity	Effective interest rate	31.12.2020	31.12.2019
<b>Non-current borrowings</b>				
Bonds	May 2023	4.25%	49,839	49,770

Bank 4	Mar 2023	6M EURIBOR + 2.15%	15,354	15,344
Bank 4	Feb 2023	6M EURIBOR + 1.38%	17,178	17,168
Lease liabilities			288	305
Less current portion of bank loans and bonds			(282)	(397)
Less current portion of lease liabilities			(18)	(17)
<b>Total non-current debt</b>			<b>195,670</b>	<b>205,718</b>
<b>Current borrowings</b>				
Bank 1	Aug 2021	3M EURIBOR + 1.75%	2,174	-
Bank 1	Aug 2021	6M EURIBOR + 1.40%	7,748	-
Current portion of non-current bank loans and bonds			282	397
Current portion of lease liabilities			18	17
<b>Total current debt</b>			<b>10,222</b>	<b>414</b>
<b>Total</b>			<b>205,892</b>	<b>206,132</b>

### Financial covenants for bank loans

As of 31 December 2020, the Fund was in compliance with all special conditions and covenants set under the bank loan agreements except for ISCR ratio of the Europa property (carrying amount – EUR 20.9 million) which was below the required minimum level of 4.00 for the year 2020. The Fund received a formal waiver from the lender for the mentioned covenant breach. The waiver is valid until the end of Q3 2021. Covenant breach will not result in a loan default until that date.

## Loan securities

Borrowings received were secured with the following pledges and securities as of 31 December 2020:

	Mortgages of the property*	Second rank mortgages for derivatives	Cross-mortgage	Commercial pledge of the entire assets
<b>Bank 1</b>	Lincona, SKY, G4S Headquarters, Europa, Domus Pro, LNK, Vainodes I, North Star and Pirita	Europa, Domus Pro, Vainodes I	Pirita, Lincona, G4S Headquarters for Pirita, Lincona, G4S Headquarters bank loans; Vainodes I and LNK for Vainodes I and LNK bank loan	Vainodes I, LNK
<b>Bank 2</b>	Galerija Centrs	Galerija Centrs		Galerija Centrs
<b>Bank 3</b>	Upmalas Biroji			
<b>Bank 4</b>	Coca-Cola Plaza and Postimaja, Duetto I and II			

\*Please refer to note 10 for the carrying amounts of assets pledged at period end.

	Suretyship	Pledges of receivables	Pledges of bank accounts	Share pledge
<b>Bank 1</b>	Europa for Domus Pro bank loan, Europa for North Star bank loan, Vainodes I for LNK bank loan, LNK for Vainodes I bank loan	Lincona, SKY, Europa, and Domus Pro	Europa, SKY, LNK and Vainodes I	BH Domus Pro UAB, Vainodes Krasti SIA, BH S27 SIA
<b>Bank 2</b>				BH Galerija Centrs SIA
<b>Bank 3</b>			Upmalas Biroji	
<b>Bank 4</b>		Duetto I and II	Duetto I and II	BH Duetto UAB

## 17. Trade and other payables

EUR '000	31.12.2020	31.12.2019
Payables related to Meraki development	1,291	-
Trade payables	829	875
Management fee payable	434	474
Accrued financial expenses	420	410
Tax payables	355	471
Accrued expenses	205	830
Other payables	106	111
<b>Total trade and other payables</b>	<b>3,640</b>	<b>3,171</b>

As of 31 December 2020, the Fund had a payable in the amount of EUR 1,278 thousand for the construction costs of the Meraki development project as per the construction contract signed on 6 February 2020. Other costs related to Meraki construction amounted to EUR 13 thousand.

Terms and conditions of trade and other payables:

- Trade payables are non-interest bearing and are normally settled on 30-day terms.
- Other payables are non-interest bearing and have an average term of 3 months.

## 18. Commitments and contingencies

### 18a. Litigation

As at 31 December 2020, there was no ongoing litigation, which could materially affect the consolidated financial position of the Group.

### 18b. Contingent assets

On 18 December 2018, the Fund signed an additional agreement to the sales and purchase agreement with the seller of the Duetto II property. The seller agreed to provide a rental income guarantee in the aggregate amount of EUR 1,300 thousand per annum (EUR 108 thousand per month) of the effective net operating income from the Building for the first 24 months starting from 27 February 2019. An asset has not been recognised in the financial statements as the management of the Fund expects that Duetto II will be able to earn the guaranteed amount of rent.

### 18c. Contingent liabilities

The Group did not have any contingent liabilities at 31 December 2020.

## 19. Related parties

During the reporting period, the Group entered into transactions with related parties. Those transactions and related balances are presented below. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. All transactions between related parties are priced on an arm's length basis.

### Northern Horizon Capital AS

As set out in Baltic Horizon Fund Rules, Northern Horizon Capital AS (the Management Company) carries out asset manager functions on behalf of the Fund and the Fund pays management fees for it (note 6).

The Group's transactions with related parties during 2020 and 2019 were the following:

<b>EUR '000</b>	<b>01.01.2020 – 31.12.2020</b>	<b>01.01.2019 – 31.12.2019</b>
<b>Northern Horizon Capital AS group</b>		
Management fees	1,715	1,679
Performance fees	-	379

The Group's balances with related parties as at 31 December 2020 and 31 December 2019 were the following:

<b>EUR '000</b>	<b>31.12.2020</b>	<b>31.12.2019</b>
<b>Northern Horizon Capital AS group</b>		
Management fees payable	434	474
Accrued performance fees	-	545

The Management Company is entitled to receive an annual management fee which is calculated quarterly, based on the 3-month average market capitalisation of the Fund. In case the market capitalisation is lower than 90% of the NAV of the Fund, the amount equal to 90% of the NAV of the Fund shall be used for the management fee calculation instead of the market capitalisation.

The fee is based on the following rates and in the following tranches:

- 1.50% of the market capitalisation below EUR 50 million;
- 1.25% of the part of the market capitalisation that is equal to or exceeds EUR 50 million and is below EUR 100 million;
- 1.00% of the part of the market capitalisation that is equal to or exceeds EUR 100 million and is below EUR 200 million;
- 0.75% of the part of the market capitalisation that is equal to or exceeds EUR 200 and is below EUR 300 million;
- 0.50% of the part of the market capitalisation that is equal to or exceeds EUR 300 million.

The Management Company is entitled to calculate the performance fee based on the annual adjusted funds from operations (AFFO) of the Fund. If AFFO divided by paid in capital during the year exceeds 8% per annum, the Management Company is entitled to a performance fee in the amount of 20% of the amount exceeding 8%. The performance fee based on this formula will be calculated starting from 1 January 2017. The performance fee first becomes payable in the fifth year of the Fund (i.e. 2020).

Northern Horizon Capital AS Group did not own any units of the Fund as of 31 December 2020.

#### Supervisory Board of the Fund

As set out in Baltic Horizon Fund Rules, Supervisory Board members are entitled to remuneration for their service in the amount determined by the General Meeting. The expense reimbursements and remuneration of the Supervisory Board of the Fund amounted to EUR 48 thousand during the twelve-month period ended 31 December 2020 and EUR 12 thousand during Q4 2020 (EUR 51 thousand during the twelve-month period ended 31 December 2019 and EUR 13 thousand during Q4 2019). Please refer to note 6 for more information regarding the total expenses related to the Supervisory Board of the Fund.

#### Entities having control or significant influence over the Fund

The holders of units owning more than 5% of the units in total as of 31 December 2020 and 31 December 2019 are presented in the tables below:

#### **As at 31 December 2020**

	<b>Number of units</b>	<b>Percentage</b>
Nordea Bank AB clients	53,451,511	44.68%
Raiffeisen Bank International AG clients	16,959,368	14.18%

#### **As at 31 December 2019**

	<b>Number of units</b>	<b>Percentage</b>
Nordea Bank AB clients	54,428,197	48.00%
Raiffeisen Bank International AG clients	17,561,032	15.49%

Except for dividends paid, there were no transactions with the unitholders disclosed in the tables above.

## 20. Financial instruments

### Fair values

Set out below is a comparison by category of the carrying amounts and fair values of all of the Group's financial instruments carried in the consolidated financial statements:

EUR '000	Carrying amount		Fair value	
	31.12.2020	31.12.2019	31.12.2020	31.12.2019
<b>Financial assets</b>				
Trade and other receivables	1,901	1,794	1,901	1,794
Cash and cash equivalents	13,333	9,836	13,333	9,836
Derivative financial instruments	-	73	-	73
<b>Financial liabilities</b>				
Interest-bearing loans and borrowings				
Bank loans	(155,765)	(156,057)	(155,126)	(155,718)
Bonds	(49,839)	(49,770)	(50,001)	(50,687)
Trade and other payables	(3,640)	(3,171)	(3,640)	(3,171)
Derivative financial instruments	(1,763)	(1,728)	(1,763)	(1,728)

### Fair value hierarchy

Quantitative disclosures of the Group's financial instruments in the fair value measurement hierarchy as at 31 December 2020 and 31 December 2019:

### Period ended 31 December 2020

EUR '000	Level 1	Level 2	Level 3	Total fair value
<b>Financial assets</b>				
Trade and other receivables	-	-	1,901	1,901
Cash and cash equivalents	-	13,333	-	13,333
Derivative financial instruments	-	-	-	-
<b>Financial liabilities</b>				
Interest-bearing loans and borrowings				
Bank loans	-	-	(155,126)	(155,126)
Bonds	-	-	(50,001)	(50,001)
Trade and other payables	-	-	(3,640)	(3,640)
Derivative financial instruments	-	(1,763)	-	(1,763)

### Period ended 31 December 2019

EUR '000	Level 1	Level 2	Level 3	Total fair value
<b>Financial assets</b>				
Trade and other receivables	-	-	1,794	1,794
Cash and cash equivalents	-	9,836	-	9,836
Derivative financial instruments	-	73	-	73

EUR '000	Level 1	Level 2	Level 3	Total fair value
<b>Financial liabilities</b>				
Interest-bearing loans and borrowings				
Bank loans	-	-	(155,718)	(155,718)
Bonds	-	-	(50,687)	(50,687)
Trade and other payables	-	-	(3,171)	(3,171)
Derivative financial instruments	-	(1,728)	-	(1,728)

Management assessed that the carrying amounts of cash and short-term deposits, rent and other receivables, trade payables and other current liabilities approximate their fair values largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions are used to estimate the fair values:

- Trade and other receivables are evaluated by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer, and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected losses on these receivables. As at 31 December 2020 the carrying amounts of such receivables, net of allowances, were not materially different from their calculated fair values.
- The Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. The fair value of derivatives has been calculated by discounting the expected future cash flows at prevailing interest rates.
- The fair values of the Group's interest-bearing loans and borrowings are determined by discounting the expected future cash flows at prevailing interest rates. The estimated fair values of the Group's interest-bearing loans and borrowings were determined using discount rates in a range of +1.14% and -1.34%.
- Cash and cash equivalents are attributed to Level 2 in the fair value hierarchy.

## 21. Derivative financial instruments

The Group has entered into a number of interest rate swaps (IRS) with SEB, OP and Luminor banks. Also, the Group has interest rate cap (CAP) agreements with Swedbank.

The purpose of derivative instruments is to hedge the interest rate risk arising from the interest rate fluctuations of the Group's non-current loans and some of the Group's current loans because the Group's policy is to have fixed interest expenses. According to the IRS agreements, the Group makes fixed interest payments to the bank and receives variable interest rate payments from the bank. An interest rate cap allows to limit the interest rate fluctuation to a certain level.

IFRS 9 allows hedge accounting provided that the hedge is effective. In such cases, any gain or loss recorded on the fair value changes of the financial instrument is recognised in an equity reserve rather than the income statement. The ineffective part of the change in the fair value of the hedging instrument (if any) is recognised in the income statement. Specific documentation on each financial instrument is required to be maintained to ensure compliance with hedge accounting principles. Please refer to note 15b for more information.

Derivative type EUR '000	Starting date	Maturity date	Notional amount	Variable rate (received)	Fixed rate (paid)	Fair value

Member of the Management  
Board

# DEFINITIONS OF KEY TERMS AND ABBREVIATIONS

## **AIFM**

Alternative Investment Fund Manager

## **AFFO**

Adjusted Funds From Operations means the net operating income of properties less fund administration expenses, less external interest expenses and less all capital expenditures including tenant fit-out expenses invested into existing properties by the Fund. New investments and acquisitions and follow-on investments into properties are not considered to be capital expenditures.

## **Direct Property Yield**

NOI divided by acquisition value and subsequent capital expenditure of the property

## **Dividend**

Cash distributions paid out of the cash flows of the Fund in accordance with the Fund Rules.

## **EPRA NAV**

It is a measure of the fair value of net assets assuming a normal investment property company business model. Accordingly, there is an assumption of owning and operating investment property for the long term. The measure is provided by the European Public Real Estate Association, the industry body for European Real Estate Investment Trusts (REITs).

## **Fund**

Baltic Horizon Fund

## **GAV**

Gross Asset Value of the Fund

## **IFRS**

International Financial Reporting Standards

## **LTV**

Loan to value ratio. The ratio is calculated as the amount of the external bank loan debt divided by the carrying amount of investment property (including investment property under construction).

## **Management Company**

Northern Horizon Capital AS, register code 11025345, registered address at Tornimäe 2, Tallinn 15010, Estonia

## **NAV**

Net asset value for the Fund

## **NAV per unit**

NAV divided by the amount of units in the Fund at the moment of determination.

## **NOI**

Net operating income

## **Net Initial Yield**

NOI divided by market value of the property
