

“We increased our operating profit during the first half by EUR 8.0 million (55 per cent) if we exclude the divestment gain in the year-earlier period. Net interest income is developing nicely and rose by EUR 14.4 M (49 per cent). This more than offset net commission income, which fell by EUR 4.9 M (12 per cent) during the first half of 2023, when our investment customers made fewer transactions for reasons of prudence.

“Despite a cautious market, we continued to attract new financial investment volume. During the first half of 2023 we received EUR 401 M in increased net financial investments. On the lending side, we saw rising interest rates and customers starting to use excess deposits to make prepayments of principal on their loans.”

Peter Wiklöf, Managing Director and Chief Executive

January–June 2023

Compared to January–June 2022

- Net operating profit decreased by 8 per cent to EUR 22.5 M (24.3). Excluding a divestment gain in the year-earlier period, net operating profit increased by 55 per cent to EUR 22.5 M (14.5).
- Core income in the form of net interest income, net commission income and IT income increased by 13 per cent to EUR 94.3 M (83.3).
- Other income, which included a divestment gain in the year-earlier period, decreased by 90 per cent to EUR 1.1 M (11.0).
- Total expenses increased by 7 per cent to EUR 71.6 M (67.2).
- Net impairment losses on financial assets (including recoveries) totalled EUR 1.3 M (2.8), equivalent to a loan loss level of 0.06 per cent (0.13).
- Return on equity after taxes (ROE) decreased to 12.8 (13.4) per cent. Excluding a divestment gain last year, ROE amounted to 8.1 per cent during the comparative period.
- Earnings per share decreased by 8 per cent to EUR 1.15 (1.25).
- The common equity Tier 1 capital ratio increased to 12.3 per cent (12.0 on December 31, 2022).
- Unchanged future outlook: The Bank of Åland expects its net operating profit in 2023 to be significantly better than in 2022.

The second quarter of 2023

Compared to the second quarter of 2022

- Net operating profit increased by 36 per cent to EUR 14.2 M (10.4).
- Core income in the form of net interest income, net commission income and IT income increased by 16 per cent to EUR 50.1 M (43.2).
- Other income was at the same level and amounted to EUR 0.0 M (0.0).
- Total expenses increased by 10 per cent to EUR 34.9 M (31.7).
- Net impairment losses on financial assets (including recoveries) totalled EUR 1.0 M (1.2), equivalent to a loan loss level of 0.09 per cent (0.13).
- Return on equity after taxes (ROE) increased to 17.0 per cent (11.9).
- Earnings per share increased by 37 per cent to EUR 0.74 (0.54).

¹ The Bank of Åland's target is >7. There is no comparative figure for 2022, since the entire Group was not included in the calculation at that time.

² The Bank of Åland's target is to achieve a score above the industry average. There is no comparative figure for 2022, since the entire Group was not included in the calculation at that time.

³ The Bank of Åland has created its own index, where first and last place in the customer survey are equivalent to a score of 100 and 0, respectively. The customer survey includes a number of questions that summarise how satisfied customers are with the Bank's overall service offering. To calculate the total outcome, the score in each geographic business segment is weighted in relation to total business volume (actively managed assets as well as lending to and deposits from the public). Our target is 100. Customer surveys are conducted once a year, during the second half.

⁴ To calculate the total outcome, the score in each geographic business segment is weighted in relation to total business volume (actively managed assets as well as lending to and deposits from the public). Our target is more than 50.

Comments

MACRO SITUATION

The first half of 2023 was dominated by continued geopolitical concerns and inflation-fighting as well as some international banking sector turmoil early in the year. The trend towards rising short-term market interest rates continued. At the same time, the yield curve has become inverted, so that short-term market rates are higher than long-term yields. During the first half, the European Central Bank raised its key interest rate by a further 1.50 percentage points and Sweden's Riksbank by a further 1.25 points.

BENCHMARK INTEREST RATES, QUARTERLY AVERAGES, PER CENT

	Q2 2023	Q1 2023	Q2 2022
Euribor 3 mo	3.36	2.63	-0.35
Euribor 12 mo	3.88	3.51	0.40
Stibor 3 mo	3.64	3.08	0.41

During the first half of 2023, share prices according to the Nasdaq Helsinki stock exchange's OMXHPI index fell by 8 per cent, while the Nasdaq Stockholm's OMXSPI index rose by 8 per cent.

The average value of the Swedish krona (SEK) in relation to the euro (EUR) was 8 per cent lower during the first half of 2023 than in the corresponding period of 2022 and 6 per cent lower than at year-end 2022. When converting the income statement of the Bank's Swedish operations into euros, the average exchange rate for the period has been used, while the balance sheet has been converted at the exchange rate prevailing on the closing day of the report period.

IMPORTANT EVENTS

Together with its customers, the Bank of Åland is continuing its commitment to a cleaner Baltic Sea. During 2023 the Baltic Sea Project has contributed EUR 615,000 to various projects that promote the health of the Baltic Sea. Since 1997 the Bank of Åland has awarded EUR 4.4 M to various environmentally related projects.

The Bank of Åland's Ålandsbanken Kort Företagsränta, a short-term corporate bond fund, was named the best Nordic fund in its category by Refinitiv Lipper.

The Board of Directors of the Bank of Åland has decided to launch a new share savings programme for all Group employees, starting in September. The programme will give employees the opportunity to save part of their monthly salary to invest in Bank of Åland Series B shares. Participation in the share savings programme will take place on a voluntary basis. Employees can save a maximum of five per cent of their monthly salary in order to subscribe for twice-yearly targeted issues of Series B shares. The programme will run for one year. Three years after each respective share issue, the Bank of Åland will distribute one free matching share for each share that has been acquired in the targeted share issues to those who have participated in the share issues and who are still employed by the Group and own the shares that were issued.

During the first half of 2023, the Bank of Åland issued 22,057 Series B shares to fulfil its commitments as part of the ongoing share savings programme for employees. In addition, 6,974 Series B shares were issued to fulfil the Bank's commitments as part of its employee incentive programme.

In February, the Finnish Financial Supervisory Authority (FIN-FSA) imposed an administrative fine of EUR 60,000 on the Bank of Åland, based on inadequacies in the Bank's reporting of derivative contracts that it had entered into during the period 2016-2021. The inadequacies relate to an obligation to report all derivative contracts to a trade repository in accordance with European Union's European Market Infrastructure Regulation (EMIR). The Bank had hired a clearing agent to handle this reporting on behalf of the Bank. However, the clearing agent has not reported all derivative contracts to the trade repository. The inadequacies were corrected when the Bank became aware of them.

On March 29, 2023, the Annual General Meeting (AGM) approved the distribution of a dividend of EUR 2.05 per share for the financial year 2022 (a regular dividend of EUR 1.60 plus an extra dividend of EUR 0.45).

The AGM re-elected Anders Å Karlsson, Nils Lampi, Mirel Leino-Haltia, Christoffer Taxell, Ulrika Valassi and Anders Wiklöf as members of the Board of Directors. At the statutory meeting of the Board on the same day, Nils Lampi was elected as Chairman and Christoffer Taxell as Deputy Chairman of the Board.

EARNINGS FOR JANUARY-JUNE 2023

Net operating profit decreased by EUR 1.8 M or 8 per cent to EUR 22.5 M (24.3). Excluding a divestment gain of EUR 9.8 M in the year-earlier period, net operating profit increased by EUR 8.0 M or 55 per cent.

Profit for the period attributable to shareholders decreased by EUR 1.9 M or 10 per cent to EUR 17.5 M (19.4).

Return on equity after taxes (ROE) decreased to 12.8 (13.4) per cent. Excluding a divestment gain, ROE amounted to 8.1 per cent during the comparative period of 2022.

Core income in the form of net interest income, net commission income and IT income increased by EUR 10.9 M or 13 per cent to EUR 94.2 M (83.3). Due to the weaker Swedish krona, core income converted to euros decreased by EUR 2.3 M compared to the first half of 2022.

Net interest income rose by EUR 14.4 M or 49 per cent to EUR 44.0 M (29.6). A higher interest margin, when market rates had gone from being negative to being positive, was the main explanation.

Net commission income fell by EUR 4.9 M or 12 per cent to EUR 36.6 M (41.5). Income from the Bank's asset management business

was lower, mainly due to lower activity and lower performance-related mutual fund management fees, while income from distributed mortgage loans and platform income for managed mortgage loans contributed to higher net commission income.

Information technology (IT) income rose by EUR 1.5 M or 12 per cent to EUR 13.8 M (12.3). The increase mainly came from higher project and licence income.

Other income, including net income on financial items, fell by EUR 10.0 M or 90 per cent to EUR 1.1 M (11.1), mainly due to a capital gain of EUR 9.8 M from the divestment of most of the Bank's Swedish mortgage loans to Borge in February 2022.

Total expenses increased by EUR 4.4 M or 7 per cent and amounted to EUR 71.6 M (67.2). Higher staff costs and costs for a few operational losses were the main explanation. In keeping with regulator-based reporting interpretations, the entire stability fee charged by the Finnish Financial Stability Authority – amounting to EUR 3.2 M – was recognised in the accounts during the first quarter.

Net impairment losses on financial assets amounted to EUR 1.3 M (2.8), equivalent to a loan loss level of 0.06 (0.13) per cent.

Tax expense amounted to EUR 5.0 M (5.0), equivalent to an effective tax rate of 22.1 (20.3) per cent.

EARNINGS FOR THE SECOND QUARTER OF 2023

Net operating profit increased by EUR 3.8 M or 36 per cent to EUR 14.2 M (10.4).

Profit for the period attributable to shareholders increased by EUR 2.0 M or 35 per cent to EUR 11.3 M (8.3).

Return on equity after taxes (ROE) increased to 17.0 (11.9) per cent.

Core income in the form of net interest income, net commission income and IT income increased by EUR 6.9 M or 16 per cent to EUR 50.1 M (43.2). Due to the weaker Swedish krona, core income converted to euros decreased by EUR 1.4 M compared to the second quarter of 2022.

Net interest income rose by EUR 9.0 M or 59 per cent and amounted to EUR 24.2 M (15.2), primarily thanks to a wider interest margin.

Net commission income fell by EUR 3.0 M or 14 per cent to EUR 18.2 M (21.2), mainly due to lower income from the Bank's asset management business.

IT income rose by EUR 0.9 M or 13 per cent and amounted to EUR 7.7 M (6.8), mainly thanks to higher project and licence income.

Other income, including net income on financial items, was at the same level and amounted to EUR 0.0 M (0.0).

Total expenses increased by EUR 3.2 M or 10 per cent and amounted to EUR 34.9 M (31.7). Higher staff costs and costs for a few operational losses were the main explanation.

Net impairment losses on financial assets decreased by EUR 0.2 M or 12 per cent and amounted to EUR 1.0 M (1.2), equivalent to a loan loss level of 0.09 (0.13) per cent.

Tax expense amounted to EUR 2.9 M (2.1), equivalent to an effective tax rate of 20.7 (20.0) per cent.

OPERATING SEGMENTS

The Group's increase of EUR 8.0 M in net operating profit to EUR 22.5 M, excluding last year's divestment gain, was allocated as follows:

• Private Banking	+5.7	(higher net interest income, lower impairment losses)
• Premium Banking	+4.1	(higher net interest income)
• IT	-0.5	(higher expenses)
• Corporate units & eliminations	-1.3	(lower net interest income)

BUSINESS VOLUME

Actively managed assets on behalf of customers increased by EUR 373 M or 4 per cent compared to year-end 2022 and amounted to EUR 9,010 M (8,637). There was a continued strong net inflow of assets.

Deposits from the public fell by EUR 482 M or 12 per cent compared to year-end 2022 and amounted to EUR 3,700 M (4,182).

Lending to the public decreased by EUR 29 M or 1 per cent compared to year-end 2022 and totalled EUR 4,274 M (4,303).

Managed mortgage loans increased by EUR 746 M or 57 per cent compared to year-end 2022 and totalled EUR 2,050 M (1,304).

CREDIT QUALITY

Lending to private individuals comprised 76 per cent of the loan portfolio. Home mortgage loans accounted for 76 per cent of this. Loans for the purchase of securities, with market-listed securities as collateral, comprised the second-largest type of lending to individuals. Historically, the Bank of Åland has not had any significant loan losses on this lending segment. The corporate portfolio has a close affinity with the retail portfolio, since many of the companies are owned by customers who, as individuals, are also Private Banking customers.

The Bank of Åland Group had EUR 20.5 M in impairment loss provisions on June 30, 2023 (20.0 on December 31, 2022), of which EUR 0.7 M (0.5) in Stage 1, EUR 1.5 M (1.2) in Stage 2 and EUR 18.3 M (18.3) in Stage 3. Stage 3 loans as a share of gross lending to the public totalled 1.39 per cent (1.61). The level of provisions for Stage 3 loans amounted to 31 (26) per cent. Most of these loans have good collateral.

The Bank of Åland has no direct exposure to Ukraine, Belarus or Russia. The direct impact of the Ukraine war on the Bank's credit risk is thus limited. Rising oil and other energy prices, inflation pressures, rising interest rates/bond yields and falling share prices may affect the repayment capacity of customers and the value of pledged collateral.

LIQUIDITY AND BORROWING

In February, the Bank of Åland issued a new T2 (supplementary capital) instrument totalling SEK 200 M. In March, the Bank issued a new covered bond totalling EUR 250 M with a 3-year maturity.

In January, a covered bond totalling EUR 100 M fell due for payment. In May, a T2 instrument totalling SEK 200 M fell due. In September, an additional covered bond totalling EUR 250 M will fall due.

The Bank of Åland's liquidity reserve in the form of cash and deposits with central banks, account balances and investments

with other banks, liquid interest-bearing securities plus holdings of unencumbered covered bonds issued by the Bank amounted to EUR 1,011 M on June 30, 2023 (1,226 on December 31, 2022). This was equivalent to 18 (21) per cent of total assets and 24 (28) per cent of lending to the public.

The loan/deposit ratio amounted to 116 (103) per cent.

Of the Bank of Åland's external funding sources aside from equity capital, deposits from the public accounted for 71 (77) per cent and covered bonds issued accounted for 15 (11) per cent.

The liquidity coverage ratio (LCR) amounted to 148 (138) per cent.

The net stable funding ratio (NSFR) amounted to 108 (108) per cent.

On June 30, 2023, the average remaining maturity of the Bank of Åland's bonds outstanding was about 1.3 (1.3) years.

RATING

The Bank of Åland's has a credit rating of BBB+ for long-term borrowing with a negative outlook and A-2 for short-term borrowing from the S&P Global Ratings agency. Covered bonds issued by the Bank of Åland have a credit rating of AAA with a stable outlook.

In June, S&P Global Ratings changed the outlook for the Bank of Åland from stable to negative. The background to this change in outlook is S&P Global Ratings' own model for calculating capital strength, the risk-adjusted capital (RAC) ratio, which diverges significantly from the official capital adequacy regulations that apply to European banks.

EQUITY AND CAPITAL ADEQUACY

During the report period, equity capital changed in the amount of profit for the period, EUR 17.5 M; other comprehensive income, EUR -6.5 M; issuance of new shares as part of the incentive programme, EUR 0.3 M, and the share savings programme, EUR 0.9 M; a dividend of EUR 31.3 M distributed to shareholders; and dividends of EUR 0.9 M distributed to holders of additional Tier 1 (AT1) capital instruments. On June 30, 2023, equity capital amounted to EUR 296.4 M (316.4 on December 31, 2022).

Other comprehensive income was affected by changes in market interest rates and yields, a weaker Swedish krona and changes in the market value of certain strategic shareholdings. It totalled EUR -6.5 M after taxes.

Common equity Tier 1 capital decreased by EUR 0.9 M during the first half of 2023 to EUR 232.4 M (233.3).

The risk exposure amount decreased by 3 per cent during the first half of 2023 and totalled EUR 1,882 M (1,938). The risk exposure amount for credit risk fell by EUR 92 M or 5 per cent. The operational risk exposure amount rose by EUR 22 M or 9 per cent. The credit-worthiness adjustment risk and market risk exposure amounts increased by EUR 13 M or 169 per cent.

The common equity Tier 1 (CET1) capital ratio increased to 12.3 (12.0) per cent. The Tier 1 (T1) capital ratio increased to 13.9 (13.6) per cent. The total capital ratio increased to 15.5 (15.2) per cent.

In addition to the basic capital requirement, various buffer requirements apply. These are mainly imposed by national regulatory authorities. The capital conservation buffer requirement, 2.5 per cent of common equity Tier 1 capital, applies in all European Union countries. The countercyclical capital buffer requirement may vary between 0-2.5 per cent. For Finnish exposures, the requirement remains 0.0 per cent. For Swedish exposures the amount of the countercyclical buffer is 2.0 per cent, effective from June 2023. In Finland, a systemic risk buffer of 1.0 per cent will be re-imposed starting on April 1, 2024.

Based on the Bank of Åland's internal capital adequacy assessment process (ICAAP), the Finnish Financial Supervisory Authority (FIN-FSA) has set the buffer requirement related to Pillar 2 capital adequacy regulations at 1.1 per cent of the Bank's risk exposure amount (REA).

The minimum levels currently applicable to the Bank of Åland are thus:

• Common equity Tier 1 capital ratio	8.6 per cent
• Tier 1 capital ratio	10.3 per cent
• Total capital ratio	12.6 per cent

In relation to the above buffer requirements, the Bank of Åland has an ample capital surplus:

• Common equity Tier 1 capital ratio	+3.7 percentage points
• Tier 1 capital ratio	+3.6 percentage points
• Total capital ratio	+2.9 percentage points

Finland's Financial Stability Authority has given the Bank of Åland a formal minimum requirement for eligible liabilities (MREL) under European Union regulations, but in practice this does not represent any extra capital requirement beyond the already existing minimum requirements related to the Bank's total capital ratio and leverage ratio.

SUSTAINABILITY INFORMATION

The Bank of Åland's sustainability work includes a sustainability strategy as well as a climate strategy, which describe how the Bank's climate targets will be achieved. The Bank of Åland has established three climate targets:

1. The Bank of Åland shall reduce its CO₂e emissions by 50 per cent no later than 2030, compared to 2021.
2. The Bank of Åland shall be a climate-neutral organisation no later than 2035.
3. The Bank of Åland shall achieve net-zero emissions by 2050.

To follow up its climate targets, the Bank of Åland applies the Greenhouse Gas Protocol (GHGP) to estimate and report its greenhouse gas emissions. Total emissions from the Bank's own business operations during the first half of 2023 were 1,936 tonnes of carbon dioxide equivalents (CO₂e), which was a decrease of 3 per cent compared to the first half of 2022. Differences were most evident in purchasing, which saw a decrease, and in the number of business trips, which have generally increased since coronavirus-related restrictions were eased.

During the first half of 2023, environmentally certified electricity accounted for 100 per cent of total purchases, in keeping with the established target.

The Bank of Åland paid climate compensation for estimated emissions from its own business operations.

Aside from information on emissions from its own business operations, the Bank is also providing information about indirect downstream Scope 3 emissions. On June 30, 2023, estimated emissions from the loan portfolio were 298,661 tonnes of CO₂e, from the Treasury portfolio 11,761 tonnes of CO₂e and from customers' investment portfolios 1,408,081 tonnes of CO₂e.

EMPLOYEES

The Bank of Åland's employees are its most important asset and competitive advantage. The Bank's growth strategy implies that its workforce will increase. During the second quarter of 2023, the number of full-time equivalent positions was 912. This was 69 full-time equivalents or 8 per cent more than in the same quarter of 2022.

The goal of the Bank of Åland's social sustainability work is motivated, committed and healthy employees who achieve continuous professional development. During 2023 the Bank is working with the following six goals and focus areas: Inclusiveness, diversity and equality, Health and well-being, Skills development, Leadership, Community involvement and Ethical conduct.

By continuously measuring and monitoring employee motivation and working conditions, the Bank of Åland can ensure a healthy and efficient organisation. The employee commitment score during the second quarter of 2023 was 7.3, a decrease of 0.1 compared to the first quarter score of 7.4.

CUSTOMERS

The Bank of Åland continues to attract new customers in all its various geographic markets and through business partnerships. The number of asset management customers increased by 4 per cent compared to June 30, 2022.

Customer surveys continue to confirm that our customers appreciate the personalised service we offer.

SOCIAL RESPONSIBILITY

Together with its customers, the Bank of Åland is continuing its commitment to a cleaner Baltic Sea. Since 1997 the Bank of Åland has awarded EUR 4.4 M to various environmentally related projects.

Aside from paying income and value added taxes to the Finnish government, the Bank of Åland is a sizeable employer, especially in its Åland home market. The Bank is deeply involved in the Åland community and contributes to it mainly by supporting culture, sports and studies.

IMPORTANT EVENTS AFTER CLOSE OF REPORT PERIOD

On July 6, the Bank of Åland issued 25,012 Series B shares to fulfil its commitments as part of the share savings programme for employees.

RISKS AND UNCERTAINTIES

The single largest risk and uncertainty factors are Russia's war of invasion in Ukraine and the related geopolitical risks, together with high inflation. The consequences of the war and inflation are difficult to assess.

The Bank of Åland's earnings are affected by external changes that the Company itself cannot control. Among other things, the Group's trend of earnings is affected by macroeconomic changes

and changes in general interest rates and bond yields, share prices and exchange rates, along with higher expenses due to regulatory decisions and directives as well as by the competitive situation.

The Group aims at achieving operations with reasonable and carefully considered risks. The Group is exposed to credit risk, liquidity risk, market risk, operational risk and business risk. The Bank does not engage in trading for its own account.

UNCHANGED FUTURE OUTLOOK

The Bank of Åland expects its net operating profit in 2023 to be significantly better than in 2022.

The Bank is especially dependent on the performance of the fixed income and stock markets. There are concerns about economic developments in a number of important markets. For this reason, there is some uncertainty about the Bank's current forecast.

FINANCIAL INFORMATION CALENDER

The Interim Report for the period January–September 2023 will be published on Tuesday, October 24, 2023.

Mariehamn, July 20, 2023
THE BOARD OF DIRECTORS

Sustainability information

The Bank of Åland works towards an awareness and reduction of the organisation's resource consumption and environmental impact. We make an effort to achieve the sustainability targets we have established, and we include sustainability as a natural element of the dialogue with our suppliers and business partners.

The Bank of Åland's climate impact estimate of emissions in the form of carbon dioxide equivalents (CO₂e) is compiled in accordance with the Greenhouse Gas (GHG) Protocol and encompasses Scope 1, 2 and 3. Scope 1 includes fuel for business and company vehicles. Scope 2 includes energy use in the Bank of Åland's own premises. Scope 3 upstream includes indirect supplier-related emissions caused by purchases of goods and services. Emissions from the Bank's own business operations are calculated with the aid of emission factors and the Åland Index, based on activities in the income statement that are recognised as costs. The exception is purchased electricity, which is recognised in the note according to a market-based method where environmentally certified electricity is recognised as zero CO₂e emissions.

Since the method of calculation is continuously being developed and refined, the method has changed since the previous quarter, so comparative figures have also been recalculated in order to remain comparable. As a result, the Bank's previously implemented climate compensation no longer matches the recalculated figures.

Information on emissions from the Bank's own business operations is being supplemented with information regarding Scope 3 downstream emissions from the loan portfolio, Treasury operations and our customers' investments. What is presented is a picture of the current situation based on the value of holdings and loans at the end of the quarter. These figures can be equated with values at the annual level, since they represent financial assets and will thus not accumulate continuously throughout the year in the same way as emissions figures for the Bank's own business operations.

Group	Q2 2023	Q1 2023	%	Q2 2022	%	Jan-Jun 2023	Jan-Jun 2022	%
Greenhouse gases, tonnes of CO₂e								
Scope 1								
Emissions from owned and controlled resources	1.5	0.9	72	0.8	82	2.3	2.4	-1
Total Scope 1	1.5	0.9	72	0.8	82	2.3	2.4	-1
Scope 2								
Energy-related emissions ¹	0.2	0.2	13	12.8	-99	0.4	30.5	-99
<i>of which from electricity according to the market-based method</i>				12.6	-100		30.0	-100

Transport and distribution	63.1	66.5	-5	49.8	27	129.6	119.5	9
Waste generated by own operations	0.4	0.4	3	0.5	-18	0.8	1.0	-15
Business travel	176.5	172.7	2	121.4	45	349.1	155.7	
Leased assets	47.2	67.5	-30	32.6	45	114.7	63.1	82
Total Scope 3	882.1	1,051.3	-16	737.2	20	1,933.3	1,972.4	-2
Total greenhouse gases, tonnes of CO₂e²	883.7	1,052.3	-16	750.8	18	1,936.0	2,005.3	-3
Climate compensation ³						-1,936.0	-260.9	
Net greenhouse gases, tonnes of CO₂e						0.0	1,744.4	-100
¹ Emissions from electricity according to location-based method subtracted from Nordic Average Mix, tonnes of CO ₂ e								
	28.5	28.7	-1	37.6	-24	57.1	76.6	-25
CO ₂ e emissions per employee (tonnes/average full-time equivalent)								
	3.9	4.8	-20	3.3	18	4.3	4.8	-9
CO ₂ e emissions per EUR M of income (tonnes/EUR M)								
	17.6	23.2	-24	15.0	18	20.3	21.2	-4

² The calculation method has been updated. Comparative figures from previous periods have thus also been restated. Emissions in Q1 2023 have been recalculated from 188.4 tonnes of CO₂e to 1,052 tonnes of CO₂e. Emissions in Q2 2022 have been recalculated from 149.9 tonnes of CO₂e to 751 tonnes of CO₂e.

³ Climate compensation for earlier periods, based on then-estimated emissions. The underlying quantity of emissions has been restated, due to a change in calculation method.

Group	Jun 30, 2023 ⁴	Mar 31, 2023	% Jun 30, 2022 *	%
Scope 3, downstream, current situation on annual basis (CO ₂ e), tonnes				
Loan portfolio Scope 1 and 2 ¹	298,661	297,513	0	
<i>of which Scope 1-2</i>	298,661	297,513	0

Treasury Scope 1, 2 and 3 ³	11,761	12,358	-5	
<i>of which Scope 1</i>	1,100	1,124	-2	
<i>of which Scope 2</i>	172	256	-33	
<i>of which Scope 3</i>	10,490	10,979	-4	
Total, Scope 3, downstream	1,718,503	1,763,785	-3	

* Comparative data for the period are missing.

¹ The emission calculations for the loan portfolio are based on the PCAF method to the extent that data are available. The calculations for mortgage loans are based on information on the size of the residential collateral, energy efficiency and average loan-to-value ratio. For estimated energy consumption, an average emission factor is applied. For other loans, emissions are estimated based on loan volume multiplied by an emission factor, using the Åland Index climate impact tool as well as published average emissions in Finland and Sweden. The Bank of Åland's model provides a rough estimate of the loan portfolio's CO₂e emissions. The model is not exact enough to be used for comparisons with other banks. Sectoral emission factors for the corporate portfolio have been updated using a new version of the Åland Index, resulting in a higher emission level. For this reason, the comparative period has also been recalculated using the new emission factors. Previously published total emissions as of March 31, 2023 amounted to 201,739.1 tCO₂e. Data for Scope 3 are not available, and zero is thus reported.

² The emission calculations for investments include shares, bonds and physical properties. Emissions by the issuers of investments are ownership-weighted per holding on June 16, 2023. Firstly, reported emission data have been used and secondly, estimated emission data. The estimated data used are third-party data, except for the housing mutual fund Ålandsbanken Bostadsfond, where the Bank has produced its own estimates. Calculations are made for Scope 1, Scope 2 and Scope 3 with the aim of achieving the highest possible coverage.

³ The emission calculations for the Treasury portfolio include cash positions in central banks as well as bonds. The emissions by the issuers of investments are ownership-weighted based on the Bank of Åland's holdings on June 30, 2023. Emission data have been obtained from the issuers' annual and sustainability reports and sustainability reports and include Scope 1, Scope 2 and Scope 3. In cases where data are not available from the issuer, estimates have been used. When estimating, a weighted average is calculated for the holdings in the portfolio that belong to the same industrial sector and are deemed to be relatively similar in terms of their operations. In cases where there are no similar issuers in the portfolio for estimating emission figures, emission figures from other issuers are used that are estimated to be equivalent to an industrial sector and its operations. For those issuers whose emission figures are only available at group level, the group's emission figures have been adjusted to the issuing entity's share according to the comparison principle.

⁴ Figures for investments are as of June 16, 2023.

Total cash and cash equivalents	228.0	329.0	512.7

¹ The change in 2022 can be attributed largely to restructuring after the transfer of the Swedish mortgage loan portfolio to Borgo AB (publ).

Notes to the consolidated Half-Year Financial Report

1. Corporate information

The Bank of Åland Plc (Ålandsbanken Abp) is a Finnish public limited company with its Head Office in Mariehamn. The Bank of Åland Plc is a commercial bank with a total of 11 offices in Åland, on the Finnish mainland and in Sweden. Through its subsidiary Crosskey Banking Solutions Ab Ltd, the Bank of Åland Group is also a supplier of modern banking computer systems for small and medium-sized banks.

The Head Office of the Parent Company has the following registered address:

Bank of Åland Plc
Nygatan 2
AX-22100 Mariehamn, Åland, Finland

The shares of the Bank of Åland Plc are traded on the Nasdaq Helsinki Oy (Helsinki Stock Exchange).

The Half-Year Financial Report for the accounting period January 1–June 30, 2023 was approved by the Board of Directors on July 19, 2023.

2. Basis for preparation of the Half-Year Financial Report and essential accounting principles

BASIS FOR PREPARATION OF THE HALF-YEAR FINANCIAL REPORT

This Half-Year Financial Report for the period January 1–June 30, 2023 has been prepared in compliance with the International Financial Reporting Standards (IFRSs) and International Accounting Standard IAS 34, "Interim Financial Reporting", which have been adopted by the European Union.

The Half-Year Financial Report does not contain all information and all notes required in annual financial statements and should be read together with the consolidated financial statements for the year ending December 31, 2022.

Tables show correct rounded-off figures on each line, but this does not mean that rounded-off figures add up to the correct total. In cases where rounded-off figures add up to zero, they are shown as "0" in the tables, while a lack of figures is shown as an empty space.

ESSENTIAL ACCOUNTING PRINCIPLES

The essential accounting principles used in preparing the Half-Year Financial Report are the same as those used in preparing the financial statements for the year ending December 31, 2022.

ESTIMATES AND JUDGEMENTS

Preparation of this Half-Year Financial Report in compliance with IFRSs requires the Company's Executive Team to make assessments, estimates and assumptions that affect the application of accounting principles and the recognised amounts of assets and liabilities, income and expenses as well as disclosures about commitments. Although these estimates are based on the best

knowledge of the Executive Team on current events and measures, the actual outcome may diverge from the estimates.

The substantial accounting assessments that have been made when applying the Group's accounting principles are primarily related to the application of the new impairment model in compliance with IFRS 9 and accounting of financial instruments.

The Bank does not foresee any significant short- or medium-term escalation of credit risk in its lending operations due to developments in Ukraine. The Bank has no direct exposures to companies in Russia, Belarus or Ukraine, nor does the Bank finance customers that have any significant import or export ties with these countries. Like other banks, however, the Bank of Åland is exposed to events at the macroeconomic level and their impact on the real economy. Rising oil and other energy prices, inflation pressures, rising interest rates/bond yields and falling share prices may affect the repayment capacity of customers and the value of pledged collateral.

As for the recognition of leases in compliance with IFRS 16, estimates have been made in establishing the leasing period and the choice of discount rate.

3. Segment report

The Bank of Åland Group reports operating segments in compliance with IFRS 8, which means that operating segments reflect the information that the Group's Executive Team receives.

"Private Banking" encompasses Private Banking operations in Åland, on the Finnish mainland and in Sweden as well as Asset Management (Ålandsbanken Fondbolag Ab and its ten wholly owned subsidiaries). "Premium Banking" encompasses operations in all customer segments excluding private banking in Åland, on the Finnish mainland, in Sweden and Asset Management. "IT" encompasses the subsidiary Crosskey Banking Solutions Ab Ltd and S-Crosskey Ab. "Corporate and Other" encompasses all central corporate units in the Group including Treasury and external partner collaboration.

4. Changes in Group structure

There were no changes during January-June 2023 to report.

5. Net interest income

Group	Q2 2023	Q1 2023	%	Q2 2022	Jan-Jun 2023	Jan-Jun 2022	%
EUR M							
Total interest income	48.2	38.0	27	15.6	86.2	30.1	
<i>of which interest income according to the effective interest method</i>	48.1	37.8	27	15.5	85.9	30.0	
Total interest expenses	24.0	18.2	32	0.4	42.2	0.6	
<i>of which interest expenses according to the effective interest method</i>	23.9	18.1	32	0.3	42.0	0.4	
Net interest income	24.2	19.8	22	15.2	44.0	29.6	49
Interest margin, per cent	1.70	1.46		1.03	1.59	0.99	
Investment margin, per cent	1.66	1.37		1.02	1.52	0.97	

Interest margin is interest on interest-bearing assets divided by the average balance of assets minus interest on interest-bearing liabilities divided by the average balance of liabilities. Average balance is calculated as the average of end-of-month figures for the period in question plus the opening balance for the period. Investment margin is net interest income divided by the average balance sheet total.

Financial instruments for which there is price information that is easily available and that represent actual and frequently occurring transactions are measured at current market price. For financial assets, the current purchase price is used. For financial liabilities, the current sale price is used. The current market price of groups of financial instruments that are managed on the basis of the Bank's net exposure to market risk equals the current market price that would be received or paid if the net position were divested.

In the case of financial assets for which reliable market price information is not available, fair value is determined with the help of measurement models. Such models may, for example, be based on price comparisons, present value estimates or option valuation theory, depending on the nature of the instrument. The models use incoming data in the form of market prices and other variables that are deemed to influence pricing. The models and incoming data on which the measurements are based are validated regularly to ensure that they are consistent with market practices and generally accepted financial theory.

The measurement hierarchy

Financial instruments that are measured according to quoted prices in an active market for identical assets/liabilities are categorised as Level 1. Financial instruments that are measured using measurement models that are, in all essential respects, based on market data are categorised as Level 2. Financial instruments that are measured with the help of models based on incoming data that cannot be verified with external market information are categorised in Level 3. These holdings essentially consist of unlisted shares related to strategic shareholdings. In order to estimate the non-

observable price, different methods are used depending on the type of data available. The primary method is based on the Bank's portion of the net asset value of the company, or based on completed transactions, for example in the form of new share issues, or prices of similar listed shares. If liquid price quotations are not available for shares at this level, the valuation is determined using significant input from the Bank of Åland's own internal assumptions. Unlisted shares are valued at fair value in "Other comprehensive income".

In the tables on the previous page, financial instruments measured at fair value have been classified with regard to how they have been measured and the degree of market data used in this measurement on closing day. If the classification on closing day has changed, compared to the classification at the end of the previous year, the instrument has been moved between the levels in the table. During the period, no instruments were moved between Levels 1 and 2. Changes in Level 3 are presented in a separate table on the previous page.

Definitions

ACTIVELY MANAGED ASSETS

Managed assets in the Bank's own mutual funds plus securities custodial accounts with discretionary and advisory asset management agreements and external funds with contractual earnings.

ALTERNATIVE PERFORMANCE MEASURES

Alternative performance measures are financial metrics for the historical or future trend of earnings, financial position or cash flow that are not defined in the applicable International Financial Reporting Standards (IFRSs) or in the European Union's Capital Requirements Directive and Regulation (CRD/CRR).

The Bank of Åland uses alternative performance measures when they are relevant for monitoring and describing the Bank's financial situation, to facilitate comparability between periods and to provide further usable information to the users of its financial reports.

These metrics do not need to be comparable to similar performance measures that are presented by other companies.

CAPITAL COVER RATIO

Own funds divided by risk exposure amount.

CO₂

Chemical designation for carbon dioxide.

CO₂e

Carbon dioxide equivalents, collective term for the environmental impact of the most common greenhouse gases recalculated into carbon dioxide.

COMMON EQUITY TIER 1 (CET1) CAPITAL

Equity capital excluding proposed dividend, deferred tax and intangible assets and certain other adjustments according to the European Union's Capital Requirements Regulation No. 575/2013 (CRR).

COMMON EQUITY TIER 1 CAPITAL RATIO, %

Common Equity Tier 1 (CET1) capital divided by risk exposure amount.

CUSTOMER SATISFACTION INDEX (CSI)

The Bank of Åland has created its own index where first and last place in the customer survey correspond to index values of 100 and 0, respectively. The customer survey includes various questions that summarise how satisfied customers are with the Bank of Åland's overall service offering. To calculate the total result, the outcome for each each geographic business segment is weighted according to its total business volume (actively managed capital as well as lending and deposits from the public).

EARNINGS PER SHARE, EUR

Shareholders' portion of earnings for the period divided by the average number of shares.

EMPLOYEE NET PROMOTER SCORE (eNPS)

Employees' propensity to recommend the Bank of Åland. Calculated on a scale of 0–10, where the percentage of negative responses (0–6) is subtracted from the percentage of positive responses (9–10).

EQUITY CAPITAL PER SHARE, EUR

Shareholders' portion of equity capital divided by the number of shares on closing day.

EXPENSE/INCOME RATIO

Total expenses divided by total income.

GROSS SHARE OF LOANS IN STAGE 3

Gross loans in Stage 3 as a percentage of the gross carrying amount of lending to the public.

LEVEL OF PROVISIONS FOR LENDING TO THE PUBLIC IN STAGE 3

Provisions for impairment losses in Stage 3 as a percentage of gross lending to the public in Stage 3.

LEVERAGE RATIO

The ratio of Tier 1 capital to the balance sheet total plus certain off-balance sheet items recalculated using conversion factors defined in the standardised approach.

LIQUIDITY COVERAGE RATIO (LCR), %

High-quality liquid assets as a percentage of estimated net liquidity outflow during a 30-day period.

LOAN/DEPOSIT RATIO

Lending to the public divided by deposits from the public.

LOAN LOSS LEVEL

Net impairment losses on net financial assets in lending to the public divided by lending to the public at the beginning of the period.

MANAGED MORTGAGE LOANS

Total mortgage loan volume in Borgo AB (publ) that the Bank of Åland manages through various services.

MARKET CAPITALISATION/SHAREHOLDERS' PORTION OF EQUITY, %

Share price at the end of the reporting period as a percentage of shareholders' portion of equity capital on closing day.

NET PROMOTER SCORE (NPS)

The propensity to recommend the Bank of Åland. Calculated on a scale from 0-10 where the proportion of negative responses (0-6) is subtracted from the proportion of positive responses (9-10).

NET STABLE FUNDING RATIO (NSFR)

Available stable funding as a percentage of necessary stable funding.

OWN FUNDS (REPLACES CAPITAL BASE CONCEPT)

Total of Tier 1 capital and Tier 2 (supplementary) capital.

RETURN ON EQUITY AFTER TAXES (ROE), %

Profit for the report period attributable to shareholders divided by average shareholder's portion of equity capital.

RISK EXPOSURE AMOUNT

Assets and off-balance sheet commitments, risk-weighted according to capital adequacy regulations for credit risk and market risk. Operational risks are calculated and expressed as risk exposure.

TIER 1 CAPITAL

Common equity Tier 1 (CET1) capital including certain loss-absorbing subordinated debentures ("additional Tier 1 capital").

TIER 2 (SUPPLEMENTARY) CAPITAL

Mainly subordinated debentures that do not meet requirements to be included as additional Tier 1 capital.

¹ Average of 13 end-of-month figures.

Report on review of the Half-Year Financial Report of Bank of Åland Plc for the accounting period January 1 – June 30, 2023

To the Board of Directors of Bank of Åland Plc

INTRODUCTION

We have reviewed the summary balance sheet as of June 30, 2023 and the related summary income statement, summary statement of other comprehensive income, statement of changes in equity capital and summary cash flow statement of Bank of Åland Plc group for the six-month period then ended, as well as other explanatory notes to the consolidated financial statements. The Board of Directors and the Managing Director are responsible for the preparation and fair presentation of the Half-Year Financial Report in accordance with IAS 34 Interim Financial Reporting and other Finnish rules and regulations governing the preparation of interim reports. We will express our conclusion on the Half-Year Financial Report based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with the Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and other generally accepted auditing practices and consequently does not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the Half-Year Financial Report, in all material respects, is not prepared in accordance with IAS 34 Interim Financial Reporting and other applicable rules and regulations governing Half-Year Financial Report reporting preparation in Finland.

Helsinki, July 20, 2023
