

GTT receives an order from Samsung Heavy Industries for the tank design of a new floating storage and regasification unit

Paris, 12 May 2026 – GTT announces that it has received, in the second quarter of 2026, an order from the Samsung Heavy Industries shipyard for the tank design of a new Floating Storage and Regasification Unit (FSRU), on behalf of Malaysian ship-owner MISC. This order reflects MISC's continued development in the LNG¹ sector, as the vessel will be the first FSRU in its fleet.

As part of this project, GTT will design the cryogenic tanks of the vessel, offering a total capacity of 170,000 m³. The tanks will be fitted with GTT's Mark III membrane containment system.

The new FSRU is intended to be deployed in Lumut, in the state of Perak, on the west coast of Malaysia, where it will contribute to the development of the country's gas supply infrastructure and energy flexibility.

Delivery of the vessel is expected in the first quarter of 2029.

¹ Liquefied Natural Gas

About GTT

GTT is a technology and engineering group with expertise in the design and development of cryogenic membrane containment systems for use in the transport and storage of liquefied gases. Over the past 60 years, the GTT Group has designed and developed, to the highest standards of excellence, some of the most innovative technologies used in LNG carriers, floating terminals, onshore storage tanks and multi-gas carriers. As part of its commitment to building a sustainable world, GTT develops new solutions designed to support ship-owners and energy providers in their journey towards a decarbonised future. As such, the Group offers systems designed to enable commercial vessels to use LNG as fuel, develops cutting-edge digital solutions to enhance vessels' economic and environmental performance, and actively pursues innovation in the field of low-carbon solutions.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in the CAC Next 20, SBF 120, Stoxx Europe 600 and MSCI Small Cap indices.
