

Solutions 30 confirms it is currently preparing a proposal to acquire Scopelec's assets

Solutions 30 confirms the Group submitted in early November a first offer to acquire part of Scopelec's assets and is currently working on a new and improved proposal.

Solutions 30 intends to propose a solid and sustainable solution. Solutions 30 Group is already well established in many regions of France through a dense network with many contracts in both the telecom segment and activities driving growth, such as renewable energies and charging stations for electric vehicles. As such, the acquisition of part of Scopelec's assets would consolidate the Group's development plan and would offer new opportunities for Scopelec's employees.

Solutions 30's offer is designed to be combined with those of other bidders.

The proposed improved offer will be subject to the approval of the Lyon Commercial Court, which will designate the buyer(s) and, as applicable, to the clearance of the French Competition Authority.
