Management's Review

Company Announcement No 8 of 7 May 2026

The Board of Directors has today adopted the half-year report for the period 1 October 2025 to 31 March 2026.

Highlights of H1:

Operating results:

- Revenue amounted to MDKK 134.9 which is MDKK 2.9 lower than first half of the financial year 2024/25.
- The development in the Industry Division has shown stable performance in the first half of the year and activity has been satisfactory across geographies and industries. We continue to experience strong demand. The volume sold has been slightly higher compared to same period last year and the increase in turnover is therefore partly driven by higher volume sold.
- The revenue in the Building Division performed in line with budget during autumn but after new year it has been characterized by lower activity due to the severe winter weather in January and February and has contributed to a slower start at the beginning of the year. This is expected to be temporary.
- Capacity costs are on budget and slightly higher than same period in 2024/25 which is mainly due to investment in improving efficiency in IT, warehouse and quality.
- Replacement of diesel driven cars to electric cars is now completed and only one truck, which runs on diesel, is left and it will be replaced when we have a feasible option for it. The high focus on handling of waste from our customers has led to a higher amount of waste collected from our customers than in same period in 2024/25 and therefore more scrap being recycled.

Karsten Due, CEO, comments as follows on the half-year financial statements 2025/26:

A challenging first half – impacted by external disruption:

The first half of the financial year 2025/26 has shown a revenue level below our internal budget expectations. Activity was stable and in line with expectations during the first part of the period, with the business on budget up until the turn of the calendar year.

However, the early part of 2026 was impacted by a combination of external factors. Severe winter conditions slowed activity within construction-related segments, while geopolitical tensions in the Middle East disrupted supply chains and drove rapid increases in raw material prices.

These developments are unusual for our market and have impacted overall topline performance during the period.

Earnings impacted by market volatility – but strategic initiatives progressing:

As anticipated, the period has been marked by increased pressure from external factors, particularly related to pricing and supply chain dynamics. This has influenced our earnings level, which remains below budget.

We maintain a strong focus on operational efficiency, while continuing to execute on our strategic initiatives. The implementation of our new ERP system is progressing according to plan, and we are beginning to see the effect of improved processes and tighter follow-up across the organisation.

In parallel, our new logistics setup in Randers has been completed and is now fully operational, providing a stronger and more efficient platform for future growth.

Strong foundation for the second half and beyond:

Despite the challenges in the first half, the underlying business remains solid. Our diversified business across multiple segments continues to provide a strong and resilient foundation.

While external uncertainty remains – particularly within pricing and market activity – we are confident that our strategic direction positions us well for the coming quarters. Our focus remains on strengthening profitability, enhancing customer experience, and creating long term value.

Outlook for H2 2025/26:

Based on the development in the first half and the continued volatility in market conditions, the Board of Directors maintains its previously communicated guidance for the financial year 2025/26, expecting an adjusted EBIT result in the range of DKK 12–15 million.

Based on current trading and the impact of the external disruptions experienced at the beginning of 2026, performance is expected to be in the lower end of the range.

The outlook reflects continued uncertainty related to pricing, supply chain stability, and market activity. While we continue to execute on our strategic initiatives, we remain focused on cost control, operational flexibility, and protecting profitability in a volatile market environment.

Roskilde, 7 May 2026

Karsten Due
CEO

Financial Highlights

Income statement (DKK million)	1/10-2025- 31/3-2026	1/10-2024- 31/3-2025	1/10-2024- 30/9-2025

Management's Statement

The Board of Directors and the Executive Board have today considered and adopted the Half-year Report of RIAS A/S for the period 1 October 2025 – 31 March 2026.

The Half-year Report, which has not been audited or reviewed by the Company's auditor, is prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU as well as Danish disclosure requirements for listed companies.

In our opinion, the Half-year Report gives a true and fair view of the financial position at 31 March 2026 of the Company and of the results of the Company's operations and cash flows for the period 1 October 2025 – 31 March 2026.

Moreover, in our opinion, Management's Review gives a true and fair view of the development in the Company's activities and finances, the results for the period and the Company's financial position as a whole as well as a description of the most significant risks and elements of uncertainty to which the Company is exposed.

Notes

Note 1. Accounting policies

The Interim Report is presented in accordance with IAS 34, Presentation of Interim Reports, as adopted by the EU and Danish disclosure requirements relating to listed companies.

The accounting policies remain unchanged from those applied in the Annual Report for 2024/25. The Annual Report for 2024/25 contains the full description and can therefore be found there .

Note 2. Accounting estimates and judgements

The preparation of the half-year Report requires Management to make accounting estimates that affect the application of the accounting policies as well as the recognition of assets, liabilities, income and expenses. Actual results may differ from such estimates.

When preparing the half-year Report, the most material estimates made by Management in connection with the application of the accounting policies and the most material uncertainty in this respect are the same as in connection with the preparation of the Financial Statements for 2024/25, to which reference is made.

Note 3. Revenue

Sales outside Denmark amounts to 17.1% of the total sale and 13.5% was to Sweden.

All non-current assets are placed in Denmark and sales are distributed on a large number of different products and customers. One single customer account for more than 10% of the sales. Sale to this customer amounts to MDKK 16.8 in first half 2025/26 compared to MDKK 15.6 in first half 2024/25

t.DKK	H1 2025/26			H1 2024/25		
	Industry division	Building division	Total	Industry	Building division	Total

Total	93.168	41.742	134.910	87.050	50.739	137.789

Note 4. Special Items

	<u>31/3 2026</u>	<u>31/3 2025</u>
Special Items	3.449	281

Special items in the first half of the year are cost for implementing a new ERP system and moving expenses to a new warehouse. These costs are considered as one-time costs and the management considers them as being a non-recurring item. In order to make a comparison across years it has been decided to show these as special items in the profit and loss.

Note 5. – Intangible assets
