Impact of change in accounting policies (II)

During 2023 Novaturas changed accounting policy in respect of IFRS 15 applicable for commission expenses. Before accounting policy change all commission liability in respect of commission payable were expensed (practical expedient treatment) while since 2023 expensed only that commission part which relates to revenue earned. Change in accounting policy has been applied retrospectively therefore prior year profit increased with 480 kEur (267 kEur'21 and 213 kEur'22) on the cost of current year result reduction (371 kEur) difference being accounted as deferred cost as at December 31'23.

EBITDA section summarizes both effects of quarterly IFRS 15 application (instead of annual) and impact of changes in accounting policy.
