Planisware a Leader in 2025 Gartner® Magic Quadrant™ for Adaptive Project Management & Reporting, Four Years Running

Paris, France, September 22, 2025 – Planisware, a leading B2B provider of SaaS in the rapidly growing Project Economy market, announces today it has been named a Leader in the 2025 Gartner "Magic Quadrant for Adaptive Project Management and Reporting" report*. Of the 10 companies evaluated, Planisware, for its product Orchestra, was recognized as a Leader based on "Completeness of Vision" and "Ability to Execute."

In the companion Critical Capabilities report, Planisware is recognized across all four Gartner-defined use cases— IT Project and Work Management (3.66/5), Collaborative PPM (3.53/5), Enterprise Project Management (3.60/5), and Product and Work Management (3.60/5)—Planisware Orchestra was ranked second or third overall in all use cases.

Loïc Martinot, VP of Mid-Market Americas, said of the recognition, "*Planisware's goal has always been to place the end user at the center of our product roadmap, and we believe this continued recognition from Gartner validates that commitment. It truly is a testament to the impact our customers can and do achieve with Planisware solutions.*"

Antoine Villata, CEO of Planisware North America, added, "*Unlike many tools that focus primarily on collaboration and work management, we enable our Orchestra customers with best-practice driven project and portfolio management solutions, allowing them to manage resources at scale, adapt methodologies to hybrid realities, and forecast the future effectively with what-if scenario modeling, Oscar the agentic AI assistant, and more cutting-edge AI- and ML-based business automation capabilities*"

See for yourself how Planisware can meet your IT Project and Work Management needs at the upcoming Gartner IT Symposium/Xpo™ in Orlando, FL (October 20-23). There, Planisware will display their industry-leading adaptive project management and reporting solution in action, and present an executive thought-leadership session, "Introducing the 100X PMO: Achieving Breakthrough Business Impact with SPM, AI, and Power Metrics."
