

CNH Industrial's solar solution to air pollution

A new video on cnhindustrial.com tells the story of how our plants are aiming for increased energy self-sufficiency

Basildon, July 13, 2023

CNH Industrial is committed to building a sustainable future through the design and development of our products and the plants where we build them. We have set an emissions target to have a 90% share of renewable electricity at these sites by 2030.

"We are proud to be using recycled energy," declares Amit Kumar Tiwari, Electrical Lead at the CASE Construction Equipment manufacturing plant in Pithampur, India. His enthusiasm about the ecofriendly developments at our operations in India can be seen in a new film at bit.ly/BreakingNewGround_en

Through interviews with employees and our Head of Energy, we showcase how the solar panel installations at our sites are helping to attain our renewable energy goals.

And the data is impressive: a reduction of around 26,000 tons of CO₂ emissions over 10 years at our Greater Noida, India plant, while the Pithampur, India manufacturing facility gets 20% of its energy from solar power.

If you want to learn more about CNH Industrial's photovoltaic projects around the world and specifically in Pithampur, check out the story in our 'A Sustainable Year' online magazine at: bit.ly/CNH_SolarPower

CNH Industrial (NYSE: CNHI / MI: CNHI) is a world-class equipment and services company. Driven by its purpose of Breaking New Ground, which centers on Innovation, Sustainability and Productivity, the Company provides the strategic direction, R&D capabilities, and investments that enable the success of its global and regional Brands. Globally, **Case IH** and **New Holland Agriculture** supply 360° agriculture applications from machines to implements and the digital technologies that enhance them; and **CASE** and **New Holland Construction Equipment** deliver a full lineup of construction products that make the industry more productive. The Company's regionally focused Brands include: **STEYR**, for agricultural tractors; **Raven**, a leader in digital agriculture, precision technology and the development of autonomous systems; **Flexi-Coil**, specializing in tillage and seeding systems; **Miller**, manufacturing application equipment; **Kongsilde**, providing tillage, seeding and hay & forage implements; and **Eurocomach**, producing a wide range of mini and midi excavators for the construction sector, including electric solutions.

Across a history spanning over two centuries, CNH Industrial has always been a pioneer in its sectors and continues to passionately innovate and drive customer efficiency and success. As a truly global company, CNH Industrial's 40,000+ employees form part of a diverse and inclusive workplace, focused on empowering customers to grow, and build, a better world.
