Crédit Mutuel Alliance Fédérale and Crédit Mutuel Océan reinforce their partnership for a stronger Crédit Mutuel

The 14 allied federations of Crédit Mutuel Alliance Fédérale and the Crédit Mutuel Océan federation are expanding their cooperation under a strengthened partnership agreement to make Crédit Mutuel ever more useful to its members, customers and society. A renewed agreement that demonstrates the vitality of the mutualist model, combining local autonomy with powerful action of a national scale.

Building a modern mutualist model

Crédit Mutuel Alliance Fédérale and Crédit Mutuel Océan share the same understanding of the mutualist and cooperative model. Together, they are working on a combined ambition to continue building a modern mutualist model that serves their members, the real economy and the common good. Through the values of freedom, solidarity and responsibility, they demonstrate their relevance amid ongoing major industrial, ecological and technological upheaval.

They offer a comprehensive set of banking and insurance solutions, backed by the Crédit Mutuel brand, the most appreciated brand in the sector.

As long-standing partners, they already share the same information system through Euro-Information and pool their logistics, support and real estate services through the Advisory and Service Center (CCS-Centre de Conseil et de Service) economic interest grouping. Caisse Fédérale du Crédit Mutuel Océan is a shareholder in Banque Fédérative du Crédit Mutuel and Assurances du Crédit Mutuel.

A new milestone to better serve their members and customers

Under this enhanced partnership agreement, Crédit Mutuel Alliance Fédérale and Crédit Mutuel Océan are going a step further in improving how they serve their members and customers as well as society as a whole.

They have decided to coordinate more closely on strategic directions and to deepen cooperation on regulatory, financial and risk management matters, further underpinning the cooperative and mutualist model.

They also plan to expand the range of products and services available to their members and customers, by harnessing synergies, particularly in insurance, phone and internet services and remote surveillance.

Both groups will remain autonomous and free to make their own decisions.
