

CSG group to supply tens of thousands of artillery and mortar ammunition to European NATO member country

Excalibur International, part of the CSG group, has signed a contract with the Ministry of Defense of a NATO member country in Western Europe for the supply of tens of thousands of artillery and mortar ammunition worth a total value in the low hundreds of millions of euros. The contract was awarded on the basis of an accelerated tender procedure due to the urgent need to replenish the ammunition stocks of the armed forces of a NATO member country.

MSM Group will work closely on the project as well, which is also part of the CSG group. The ammunition will be manufactured by companies belonging to the MSM Group, which includes major European producers of artillery, mortar, tank and medium-caliber ammunition meeting NATO standards, such as VOP Nováky, ZVS, Fábrica de Municiones de Granada or ZVI.

“This contract is another example of the CSG group’s strategy to establish new relationships and develop existing partnerships with customers in NATO countries, which represent important pillars of European security. The CSG group offers its production capacities not only to customers from the NATO, but also to reliable partners outside it, thus contributing to strengthening the importance of the European defense industry in the world in the context of the current involved international situation,” said Michal Radouch, Sales Director of Excalibur International.
