

Interinvest signs delivery deed for land position in Venlo.

Possibility of built-to-suit development strengthens position in the Netherlands.

The definitive acquisition of the land position in Venlo, located next to existing buildings of Interinvest Offices and Warehouses (hereinafter Interinvest), gives tangible shape to the possibility of additional development of a logistics building of approximately 10.000 m², according to BREEAM “Outstanding” standards. This acquisition fits in with the #connect2022 strategy to create sustainable value for customers with the own #TeamInterinvest.

““ The land position is located on the Venlo Trade Port industrial site with a favourable location near several motorway exits. The site has trimodal access due to its location almost right next to the ECT rail terminal and at a short distance from the barge terminal, which is a unique asset compared to competing locations.

GUNTHER GIELEN, CEO INTERVEST OFFICES & WAREHOUSES

Given the limited availability of less large-scale areas in the Venlo region and the prime location of the site, the rental potential of the land position is assessed positively. The land position for which the environmental permit has already been obtained thus offers a strong potential for additional built-to-suit development.

The land position in Venlo is part of a previous acquisition of three existing buildings, which took place in February 2020 and is part of the strategic expansion of the logistics portfolio in the Netherlands¹.
