

Compagnie Financière Tradition

Ad hoc announcement pursuant to Article 53 of the Six Exchange Regulation Listing Rules

Adjusted¹⁾ revenue of CHF 1,053.9m in 2023, up 9.5% at constant exchange rates; Growth of 11.5% in the 4th quarter at constant exchange rates

Compagnie Financière Tradition recorded a growth in its reported revenue (IFRS) for the full 2023 financial year and in particular in the 4th quarter with an increase of 10.6% and 13.4% respectively at constant exchange rates.

Indeed, the normalization of the monetary policy of central banks with the increase in interest rates during the year followed by an observation period in the search of the balance point that combine the control of inflation and a soft landing of the economy, all in an already complex geopolitical environment, were supportive to the Group's interdealer broking business activities. Tradition also benefited from favorable market conditions in the energy and commodity businesses as well as the development of its activity dedicated to market data commercialization (TraditionData). Furthermore, the Group's activity continues to be stimulated by its organic growth policy.
