

SBM Offshore intends to divest minority interest in FSO Chalchi

Amsterdam, June 4, 2026

SBM Offshore announces that it has entered into a shareholders' agreement with its long-standing business partner Nippon Yusen Kabushiki Kaisha (NYK) with the intention to divest a 45% ownership interest in the special purpose companies related to the lease and operation of the FSO *Chalchi*. SBM Offshore will remain the majority shareholder with 55% ownership interest. The divestment remains subject to several conditions precedent and approvals.

FSO *Chalchi* is currently under construction and will be operated under 20-year lease and operate contracts with Woodside Energy through its affiliate in Mexico, Woodside Petróleo Operaciones de México, S. de R.L. de C.V. (Woodside).

The new build FSO is based on a Suezmax-type hull and will be equipped with a Disconnectable Turret Mooring system designed by SBM Offshore. The FSO will be moored in water depth of about 2,500 meters and will be able to store around 950,000 barrels of crude oil.

The FSO will be deployed at the Trion field, located 180 km off the Mexican coastline and 30 km south of the US/Mexico maritime border. The Trion project is a joint venture between Woodside (60%, Operator) and Petróleos Mexicanos (40%, non-Operator).

Data underpinning certain disclosures – particularly sustainability-related - may be subject to inherent limitations. These limitations include but are not limited to reliance on third party data providers whose data quality, completeness and integrity may differ; the use of estimates and assumptions where actual data is unavailable or incomplete; and dependencies on value chain partners for timely and accurate information provision. Methodologies, standards and regulatory requirements for measuring and reporting information—especially sustainability related information—continue to evolve. As a result, our measurement approaches and reported figures may be refined over time as more accurate, granular or standardised data becomes available. Accordingly, all data, and emissions data in particular, should be interpreted in light of these limitations and the ongoing maturation of sustainability reporting practices across our value chain.

This release contains certain alternative performance measures (APMs) as defined by the ESMA guidelines which are not defined under IFRS. Further information on these APMs is included in 2025 Annual Report, available on our website [Annual Reports - SBM Offshore](#).
