To the General Meeting of Prosafe SE

Statement regarding conversion of debt

At the Board of Directors' request we, as independent experts, issue this statement in compliance with The Public Limited Liability Companies Act section 10-2, refer section 2-6.

The Board of Directors' responsibility for the statement

The Board of Directors is responsible for the valuations performed.

The independent experts' responsibility

Our responsibility is to prepare a statement relating to the General Meeting's decision to allow certain creditors to convert debt against consideration in Prosafe SE shares, and express an opinion that the value of the debt to be converted to cover the value of the new shares issued, is at least equivalent to the agreed consideration.

The statement consists of two parts. The first part is a description of the debt to be converted. The second part is our opinion regarding whether the debt to be converted has a value which is at least equivalent to the agreed consideration.

Part 1: Information about the debt

As a consequence of the Prosafe group's challenging financial situation, the Prosafe group has taken steps to seek a significant de-leveraging and balance sheet restructuring (the "**Restructuring**").

The debt relationships between the Company and certain of the creditors are regulated by a USD 250 million secured credit facility with Prosafe SE as borrower maturing in December 2025; and (ii) the USD 93 million secured credit facility with Prosafe SE as borrower maturing in December 2025 (the "**Existing Loan Agreements**").

As part of the Restructuring, a total of USD 150 million of the outstanding amount under the Existing Loan Agreements shall be continued in a new loan agreement (the "**New Loan Agreement**"). The New Loan Agreement will consist of a super senior tranche of USD 150 million, out of which USD 75 million is a continuation of financing from the Existing Loan Agreements and USD 75 million is new financing, and a senior tranche of USD 75 million, where the entire amount is a continuation of financing from the Existing Loan Agreements. The remaining amount of USD 193 million in the Existing Loan Agreements shall be converted into equity in the Company.

In accordance with the above, Prosafe SE has put forward a proposal that USD 193,000,000 of outstanding principal debt under the Existing Loan Agreements shall be converted to equity.

The Board of Directors proposes that the Company's share capital shall be increased with minimum EUR 0.01 and maximum EUR 3,216,357.18, from EUR 178,686.51 to minimum EUR 178,686.52 and maximum EUR 3,395,043.69, through issuance of minimum 1 and maximum 321,635,718 new shares, each with the nominal value of EUR 0.01, such share capital increase being conditional upon a prior

reduction of the nominal value of per share in the Company to EUR 0,01, resulting in a share capital of EUR 178,686.51 prior to the share capital increase.

The subscription price per share shall be minimum EUR 0.01 and maximum EUR 2.00, of which EUR 0.01 per share comprises share capital and minimum EUR 0 and maximum EUR 1.99 per share comprises share premium. The board is authorised to determine the definite subscription price at a later time, cf. the Companies Act Section 10-1 second paragraph no. 3. When determining the subscription price, the combination of number of shares issued and the subscription price cannot exceed EUR 169,647,000. Thus, the aggregate subscription amount in the share capital increase is minimum EUR 0.01 and maximum EUR 169,647,000.00, of which minimum EUR 0.01 and maximum EUR 3,216,357.18 comprises share capital and minimum EUR 0 and maximum EUR 166,430,642.82 comprises share premium, where the maximum numbers are calculated based on issuance of the maximum number of new shares.

The Board of Prosafe SE believes that, absent such a material balance sheet restructuring, the Company will not be able to continue as a going concern. The Boards view is that the transaction will provide the Company with a sustainable capital structure and sufficient liquidity to meet its capital expenditure and working capital needs for the foreseeable future.

Part 2: The independent expert's opinion

We have performed procedures and issue our opinion in accordance with the Norwegian standard NSAE 3802 "Auditor's attestations required by Norwegian Limited Liability Companies legislation[1]" issued by the Norwegian Institute of Public Accountants. This standard requires that we plan and perform procedures to obtain reasonable assurance about whether the value of the debt to be converted is at least equivalent to the agreed consideration. Our procedures include an assessment of the reality of the debt.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

The debt converted is valued at nominal value in USD per 24 April 2025 (in total up to USD 193,000,000) and recalculated to EUR based on the European Central Bank's foreign exchange reference rate for USD : EUR as announced by the European Central Bank on 24 April 2025, corresponding to EUR 0.8790 per USD 1, in aggregate EUR 169,647,000.

In our opinion the value of the debt to be converted is at 24 April 2025 at least equivalent to the agreed consideration in Prosafe SE shares as set out above.

Emphasis of matter

The proposed share capital increase is conditional upon certain events and conditions pursuant to the Restructuring.
