Highlights to be presented at Novo Nordisk's Capital Markets Day 2024

Bagsværd, Denmark, 7 March 2024 – Novo Nordisk is today hosting a Capital Markets Day (CMD) where the company is providing a progress update on its Strategic Aspirations 2025.

The day will be centred around the Strategic Aspirations. During the day, senior management presentations will cover corporate strategy and purpose & sustainability (ESG), Research and early development, Product Supply as well research and development pipeline and performance within Diabetes care, Obesity care and Rare disease. In addition, Novo Nordisk's approach to Cardiovascular & emerging therapy areas and financials are presented.

The CMD will include break-out sessions covering Region EMEA, Region China and Data science & Artificial intelligence.

Key highlights of the day are:

- Focus on early-stage pipeline expansion by building on core research capabilities and new technology platforms. Phase 1 data for amycretin, a novel GLP-1 and amylin co-agonist, will also be presented
- Update on scaling of manufacturing capacity and plans to increase patient reach
- Continued growth potential for GLP-1-based semaglutide treatments within Diabetes care and presentation of data from the kidney outcomes trial FLOW
- Update on commercial launches for Wegovy® in the US and International Operations, an update of the obesity research and development pipeline, including additional data from the cardiovascular outcomes trial SELECT and overlap of comorbidities in people with cardiometabolic diseases
- Update on the expanding pipeline within cardiovascular disease
- Expected margin development in the coming years

All sessions of the CMD are webcast live, and a replay will be made available in the investor section of novonordisk.com. Presentation material from the CMD will also be available throughout the day in the investor section of novonordisk.com.
