Sydbank's Interim Report - Q1-Q3 2023

Q1-Q3 2023 - highlights

- Profit for the period of DKK 2,409m equals a return on equity of 23.2% p.a. after tax
- Core income of DKK 5,227m is 42% higher compared to the same period in 2022
- Trading income of DKK 240m is 36% higher compared to the same period in 2022
- Costs (core earnings) of DKK 2,335m against DKK 2,288m in the same period in 2022
- Core earnings before impairment of DKK 3,132m are 98% higher compared to the same period in 2022
- Impairment charges for loans and advances etc represent an income of DKK 21m
- Bank loans and advances have gone down by DKK 1.8bn, equal to a decrease of 2% compared to year-end 2022
- The CET1 ratio stands at 18.5%, equal to an increase of 1.2pp compared to year-end 2022

CEO Karen Frøsig comments on the result:

- It is positive that we were able to lift our profitability further in the third quarter of the year from an already very high level in the first 2 quarters. The increase in profitability is attributable to a continued rise in total income and is predominantly due to higher net interest income. Impairment charges represented a small income in the first 9 months of the year, which reflects strong credit quality in the lending portfolio. Together this means a doubling of profit after tax and in September 2023 expectations for profit for 2023 were revised upwards once more.

Karen Frøsig comments on developments in interest income:

- The effect of the Danish central bank's continuous interest rate hikes since July 2022 is clearly reflected in the Bank's net interest income, which has more than doubled when comparing the first 9 months of 2023 with the same period in 2022. Net interest income has been greatly influenced by higher interest payments on the Bank's significant deposit surplus, which has previously earned negative interest.

Board chairman Lars Mikkelgaard-Jensen comments:

- It is good news that after initiating a share buyback of DKK 600m in Q3 the Bank remains highly capitalised and resilient. This is particularly important in times of geopolitical and macroeconomic uncertainty.

Outlook for 2023

- Core income is expected to be higher than in 2022.
- Costs (core earnings) are projected to be higher than in 2022.
- Impairment charges are forecast to represent a minor expense.
- Non-recurring costs are expected to represent around DKK 50m.
- Profit after tax is now expected to be in the range of DKK 3,000-3,200m.
- The outlook is subject to uncertainty and depends on financial market developments and macroeconomic factors which may affect eq the level of impairment charges.

- · Sound business
- Stronger competitive position

Better known and bigger – profitable growth Sydbank has a good reputation – and needs to be better known. On the back of Denmark's Corporate Bank we will increase awareness of Sydbank focusing in particular on large towns and cities. Our growth is profitable and organic and we are in good shape for friendly takeovers. We will incorporate ESG and sustainability in the Bank's products and processes.

Sound business – higher earnings

At Sydbank focus is on banking and sound business. Our employees are highly qualified, proactive and value-creating. We work on the principle of quid pro quo and will increase the Bank's earnings.

Stronger competitive position – efficient bank We will prioritise the Bank's efforts and reduce costs. We will optimise working procedures and processes to reduce time spent, enhance quality and shorten response times to customers. As a decent and responsible bank our constant focus is on compliance, including IT security.

Strategic goals represent the values from the Bank's underlying philosophy and its core story with promises to its customers, to its employees and to its shareholders.

The strategic goals cover these areas:

- Awareness
- Return on equity
- Rate of costs

Awareness

By means of targeted efforts we will increase awareness of Sydbank and our value creation for customers. We will elevate unaided brand awareness from its level of around 20% at year-end 2021 to around 40% by the end of the strategy period. At end-Q3 2023 unaided awareness had risen to 24%.

Return on equity

We will continue to deliver competitive returns to the Bank's shareholders and our goal is a return on equity in the region of 10% in 2024 – based on a normalised level of impairment charges. The goal was set in the context of a negative interest rate environment. In Q1-Q3 2023 return on equity constituted 23.2% against 12.5% in Q1-Q3 2022.

Rate of costs

We will continue to focus on the balance between income and costs. This will be achieved by continuing to increase income while maintaining a constant focus on costs. We will prioritise our initiatives and ensure a better understanding of costs throughout the organisation as well as continue to ensure a powerful engine room. The strategic goal for the rate of costs is around 60%. In Q1-Q3 2023 the rate of costs stood at 43% compared with 59% in Q1-Q3 2022.

Sydbank's customers

The Bank's customer portfolio can be divided into the segments: corporate clients, Private Banking clients and retail clients, and institutional clients.

Sydbank has succeeded in building relationships in particular as regards the backbone of the Danish corporate sector – medium-sized and large enterprises – and by developing expertise among its employees the Bank has secured a strong position as a full-service corporate and advisory bank offering a wide variety of professional financing solutions tailored to the requirements of the individual business.

The Bank strives to have an increase in customers primarily with the following profiles:

- Medium-sized or large enterprises in the SME segment with growth potential
- Retail clients with healthy finances
- Young customers with prospects
- Wealthy retail clients

Q1-Q3 2023 performance

Net interest income has risen by DKK 1,679m to DKK 3,304m, equal to an increase of 103% compared with Q1-Q3 2022. The increase is primarily attributable to the effects of higher interest rates.

Sydbank's core story

Banking

Sydbank's mission is to be a bank that is close to its customers. We find solutions where they are – quickly and efficiently. We build on relationships between people. And we focus on what is important – banking and sound business. Banking – pure and simple.

Our bank

Rooted in Southern Jutland, Sydbank is a strong and independent nationwide bank operating on its own terms. For the backbone of the Danish corporate sector and for retail clients who value professional advice we are a bank for most people but not the same bank for everyone. Good old-fashioned attentiveness, new technology – we use what works. We know our customers and we are close to them providing advice tailored to their individual needs. Backed by the best business partners our competitive strength is increased. Our bank – excellence and relationships create value.

Sydbank

Our bank makes 3 promises – to our customers, to our employees and to our shareholders. You will know us for the value we create for our customers. You will know us for our belief that excellent and committed employees are our most important asset. And you will know us for always having a level of profitability that will enable us to remain an independent and resourceful bank. Sydbank – what can we do for you?

Core income

Total core income has risen by DKK 1,537m or 42% to DKK 5,227m. The increase is primarily attributable to higher net interest income.

Net interest income has gone up by DKK 1,679m to DKK 3,304m. The increase is primarily attributable to the effects of a higher interest rate level.

Net interest income represented DKK 986m in Q1, DKK 1,116m in Q2 and DKK 1,202m in Q3. At 3 October 2023 the Bank raised the deposit rates of all deposits in DKK and EUR by a minimum of 0.25%. The effects of the interest rate changes are that the Bank expects that net interest income in Q4 will be lower than in Q3 2023.

Net income from the cooperation with Totalkredit represents DKK 304m (2022: DKK 420m) after a set-off of loss of DKK 5m (2022: DKK 5m).

The cooperation with DLR Kredit has generated an income of DKK 96m (2022: DKK 95m).

Compared to 2022 total mortgage credit income represents DKK 401m – a decline of DKK 116m. The decrease is primarily attributable to funded mortgagelike loans and a slowdown in the housing market. It is

At 30 September 2023 the Group's staff numbered 2,048 (full-time equivalent) compared to 2,040 at 30 September 2022 and 2,034 at 31 December 2022.

Compared to year-end 2022 the number of branches has gone down by 1 and is 54 in Denmark and 3 in Germany at end-September 2023.

Core earnings before impairment of loans and advances

Core earnings before impairment charges for loans and advances represent DKK 3,132m – an increase of DKK 1,553m or 98% compared to the same period in 2022.

Impairment of loans and advances etc

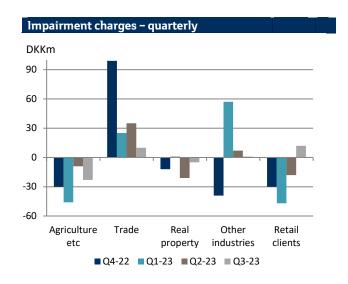

Impairment charges for loans and advances represent an income of DKK 21m compared with an income of DKK 87m in the same period in 2022.

At 30 September 2023 the Group maintained its management estimate of DKK 500m to hedge macroeconomic uncertainty. The management estimate consists of DKK 400m as regards corporate clients and DKK 100m as regards retail clients.

The management estimate as regards macroeconomic risks covers potential losses related to the negative

effects of a high inflation rate as well as the risk of a recession etc.

The chart below shows impairment charges for loans and advances in the last 4 quarters as regards agriculture etc, trade, real property, other industries as well as retail clients.

At 30 September 2023 accumulated impairment and provisions amounted to DKK 1,971m (year-end 2022: DKK 1,929m).

In Q1-Q3 2023 reported losses amounted to DKK 49m (Q1-Q3 2022: DKK 33m). Of the reported losses an impairment charge of DKK 30m has previously been recorded (Q1-Q3 2022: DKK 20m).

At 30 September 2023 the impairment ratio for the period represented minus 0.02% relative to bank loans and advances and guarantees.

Impairment charges are made for expected credit losses as regards all financial assets measured at amortised cost and similar provisions are made for expected credit losses as regards undrawn credit commitments and financial guarantees. Impairment charges for expected credit losses depend on whether the credit risk of a financial asset has increased significantly since initial recognition and follow a 3-stage model. The portfolio in stage 3 acquired from Alm. Brand Bank is recognised under "credit impaired at initial recognition":

Stage 1 – facilities with no significant increase in credit risk. The asset is written down by an amount equal to the expected credit loss as a result of the probability of default over the coming 12 months.

Stage 2 – facilities with a significant increase in credit risk. The asset is transferred to stage 2 and is written down by an amount equal to the expected credit loss over the life of the asset.

Stage 3 – facilities where the financial asset is in default or is otherwise credit impaired.

Credit impaired at initial recognition (POCI) -

facilities which were credit impaired at the time of acquisition of Alm. Brand Bank. They are recognised on acquisition at the fair value of the debt acquired.

The Group's loans and advances and impairment charges at 30 September 2023 allocated to these stages are shown below.

The development in the gross exposure by rating category at 31 December 2021, 31 December 2022 and 30 September 2023 is shown below.

The gross exposure consists of loans and advances, undrawn credit commitments, interest receivable, guarantees and counterparty risk on derivatives. The graph comprises exposures treated according to A-IRB. Exposures relating to customers in default are not included in the breakdown of rating categories. Impairment charges for exposures have not been deducted from the exposure.

The gross exposure by rating category shows that a large share continues to be in the 4 best rating categories.

Corporate

The Group has previously used the foundation IRB approach as regards corporate exposures. The Group achieved approval from the Danish FSA as of 31 October 2022 to use the advanced IRB approach (A-IRB) to rate corporate exposures. The implementation of A-IRB has resulted in an adjustment of the PD level which in turn has affected the correlation between PD and rating categories.

With the new A-IRB approach the EBA guidelines and the new definition of default have been implemented.

The development in the gross exposure by rating category is illustrated below. Historical data is treated according to the new A-IRB approach.

The gross exposure consists of loans and advances, undrawn credit commitments, interest receivable, guarantees and counterparty risk on derivatives. The graph comprises exposures treated according to A-IRB. Exposures relating to customers in default are not included in the breakdown of rating categories. Impairment charges for exposures have not been deducted from the exposure.

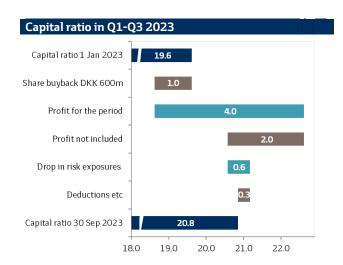

The gross exposure by rating category shows that a large share continues to be in the 4 best rating categories.

Solvency

Solvency (DKKm)	30 Sep 2023	31 Dec 2022
REA	60,138	60,472
CET1 capital	11,120	10,484
T1 capital	11,865	11,227
Total capital	12,504	11,863
CET1 ratio	18.5	17.3
T1 capital ratio	19.7	18.6
Capital ratio	20.8	19.6

At 30 September 2023 the CET1 ratio and the capital ratio stood at 18.5% and 20.8% respectively compared to 17.3% and 19.6% respectively at yearend 2022.

The development in the capital ratio in Q1-Q3 2023 is shown below.

In Q1-Q3 2023 the capital ratio rose by 1.2pp, which is attributable to the inclusion of half of profit for the period as well as a drop in risk exposures set off against the effect of the initiated share buyback programme as well as a rise in deductions etc.

At 30 September 2023 the individual solvency need represented 10.5% (31 December 2022: 10.8%).

Solvency of the parent

At 30 September 2023 the CET1 ratio and the capital ratio of the parent stood at 17.9% and 20.1% respectively (31 December 2022: 16.8% and 19.0% respectively).

Capital and solvency and capital requirements

The Group's capital management is anchored in the Internal Capital Adequacy Assessment Process (ICAAP), a review conducted to identify risks and determine the individual solvency need.

At end-September 2023 the individual solvency need represented 10.5%. The solvency need consists of a minimum capital requirement of 8% under Pillar I and a capital add-on under Pillar II. Approximately 56% of the solvency need must be covered by CET1 capital, equivalent to 5.9% of the risk exposure amount.

In addition to the solvency need the Group must meet a combined buffer requirement of 5.8% at 30 September 2023.

Capital and solvency and capital requirements (% of REA)	30 Sep 2023	31 Dec 2022
Capital and solvency		
CET1 ratio	18.5	17.3

- of which capital conservation buffer	2.5	2.5
- of which countercyclical buffer**	2.3	1.8
Excess capital		
CET1 capital	6.8	5.9
Total capital	4.5	3.5

- * The total capital requirement consists of an individual solvency need and a combined buffer requirement. The countercyclical buffer is determined by the Danish Ministry of Industry, Business and Financial Affairs and may not exceed 2.5%. The rate currently makes up 2.5%.
- ** The countercyclical buffer is calculated as an exposure weighted average of the specific rates as regards the countries in which the companies to which exposures have been granted are domiciled. The rate as regards exposures to companies domiciled in Denmark constitutes 2.5%.

Market risk

At 30 September 2023 the Group's interest rate risk represented DKK 74m. The Group's exchange rate risk continues to be very low and its equity position modest.

Funding and liquidity

The guidelines for calculating the Liquidity Coverage Ratio (LCR) specify a run-off of exposures while taking into account counterparties, funding size, hedging and maturity. Consequently the most stable deposits are favoured relative to large deposits, in particular from businesses and financial counterparties.

The Group's LCR constituted 249% at 30 September 2023 (31 December 2022: 200%).

LCR (DKKbn)	30 Sep 2023	31 Dec 2022	30 Sep 2022
Total liquidity buffer	57.5	56.5	51.5
Net cash outflows	23.1	28.2	26.8
LCR (%)	249	200	192

The Group meets the LCR requirement of 100% and its excess cover is significant at 30 September 2023.

NSFR

The guidelines for calculating the Net Stable Funding Ratio (NSFR) require that the available stable funding exceeds the required stable funding. The required stable funding is calculated on the basis of the balance sheet values and degree of stability of assets where the strictest requirements in terms of degree of stability are imposed on long-term illiquid assets. The available stable funding is calculated on the basis of the balance sheet values and degree of stability of the

funding where the highest degrees of stability apply to equity and long-term funding.

The Group's NSFR constituted 138% at 30 September 2023 (year-end 2022: 132%).

NSFR (DKKbn)	30 Sep 2023	31 Dec 2022	30 Sep 2022
Required stable funding	87.1	89.7	89.5
Available stable funding	120.5	118.2	115.1

The Group meets the NSFR requirement of 100% and its excess cover is significant at 30 September 2023.

Rating

Moody's most recent rating of Sydbank:

•	Outlook:	Stable
•	Long-term deposit:	A1
•	Baseline Credit Assessment:	Baa1
•	Senior unsecured:	A1
•	Short-term deposit:	P-1

Supervisory Diamond

The Supervisory Diamond sets up a number of benchmarks to indicate banking activities that initially should be regarded as involving a higher risk. Any breach of the Supervisory Diamond is subject to reactions by the Danish FSA.

At 30 September 2023 the Group as well as the parent comply with all the benchmarks of the Supervisory Diamond.

Supervisory Diamond benchmarks	30 Sep 2023	31 Dec 2022	30 Sep 2022
Sum of 20 largest exposures < 175%	144	147	157
Lending growth < 20% annually	(4)	10	17

Subordinated debt and MREL requirements

Once a year the Danish FSA sets requirements as to subordinated debt and own funds and eligible liabilities (MREL) for Danish institutions, including Sydbank.

At 1 January 2023 the subordinated debt and MREL requirements were set at 27.1% and 24.7% respectively of the risk exposure amount.

The subordinated debt requirement can be calculated as follows:

Subordinated debt at 30 Sep 2023	Require- ment (%)	DKKm
REA		60,138
Total requirement	27.1	16,297
Total capital		12,504
SNP loans with maturities		
exceeding 1 year		13,214
Total subordinated debt	42.8	25,718
Excess cover	15.7	9,421

At 30 September 2023 the Group met the subordinated debt requirement with an excess cover of DKK 9,421m. The excess cover corresponds to an increase in the solvency need of 7.8pp or an increase in the risk exposure amount of DKK 34,764m.

The MREL can be calculated as follows:

MREL at 30 Sep 2023	Require- ment (%)	DKKm
REA		60,138
Total requirement	24.7	14,854
Total capital		12,504
SNP loans with maturities exceeding 1 year Cover of combined buffer		13,214
requirement		(3,498)
Total MREL	36.9	22,220
Excess cover	12.2	7,366

At 30 September 2023 the Group met the MREL with an excess cover of DKK 7,366m. The excess cover corresponds to an increase in the solvency need of 6.1pp or an increase in the risk exposure amount of DKK 29.822m.

Leverage ratio

The CRR2 Regulation stipulates that T1 capital must constitute at least 3% of total exposures.

The Group's leverage ratio constituted 6.2% at 30 September 2023 (year-end 2022: 6.1%) taking into account the transitional rules.

SIFI

Sydbank has been designated as a SIFI in Denmark and there is an additional buffer requirement of 1% as regards CET1 capital. The intention is to bring Danish SIFI capital requirements on a par with the requirements in other comparable European countries.

Bank Recovery and Resolution Directive

The directive, including the bail-in provisions, was implemented in Danish law on 1 June 2015. According to legislation each credit institution must meet a minimum requirement for own funds and

eligible liabilities (MREL). In December 2022 the Danish FSA set the MREL for Sydbank at 24.7% of the risk exposure amount for the year ahead.

The general resolution principle for SIFIs is that it should be possible to restructure them and send them back to the market with adequate capitalisation to ensure market confidence. The Group's MREL is based on the risk exposure amount using a factor which has been set at the sum of twice the solvency need plus the combined capital buffer requirement, excluding the countercyclical buffer.

The establishment of a resolution fund is underway. Credit institutions must make contributions to the fund according to their relative size and risk in Denmark.

The resolution fund must be established and have assets at its disposal equal to at least 1% of the covered deposits of all Danish credit institutions by 31 December 2024.

The Group's contribution to the resolution fund for 2023 is expected to represent DKK 32m.

Basel IV

Since the Basel Committee on Banking Supervision published its recommendations regarding changes to the calculation of capital requirements – Basel IV – in 2017, the EU has worked on implementing these changes into CRR (regulation) or CRD (directive). Some of the proposed changes have already been implemented and at the end of 2021 the EU proposed implementing the remaining elements. It is expected that this implementation will take place on 1 January 2025 and that it will take place over an extended period of time and with significant transitional rules. The Group expects that the proposed changes will have a limited effect on the Group's capital requirements.

Sector-specific systemic risk buffer

On 3 October 2023 the Systemic Risk Council recommended that effective 30 June 2024 a sector-specific systemic risk buffer for exposures to real estate companies at a rate of 7% of the exposures' risk-weighted assets be activated.

The council recommends that the measure applies exclusively to exposures to real estate companies, ie under activity code "Development of building projects" as well as "Real estate" and that exposures to "Social housing associations" and "Cooperative housing societies" under activity code "Real estate" be exempt.

It should be noted that the government indicated already on 3 October 2023 that it intends to comply with the recommendation. As a result the Bank will be subject to a sector-specific systemic risk buffer of approx 0.2% in addition to the regulatory capital requirements.

Operating segments

The Group's segment statements are divided into the following business units: Banking, Asset Management, Sydbank Markets, Treasury and Other.

Banking serves all types of retail and corporate clients.

Asset Management primarily comprises the Bank's advisory-related income from customers and investment funds.

Sydbank Markets comprises trading income as well as a share of the income from customers with decentral affiliation calculated on the basis of the market price thereof. The share represents the payment by Banking for Sydbank Markets' facilities, including advisory services and administration.

Treasury comprises the Group's return on positions handled by Treasury, including liquidity allocation.

Other includes non-recurring items, costs to the Group Executive Management etc as well as return on strategic shareholdings that are not allocated to Banking or Sydbank Markets.

Inter-segment transactions are settled on an arm's length basis. Centrally incurred costs are allocated to the business units in accordance with their estimated proportionate share of overall activities.

Excess liquidity is settled primarily at short-term money market rates whereas other balances are settled on an arm's length basis.

The Sydbank Group's internal reporting is not made on the basis of products and services. Reference is made to notes 2, 3 and 4 for the distribution of net interest income as well as fee income.

Note 1

Accounting policies

The interim report covers the period from 1 January to 30 September 2023 and is prepared in compliance with IAS 34 "Interim Financial Reporting" as adopted by the EU and in compliance with Danish disclosure requirements for interim reports of listed financial companies. As a result of the use of IAS 34, the presentation is less complete compared with the presentation of an annual report and the recognition and measurement principles are in compliance with IFRS.

The accounting policies are consistent with those adopted in the 2022 Annual Report, to which reference is made.

The 2022 Annual Report provides a comprehensive description of the accounting policies applied.

Accounting estimates and judgements

The measurement of certain assets and liabilities requires that management makes accounting estimates as to how future events will affect the value of such assets, liabilities, income and costs. Actual results may deviate from such estimates.

The significant estimates made by management in the use of the Group's accounting policies and the inherent considerable uncertainty of such estimates used in the preparation of the interim report are identical to those used in the preparation of the 2022 Annual Report.

Impairment of loans and advances and provisions for guarantees and undrawn credit commitments are made to take into account the expected losses on conclusion as well as any credit impairment after initial recognition. The determination of impairment charges for expected losses is subject to a number of estimates, including which loans and advances or portfolios of loans and advances are subject to credit impairment as well as calculation of expected losses.

Assessing the degree of credit impairment of exposures involves a number of estimates which may be subject to uncertainty.

To a large extent the determination of expected losses at exposure level is based on risk registrations, models and past experience but it also involves a number of estimates of risks and expected developments in the individual exposure, including the future ability to pay and the value of collateral which in particular comprises mortgages on property. During periods of uncertain economic trends or significant demographic or structural changes uncertainty is greater. This is reflected in the need for management adjustments that by their nature are subject to uncertainty.

The Group's models to calculate impairment of exposures in stages 1 and 2 include expectations as to economic developments. The outlook is based on estimates of the probability of different outcomes of economic growth.

The outlook results in a determination of the probability of the scenarios baseline, upturn and downturn. At 30 September 2023 the probability of the downturn scenario was fixed at 95%, which is unchanged compared with 31 December 2022.

Impairment of exposures in stage 3 and the weak part of stage 2 is based on individual assessments which include expectations of future changes in collateral value etc.

Note 1 - continued

In addition to the calculated impairment charges, management estimates whether there is a need for special impairment charges as regards exposed industries, customer segments or other elements that are estimated as having not yet been reflected in the Bank's registrations.

At 30 September 2023 the Group maintained its management estimate of DKK 500m to hedge macroeconomic uncertainty. The management estimate represents DKK 400m as regards corporate clients and DKK 100m as regards retail clients.

The management estimate as regards macroeconomic risks covers potential losses related to the negative effects of a high inflation rate as well as the risk of a recession etc.

The Group's significant risks and the external elements which may affect the Group are described in greater detail in the 2022 Annual Report.

The Group's cash resources primarily comprise Danish mortgage bonds. The interest rate risk concerning these positions has been reduced via derivatives. As a result the Group's external income statement is affected in terms of interest income and the market value adjustment of bonds and derivatives. The same applies to the Group's position-taking as regards bonds as well as shares. The breakdown by income statement item does not disclose income independently and consequently these items must be regarded as one as they are in "Segment Reporting" as well as in the Group's financial review, which also takes funding of the positions into account.

Note 20 - continued

Totalkredit loans arranged for by Sydbank are comprised by an agreed right of set-off against future current commission which Totalkredit may invoke in the event of losses on the loans arranged.

Sydbank does not expect that this set-off will have a significant impact on Sydbank's financial position.

As a result of the Bank's membership of Bankdata, the Bank is obligated to pay an exit charge in the event of exit.

As a result of the statutory participation in the deposit guarantee scheme, the industry paid an annual contribution of 2.5% of covered net deposits until the Banking Department's capital exceeded 1% of total covered net deposits, which was reached at year-end 2015. The Banking Department will cover the direct losses in connection with the winding-up of distressed financial institutions under Bank Package III and Bank Package IV which are attributable to covered net deposits. Any losses as a result of the final winding-up will be covered by the Guarantee Fund via the Winding-up and Restructuring Department as regards which Sydbank is currently liable for 6.1% of any losses.

As a result of the statutory participation in the resolution financing arrangement (the resolution fund), credit institutions pay an annual contribution over a 10-year period to reach a target funding level totalling 1% of covered deposits. Credit institutions must make contributions to the fund according to their relative size and risk in Denmark. In the period from 2015 to 2022 Sydbank has contributed DKK 162m and expects that contributions will total approximately DKK 220m over the 10-year period.

The Group is party to legal actions. These legal actions are under continuous review and the necessary provisions made are based on an assessment of the risk of loss. Pending legal actions are not expected to have any significant effect on the financial position of the Group.

Note 21

Collateral

At 30 September 2023 the Group had deposited as collateral securities at a market value of DKK 147m with Danish and foreign exchanges and clearing centres etc in connection with margin calls and securities settlements etc. In addition the Group has provided cash collateral of DKK 679m and deposited as collateral securities at a market value of DKK 12m in connection with CSA agreements.

In connection with repo transactions, which involve selling securities to be repurchased at a later date, the securities remain on the balance sheet and consideration received is recognised as a debt. Repo transaction securities are treated as assets provided as collateral for liabilities. Counterparties are entitled to sell the securities or deposit them as collateral for other loans.

In connection with reverse transactions, which involve purchasing securities to be resold at a later date, the Group is entitled to sell the securities or deposit them as collateral for other loans. The securities are not recognised in the balance sheet and consideration paid is recognised as a receivable.

Assets received as collateral in connection with reverse transactions may be sold to a third party. In such cases a negative portfolio may arise as a result of the accounting rules. This is recognised under "Other liabilities".

To take into account changes in credit risk concerning derivatives with positive fair value, an adjustment is made – CVA. CVA is a function of the risk of counterparty default (PD), the expected positive exposure and the loss ratio in the event of default. PD is determined on the basis of the Group's credit models – default probability in 12 months. PD beyond 12 months is adjusted on the basis of market data of exposures with a similar PD level. At 30 September 2023 CVA constituted DKK 15m compared to DKK 16m at year-end 2022.

Client margins recognised in connection with derivatives are amortised over the life of the transaction. At 30 September 2023 client margins not yet recognised as income totalled DKK 12m compared to DKK 14m at year-end 2022.

Financial instruments recognised at fair value

Measurement of financial instruments is based on quoted prices from an active market, on generally accepted valuation models with observable market data or on available data that only to a limited extent is observable market data.

Measurement of financial instruments for which prices are quoted in an active market or which is based on generally accepted valuation models with observable market data is not subject to significant estimates.

As regards financial instruments where measurement is based on available data that only to a limited extent is observable market data, measurement is subject to estimates. Such financial instruments appear from the column unobservable inputs below and include primarily unlisted shares, including shares in DLR Kredit A/S.

The fair value of unlisted shares and other holdings is calculated on the basis of available information on trades etc – including to a very significant extent on shareholders' agreements based on book value. To an insignificant extent fair value is calculated on the basis of expected cash flows.

A 10% change in the calculated market value of financial assets measured on the basis of unobservable inputs will affect profit before tax by DKK 348m (31 December 2022: DKK 361m).

Management Statement

We have reviewed and approved the Interim Report - Q1-Q3 2023 of Sydbank A/S.

The consolidated interim financial statements are prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU. Furthermore the consolidated financial statements are prepared in compliance with Danish disclosure requirements for listed financial companies.

The Interim Report has not been audited or reviewed. However the Bank's external auditor has conducted a verification of profit for the period, including audit procedures consistent with the requirements as regards a review and has thus verified that the conditions for ongoing recognition of profit for the period in CET1 capital were met.

In our opinion the interim financial statements give a true and fair view of the Group's assets, equity and liabilities and financial position at 30 September 2023 and of the results of the Group's operations and consolidated cash flows for the period 1 January - 30 September 2023.

Moreover it is our opinion that the management's review includes a fair review of the developments in the Group's operations and financial position as well as a description of the most significant risks and elements of uncertainty which may affect the Group.
