

ALK appoints new Head of Product Supply

ALK (ALKB:DC / OMX: ALK B / AKABY / AKBLF) today announced the appointment of Christian G. Houghton as its new Head of Product Supply, which includes all global manufacturing activities. Christian has been with ALK for 25 years and was previously Head of Chemistry, Manufacturing and Controls (CMC) & selected manufacturing sites.

Carsten Hellmann, President & CEO, said: *"Christian's experience and leadership qualities make him ideally suited to his new role and I would like to congratulate him on his appointment and welcome him as a member of ALK's management team, where his expertise will be greatly valued."*

Christian assumes responsibility for Product Supply from Søren Niegel, who took on the dual role of Head of Commercial Operations and Product Supply in November 2017.

Carsten Hellmann continued: *"In 2017, we faced significant challenges in our manufacturing operations. Under Søren's leadership, the situation has been stabilised and improved while a new product and site strategy (PASS) was established in alignment with ALK's future commercial ambitions. With the fundamental issues in Product Supply now addressed and with PASS in place, the time is right for Søren to focus his attention on executing ALK's commercial growth strategy as EVP for global Commercial Operations and as member of ALK's executive board."*

Christian G. Houghton takes up his new role with immediate effect and reports directly to ALK's President & CEO Carsten Hellmann.
