

Wiztrust awarded 10 G2 Badges for Summer 2025, confirming its leadership across Press Release Distribution and Online Newsroom software categories

Paris (France), 29th July 2025 –

[Wiztrust](#), the secure communication and PR platform (PRM), has been awarded 10 prestigious badges in G2's Summer 2025 report. These recognitions include top scores in **Enterprise** and **Mid-Market** categories for [Press Release Distribution Software](#) and [Online Newsroom Software](#). This strong performance confirms Wiztrust's position as a best-in-class solution for organizations managing sensitive and high-impact communications **for public relation and investor relation teams**.

A complete recognition across segments

In the [Enterprise Press Release Distribution Software Grid](#), Wiztrust is recognized as a **High Performer**, ahead of platforms such as **AccessWire**, **Presspage**, **Prowly**, and **PRgloo**, which remain in Niche or Contender positions. This recognition highlights Wiztrust's reliability and high satisfaction among corporate clients and the quality of its distribution partnership (like the one with Globenewswire)

In the [Mid-Market Press Release Distribution Grid](#), Wiztrust once again earns the **High Performer** badge, outperforming notable competitors such as **Muck Rack**, **eReleases**, **Prezly**, and **PRLog**. These vendors have yet to match Wiztrust's combination of client satisfaction and market momentum.

Wiztrust is also listed as a **High Performer in Europe**, setting it apart from U.S.-focused platforms which are still building relevance in the European market in part due to the legal and compliance standards that are highest (GDPR included). Wiztrust's multilingual support help it address the needs of communication teams across the world.

The only French platform among top Online Newsroom solutions

In the [Online Newsroom Grid \(all company sizes\)](#), Wiztrust is one of only two platforms recognized as a **High Performer**, alongside AccessWire. All other solutions—including **Meltwater**, **Prowly**, **Prezly**, and **Presspage**—remain in Niche or Contender categories. Wiztrust's newsroom technology stands out for its integration, usability, and seamless content certification capabilities. It outperforms competitors in terms of SEO and GEO.

Unmatched support and client relationship

Wiztrust received **Best Support** and **Best Relationship** awards across multiple categories:

- Best Support – Overall
- Best Support – Enterprise
- Best Support – Mid-Market
- Best Relationship – Enterprise

Wiztrust also received the **Momentum Leader** badge, acknowledging its rapid adoption, customer satisfaction growth, and strong innovation trajectory internationally.

About Wiztrust

Wiztrust (formerly known as Wiztopic) is the leading all-in-one platform for **PR management** and **blockchain-based information certification**.
