

Casino Group Communication

Paris, 01 February 2023

In response to rumours in the press, the Casino group confirms that it has begun exploratory discussions with TERACTION that could lead to the combination of the two groups' distribution activities in France within a single entity controlled by Casino, and to the establishment of a newly created entity controlled by TERACTION shareholders that would be responsible in particular for the supply of agricultural, local and short-cycle products.

Discussions are at a preliminary stage and there can be no certainty that any transaction will be concluded.
