### **Green Hydrogen Systems in Brief**

Green Hydrogen Systems is a clean technology company and a leading provider of standardised, modular electrolysers to produce green hydrogen based on renewable energy. Green hydrogen plays a crucial role in the ongoing fundamental shift in energy systems towards net-zero emission in 2050. Founded in 2007 and building on years of technology development, Green Hydrogen Systems has a commercially proven and cost-competitive electrolysis technology endorsed by leading green energy companies.
