Company Announcement no. 6

### **RIAS A/S suspends outlook for the financial year 2019/20**

RIAS A/S's confirmed in the interim report dated 29.01.2020, the financial outlook for the accounting year 2019/20 with an EBIT level of DKK 8,5 – 10 million. This expectation was based on an unchanged market environment.

However, based on the COVID-19 outbreak worldwide, and the governments consequent lock down of wide areas of the society, makes the consequences hereof and the visibility in the market unpredictable.

Based on this background RIAS A/S has decided to suspend the earlier announced expectations to the yearly result of the financial year 2019/20.

Sales and financial performance has so far been good and on a level according to the plan.

The situation is monitored closely, contingency plans are in place and all relevant precautions are taken for the business and the RIAS employees.

RIAS A/S will provide an updated outlook for 2019/20 when there is greater clarity on the Corona virus' impact on markets and demand, and we expect to do so at the latest in connection with the interim report in August 2020.

Med venlig hilsen  
RIAS A/S
