

Novonosis at a glance

Novonosis is leading the era of biosolutions. By leveraging the power of microbiology with science, we transform the way the world produces, consumes and lives. In more than 30 industries around the world, our biosolutions are already creating value for thousands of customers and benefiting the planet. Our 10,000 people worldwide work closely with our partners and customers to transform business with biology.

Let's better our world with biology.

Our biosolutions address global challenges

We use biosolutions...

Enzymes

Proteins

Cultures

Probiotics

Yeast

Human milk oligosaccharides (HMOs)

...to create an impact by

...reducing food waste by extending the shelf life of dairy products

...securing more food for a growing population by making plants and crops more robust and enabling more sustainable proteins

...saving millions of tons of CO₂ by turning waste and plants into a range of end products, including low-carbon fuels

...helping people live healthier for longer, with scientifically researched and clinically tested biosolutions for a stronger body and mind

...making clothes look new and last longer, while reducing the environmental footprint of detergents
