Bekaert publishes its Integrated Annual Report

Bekaert's Integrated Annual Report 2022 provides material information on Bekaert for the year ending 31 December 2022. It offers a comprehensive view on how we create value for our stakeholders through the progress we make on financial and non-financial performance indicators. The report is produced in accordance with IFRS and GRI standards, the obligations applicable to issuers of financial instruments admitted for trading on a regulated market, and guidelines of the Non-Financial and Corporate Sustainability Reporting Directive. Our approach puts the value and impact we create, as a company, in a broader perspective: beyond reporting, beyond financials, beyond tomorrow.

You may notice something different about Bekaert in this report: we have launched our new ambition and purpose and with this comes a new visual identity that represents our brand in a way that unites our heritage with a new boldness. It is the start of a new chapter in our long history, with an ambitious value proposition, clear commitments in leading with a purpose, and a bold new brand style.

The report is available in English and Dutch.

About Bekaert

Bekaert's ambition is to be the leading partner for shaping the way we live and move, and to always do this in a way that is safe, smart, and sustainable. As a global market and technology leader in material science of steel wire transformation and coating technologies, Bekaert ([bekaert.com](https://www.bekaert.com)) also applies its expertise beyond steel to create new solutions with innovative materials and services for markets including new mobility, low-carbon construction, and green energy. Founded in 1880, with its headquarters in Belgium, Bekaert (Euronext Brussels, BEKB) is a global company whose 27 000 employees worldwide together generated almost € 7 billion in combined revenue in 2022.
