New Step in Delen Private Bank's international growth
with the Opening of a New Office in Zurich

Delen Suisse, part of the Delen Private Bank group, announces the opening of a new office in Zurich. It is the bank's second location in Switzerland, following the opening of its Geneva office in 1996. With this expansion, Delen Private Bank strengthens its presence in one of Europe's leading financial centres. Zurich represents a logical next step in the group's international growth strategy.

The opening of this second office is fully aligned with Delen Private Bank Group's strategy of staying close to its clients in each of its markets. This local presence enhances the quality of client relationships, a key factor in long-term wealth management and wealth planning decisions. The new office will enable Delen Suisse to further expand its services for a broad client base in the Zurich region, including a growing community of Belgian and Dutch expats.

Michel Buysschaert, CEO van Delen Private Bank : *"In a highly competitive market, Delen Suisse distinguishes itself through a clear and deliberately focused approach: disciplined discretionary wealth management, an integrated vision of wealth planning, and an organisation in which wealth management and wealth planning go hand in hand. Over the past few years, we have seen our activities in the Zurich region grow significantly. Thirty years after opening our first office in Switzerland, in Geneva, we are proud to open this second location today."*

In 2026, the Delen Private Bank Group celebrates its 90th anniversary. For many years, the bank has pursued a strategy of sustainable growth, built on a long-term vision, close client relationships and a consistent investment philosophy. The opening of the Zurich office confirms this growth momentum and underlines the group's continued international ambitions.
