

## **CNH Industrial named as Industry Leader in the Dow Jones Sustainability Indices for the ninth consecutive year**

London, September 17, 2019

CNH Industrial (NYSE: CNHI /MI: CNHI) is the Industry Leader in *Machinery and Electrical Equipment* in the Dow Jones Sustainability Indices (DJSI), World and Europe, for the ninth consecutive year.

The DJSI World and DJSI Europe are among the most prestigious sustainability-focused equity indices. Inclusion in these indices is exclusively for companies that are judged as exemplary in terms of their economic, environmental and social performance. This year, the DJSI World evaluation process invited 86 companies to participate in the *Machinery and Electrical Equipment* industry category, 11 of which were admitted to the index. For the DJSI Europe Index, 30 companies were invited to participate and 6 were admitted.

The 2019 assessment resulted in a score of 88/100 for CNH Industrial, compared to an average of 79/100 for the companies included in the DJSI World and Europe for the *Machinery and Electrical Equipment* industry. All companies selected for consideration in the indices are evaluated by SAM, the business unit within RobecoSAM, which specializes in providing Environmental, Social, and Governance (ESG) data, ratings, and benchmarking.

CNH Industrial received the highest score in the areas of: Environmental Policy & Management System, Operational Eco-Efficiency (environmental dimension) as well as Social Reporting, Human Rights and Human Capital Development (social dimension), Code of Business Conduct and Supply Chain Management (economic dimension).

Hubertus Mühlhäuser, Chief Executive Officer, stated: "This result is further confirmation that we are on the right path. Sustainability is a common denominator of our 'Transform 2 Win' strategy, which we announced at our recent Capital Markets Day, and is thoroughly consistent with our strategic purpose of 'Powering Sustainable Transformation'".

"Sustainability initiatives are embedded in all areas of our business," said Max Chiara, Chief Financial Officer and Chief Sustainability Officer, CNH Industrial. "Some examples include active engagement in reducing CO<sub>2</sub> emissions associated with our manufacturing processes, logistics, and the usage of our vehicles as well as our decarbonization strategy to shift towards a more environmentally-friendly product portfolio."
