

Réside Etudes Selects Aimie, an AI Coworker Built to Strengthen Finance Performance

July 29 2026 | Réside Etudes, a leading French operator of serviced residences, has selected Aimie, an autonomous artificial intelligence agent specialized in cash collection. Developed by Sidetrade, a global leader in AI-powered Order-to-Cash applications, Aimie engages directly with customers, qualifies invoices, and autonomously optimizes collection strategies.

The decision reflects operational reality for decentralized finance teams managing high transaction volumes across a large portfolio of properties. Traditional collection methods, whether manual or partially outsourced, struggle to maintain consistent coverage and responsiveness. Agentic AI provides a scalable, structural answer to this capacity constraint.

Against this backdrop, Réside Etudes is turning to Aimie to implement a new operating model. Aimie transforms the Order-to-Cash function, traditionally scripted and confined to the back office, into an autonomous, self-optimizing system.

Purpose-built for corporate finance and backed by [Sidetrade's Data Lake](#), Aimie brings contextual intelligence to every interaction through:

- **Autonomous, context-aware calls**
- **Continuous learning** from payment behaviors and real-time interactions to personalize conversations
- **Native integration with the Sidetrade platform**, automatically updating Order-to-Cash strategies and dispute management, without human intervention

Aimie is designed to deliver consistent policy-aligned execution at scale. The agent is expected to generate measurable cash flow gains, significantly reduce manual workload, and enable finance teams to focus on higher-value priorities.

About Sidetrade (www.sidetrade.com)

Sidetrade (Euronext Growth: ALBFR.PA) is an AI company redefining how enterprises secure and accelerate cash flow. At the core of its applications is Aimie, Sidetrade's agentic AI, trained on more than \$8 trillion in B2B transactions. Powered by a [proprietary Order-to-Cash Data Lake](#) and domain expertise, Aimie continuously learns and operates autonomously across the Order-to-Cash. This coworker drives agility, informs decision-making, and ensures reliable execution. Aimie enables finance, sales, and customer-facing teams to unlock working capital and strengthen resilience. Sidetrade supports businesses in 85 countries and employs 450 people across North America, Europe and Asia-Pacific.
