Kvika

Kvika offers diversified financial and insurance services through five business segments: Commercial Banking, Corporate Banking & Capital Markets, Insurance, Asset Management and UK operations. The business segments Insurance, Asset Management and UK are operated in the subsidiaries TM tryggingar hf., Kvika eignastýring hf. and Kvika Securities Ltd.

Kvika's purpose is to increase competition and simplify customers' finances by utilizing its infrastructure and financial strength. Kvika's vision is to transform financial services in Iceland with mutual benefits in mind. On that journey, Kvika is guided by its values that contribute to the development of robust business relationships, long-term results, and active innovation.

Kvika has grown considerably in recent years, both through M&A activity as well as through organic growth in all operating segments.

Endorsement and Statement
by the Board of Directors and the CEO

These are the Condensed Interim Consolidated Financial Statements of Kvika banki hf. ("Kvika" or the "Bank") and its subsidiaries (together the "Group") for the period 1 January to 30 June 2023.

About the Bank

Kvika's core values are long-term thinking, simplicity, and courage. The Group focuses on fostering long-term relationships with its customers by providing high-quality and efficient financial services in core areas.

Kvika has grown significantly in recent years and operates under several brands. The main brands, apart from Kvika, are TM, Kvika Asset Management, Lykill, Auður, Netgíró, Aur and Ortus Secured Finance. Kvika's subsidiary Straumur, received an operating licence from the Central Bank of Iceland at the end of March and subsequently started onboarding of its customers in May. The establishment of Straumur is an exciting addition to Kvika's operations but Straumur offers all the main solutions for payment processing, including in store and web solutions, as well as introducing innovations in the payment processing market in the near to medium term. Kvika launched a campaign for the updated AUR mobile app in the beginning of August. The introduction of the updated AUR app, which amongst other offers customers access to current account and credit cards marks Kvika's continued foray into consumer banking.

The Group provides businesses, investors and individuals with comprehensive investment banking, insurance services and asset management services, as well as selected banking services. At the end of June 2023 the Group had ISK 457 billion of assets under management, compared to ISK 462 billion at year end 2022. The Bank is listed on the main list of Nasdaq OMX Iceland.

Operations during the first half of 2023

Profit before taxes for the period amounted to ISK 2,684 million (6m 2022: ISK 2,167 million), corresponding to an annualised 12.4% return on weighted tangible equity, based on the tangible equity position at the beginning of the year adjusted for changes in share capital and transactions with treasury shares during the period.

The global economy has remained resilient and the outlook has improved in recent months after turbulence earlier in the year due to amongst other Covid lockdowns in China and an averted banking crisis in the US and Switzerland. Despite the improved outlook for the global economy it remains weak by historical standards as the rise in Central bank rates to fight inflation continues to weigh on economic growth worldwide.

The Icelandic economy has been strong in 2023 and the Central Bank now expects GDP growth to be 4.8% this year, driven by growth in the tourism sector and strong growth in domestic demand. Central bank interest rates in Iceland and internationally continued on an upward trajectory due to persistent core inflation. Global equity markets were strong and the S&P 500 equity index gained 8% during the quarter. The Icelandic equity market was challenging with the OMXI10 index declining by 10% in the second quarter.

The Group's net operating income during the period was ISK 8,426 million (6m 2022: ISK 7,123 million). Net interest income amounted to ISK 4,347 million (6m 2022: ISK 3,426 million). Net fee income amounted to ISK 3,085 million (6m 2022: ISK 3,219 million). Insurance service results amounted to ISK 235 million (6m 2022: ISK 174 million). Other operating income amounted to ISK 759 million (6m 2022: ISK 304 million). Administrative expenses during the period amounted to ISK 5,713 million (6m 2022: ISK 4,836 million). During the period, the Group had a net impairment charge of ISK 29 million (6m 2022: ISK 96 million). The Group initially adopted IFRS 17 on 1 January 2023, reference is made to note 3 for information on the impact of the standard on the Consolidated Financial Statements.

The figures in the consolidated income statement for the period in 2022 do not include the operations of Ortus Secured Finance ltd. ("Ortus") for January and February 2022 as the business combination took place at end of February. Reference is made to the Consolidated Financial Statements for 2022 for further information on the business combination.

Balance sheet

According to the Consolidated Statement of Financial Position, equity at the end of the period amounted to ISK 80,698 million (31.12.2022: ISK 81,089 million) and total assets amounted to ISK 330,259 million (31.12.2022: ISK 299,670 million).

The Group's statement of financial position grew by ISK 31 billion or 10.2% in the period in 2023. Loans to customers grew by ISK 11.6 billion or 10.8% during the period. Liquid assets amount to ISK 128 billion at end of the period in 2023 or 39% of total assets.

Discontinuation of merger negotiations with Íslandsbanki hf.

In June 2023 the board of directors of Kvika announced that it had decided to discontinue the merger negotiations with Íslandsbanki hf. The decision was taken in light of the events which followed the publication of a report from the FME on its inspection into the execution of the offering by the Icelandic State of a 22.5% stake in the share capital of Íslandsbanki hf. and the fact that it was decided to call for a shareholder meeting at Íslandsbanki hf., where an election for the board of directors would take place. However, it is the opinion of the board of directors of Kvika that the benefits of a merger of the companies could be significant. Kvika's board will continue to keep an eye out for opportunities in the financial market.

Endorsement and Statement
by the Board of Directors and the CEO

Capital adequacy and dividends

Kvika's total capital requirement at 30.06.2023, taking into account all capital buffers, amounted to 18.7%. Kvika's capital adequacy ratio was 23.1% at end of June 2023 (31.12.2022: 23.5%). Kvika's CET1 requirement was 13.5% compared to a CET1 ratio of 20.9% at end of June 2023.

The Group's solvency ratio at 30.06.2023 was 1.24, (31.12.2022: 1.36) with a regulatory minimum requirement of 1.0.

The Bank's 2023 Annual General Meeting ("AGM") approved a motion from the Board of Directors ("BOD") permitting the Bank to purchase up to 10% of own shares subject to regulatory approvals. This authorisation applies until the next annual general meeting in 2024. In June, the BOD decided to exercise a part of that authorisation and established a buy-back programme to carry out the purchase of shares for total consideration amount of ISK 1 billion but for no higher nominal amount that 60,000,000 shares.

The AGM also approved a motion from the BOD to, subject to approval from the Financial Supervisory Authority of the Central Bank of Iceland, decrease the share capital of the Bank by 147,871,265 shares by cancelling treasury shares held by the Bank. Furthermore, the AGM also approved a motion from the BOD to pay a dividend to shareholders of 0.4 ISK per share or ISK 1,912 million, taking into account treasury shares held by the Group. In April 2023, the share capital reduction and the dividend payment were carried out.

Risk management

The objective of risk management is to promote a good and efficient culture of risk awareness within the Group and to increase the understanding of employees and management on the Group's risk taking, in addition to an assessment process related to risk and capital position. An emphasis is placed on being up to speed on the latest developments and adoption of rules related to risk management, such as regarding capital- and liquidity management. The Group is faced with various kinds of risk that relate to its operations as a financial conglomerate and arise from its day-to-day operations. An active risk management entails analysing risk, measuring it and taking actions to limit it, as well as monitoring risk factors across the Group. The Group's risk management, and its main operations, are described in the notes accompanying the Consolidated Financial Statements. Refer to notes 41-57 on analysis of exposure to various types of risk.

Statement by the Board of Directors and the CEO

The Condensed Interim Consolidated Financial Statements of Kvika banki hf. for the period 1 January to 30 June 2023 have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the EU, and additional requirements, as applicable, in the Act on Annual Accounts no. 3/2006, the Act on Financial Undertakings no. 161/2002 and rules on accounting for credit institutions no. 834/2003.

To the best of our knowledge these Condensed Interim Consolidated Financial Statements give a true and fair view of the Group's assets, liabilities and financial position as at 30 June 2023 and the financial performance of the Group and changes of cash flows for the period 1 January to 30 June 2023. Furthermore, in our opinion the Condensed Interim Consolidated Financial Statements and the Endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describe the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO of the Bank have today discussed the Condensed Interim Consolidated Financial Statements for the period 1 January to 30 June 2023, and confirm them by the means of their signatures.

Reykjavík, 17 August 2023.

Board of Directors:

Sigurður Hannesson, Chairman

Guðmundur Þórðarson, Deputy Chairman

Helga Kristín Auðunsdóttir

Ingunn Svala Leifsdóttir

Guðjón Reynisson

Chief Executive Officer

Marinó Örn Tryggvason

The Condensed Interim Consolidated Financial Statements of Kvika banki hf. for the period ended 30 June 2023 are electronically certificated by the Board of Directors and the CEO.

Review Report on the Condensed Interim Consolidated Financial Statements

To the Board of Directors and Shareholders of Kvika banki hf.

We have reviewed the accompanying Condensed Consolidated Interim Statement of Financial Position of Kvika banki hf. and its subsidiaries (the "Group") as of 30 June 2023 and the related Condensed Consolidated Interim Income Statement, Condensed Consolidated Interim Statement of Comprehensive Income, Condensed Consolidated Interim Statement of changes in equity and Condensed Consolidated Interim Statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

Management's and the Board of directors Responsibility for the Condensed Consolidated Financial Statements

The board of directors and management is responsible for the preparation and fair presentation of this Condensed Consolidated Interim Financial Statements in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the European Union and additional requirements in the Icelandic Financial Statement Act., Act on financial undertakings and icelandic accounting regulation for financial institution.

Auditor's Responsibility

Our responsibility is to express a conclusion on this Condensed Consolidated Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements, ISRE 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Condensed Consolidated Interim Financial Statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Consolidated Interim Financial Statements does not give a true and fair view of the financial position of the Group as at 30 June 2023, and of its financial performance and its cash flows for the six-month period then ended in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the European Union and additional requirements in the Icelandic Financial Statement Act., Act on financial undertakings and icelandic accounting regulation for financial institution.

Our opinion in this report on the consolidated interim financial statements is consistent with the content of the additional report that has been submitted to the company´s audit committee in accordance with the EU Audit Regulation 537/2014 Article 11.

Confirmation of Endorsement and Statement by the Board of Directors and the CEO

Pursuant to the requirements of Paragraph 2 Article 104 of the Icelandic Act on Financial Statements No. 3/2006, we confirm to the best of our knowledge that the accompanying Endorsement and Statement by the Board of Directors and the CEO includes all information required by the Icelandic Act on Financial Statements that is not disclosed elsewhere in the Condensed Consolidated Interim Financial Statements.

Kópavogur, 17 August 2023.

Notes to the Condensed Interim Consolidated Financial Statements

Notes to the Condensed Interim Consolidated Financial Statements

General information

1. Reporting entity

Kvika banki hf. ("Kvika" or the "Bank") is a limited liability company incorporated and domiciled in Iceland, with its registered office at Katrínartún 2, Reykjavík. The Bank operates as a bank based on Act No. 161/2002, on Financial Undertakings, and is supervised by the Financial Supervisory Authority of the Central Bank ("FME"). The Group, comprised of Kvika and its subsidiaries, has been designated by the FME as a financial conglomerate as defined in Article no. 3 of Act no. 61/2017 on Additional Supervision of Financial Conglomerates.

The Condensed Interim Consolidated Financial Statements for the period ended 30 June 2023 comprise Kvika banki hf. and its subsidiaries (together referred to as the Group). As disclosed in December 2022, and discussed in the Consolidated Financial Statements for 2022, changes were made to the Group's operating segments which took effect on 1 January 2023. The Group operates five business segments, Asset Management, Corporate Banking, Insurance Services, Corporate Banking and Capital Markets and UK operations. The Group provides businesses, investors and individuals with comprehensive investment banking, insurance services and asset management services as well as selected banking services.

The Condensed Interim Consolidated Financial Statements were approved and authorised for issue by the Board of Directors and the CEO on 17 August 2023.

2. Basis of preparation

a. Statement of compliance

The Condensed Interim Consolidated Financial Statements have been prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting, as adopted by the European Union and additional requirements, as applicable, in the Act on Annual Accounts no. 3/2006, the Act on Financial Undertakings no. 161/2002 and rules on accounting for credit institutions no. 834/2003.

The Condensed Interim Consolidated Financial Statements do not include all of the information required for full Consolidated Financial Statements, and should be read in conjunction with the Group's Consolidated Financial Statements for the financial year ending 31 December 2022, which are available at www.kvika.is.

b. Basis of measurement

The Condensed Interim Consolidated Financial Statements have been prepared using the historical cost basis except for the following:

- fixed income securities are measured at fair value;
- shares and other variable income securities are measured at fair value;
- securities used for hedging are measured at fair value;
- certain loans to customers which are measured at fair value;
- derivatives are measured at fair value;
- investment properties are measured at fair value;
- certain receivables are measured at fair value;
- shared based payment is accounted for in accordance with IFRS 2;
- contingent consideration is measured at fair value;
- short positions are measured at fair value; and
- insurance contract liabilities are measured in accordance with IFRS 17.

c. Functional and presentation currency

The Condensed Interim Consolidated Financial Statements are prepared in Icelandic Krona (ISK), which is the Group's functional currency. All financial information has been rounded to the nearest thousand, unless otherwise stated.
The Group's assets and liabilities which are denominated in other currency than ISK are translated to ISK using the exchange rate as at the end of day 30 June 2023.

d. Going concern

The Bank's management has assessed the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue its operations.

e. Estimates and judgements

The preparation of interim financial statements in accordance with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are based on historical result and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

Information about areas of estimation uncertainty and critical judgements made by management in applying accounting policies that can have a significant effect on the amounts recognised in the Condensed Interim Consolidated Financial Statements, is provided in the Consolidated Financial Statements as at and for the year ended 31 December 2022.

f. Relevance and importance of notes to the reader

In order to enhance the informational value of the Consolidated Financial Statements, the notes are evaluated based on relevance and importance for the reader. This can result in information, that has been evaluated as neither important or relevant for the reader, not being presented in the notes.

Notes to the Condensed Interim Consolidated Financial Statements

3. Changes in accounting policies

On 1 January 2023 the Group adopted IFRS 17 and hedge accounting according to IFRS 9 and IAS 39. The sections below explain in further details the change for both adoptions.

Hedge accounting

The Group adopted hedge accounting according to IAS 39, in line with exemption from IFRS 9. The purpose of the hedge accounting is to hedge against exchange difference on translation of foreign operations. Derivatives are used as a hedging instruments against translation of foreign operations in equity.

The Group documents the relationship between the hedge instrument and hedged item on initial recognition. An efficiency test is performed according to IAS 39 to determine if the hedge relationship is effective. The results of the efficiency test must be in the range of 80-125% to be considered effective.

If the hedge relationship does not meet the above criteria due to inefficiency, the foreign currency exchange difference is recognised in the consolidated income statement instead of equity. If the derivative instrument is sold, expires, terminated or exercised in the period that the hedge relationship is in place, the hedge relationship becomes ineffective and hedge accounting is ceased.

IFRS 17, Insurance contracts

The Group has initially applied IFRS 17, including any consequential amendments to other standards, from 1 January 2023, replacing IFRS 4 Insurance contracts. This standard has brought changes to the accounting for insurance and reinsurance contracts. As a result, the Group has restated certain comparative amounts.

The nature and effects of the key changes in the Group’s accounting policies resulting from its adoption of IFRS 17 is summarised below.

Recognition, measurement and presentation of insurance contracts

IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts, reinsurance contracts and investment contracts with discretionary participation features. It introduces a model that measures groups of contracts based on the Group’s estimates of the present value of future cash flows that are expected to arise as the Group fulfils the contracts, an explicit risk adjustment for non-financial risk.

Under IFRS 17, insurance revenue in each reporting period represents the changes in the liabilities for remaining coverage that relate to services for which the Group expects to receive consideration and an allocation of premiums that relate to recovering insurance acquisition cash flows. In addition, investment components are no longer included in insurance revenue and insurance service expenses.

As the Group insurance service is mainly based on non-life insurance and term life, which is relatively short-tailed, the Group applies the premium allocation approach (PAA) to simplify the measurement of contracts. The PAA is similar to previous accounting apart from liability arising from premiums, which is now only due to prepaid premiums and will be denoted as liability for remaining coverage. Liability for incurred claims is based on the best estimate of incurred claims as before in addition to a liability due to premium discounts and unpaid operational expenses allocated to insurance . Risk adjustment replaces the previous risk margin in IFRS 4 and represents the uncertainty about the amount and timing of cash flow from incurred but unpaid insurance expenses. The Group will maintain a confidence level of around 75% on the best estimate of claims incurred. Insurance contract liabilities under IFRS 17 consists of the liability of remaining coverage, liability of incurred claims and a risk adjustment. Reinsurance contract assets under IFRS 17 consists of reinsurance contract assets for remaining coverage (pre-paid reinsurance premium), amounts recoverable from reinsuers on incurred claims and the reinsurance share in the risk adjustment.

IFRS 17 introduces a different presentation of the income statement compared to IFRS 4. Insurance revenue is the amount recognised for insurance services in the period and is similar to the previous measurement of gross unearned premium except that discounts and rebates are now included in the insurance service expenses which includes both the claims costs and operational expenses attributable to insurance operations. Insurance service expenses also includes acquisition costs, which are expensed as they occur, as well as premium discounts.

Net expenses from reinsurance contracts include reinsurance premiums, recoveries from reinsurance contracts and contractual rebates from reinsurers.

The insurance service result is the result of insurance revenue, insurance service expenses and net expenses from reinsurance contracts.

Transition

Changes in accounting policies resulting from the adoption of IFRS 17 have been applied using a full retrospective approach. Under the full retrospective approach, at 1 January 2022 the Group:

- Identified, recognised and measured each group of insurance and reinsurance contracts as if IFRS 17 had always been applied;
- recognised any resulting net difference in equity. The carrying amount of goodwill from previous business combinations was not adjusted.

Notes to the Condensed Interim Consolidated Financial Statements

Effect on the statement of financial position

The largest change to the Group’s statement of financial position is that instead of the current premium provision, which is a large part of the insurance provision, there is now only a liability equal to premiums received, i.e. liability for remaining coverage. The Group has decided to charge acquisition costs as they occur instead of amortising over the contract period. The provision only applies to premiums received and therefore no accounts receivables are formed on the asset side of the statement of financial position (a part of the Group’s other assets) related to the premiums for the remaining period of the contracts. The effects of this are similar to the effects of subtracting accounts receivables for premiums from the current premium reserve.

Other changes include the inclusion of liability for unpaid operational expenses allocated to insurance in the liability of incurred claims and the evaluation of the Risk Adjustment, both gross and reinsurers share, which is different to the previous calculation of Risk Margin in IFRS4.

The table below shows the effect of implementation on the Consolidated Statement of Financial Position at 1 January 2022:

	31.12.2021 IFRS 4	Impact of IFRS 17	01.01.2022 IFRS 17
Assets:			
Reinsurance assets	749,383	(749,383)	0
Reinsurance contract assets	0	806,442	806,442
Other assets	10,042,553	(3,147,087)	6,895,466
All other assets	235,447,885	0	235,447,885
Total assets	246,239,821	(3,090,028)	243,149,793
Liabilities and Equity:			
Technical provisions	22,434,447	(22,434,447)	0
Insurance contract liabilities	0	19,597,840	19,597,840
Other liabilities	6,677,507	(152,135)	6,525,372
Retained earnings	13,696,745	(101,285)	13,595,460
All other liabilities and equity	203,431,121	0	203,431,121
Total liabilities and equity	246,239,821	(3,090,028)	243,149,793

Effect on the income statement

IFRS 17 for insurance contracts states that insurance service expense should include incurred claims and other incurred insurance service expenses which include overheads classified as operating cost in the Group's income statement. The Group presents insurance revenue in accordance with IFRS 17 in the consolidated income statement.

The below line items have been restated in the Condensed Interim Consolidated Income Statement:

	6m 2022 IFRS 4	Impact of IFRS 17	6m 2022 IFRS 17
Net premiums and claims	1,695,990	(1,695,990)	0
Insurance service results	0	173,718	173,718
Other operating income	446,307	(51,087)	395,219
Administrative expenses	(6,409,844)	1,573,359	(4,836,484)
Profit for the period	1,732,329	0	1,732,329

Notes to the Condensed Interim Consolidated Financial Statements

Segment information

4. Business segments

Segment reporting is based on the same principles and structure as internal reporting to the CEO and the Board of Directors. Segment performance is evaluated on profit before tax.

Reportable segments

As disclosed in December 2022, and discussed in the Consolidated Financial Statements for 2022, changes were made to the Group's operating segments which took effect on 1 January 2023. The specialised financing operations of the Commercial Banking division, along with the Investment Banking division, now form a new revenue division, Corporate Banking and Capital Markets. During the period 1 January to 30 June 2023, the Group defined five reportable operating segments; Insurance, Asset Management, Commercial Banking, Corporate Banking and Capital Markets and UK operations. The figures for the period in 2023 reflect the operating segment structure that was in place during that period and comparison amounts for the previous period have been restated accordingly.

- Insurance
  The TM insurance group offers its customers comprehensive insurance services, including life insurance.
- Asset Management
  Products and services offered include asset management involving both domestic and foreign assets, private banking, and private pension plans. The management of a broad range of mutual funds, investment funds and institutional investor funds is include in this segment through the operations of Kvika eignastýring hf. and Gamma Capital Management hf.
- Commercial Banking
  Commercial Banking offers various forms of banking services and related advisory services. Included in this operating segment is Lykill, the leasing operations of the Group, and the Group's fintech operations, such as Auður, Netgíró and Aur, as well as the payment facilitation operations of Straumur greiðslumiðlun hf.
- Corporate Banking and Capital Markets
  Corporate Banking & Capital Markets provide a range of professional services in the fields of specialised financing, securities and foreign exchange transactions and corporate finance services. The functions of Market Making and Treasury are also included in the segment although they are a part of Kvika's Finance division.
- UK operations
  The UK operations consist of asset management and corporate finance services through Kvika Securities Ltd. and specialised lending services through Ortus Secured Finance Ltd.
  UK operations is the only geographic area outside of Iceland and accounts for 5.0% (6m 2022: 3.8%) of net operating income.

Supporting units consist of the functions carried out by the Bank's support divisions, such as Risk Management, Finance, IT and Operations, etc. The information presented relating to the supporting units does not represent an operating segment.

6m 2023	Insurance	Asset Management	Commercial Banking	Corporate Banking & Capital Markets	UK operations	Supporting units	Total
Net interest income	505,958	3,296	1,687,434	1,927,282	253,213	(30,584)	4,346,599
Net fee and commission income	29,499	1,305,704	593,124	945,481	195,743	15,144	3,084,694
Insurance service, excl. administrative exp.	2,183,861	-	-	-	-	-	2,183,861
Net financial income (expense)	(278,728)	33,813	(689)	608,209	73,284	0	435,889
Share in profit of associates	(9)	4	17,328	-	-	-	17,323
Other operating income	88,070	7,411	181,073	(6,252)	(549)	54,446	324,200
Net operating income	2,528,652	1,350,229	2,478,271	3,474,720	521,690	39,005	10,392,567
Salaries and related expenses	(911,960)	(546,504)	(378,292)	(565,417)	(270,989)	(1,635,774)	(4,308,936)
Other operating expenses	(818,197)	(48,309)	(802,995)	(172,912)	(291,743)	(1,236,481)	(3,370,637)
Administrative expenses	(1,730,157)	(594,813)	(1,181,287)	(738,329)	(562,732)	(2,872,255)	(7,679,573)
Net impairment	11,225	-	(60,203)	7,567	12,905	-	(28,506)
Cost allocation	(642,057)	(488,608)	(786,008)	(696,751)	(165,215)	2,778,639	-
Profit (loss) before tax	167,663	266,808	450,773	2,047,207	(193,353)	(54,610)	2,684,488
Net segment revenue from external customers	2,460,437	1,356,489	962,141	4,386,143	1,188,349	39,008	10,392,567
Net segment revenue from other segments	68,215	(6,261)	1,516,131	(911,423)	(666,659)	(3)	0

In its internal reporting, the Group presents the sum of insurance revenue, incurred claims and net expense from reinsurance contracts held as part of its net operating income, while administrative expenses related to insurance service are presented along with administrative expenses of other business segments.

Income statement

5. Net interest income

Interest income is specified as follows:

	6m 2023	6m 2022
Cash and balances with Central Bank	830,905	295,472
Derivatives	875,638	656,833
Loans to customers	6,975,549	4,191,524
Fixed income securities (FVOCI)	2,184,529	636,777
Other interest income	147,375	635,965
Total	11,013,996	6,416,570

Interest expense is specified as follows:

	6m 2023	6m 2022
Deposits	3,572,173	888,172
Borrowings	993,241	531,889
Issued bonds	1,628,039	1,193,775
Subordinated liabilities	305,077	284,924
Derivatives	112,372	24,014
Other interest expense*	56,494	67,617
Total	6,667,397	2,990,390
Net interest income	4,346,599	3,426,180

* Thereof are lease liabilities' interest expense amounting to ISK 31 million (6m 2022: ISK 40 million).

Total interest income recognised in respect of financial assets not carried at fair value through profit or loss amounts to ISK 7,858 million (6m 2022: ISK 5,017 million). Total interest expense recognised in respect of financial liabilities not carried at fair value through profit or loss amounts to ISK 6,555million (6m 2022: ISK 2,966 million).

6. Net fee and commission income

Fee income and expenses are presented on a net fee basis, as presented in internal reporting to management for decision making purposes, and broken down by business segments. The business segments are representative of the nature and types of activity from which the Group generates fee income from. A description of each business segment is provided in note 4. As discussed in that note, the Group changed the structure of its internal reporting and reportable segments, taking effect on 1 January 2023. The figures for the period in 2023 reflect this structure and the comparison amounts have been restated accordingly.

Net fee and commission income by business segment	6m 2023	6m 2022
Insurance	29,499	1,138
Asset Management	1,305,704	1,700,639
Commercial Banking	593,124	388,140
Corporate Banking & Capital Markets	945,481	972,183
UK operations	195,743	133,285
Supporting units	15,144	23,249
Total	3,084,694	3,218,633

7. Insurance service results

Insurance service results are specified as follows:

	6m 2023	6m 2022 *
Insurance revenue	9,395,534	8,536,260
Incurred claims	(6,889,483)	(6,597,030)
Net expense from reinsurance contracts held	(303,892)	(192,152)
Administrative expenses related to insurance service	(1,966,873)	(1,573,359)
Total	235,285	173,718
Combined ratio	97.5%	98.0%

8. Net financial income (expense)

Net financial income (expense) is specified as follows:

	6m 2023	6m 2022
Net gain (loss) on financial assets and financial liabilities mandatorily measured at fair value through profit or loss		
Fixed income securities	287,375	196,126
Financial assets at fair value through OCI	(30,445)	(95,073)
Shares and other variable income securities	69,236	(313,118)
Derivatives	407,313	(322,208)
Loans to customers	(143,758)	(3,876)
Net finance income from insurance contracts	(126,382)	219,330
Foreign currency exchange difference	(27,449)	227,703
Total	435,889	(91,115)

9. Foreign currency exchange difference

Foreign currency exchange difference is specified as follows:

	6m 2023	6m 2022
(Loss) gain on financial instruments at fair value through profit and loss	(988,196)	114,971
Gain on other financial instruments	960,747	112,732
Total	(27,449)	227,703

10. Administrative expenses

Administrative expenses are specified as follows:	6m 2023	6m 2022 *
Salaries and related expenses	4,308,936	3,581,741
Other operating expenses	2,564,344	2,112,515
Depositors' and Investors' Guarantee Fund contributions	0	19,454
Depreciation and amortisation	642,223	585,508
Depreciation of right of use asset	164,070	110,625
Total	7,679,573	6,409,844
Administrative expenses allocated to insurance operations	(1,966,873)	(1,573,359)
Total administrative expenses according to the Consolidated Income Statement	5,712,700	4,836,484

** Comparative information has been restated, reference is made to note 3 for further information.*

11. Salaries and related expenses

Salaries and related expenses are specified as follows:	6m 2023	6m 2022
Salaries	3,295,934	2,803,441
Performance based payments excluding share-based payments	86,556	(3,608)
Share-based payment expenses	40,250	52,466
Pension fund contributions	418,265	355,436
Tax on financial activity	181,922	157,520
Other salary related expenses	286,009	216,486
Total	4,308,936	3,581,741
Average number of full time employees during the period	381	340
Total number of full time employees at the end of the period	383	349

The figures for 2022 average number of full time employees do not include employees of Ortus Secured Finanace ltd. during January and February 2022. At the beginning of 2022, Ortus had 18 full time employees and Kvika and its subsidiaries had 331, or 349 in total.

According to Act No. 165/2011, passed in 2011, banks and other financial institutions providing VAT exempt services, must pay a tax based on salary payments, called tax on financial activity. The current tax rate is 5.50% (2022: 5.50%).

The amount of performance based payments that has been expensed is based on the results for the period in 2023 and the guidelines on performance based payments set forth in the Group’s remuneration policy. The performance based payments have not been allocated to any employees or business segments and are subject to approval by the Board of Directors.

12. Net impairment

	6m 2023	6m 2022
Net change in impairment of loans	(33,699)	(112,046)
Net change in impairment of other assets	11,291	21,739
Net change in impairment of loan commitments, guarantees and unused credit facilities	(6,097)	(5,930)
Total	(28,506)	(96,236)

13. Income tax

The Bank and some of its subsidiaries will not pay income tax on its profit for 2023 due to the fact that Group has a tax loss carry forward that offsets the calculated income tax. At year end 2022, the tax loss carry forward of the Group amounted to ISK 16 billion. A substantial part of the tax loss carry forward is utilisable until end of year 2028. Management is of the opinion that the Group's operations in the years to come will result in taxable results which will be offset with the tax loss carry forward. The Group has therefore recognised the tax loss carry forward as a deferred tax asset in the consolidated statement of financial position.

Income tax is recognised based on the tax rates and tax laws enacted during the current year, according to which the domestic corporate income tax rate was 20.0% (2022: 20.0%). Companies within the Group, which operate outside of Iceland, recognise income tax in accordance with the applicable tax laws in the country where they are resident.

14. Special tax on financial activity

The special tax on financial activity is an additional income tax which becomes effective when the income tax base exceeds ISK 1,000 million. It is levied on the same entities as the tax on financial activity according to Act No. 90/2003. The tax rate is set at 6.0% (2022: 6.0%) and the tax is not a deductible expense for income tax purposes. The tax is presented separately in the consolidated income statement.

15. Special tax on financial institutions

According to Act No. 155/2010 on Special Tax on Financial Institutions, certain types of financial institutions, including banks, must pay annually a tax based on the carrying amount of their liabilities as determined for tax purposes in excess of ISK 50 billion at year-end. The tax rate is set at 0.145% (2022: 0.145%) and the tax is not a deductible expense for income tax purposes. The tax is presented separately in the consolidated income statement.

16. Earnings per share

The calculation of basic earnings per share is based on earnings attributable to shareholders and a weighted average number of shares outstanding during the period. The diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Bank has issued warrants and stock options that have a dilutive effect.

	6m 2023	6m 2022
Net earnings attributable to equity holders of the Bank	1,892,806	1,704,192
Weighted average number of outstanding shares	4,780,970	4,809,706
Adjustments for warrants and stock options	0	60,935
Total	4,780,970	4,870,641
Basic earnings per share (ISK)	0.40	0.35
Diluted earnings per share (ISK)	0.40	0.35

Statement of Financial Position

17. Cash and balances with Central Bank

Cash and balances with Central Bank are specified as follows:

	30.6.2023	31.12.2022
Deposits with Central Bank	19,731,663	24,718,270
Cash on hand	9,791	22,822
Balances with banks	12,935,240	7,391,501
Foreign treasury bills	7,233,965	2,831,108
Included in cash and cash equivalents	39,910,659	34,963,701
Restricted balances with Central Bank - fixed reserve requirement	3,456,857	1,706,885
Total	43,367,516	36,670,586

The Bank holds mandatory reserve deposit accounts with the Central Bank of Iceland in compliance with the Central Bank's Rules on Minimum Reserve Requirements No. 585/2018. Under these rules the reserve requirement is divided into two parts: a fixed reserve requirement bearing no interest and an average maintenance level requirement bearing the same interest as that on deposit-taking institutions' current accounts with the Central Bank. The mandatory reserve deposit with the Central Bank and the receivables from the Central Bank are not available for the Group to use in its daily operations.

18. Fixed income securities

Fixed income securities are specified as follows:

Mandatorily measured at fair value through profit or loss	30.6.2023	31.12.2022
Listed government bonds and bonds with government guarantees	2,871,068	2,867,887
Listed bonds	5,623,867	3,456,180
Unlisted bonds	3,235,168	3,901,728
Measured at fair value through other comprehensive income		
Listed government bonds and bonds with government guarantees	45,725,745	38,347,272
Listed treasury bills	12,290,741	12,864,314
Listed bonds	4,657,591	3,723,026
Total	74,404,180	65,160,407

19. Shares and other variable income securities

Shares and other variable income securities are specified as follows:

Mandatorily measured at fair value through profit or loss	30.6.2023	31.12.2022
Listed shares	4,130,917	4,879,257
Unlisted shares	7,828,609	7,325,211
Unlisted unit shares in bond funds	5,274,332	3,040,899
Unlisted unit shares in other funds	3,305,640	4,165,141
Total	20,539,498	19,410,508

20. Securities used for hedging

Securities used for hedging are specified as follows:

	30.6.2023	31.12.2022
Listed government bonds and bonds with government guarantees	247,425	3,852,697
Listed bonds	2,518,316	896,385
Listed shares	6,180,714	8,925,858
Listed unit shares	227,791	0
Unlisted unit shares	9,439	166,914
Total	9,183,686	13,841,853

27. Operating lease assets

Operating lease assets are specified as follows:

	30.6.2023	31.12.2022
Balance as at 1 January	884,222	1,458,621
Additions	41,779	133,883
Disposals	(145,301)	(470,876)
Depreciation	(85,964)	(237,406)
Total	694,737	884,222
Gross carrying amount	1,024,855	1,505,807
Accumulated depreciation	(330,118)	(621,585)
Total	694,737	884,222

28. Other assets

Other assets are specified as follows:

	30.6.2023	31.12.2022*
Accounts receivable	5,887,951	4,675,780
Unsettled transactions	11,718,513	4,443,719
Right of use asset and lease receivables	1,471,810	1,576,582
Investments where investment risk is borne by life-insurance policyholders	122,917	121,906
Sundry assets	829,591	1,065,503
Total	20,030,781	11,883,489

** Comparative information has been restated, reference is made to note 3 for further information.*

Right of use asset and lease receivables are specified as follows:

	30.6.2023	31.12.2022
Right of use asset and lease receivables as at 1 January	1,576,582	800,087
Additions during the period	0	935,915
Termination of lease agreements	0	(26,458)
Indexation	57,675	128,709
Currency adjustments	3,188	5,247
Depreciation and lease receivable installment	(165,635)	(266,917)
Total	1,471,810	1,576,582

Right of use asset and lease receivables mostly consist of real estates for the Group's own use. The Group has entered into sublease contracts for parts of the real estates which it does not use for its operations.

29. Deposits

Deposits are specified as follows:

	30.6.2023	31.12.2022
Demand deposits	105,897,152	91,504,652
Time deposits	23,895,919	20,740,545
Total	129,793,071	112,245,198

30. Insurance contract liabilities and reinsurance contract assets

Insurance contract liabilities and reinsurance contract assets are specified as follows:

Reinsurance contract assets:	30.6.2023	31.12.2022*
Reinsurance contract assets for remaining coverage	116,391	126,913
Amounts recoverable on incurred claims	483,175	494,617
Risk Adjustment, reinsurance share	53,287	69,709
Reinsurance contract assets	652,853	691,239
Insurance contract liabilities:		
Liabilities for remaining coverage	2,530,711	1,940,406
Liabilities for incurred claims	19,387,050	18,261,793
Risk Adjustment	877,773	898,891
Insurance contract liabilities	22,795,535	21,101,090

** Comparative information has been restated, reference is made to note 3 for further information.*

Notes to the Condensed Interim Consolidated Financial Statements

31. Borrowings

Borrowings are specified as follows:

	30.6.2023	31.12.2022
Money market deposits	9,975,873	9,778,280
Secured borrowings	13,683,984	15,674,280
Other borrowings	2,280,394	2,667,449
Total	25,940,252	28,120,009

Money market deposits typically have a principal of ISK 5-500 million and maturity between 1 day and 6 months and pay fixed interest rates. Secured borrowings are in GBP and are to be paid at maturity. The borrowings mature in 2024 as well as 2028.

The Group has not had any defaults of principal, interest or other breaches with respect to its debt issued and other borrowed funds.

32. Issued bonds

Issued bonds are specified as follows:

Currency, nominal value	First issued	Maturity	Maturity type	Terms of interest	30.6.2023	31.12.2022
Unsecured bonds:						
KVB 21 01, GBP 12 million	2021	2023	At maturity	Floating, 3 month LIBOR + 2.50%	0	2,067,377
KVB 20 01, ISK 5,000 million	2020	2023	At maturity	Floating, 1 month REIBOR + 0.85%	4,647,866	4,632,806
Lykill 23 11, ISK 3,010 million	2020	2023	At maturity	Floating, 1 month REIBOR + 1.10%	2,619,395	2,600,598

33. Subordinated liabilities

a. Subordinated liabilities:

Currency, nominal value	First issued	Maturity	Maturity type	Terms of interest	30.6.2023	31.12.2022
KVB 18 02, ISK 800 million	2018	2028	At maturity	CPI-Indexed, fixed 7.50%	1,056,388	1,040,313
TM 15 1, ISK 2,000 million	2015	2045	At maturity	CPI-Indexed, fixed 5.25%	2,786,157	2,646,139
Total					3,842,544	3,686,451

At the interest payment date in the year 2023 for KVB 18 02, the Group has the right to repay the subordinated bond and on any subsequent interest payment dates until maturity.

At the interest payment date in May 2025 for TM 15 01, the annual interest rate increases from 5.25% p.a. to 6.25% p.a. At the interest payment date in May 2025 for TM 15 01, the Group has the right to repay the subordinated bond and on any subsequent interest payment dates until maturity.

Subordinated liabilities are financial liabilities in the form of subordinated capital which, in case of the Group's voluntary or compulsory winding-up, will not be repaid until after the claims of ordinary creditors have been met. In the calculation of the capital ratio, they are included within Tier 2 and are a part of the equity base. The amount eligible for Tier 2 capital treatment is amortised on a straight-line basis over the final 5 years to maturity or up to 20% a year. The Group may only retire subordinated liabilities with the permission of the FME.

b. Subordinated liabilities are specified as follows:

	30.6.2023	31.12.2022
Balance at the beginning of the year	3,686,451	3,371,766
Paid interest	(112,333)	(164,833)

37. Share capital

a. Share capital

The nominal value of shares issued by the Bank is ISK 1 per share. All currently issued shares are fully paid. The holders of shares are entitled to receive dividends as approved by the general meeting and are entitled to one vote per nominal value of ISK 1 at shareholders' meetings. Reference is made to the Bank's Articles of Association for more information about the share capital.

	30.6.2023	**31.12.2022**
Share capital according to the Bank's Articles of Association	4,781,026	4,928,897
Nominal amount of treasury shares	4,900	147,871
Authorised but not issued shares	310,000	310,000

b. Changes made to the nominal amount of share capital

During the period 1 January to 30 June 2023 the Bank's share capital was decreased by ISK 148 millon in nominal value following a resolution by the AGM to cancel treasury shares. Furthermore, during the period, the Bank has acquired treasury shares amounting to ISK 5 million in nominal value as a result of a share buy-back plan.

c. Share capital increase authorisations

According to the Bank's Articles of Association dated 30 March 2023, the Board of Directors is authorised to increase the share capital as follows:

Temporary provision III to the Articles of Association authorises the Board of Directors to issue options or warrants for up to ISK 240 million in nominal value. To serve such instruments the Board of Directors is authorised to either increase the share capital accordingly or purchase own shares, as permitted by law. This authorisation is valid until 31 March 2027.

Temporary provision II to the Articles of Association authorises the Board of Directors to increase the share capital of the Bank in stages by up to ISK 70 million in nominal value, for the purposes of fulfilling stock option agreements in accordance with the Bank's stock option plan which has been approved by Iceland Revenue and Customs as provided for in Art. 10 of the Income Tax Act, No. 90/2003. This authorisation is valid until 31 December 2024.

A copy of the Bank's Articles of Association, including the temporary provisions, is available on the Bank's website, www.kvika.is, reference is made to them for more information.

38. Solvency of a financial conglomerate

The FME has designated the Group as a financial conglomerate as defined in Article no. 3 of Act no. 61/2017 on Additional Supervision of Financial Conglomerates. As a result of this designation, the Group's capital adequacy is calculated as the solvency ratio of a financial conglomerate. The Group furthermore calculates the consolidated capital adequacy ratio for entities not belonging to the insurance sector by excluding the insurance activities from calculation of risk weighted exposures and capital base. The Group similarly calculates the solvency ratio of entities solely belonging to the insurance sector. In 2023, the Group introduced a change in treatment of deductions from capital base due to significant holdings in financial institutions and deferred tax assets. The deduction is now according to article 48 of the Capital Requirements Regulation no. 575/2013 of the EU.

Solvency measures the Group's ability to take on setbacks, thus indicating its financial strength. The available capital and capital requirements of the Group is calculated as a financial conglomerate according to Articles 16, 17 and 18 of Act on Additional Supervision of Financial Conglomerates No. 61/2017. The Group's solvency ratio is 1.24, with a regulatory minimum requirement of 1.0.

Solvency ratio of the Group as a financial conglomerate is specified as follows:

	30.6.2023	**31.12.2022**
Available capital		
Own Funds eligible for non insurance activities	36,887,364	32,456,104
Own Funds eligible for insurance activities	12,980,928	13,094,779
Deduction from own funds not eligble	(2,963,187)	0
Total	46,905,105	45,550,883
Solvency requirement for insurance activities		
Solvency Capital Requirements (SCR)	9,264,458	8,772,791
Own funds requirement for non insurance activities		
Statutory minimum capital requirement (Pillar I)	12,769,812	11,037,600
Additional capital requirements (Pillar II)	6,384,906	4,828,950
Minimum capital requirement for non insurance activities	19,154,718	15,866,550
Additional capital protection buffers	10,694,717	8,830,080
Adjustments to capital requirements in conglomerate	(1,360,754)	0
Total	28,488,681	24,696,631
Solvency	46,905,105	45,550,883
Solvency requirement (SCR)	9,264,458	8,772,791
Own funds requirement for non insurance activities	28,488,681	24,696,631
Minimum solvency of financial conglomerate	37,753,139	33,469,422
Solvency ratio	1.24	1.36

Kvika banki hf. Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

39. Capital adequacy ratio (CAR)

The capital adequacy ratio of the Group, excluding entities which belong to the insurance sector, calculated in accordance with Article 84 of Act No. 161/2002 on Financial Undertakings, was 23.1%. The minimum requirement from the FME is 12.0%. The ratio is calculated as follows:

Own funds eligible for non insurance activities	**30.6.2023**	**31.12.2022***
Total equity	80,697,706	81,089,180
Expected dividends and buy-back according to dividend policy	(1,000,000)	(1,912,410)
Capital eligible as CET1 Capital	79,697,706	79,176,769
Goodwill and intangibles	(28,986,747)	(28,380,760)
Shares in other financial institutions	(15,612,913)	(18,728,749)
Deferred tax asset	(1,815,194)	(3,232,933)
Common equity Tier 1 capital (CET 1)	33,282,851	28,834,327
Tier 2 capital	3,813,553	3,621,777
Deductions from Tier 2 capital	(209,040)	0
Total own funds	36,887,364	32,456,104
Risk weighted exposures		
Credit risk	131,247,825	109,104,748
Market risk	3,598,829	4,091,761
Operational risk	24,775,995	24,773,495
Total risk weighted exposures	159,622,649	137,970,004
Capital ratios		
Capital adequacy ratio (CAR)	23.1%	23.5%
CET1 ratio	20.9%	20.9%
Minimum Capital adequacy ratio requirement	12.0%	11.5%
Minimum Capital adequacy ratio requirement including supervisory buffers	18.7%	17.9%
Minimum CET 1 ratio requirement including supervisory buffers	13.5%	12.9%

The Icelandic Financial Supervisory Authority (FME) supervises the Bank on a consolidated basis and, as such, receives information on the capital adequacy of, and sets capital requirements for, the Bank as a whole. The Bank's regulatory capital calculations for credit risk and market risk are based on the standardised approach and the capital calculations for operational risk are based on the basic indicator approach.

Minimum capital requirement is based on the Bank's Internal Capital Adequacy Assessment Process (ICAAP) and is reviewed by the FME through the Supervisory Review and Evaluation Process (SREP). The Bank's minimum regulatory capital requirement, based on SREP from 2023 is 12.0%. The minimum regulatory capital requirement including the additional capital buffers is 18.7% as at 30 June 2023.

** Comparative information has been restated, reference is made to note 3 for further information.*

Notes to the Condensed Interim Consolidated Financial Statements

40. Solvency of insurance activities

The Group calculates solvency capital and capital requirements for entities which belong to the insurance sector. The available capital and required capital is calulated in accordance with Articles 88 and 96 of the Act on Insurance Activity No. 100/2016. This brings the solvency ratio for entities which belong to the insurance sector to 1.40. Solvency capital requirements according to law is the minimum insurance companies have to meet.

	30.6.2023	31.12.2022*
Own funds eligible for insurance activities solvency		
Equity eligible for insurance activities	18,247,085	18,268,799
Goodwill and intangibles	(5,616,300)	(5,699,140)
Difference between net technical provision in the financial statements and solvency rules	350,144	525,120
Total	12,980,928	13,094,779
Solvency requirement		
Life insurance risk	462,781	425,729
Health insurance risk	1,548,516	1,475,602
Non-life insurance risk	5,767,220	5,484,355
Market risk	5,173,319	5,336,721
Counterparty default risk	1,633,146	1,117,766
Multifaceted effects	(4,531,750)	(4,229,553)
Base Solvency Capital Requirements (Basic SCR)	10,053,230	9,610,620
Operational risk	835,035	680,934
Adjustment for the loss-absorbing capacity of deferred taxes	(1,623,808)	(1,518,763)
Solvency Capital Requirements (SCR)	9,264,458	8,772,791
Solvency	12,980,928	13,094,779
Solvency requirement (SCR)	9,264,458	8,772,791
Solvency ratio after dividend	1.40	1.49
Eligible items to meet the minimum capital	12,980,928	13,094,779
Minimum required capital (MRC)	4,327,641	4,057,090
Minimum required capital ratio after dividend	3.00	3.23

** Comparative information has been restated, reference is made to note 3 for further information.*

Notes to the Condensed Interim Consolidated Financial Statements

Risk management

41. Hedging

Securities held as a hedge against derivatives positions of customers make up a part of the Group's portfolio of assets. The Group hedges currency exposure between the Group's asset portfolio and its liabilities to the extent possible as part of managing its balance and keeping it within approved limits. The Group applies hedge accounting according to IAS 39 against translation of foreign operations. Currency swap agreements are used as a hedge instruments against translation difference arising from foreign operations.

42. Credit risk - overview

a. Definition
One of the Group's primary sources of risk is counterparty credit risk. Credit risk is defined as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

b. Management
The risk management unit is responsible for managing and reporting on credit risk. The Group uses a variety of tools and processes to manage credit risk, including collaterals, hedges and loan portfolio management.

c. Credit approval process
The originating department prepares a proposal for each larger loan or credit line which is presented to the credit committee for approval. The proposal consists of a basic description of the client, the purpose of the loan, a simple credit assessment and arguments for or against granting the loan. The committee decides whether there is need for further credit assessment and on what terms the loan may be granted. For smaller loans the originating department optains a general credit approval from the credit committee with respect to the process, terms, credit limits and total amount of the specific lending type.

A more thorough credit assessment may be conducted if considered appropriate and can include an assessment of a borrower's fundamental credit strength as well as the value of any collateral. To assess the borrower's capacity to meet his or her obligations the committee can request stress test analysis of the borrower's cash flow or call for third party assessments.

d. Collateral
Securing loans with collateral is a traditional method to reduce credit risk. The Group uses different methods to reduce credit risk by obtaining collateral from customers where appropriate. Such collateral gives the Group right to the collateralised assets for current and future obligations incurred by the customer.

The Group places emphasis on pricing loans according to the value and quality of pledged collateral. The Group applies appropriate haircuts on all collateral in order to ensure proper risk mitigation. For all collateral in listed securities, the Group maintains the right to liquidate collateral in case its market value falls below a predefined limit.

To a very large extent the Group's loan portfolio consists of senior loans, most of which are highly collateralised.

e. Credit rating, control and provisioning
The risk management unit is responsible for credit rating and reviewing the loan portfolio. In case of any significant delay of payments or defaults the unit carefully analyses the underlying assets and loan documents and organizes the process of collection.

The Group monitors the value of collateral by listed securities on a real time basis, and takes prompt action when necessary.

f. Loan portfolio management
To ensure an effective diversification of the loan portfolio the board has set a limit framework defining maximum exposure as a ratio of the Group’s equity and/or the total size of the loan portfolio. These limits include limitation on joint exposure to associated clients, exposure to individual and associated industries, single regions and countries etc. It is the responsibility of risk management to monitor that these limits are not being violated and to report discrepancies to the credit committee.

g. Impairment
Provisioning for loan impairments is estimated on the basis of expected loss models assessing the portfolio as a whole as well as individual lending. Risk management suggest a level of provisioning for the portfolio, based on the expected loss assessment. Risk management reassess impairments in the event of collateral decay, delayed payments, indication of increased risk, or other early warning signs. Provisions require approval from the credit committee. Refer to note 88 in the 2022 financial statements for more information on the Group's impairment policy.

h. Derivatives
The Group offers derivative contracts in the form of swap contracts on highly liquid securities. On the day when the contract is entered into, the Group purchases the underlying security and hedges its exposure to price changes. Collateral is in the form of cash or listed, highly liquid securities. The risk management sets rules about the level of collateralisation and monitors the compliance to these rules. Contracts are closed if required levels of collateralisation are not met.

i. Securities used for hedging
The Group hedges itself for market risk of derivative contracts by purchasing the underlying securities at the commencement of the contract. Since the contracts require delivery of the underlying securities to the customer on the settlement day, the credit risk towards the issuer is immaterial.

Loan commitments			1,955,620	725,755	2,681,375
Financial guarantee contracts			261,861		261,861
Maximum exposure to credit risk	85,296,753	18,088,743	84,930,863	38,844,743	227,161,102

** Comparative information has been restated, reference is made to note 3 for further information.*

44. Credit quality of financial assets

The book value of financial assets which fall under the impairment requirements of IFRS 9 are presented net of expected credit losses ("ECL") in the statement of financial position. The ECL are recalculated for each asset on at least a quarterly basis. The assessment of ECL is based upon calculations being derived from models on PD, LGD and EAD. Furthermore, the assessment is based upon management's assumptions regarding the development of macroeconomic factors over the coming twelve months. The assumptions for macroeconomic development are decided for three scenarios: a base case, an upside scenario and a downside scenario, including a probability weight for each scenario. The assumptions are used for calculations of the probability weighted ECLs. The amount of ECL to be recognized is dependent on the Group's definition of significant increase in credit risk, which controls the impairment stage each asset is allocated to. The factors that are used to measure significant increase in credit risk include comparison of changes in PD values, annualized lifetime PD values, days past due and watch list.

The following table shows the first 12 month macro economic values for the variables used in the expected credit loss model. The Group utilises an economic forecast which is aligned with requirements for the calculation of expected credit loss. Following the Group's acquisition of Ortus Secured Finance ltd., the Group owns loan portfolios in two geographical segments, i.e. Iceland and the United Kingdom ("UK"). In general, the Group utilises the same ECL methodology for the portfolios in both segments, although in the UK it is to a larger extent based on an individual assessment by credit specialists. Reference is made to note 88 in the 2022 Consolidated Financial Statements for further information about the Group's impairment methodology.

		Scenarios

Collatarel value is shown as the market- or accounting value of collateral allocated to exposures. Other collateral includes financial claims, inventories and receivables. For larger unsecured claim values, the Group is in general covered by covenants in the loan agreement, e.g. with a negative pledge or other ring fencing.

Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

44. Credit quality of financial assets (cont.)

b. Credit quality of financial assets by credit quality band

The following tables show financial assets subject to the impairment requirements of IFRS 9 broken down by credit quality bands where band i denotes the lowest and band iv the highest credit risk. Assets measured at fair value through profit or loss are not subject to the stage classification requirements of IFRS 9 but are nevertheless included in the tables in order to give a more complete picture of the credit quality of loans to customers and reconcile the tables to the carrying amount on the balance sheet. The Bank uses primarily adjusted external credit ratings to assess the default probability of its customers and some larger borrowers are furthermore individually assessed by credit specialists. Exposures which are non-rated relate mostly to retail portfolios where individual rating has not been obtained.

45. Loan-to-value

a. General

The loan-to-value ratio (LTV) is the ratio of the gross amount of the loan to the value of the collateral, if any. The general creditworthiness of a customer is viewed as the most reliable indicator of credit quality of a loan. Besides collateral included in the LTV ratios the Group uses other risk mitigation measures, such as guarantees, negative pledge, cross-collateral and collateralization of non-quantifiable assets.

b. Breakdown

The breakdown of loans to customers by LTV is specified as follows:

	30.6.2023	%	31.12.2022	%
Less than 50%	30,073,653	25.3%	29,001,396	27.1%
51-70%	41,860,592	35.3%	36,654,281	34.2%
71-90%	30,444,079	25.6%	22,168,930	20.7%
91-100%	3,040,938	2.6%	3,027,670	2.8%
100-125%	4,490,971	3.8%	3,880,228	3.6%
125-200%	237,346	0.2%	511,406	0.5%
Greater than 200%	856,414	0.7%	2,704,141	2.5%
No or negligible collateral:				
Other loans with no collateral	7,723,345	6.5%	9,191,175	8.6%
Total	118,727,337	100.0%	107,139,227	100.0%

46. Collateral against exposures to derivatives

The Group applies the same valuation methods to collateral held as other comparable assets held by the Group. Haircuts are applied to account for liquidity and other factors which may affect the collateral value of the asset.

Amounts have been adjusted to exclude collateral in excess of claim value, i.e. overcollateralisation.

47. Large exposures

In accordance with regulation no. 575/2013 of the European Union on prudential requirements for credit institutions, which was incorporated into Icelandic law with Act No. 38/2022, total exposure towards a customer is classified as a large exposure if it exceeds 10% of the financial institution's Tier 1 capital (see note 39).

According to the regulation a single exposure, net of risk adjusted mitigation, cannot exceed 25% of the eligible Tier 1 capital. Where the exposure is towards a financial institution the value shall not exceed 25% of the eligible Tier 1 capital or EUR 150 million, whichever is higher. Single large exposures net of risk adjusted mitigation take into account the effects of collateral and other credit enhancements held by the financial institution, and other credit enhancements, in accordance with regulation no. 575/2013.

		30.6.2023		31.12.2022

Other motor insurance	978,107	962,704
General liability, credit and suretyship insurance	3,024,937	2,771,618
Income Protection Insurance	1,090,040	1,085,003
Workers' compensation insurance	2,821,685	2,611,997
Life insurance	510,181	467,292
Sold reinsurances	35,337	37,156
Total	22,795,535	21,101,090

49. Liquidity risk

a. Definition

Liquidity risk is the risk that the Group will encounter difficulty in meeting contractual payment obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. This risk mainly arises from mismatches in the timing of cash flows. The Group has internal rules that require certain matching of the maturities of assets and liabilities. Furthermore, to ensure the ability to meet liquidity needs, the Group maintains a stock of highly liquid unencumbered assets, e.g. cash, treasury bills and treasury bonds.

b. Management

Liquidity is managed by treasury and monitored by risk management. Liquidity position is reported to the ALCO committee. The Central Bank of Iceland sets minimum requirements for the liquidity coverage ratio (LCR) and the net stable funding ratio (NSFR). The minimum 30 day LCR regulatory requirement is 100% for LCR total, 50% for LCR in ISK and 80% minimum requirement for LCR in EUR. The minimum requirement for LCR EUR only applies when the Group's commitments in EUR represent 10% or more of the Group´s total commitments. The minimum regulatory requirement for NSFR total is 100%.

Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

49. Liquidity risk (cont.)

b. Management (cont.)

The FME has designated the Group as a financial conglomerate. LCR is not calculated for a financial conglomerate, instead the Group calculates LCR based on the Consolidated Statement of Financial Position excluding the insurance operations of TM tryggingar hf. The Group was in compliance with internal and external liquidity requirements throughout the period in 2023 and during the year 2022.

** Comparative information has been restated, reference is made to note 3 for further information.*

Maturity analysis of financial assets and financial liabilities is based on contractual cash flows or, in the case of held for trading securities, expected cash flows. If an amount receivable or payable is not fixed, e.g. for inflation indexed assets and liabilities, the maturity analysis uses estimates based on current conditions.

Cash flows relating to unrecognised balance sheet items (unused loan commitments and financial guarantee contracts) are presented separately from financial assets and financial liabilities. Both contractual outflows and inflows are shown, to fully reflect the nature of these items.

It should be noted that the Group's expected cash flows sometimes vary considerably from the contractual cash flows, most significantly in that demand deposits from customers are expected to remain stable or increase in the long term. In this case the presentation used reflects the worst case scenario from the Group's perspective. Furthermore, the analysis does not consider any measures that could be taken to convert long-term assets to cash through sale.

Kvika banki hf. Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

50. Market risk

a. Definition

Market risk constitutes risk due to changes in the market prices of financial instruments and comprises interest rate risk, currency risk and other price risk. Notes 51-56 relate to market risk exposure.

b. Management

The Group has a strict policy on controlling market risk and to keep the exposure within set limits. The risk management unit monitors market risk limits on a daily basis and reports regularly to the ALCO committee and to the CEO.

51. Interest rate risk

a. Definition

The Group's exposure to interest rate risk is twofold. On the one hand, the Group has a proprietary portfolio of bonds, where market rates affect prices and any fluctuations are recognised in the income statement. On the other hand, the Group has mismatch in assets and liabilities with fixed interest terms. These include loans and swap contracts for securities on the asset side and borrowings and deposits on the liability side. This mismatch does not create an immediate effect on the income statement but nevertheless affects the Group's economic value.

Proprietary positions which are subject to interest rate risk fall under the scope of the Group's market risk management.

b. Management

The Group takes measures to minimise interest rate risk by matching the interest rate profile and duration of assets with the Group's liabilities as well as using derivative and non-derivative financial instruments to manage effectively the risk of an adverse impact on the Group's earnings.

52. Interest rate risk associated with trading portfolios

a. Breakdown

The breakdown of financial assets and liabilities in trading portfolios by the earlier of interest repricing time or maturity is specified as follows:

	Up to 1 month	1-3 months	3-12 months	1-5 years	Over 5 years	30.6.2023
Fixed income securities	9,468	42,106	176,069	1,281,888	1,018,212	2,527,743
Short positions - fixed income securities		(6,790)	(164,597)	(479,886)	(171,397)	(822,671)
Net imbalance	9,468	35,316	11,472	802,001	846,815	1,705,072

	Up to 1 month	1-3 months	3-12 months	1-5 years	Over 5 years	31.12.2022
Fixed income securities	3,782	39,690	181,326	1,921,871	677,057	2,823,726
Short positions - fixed income securities	(9,447)	(37,185)	(1,656,872)	1,204,062	(986,665)	(1,486,107)
Net imbalance	(5,665)	2,505	(1,475,545)	3,125,932	(309,608)	1,337,619

b. Sensitivity analysis

The Group performs monthly sensitivity analysis on financial assets and liabilities in trading portfolios that are subject to interest rate risk. The sensitivity analysis assumes a shift in the yield curves for all currencies. A parallel shift in yield curves would have the following impact on the Group's pre-tax profit and equity, assuming all other risk factors remain constant:

	Shift in basis points	30.6.2023 Downward	30.6.2023 Upward	31.12.2022 Downward	31.12.2022 Upward
Indexed	50	42,969	(40,951)	42,091	(42,091)
Non-indexed	100	(38,373)	31,623	(35,656)	35,656
Total		4,595	(9,328)	6,436	(6,436)

Kvika banki hf. Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

53. Interest rate risk associated with non-trading portfolios

a. Breakdown

The breakdown of financial assets and liabilities in non-trading portfolios by the earlier of interest repricing time or maturity is specified as follows:

30.6.2023

Financial assets	Up to 1 month	1-3 months	3-12 months	1-5 years	Over 5 years	Total
Cash and balances with Central Bank	36,133,550	7,233,965				43,367,516
Fixed income securities	5,234,784	5,655,079	32,006,108	23,930,314	5,050,152	71,876,437

Total interest repricing gap	13,664,499	(28,698,015)	26,772,306	27,339,827	328,293	39,406,911

b. Sensitivity analysis

The Group performs monthly sensitivity analysis on financial assets and liabilities in non-trading portfolios subject to interest rate risk. The sensitivity analysis assumes a shift in the yield curves for all currencies. A parallel shift in yield curves would have the following impact on the Group's pre-tax profit and equity, assuming all other risk factors remain constant:

	Shift in		30.6.2023		31.12.2022
Currency	**basis points**	**Downward**	**Upward**	**Downward**	**Upward**
ISK, indexed	50	(83,900)	72,995	222,350	(216,040)
ISK, non-indexed	100	634,238	(613,713)	85,251	(92,544)
Other currencies	20	14,453	(14,388)	(7,936)	7,901
Total		564,792	(555,106)	299,665	(300,683)

Kvika banki hf. Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

54. Exposure towards changes in the CPI

a. Definition

Exposure towards changes in CPI is the risk that fluctuations in the Icelandic Consumer Price Index (CPI) will affect the balance and cash flow of indexed financial instruments.

The Group is exposed to inflation indexation of assets and liabilities denominated in ISK. All indexed assets and liabilities are valued according to the CPI measure at any given time and changes in CPI are recognised in the income statement.

b. Management

The Group controls its indexation risk through derivatives contracts and sales and purchases of indexed bonds, mostly government bonds, and thus keeps its exposure to the CPI within the limits set by the ALCO committee.

c. Balance of CPI linked assets and liabilities

The net balance of CPI linked assets and liabilities is specified as follows:

	30.6.2023	**31.12.2022**
Assets	32,926,852	30,670,431
Liabilities	(20,599,208)	(19,761,069)
Total	12,327,644	10,909,362

d. Sensitivity to changes in CPI

Given the net balance of CPI linked assets and liabilities, a 1% change in the CPI would, with other things constant, result in the following changes to the Group's pre-tax profit.

		30.6.2023		**31.12.2022**
	-1%	1%	-1%	1%
Government bonds	(99,944)	99,944	(74,357)	74,357
Other fixed income securities	(51,865)	51,865	(42,622)	42,622
Loans to customers	(115,117)	115,117	(95,730)	95,730
Derivatives	(62,344)	62,344	(93,995)	93,995
Short positions	2,099	(2,099)	4,064	(4,064)
Deposits	78,315	(78,315)	73,605	(73,605)
Issued bonds	87,153	(87,153)	83,077	(83,077)
Subordinated liabilities	38,425	(38,425)	36,865	(36,865)
	(123,276)	123,276	(109,094)	109,094

The effect on equity would be the same.

55. Currency risk

a. Definition

Currency risk arises when financial instruments are not denominated in the functional currency of the respective Group entity and can affect both the Group's income statement and statement of financial position. A part of the Group's financial assets and liabilities is denominated in foreign currencies.

b. Management

Currency positions are monitored by risk management and reported to the ALCO committee. Any mismatch between assets and liabilities in each currency is monitored closely and managed within limits.

The Group is subject to limits set by the Central Bank of Iceland regarding the maximum open currency position. At 30 June 2023 and 31 December 2022 the Group's position in foreign currencies was within those limits.

c. Hedge accounting

The Group applies hedge accounting according to IAS 39 against translation of foreign operations. Currency swap agreements are used as a hedge instruments against translation difference arising from foreign operations.

d. Exchange rates

The following exchange rates have been used by the Group in the preparation of these financial statements:

	Closing 30.6.2023	**Average 6m 2023**	**Closing 31.12.2022**	**Average 6m 2022**
EUR/ISK	148.7	151.1	151.5	141.5
USD/ISK	136.9	139.8	142.0	129.4
GBP/ISK	173.3	172.3	170.8	167.9

SEK	(8,861)	8,861	(9,716)	9,716
Other currencies	12,136	(12,136)	(1,717)	1,717
Total	78,719	(78,719)	71,284	(71,284)

56. Equity risk

a. Definition

Equity risk is the risk that the fair value of equties decreases as the result of changes in the value of shares and other variable income securities in the Group's portfolio.

b. Sesitivity analysis of equity risk

The analysis below calculates the effect of possible movements in equity prices that affect the Consolidated Financial Statements. A negative amount in the table reflects a potential net reduction in the Consolidated Income Statement or equity, while a positive amount reflects a potential net increase. Investments in associates are excluded.

	30.6.2023		31.12.2022	
	-10%	**+10%**	**-10%**	**+10%**
Listed shares	(413,092)	413,092	(487,926)	487,926
Unlisted shares	(782,861)	782,861	(732,521)	732,521
Unlisted unit shares in funds	(857,997)	857,997	(720,604)	720,604
Total	(2,053,950)	2,053,950	(1,941,051)	1,941,051

57. Operational risk

a. Definition

Operational risk is the risk of direct or indirect loss from inadequate or failed internal processes or systems, from human error or external events that affect the Group's reputation and operational earnings.

b. Management

The individual business units within the Group are primarily responsible for managing their respective operational risk. The risk management unit is furthermore responsible for identifying, monitoring and reporting the Group's operational risk. Operational risk can be reduced through staff training, process re-design and enhancement of the control environment. The risk management unit monitors operational risk by tracking loss events, quality deficiencies, potential risk indicators and other early-warning signals. The unit takes an active role in internal control and quality management.

Kvika banki hf. Amounts are in ISK thousands

Notes to the Condensed Interim Consolidated Financial Statements

Financial assets and financial liabilities

58. Accounting classification of financial assets and financial liabilities

The accounting classification of financial assets and financial liabilities is specified as follows:

30.6.2023 **Financial assets**	**Amortised cost**	**Fair value through OCI**	**Manda-torily at fair value through P/L**	**Total carrying amount**
Cash and balances with Central Bank	43,367,516			43,367,516
Fixed income securities		62,674,078	11,730,102	74,404,180
Shares and other variable income securities			20,539,498	20,539,498
Securities used for hedging			9,183,686	9,183,686
Loans to customers	118,139,985		587,352	118,727,337
Derivatives			3,379,318	3,379,318
Other assets	20,030,781			20,030,781
Total	181,538,282	62,674,078	45,419,956	289,632,316

Financial liabilities	**Amortised cost**	**Fair value through OCI**	**Manda-torily at fair value through P/L**	**Total carrying amount**
Deposits	129,793,071			129,793,071
Borrowings	25,940,252			25,940,252
Issued bonds	43,454,567			43,454,567
Subordinated liabilities	3,842,544			3,842,544
Short positions held for trading			822,671	822,671
Short positions used for hedging			1,250,827	1,250,827
Derivatives			1,801,295	1,801,295
Derivatives used for hedge accounting		478,652		478,652
Other liabilities	17,862,071		373,715	18,235,786
Total	220,892,504	478,652	4,248,508	225,619,664

31.12.2022* **Financial assets**	**Amortised cost**	**Fair value through OCI**	**Manda-torily at fair value through P/L**	**Total carrying amount**
Cash and balances with Central Bank	36,670,586			36,670,586
Fixed income securities		54,934,612	10,225,796	65,160,407
Shares and other variable income securities			19,410,508	19,410,508
Securities used for hedging			13,841,853	13,841,853
Loans to customers	105,928,837		1,210,390	107,139,227
Derivatives			4,940,738	4,940,738
Other assets	11,883,489			11,883,489
Total	154,482,912	54,934,612	49,629,285	259,046,809

Financial liabilities	**Amortised cost**	**Fair value through OCI**	**Manda-torily at fair value through P/L**	**Total carrying amount**
Deposits	112,245,198			112,245,198
Borrowings	28,120,009			28,120,009
Issued bonds	38,103,414			38,103,414
Subordinated liabilities	3,686,451			3,686,451
Short positions held for trading			1,486,107	1,486,107
Short positions used for hedging			1,343,186	1,343,186
Derivatives			1,609,537	1,609,537
Other liabilities	9,364,820		373,715	9,738,535
Total	191,519,893	0	4,812,545	196,332,437

** Comparative information has been restated, reference is made to note 3 for further information.*

Notes to the Condensed Interim Consolidated Financial Statements

59. Financial assets and financial liabilities measured at fair value

a. Fair value hierarchy

The fair value of financial assets and liabilities that are traded in active markets are based on quoted market prices. For other financial instruments the Group determines fair value using various valuation techniques. IFRS 13 specifies a fair value hierarchy based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources whereas unobservable inputs reflect the Group's market assumptions. These two types of inputs result in the following fair value hierarchy:

- Level 1
  Inputs are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2
  Inputs are not quoted market prices but are observable either directly, i.e. as prices, or indirectly, i.e. derived from prices. This category includes financial instruments valued using quoted prices in active markets for similar instruments, quoted prices for similar or identical instruments in markets that are considered less than active and other instruments which are valued using techniques which rely primarily on inputs that are directly or indirectly observable from market data.
- Level 3
  Inputs are not observable or unobservable inputs have a significant effect on the valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments are required to reflect the differences between the instruments.

b. Valuation process

The Bank's Credit committee is responsible for fair value measurements of financial assets and financial liabilities classified as level 2 or level 3 instruments. The valuation is carried out by personnel from respective departments under supervision from Risk. The valuations are revised at least quarterly, or when there are indications of significant changes in the underlying inputs.

c. Valuation techniques

The Group uses widely recognised valuation techniques, including net present value and discounted cash flow models, comparison with similar instruments for which market observable prices exist, Black-Scholes and other valuation models.

Valuation techniques include recent arm's length transactions between knowledgeable, willing parties, if available, reference to the current fair value of other instruments that are substantially the same, the discounted cash flow analysis and option pricing models. Valuation techniques incorporate all factors that market participants would consider in setting a price and are consistent with accepted methodologies for pricing financial instruments. Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument, without modification or repackaging, or based on any available observable market data.

For more complex instruments, the Group uses proprietary models, which usually are developed from recognised valuation models. Some or all of the inputs into these models may not be market observable, and are derived from market prices or rates or are estimated based on assumptions. When entering into a transaction, the financial instrument is recognised initially at the transaction price, which is the best indicator of fair value, although the value obtained from the valuation model may differ from the transaction price. This initial difference, usually an increase in fair value, indicated by valuation techniques is recognised in income depending upon the individual facts and circumstances of each transaction and no later than when the market data becomes observable.

The value produced by a model or other valuation technique is adjusted to allow for a number of factors as appropriate, because valuation techniques cannot appropriately reflect all factors market participants take into account when entering into a transaction. Valuation adjustments are recorded to allow for model risks, bid-ask spreads, liquidity risks, as well as other factors. Management believes that these valuation adjustments are necessary and appropriate to fairly state financial instruments carried at fair value in the statement of financial position.

59. Financial assets and financial liabilities measured at fair value (cont.)

d. Fair value hierarchy classification

The fair value of financial assets and financial liabilities measured at fair value in the statement of financial position is classified into the fair value hierarchy as follows:

30.6.2023

Financial assets	**Level 1**	**Level 2**	**Level 3**	**Carrying amount**
Mandatorily measured at fair value through profit and loss				
Fixed income securities	7,715,619	3,126,762	887,721	11,730,102
Shares and other variable income securities	8,310,240	3,523,044	8,706,215	20,539,498
Securities used for hedging	9,183,686			9,183,686
Loans to customers			587,352	587,352
Derivatives		3,379,318		3,379,318
Measured at fair value through other comprehensive income				
Fixed income securities	62,674,078			62,674,078
Total	87,883,623	10,029,124	10,181,287	108,094,034

Financial liabilities	**Level 1**	**Level 2**	**Level 3**	**Carrying amount**
Mandatorily measured at fair value through profit and loss				
Short positions held for trading	822,671			822,671
Short positions used for hedging	1,250,827			1,250,827
Derivatives		951,490	849,804	1,801,295
Other liabilities			373,715	373,715
Measured at fair value through other comprehensive income				
Derivatives used for hedge accounting		478,652		478,652
Total	2,073,499	1,430,142	1,223,519	4,727,160

31.12.2022

Financial assets	**Level 1**	**Level 2**	**Level 3**	**Carrying amount**
Mandatorily measured at fair value through profit and loss				
Fixed income securities	5,524,639	4,085,852	615,304	10,225,796
Shares and other variable income securities	8,723,913	3,249,312	7,437,283	19,410,508
Securities used for hedging	13,841,853			13,841,853
Loans to customers			1,210,390	1,210,390
Derivatives		4,940,738		4,940,738
Measured at fair value through other comprehensive income				
Fixed income securities	54,934,612			54,934,612
Total	83,025,017	12,275,902	9,262,978	104,563,897

Financial liabilities	**Level 1**	**Level 2**	**Level 3**	**Carrying amount**
Mandatorily measured at fair value through profit and loss				
Short positions held for trading	1,486,107			1,486,107
Short positions used for hedging	1,343,186			1,343,186

31.12.2022	Fixed income securities	Shares and other var. income securities	Loans to customers	Other assets	Derivatives	Other liabilities	Total
Balance as at 1 January 2022	794,538	8,383,419	2,524,269	30,202	0	(483,486)	11,248,942
Total gains and losses in profit or loss	(33,760)	1,979,597	208,872	1,939	(4,532)	(17,646)	2,134,470
Additions	581,656	1,096,404	245,626		(687,181)		1,236,505
Repayments			(1,768,377)	(29,480)		127,417	(1,670,440)
Disposals	(864,483)	(3,193,004)		(2,661)			(4,060,148)
Reclassification	137,353	(137,353)					0
Transfers in (out) Level 3	0	(691,779)					(691,779)
Balance as at 31 December 2022	615,304	7,437,283	1,210,390	0	(691,713)	(373,715)	8,197,550

f. Fair value measurements for Level 3 financial assets

Level 3 assets consist primarily of unlisted bonds, shares and share certificates and loans measured at fair value. Each asset is evaluated separately but assets within an asset group share a valuation method. The following valuation methods are in use:

Asset class	Method	Significant unobservable input	Range	Book value 30.6.2023
Unlisted bonds	Expected recovery	Value of assets	0-95%	887,721
Unlisted variable income securities	Market price	Recent trades	-	8,706,215
Loans to customers	Expert model	Value of assets and collateral	-	587,352
Total				10,181,287

Asset class	Method	Significant unobservable input	Range	Book value 31.12.2022
Unlisted bonds	Expected recovery	Value of assets	0-95%	615,304
Unlisted variable income securities	Market price	Recent trades	-	7,437,283
Loan to customers	Expert model	Value of assets and collateral	-	1,210,390
Total				9,262,978

Given the methods used, the possible range of the significant unobservable inputs is wide. When determining the values used the Group considers the financial strength of the entity in question, recent trades if any and multipliers for comparable instruments.

g. The effect of unobservable inputs in Level 3 fair value measurements

The Group believes its estimates represent appropriate approximations of fair value and that the use of different valuation methodologies and reasonable changes in assumptions or unobservable inputs would not significantly change the estimates.

A 10% change in the estimates would have the following effect on profit before taxes:

	+10%	-10%
Fixed income securities	88,772	(88,772)
Shares and other variable income securities	870,621	(870,621)
Loans to customers	58,735	(58,735)
Total	1,018,129	(1,018,129)

Kvika banki hf. Amounts are in ISK thousands

Cash and balances with Central Bank	144,695	1,041,158	0	1,185,853
Fixed income securities	4,215,900	469,862	0	4,685,761
Loans to customers	20,691,396	0	2,519,168	23,210,564
Other assets	0	0	0	0
Total	25,051,992	1,511,020	2,519,168	29,082,179

The Group has pledged assets, in the ordinary course of banking business, to the Central Bank of Iceland to secure general settlement in the Icelandic clearing system. Cash pledged to secure the borrowing of securities from other counterparties than the Central Bank of Iceland is classified as other assets. Furthermore, the Group has pledged loans to customers as collateral against asset backed bonds that it has issued.

61. Related parties

a. Definition of related parties

The Group has a related party relationship with the board members of the Bank, the CEO of the Bank and key employees (together referred to as management), associates as disclosed in note 24, shareholders with significant influence over the Bank, close family members of individuals identified as related parties and entities under the control or joint control of related parties.

b. Arm's length

Transactions with related parties are carried out at arm's length and subject to an annual review by the Bank's internal auditor.

c. Balances with related parties

30.6.2023	Assets	Liabilities
Management	1,163	51,266

Notes to the Condensed Interim Consolidated Financial Statements

62. Other matters

Discontinuation of merger negotiations with Íslandsbanki hf.

In June 2023 the board of directors of Kvika announced that it had decided to discontinue the merger negotiations with Íslandsbanki hf. The decision was taken in light of the events which followed the publication of a report from the FME on its inspection into the execution of the offering by the Icelandic State of a 22.5% stake in the share capital of Íslandsbanki hf. and the fact that it was decided to call for a shareholder meeting at Íslandsbanki hf., where an election for the board of directors would take place. However, it is the opinion of the board of directors of Kvika that the benefits of a merger of the companies could be significant. Kvika's board will continue to keep an eye out for opportunities in the financial market.

Tax treatment of warrants sold by the Bank

The Bank is aware of that the Iceland revenue and customs ("RSK") is currently reviewing the tax treatment of warrants that the Bank sold during the years 2017 to 2019. The RSK is looking into whether the warrants should be taxed as perquisites instead of as a financial instruments. Should that be the case, then the Bank would be required to pay the respective social security tax and tax on financial activity. The Bank would however be able to deduct the amount of salary related expenses, as well as the amount of the perquisites, from its tax base for the respective years in question, and thereby increase its deferred tax losses.

As the RSK has not yet concluded its review, the Bank has not charged any amount to its income statement nor made any changes to the tax returns for the respective years.

63. Events after the reporting date

There are no material events after the reporting date.
