## Press release from Elanders AB (publ)

## First six months

- Net sales increased by ten percent to MSEK $5,525(5,035)$, of which five percentage points were organic growth.
- EBITA increased to MSEK 255 (199), which corresponded to an EBITA margin of 4.6 (4.0) percent. Excluding the effects of implementing IFRS 16, EBITA increased to 237 (199) which corresponds to an EBITA margin of 4.3 (4.0) percent.
- The result before tax increased to MSEK 156 (120). Excluding the effects of IFRS 16, the result before tax increased to MSEK 172 (120), which was an improvement of 43 percent.
- The net result increased to MSEK 109 (76) or SEK 3.02 (2.10) per share. Excluding the effects of IFRS 16, the net result increased to MSEK 120 (76) which corresponds to SEK 3.34 (2.10) per share.
- Operating cash flow increased to MSEK 641 (92). Excluding the effects of IFRS 16, operating cash flow increased to MSEK 297 (92).

## Second quarter

- Net sales increased by four percent to MSEK $2,719(2,613)$, of which organic growth were just above zero percent.
- EBITA increased to MSEK 132 (116), which corresponded to an EBITA margin of 4.8 (4.4) percent. Excluding the effects of IFRS 16, EBITA increased to 122 (116) which corresponds to an EBITA margin of 4.5 (4.4) percent.
- The result before tax increased to MSEK 84 (74). Excluding the effects of IFRS 16, the result before tax increased to MSEK 91 (74), which was an improvement of 22 percent.
- The net result increased to MSEK 59 (42) or SEK 1.62 (1.15) per share. Excluding the effects of IFRS 16, the net result increased to MSEK 64 (42) which corresponds to SEK 1.77 (1.15) per share.
- Operating cash flow increased to MSEK 251 (127). Excluding the effects of IFRS 16, operating cash flow amounted to MSEK 77 (127).

## COMMENTS BY THE CEO

Demand from customers continued to be good in the beginning of the second quarter but declined in June which correlated with, among other things, holiday periods. The reduction was first and foremost noticeable in Supply Chain Solutions, in both Europe and Asia and all customer segments except Fashion \& Lifestyle which grew substantially. Encouraging was that we retained the trust from several of our customers in most of the businesses that was tendered. We have also gained some new business and there is high activity responding to quotation requests both from current and new customers.

We continue to develop our offer in Supply Chain Solutions with unique and optimized solutions for our customers. A good example of this is a new project in the customer segment Fashion \& Lifestyle which was launched in the second quarter. Via our sites in Munich and Shanghai we will handle a large portion of a customer's global supply chain for some of its luxury items. This will include quality control, modifications, country adaptations, packaging, distribution, handling returns and other valueadding services.

Business area Print \& Packaging Solutions continues to improve its result and we are constantly working on optimizing and developing our existing operations. Our investment in packaging production in Scotland, together with our existing labeling operations, is developing according to plan, creating a new platform with organic growth that compensates for the contracting volumes in traditional print. In addition, the positive trend of organic growth in our German operations continued in the second quarter. Our concept of digital production with inkjet technology in Germany and offset production Hungary is a strong concept that attracts many customers. Furthermore, our business with subscription boxes in the US showed strong organic growth in the quarter.

We continue to develop technical solutions and innovations and have generated new business during the quarter through our service area Value Recovery Services. This area provides services for handling used IT equipment in such a way that we maximize the value of reusing or recycling the items for our customers. To support this, we have our in-house developed platform handling certificates, calculate environmental impact and valuation of the equipment.

There has also been a change in Group Management and as of July 2019 Bernd Schwenger is responsible for LGI, which makes up the largest part of Supply Chain Solutions and Andreas Bunz, previously responsible for LGI, has left Group Management. Kevin Rogers has returned to Group Management and will be responsible for activities in Global Sales on Group level.

Magnus Nilsson
President and Chief Executive Officer

Quarterly report January - June 2019

G R O U P

## GROUP

## Our business

Elanders is a global supplier with a broad range of services of integrated solutions in supply chain management. The business is run through two business areas, Supply Chain Solutions and Print \& Packaging Solutions. The Group has almost 7,000 employees and operates in some 20 countries on four continents. Our most important markets are China, Singapore, the United Kingdom, Sweden, Germany and the USA. Our major customers are active in the areas Automotive, Electronics, Fashion \& Lifestyle, Industrial and Health Care \& Life Science.

## Net sales and result

## First six months

Net sales increased by ten percent to MSEK $5,525(5,035)$ compared to the same period last year.
Excluding exchange rate effects, acquisitions and divestures of operations, net sales grew organically by five percent, mainly in Supply Chain Solutions and subscription box operations in Print \& Packaging Solutions in the US. EBITA, i.e. the operating result adjusted for amortization on assets identified in conjunction with acquisitions, increased to MSEK 255 (199), which corresponded to an EBITA margin of 4.6 (4.0) percent. The improved result compared to last year is partly due to the fact that previously problematic customer projects in Supply Chain Solutions are now in balance, and partly the effects of IFRS 16, where the interest component of rental and leasing costs is now recognized in net financial items instead of as previously in the operating result. The problematic customer projects had a substantial negative effect on the result in the third and fourth quarters of 2017 as well as the first quarter of 2018. Excluding the effects of IFRS 16, EBITA increased to MSEK 237 (199) and the EBITA margin to 4.3 (4.0) percent. When results in foreign subsidiaries were converted into Swedish krona changes in exchange rates affected EBITA positively by MSEK 15.

The result before tax increased to MSEK 156 (120). Excluding the effects of IFRS 16, the result before tax increased to MSEK 172 (120), which was an improvement in the result of 43 percent. The improvement comes from both operations and lower financial costs.

## Second quarter

Net sales increased by MSEK 106 to MSEK $2,719(2,613)$ compared to the same period last year. Excluding exchange rate effects, acquisitions and divestures of operations, organic growth was very weak, just a little over zero percent, increasing in April and May but contracting in June. The reduction was mainly in Electronics and Automotive while there was an increase in Fashion \& Lifestyle. EBITA, i.e. the operating result adjusted for amortization on assets identified in conjunction with acquisitions, increased to MSEK 132 (116), which corresponded to an EBITA margin of 4.8 (4.4) percent. Excluding the effects of IFRS 16, EBITA increased to MSEK 122 (116) and the EBITA margin to 4.5 (4.4) percent. When results in foreign subsidiaries were converted into Swedish krona changes in exchange rates affected EBITA positively by MSEK 7.

The result before tax increased to MSEK 84 (74). Excluding the effects of IFRS 16, the result before tax increased to MSEK 91 (74), which was an improvement in the result of 22 percent. The improvement comes from both operations and lower financial costs but partly supported by movements in exchange rates.

## Supply Chain Solutions

Elanders is one of the leading companies in the world in Global Supply Chain Management. Our services include taking responsibility for and optimizing customers' material and information flows, everything from sourcing and procurement combined with warehousing to after sales service.

| Supply Chain Solutions | First six months |  | Second quarter |  | $\begin{array}{r}\text { Full year } \\ 2018^{1)} \\ \hline\end{array}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2019 | $2018{ }^{1)}$ | 2019 | $2018{ }^{1)}$ |  |

${ }^{1)}$ The figures for the comparison period have been adjusted to reflect the new structure of business areas. The figures for 2018 have not been adjusted for IFRS 16 since the transition to IFRS 16 have been based on the Modified retrospective approach.
${ }^{2}$ ) EBITA refers to Earnings before interest, taxes and amortization; operating result plus amortization of assets identified in conjunction with acquisitions.

There was a good influx of orders received in business area Supply Chain Solutions during April and May but this declined in June largely due to holiday periods. The reduction was most evident in Electronics and Automotive, in both Europe and Asia. At the same Fashion \& Lifestyle grew considerably during the quarter.

Excluding the effects of IFRS 16, EBITA increased by MSEK 35 to MSEK 190 (155) and the EBITA margin to 4.4 (3.9) percent during the first six months. EBITA increased by MSEK 3 to MSEK 99 (96) and the EBITA margin to 4.7 (4.6) percent during the quarter. At the same time EBITDA increased to MSEK 135 (131).

## Print \& Packaging Solutions

Through its innovative force and global presence the business area Print \& Packaging offers cost-effective solutions that can handle customers'local and global needs for printed material and packaging, often in combination with advanced order platforms on the Internet, value-added services and just-in-time deliveries.

| Print \& Packaging Solutions | First six months |  | Second quarter |  | Full year $2018{ }^{1)}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2019 | $2018{ }^{1)}$ | 2019 | $2018{ }^{1)}$ |  |
| Net sales, MSEK | 1,205 | 1,067 | 605 | 544 | 2,243 |

| EBITA, MSEK | 66 | 54 | 33 | 28 | 142 |
| EBITA-margin, \% | 5.5 | 5.1 | 5.4 | 5.1 | 6.3 |
| Operating result, MSEK | 62 | 49 | 31 | 25 | 133 |
| Operating margin, \% | 5.2 | 4.6 | 5.1 | 4.6 | 5.9 |
| Average number of employees | 1,202 | 1,364 | 1,198 | 1,354 | 1,327 |

${ }^{1)}$ The figures for the comparison period have been adjusted to reflect the new structure of business areas. The figures for 2018 have not been adjusted for IFRS 16 since the transition to IFRS 16 have been based on the Modified retrospective approach.
${ }^{2}$ ) EBITA refers to Earnings before interest, taxes and amortization; operating result plus amortization of assets identified in conjunction with acquisitions.

In business area Print \& Packaging Solutions the combined print and supply chain business in the US with subscription boxes continued to show strong growth. Even without it the business area had organic growth of nearly four percent, which is a result of new business.

Excluding the effects of IFRS 16, EBITA increased by MSEK 9 to MSEK 63 (54) and the EBITA margin to 5.2 (5.1) percent during the first six months. EBITA increased by MSEK 3 to MSEK 31 (28) and the EBITA margin was 5.1 (5.1) percent during the quarter. EBITDA increased to MSEK 46 (44).

## Important events during the period <br> Factoring

Since the fourth quarter 2018 Elanders has used factoring, i.e. sales of our accounts receivable, as part of our long-term financing. Working together with one of the Group's principle banks factoring is applied without recourse and comprises some of our business in Germany. The entire facility amounts to MEUR 50, of which at least 70 percent, i.e. MEUR 35, will probably be utilized. The financial terms for factoring are better than the rest of our financing. No further amount has been utilized during the second quarter.

Three business areas become two
As of 1 January 2019, Elanders has only two business areas, Supply Chain Solutions and Print \& Packaging Solutions since e-Commerce Solutions was integrated into Print \& Packaging Solutions.

## Investments and depreciation

## First six months

Net investments for the period amounted to MSEK 81 (79) and was mainly related to production equipment. Depreciation and amortization amounted to MSEK 455 (135). Excluding the effects from IFRS 16, depreciation and amortization amounted MSEK 126 (135).

## Second quarter

For the quarter net investments amounted to MSEK 53 (41) and was mainly related to production equipment. Depreciation and amortization amounted to MSEK 231 (68). Excluding the effects from IFRS 16, depreciation and amortization amounted MSEK 64 (68).

## Financial position, cash flow and financing

## First six months

The operating cash flow increased to MSEK 641 (92) of which the effects of IFRS 16 were MSEK 345. The effect of IFRS 16 on operating cash flow refers primarily to the amortized portion of leasing fees that were previously included in the operating cash flow. This amortization is now included in the financing activities in cash flow. Excluding IFRS 16 effects, operating cash flow increased to MSEK 297 (92).

Net debt increased to MSEK 4,587 compared to MSEK 2,539 at the end of the year. The change in net debt includes an increase of MSEK 2,043 attributable to the implementation of IFRS 16 and refers to adjustment of the opening balance. In addition to this, debt has increased by MSEK 123 due to changes in exchange rates since a large part of loans and leasing liabilities are in euros and a lesser amount in US dollars, which have both strengthened against the Swedish krona. Excluding the effects of IFRS 16, net debt contracted to MSEK 2,513 compared to MSEK 2,539 at the end of the year. The change in net debt includes an increase of MSEK 67 attributable to changed exchange rates. Leverage, i.e. net debt / EBITDA for a rolling 12-month period, excluding IFRS 16 effects, is now down to 3.3 (5.2).

## Second quarter

The operating cash flow increased to MSEK 251 (127), of which the effects of IFRS 16 were MSEK 174. The effect of IFRS 16 on operating cash flow refers primarily to the amortized portion of leasing fees that were previously included in the operating cash flow. This amortization is now included in the financing activities in cash flow. Excluding IFRS 16 effects, operating cash flow amounted to MSEK 77 (127).

## Personnel

First six months
The average number of employees during the period was $6,704(7,101)$, whereof $152(198)$ in Sweden. At the end of the period the Group had 6,764 (7,170) employees, whereof 157 (189) in Sweden.

## Second quarter

The average number of employees during the quarter was $6,753(7,151)$, whereof 155 (196) in Sweden.

## PARENT COMPANY

The parent company has provided intragroup services. The average number of employees during the period was 11 (11) and at the end of the period 11 (11).

## OTHER INFORMATION

## Elanders' offer

Elanders offers integrated and customized solutions for handling all or part of our customers' supply chain. The Group can take complete responsibility for complex and global deliveries that may include purchasing, storage, configuration, production and distribution. We also offer managing ordering solutions, payment flows and aftermarket services for our customers.

The services are provided by business-minded employees who, with their expertise and aided by intelligent IT solutions, contribute to developing our customers' offers which are often totally dependent on efficient product, component and service flows as well as traceability and information. In addition to our offer to the B2B market the Group sells photo products directly to consumers via our own brands, fotokasten and myphotobook.

## Goal and strategy

Elanders' overall goal is to be a leader in global solutions in supply chain management with a world class integrated offer. Our strategy is to work in niches in each business area where the company can attain a leading position in the market. We will achieve this goal by being best at meeting customers' demands for efficiency and delivery. Acquisitions play an important role in our company's development and provide competence, broader product and service offers and enlarge our customer base.

## Risks and uncertainties

Elanders divides risks into circumstantial risk (the future of our products/services and business cycle sensitivity), financial risk (currency, interest, financing and credit risks) as well as business risk (customer concentration, operational risks, risks in operating expenses as well as contracts and disputes). These risks, together with a sensitivity analysis, are described in detail in the Annual Report 2018. Circumstances in the world around us since the Annual Report was published are not believed to have caused any significant risks or influenced the way in which the Group works with these compared to the description in the Annual Report 2018.

## Seasonal variations

The Group's net sales, and thereby income, are affected by seasonal variations. Historically the fourth quarter has been somewhat stronger than the other quarters.

## Transaction with related parties

The following significant transactions with related parties have occurred during the period:

- One of the members of the Board, Erik Gabrielson, is a partner in the law firm Vinge, which provides the company with legal services.
- Related parties to Peter Sommer, a member of Group Management and Managing Director of Elanders GmbH , own shares in a property where Elanders GmbH runs most of its operations.

Remuneration is considered on par with the market for all of these transactions.

## Events after the balance sheet date

## Changes in Group Management

As of July 2019, Bernd Schwenger is responsible for LGI, which makes up the largest part of Supply Chain Solutions and Andreas Bunz, previously responsible for LGI, has left Group Management. Kevin Rogers has returned to Group Management and will be responsible for activities in Global Sales on Group level. The above change was previously announced in a separate press release.

Bernd Schwenger has been at LGI since 2018 after working at Amazon Logistics where he was in charge of building up the organization. He has also held a number of leading positions in HP.

Kevin Rogers, who was previously a representative in Group Management for business area Print \& Packaging Solutions, has during a takeover period led Elanders' former operations in Beijing after its sales to Edelmann GmbH.

After these changes Elanders Group Management consists of the following members;

- Magnus Nilsson, President and CEO
- Andréas Wikner, CFO
- Bernd Schwenger, responsible for Supply Chain Solutions (LGI)
- Eckhard Busch, representative for Supply Chain Solutions (LGI)
- Lim Kok Khoon, responsible for Supply Chain Solutions (Mentor Media)
- Peter Sommer, responsible for Print \& Packaging Solutions
- Kevin Rogers, responsible for Global Sales

No other significant events have occurred after the balance sheet date until the day this report was signed.

## Forecast

No forecast is given for 2019.

## Accounting principles

The quarterly report for the Group has been prepared in accordance with the Annual Accounts Act and IAS 34 Interim Financial Reporting and for the parent company in accordance with the Annual Accounts Act. The same accounting principles and calculation methods as those in the last Annual Report have been used, except for the standards with mandatory effective date 1 January 2019, where the significant differences for the Group are presented below.

## Leases

International Accounting Standards Boards (IASB) has issued a new standard, IFRS 16 "Leases", which is effective from 1 January 2019. The standard concerns the accounting of operating lease agreements where the Group has large commitments in terms of rental contracts for premises and leasing of machinery and equipment as well as vehicles. The transition to IFRS 16 has been based on the Modified retrospective approach, which means that the comparison periods have not been adjusted for IFRS 16. The standard has had a significant effect on the Group's total assets and liabilities and the effects on opening balances as of 1 January 2019 are presented on page 13 in this report. Furthermore, the above application means that the figures for the current year will not be fully comparable with previous years.

The new accounting principles in short; The leases are recognized as a right-of-use asset with a corresponding lease liability. Short-term leases and leases for which the underlying asset is of low value are exempted. Each lease payment is divided into amortization and financial cost. The financial cost is allocated over the lease term, so that each reporting period is charged with an amount corresponding to a fixed interest rate for the liability recognized under each period. The Group's lease liabilities are recognized at the present value of the future lease payments. Discounting of the future lease payments are made with the interest rate implicit in the lease, if this rate can easily be determined. Otherwise, the Group's incremental borrowing rate is applied.

The Group's right-of-use assets are recognized at cost, and initially comprise the present value of the lease liability, adjusted for lease payments made at or before the commencement date. Restoration costs are included in the asset if a corresponding provision for restoration costs exist. The right-of-use asset is depreciated on a straight-line basis over the asset's useful life or the lease term, whichever is the shortest.

## Effect of applying IFRS 16

IFRS 16 "Leases" is effective from 1 January 2019 and affect the accounting of the Group's lease agreements where there are large commitments in terms of rental contracts for premises and leasing of machinery and equipment. The transition to IFRS 16 is based on the Modified retrospective approach. The standard has a significant effect on the Group's total assets and liabilities and the effects on opening balances 1 January 2019, income statement first quarter 2019 and a reconciliation of reported operating lease obligations are presented below. The effect of applying IFRS 16 deviate from the preliminary effects presented in the annual report related to some minor adjustments in the assumptions.

| MSEK | Closing balance 31 December 2018 | $\begin{array}{r} \text { Effect } \\ \text { IFRS } 16 \end{array}$ | $\begin{array}{r} \text { Opening } \\ \text { balance } \\ 1 \text { January } \\ 2019 \\ \hline \end{array}$ |
| :---: | :---: | :---: | :---: |
| Fixed assets | 4,274 | 2,043 | 6,317 |
| Current assets | 3,463 |  | 3,463 |
| Fixed assets | 7,737 | 2,043 | 9,780 |
| Equity | 2,707 | - | 2,707 |
| Long-term liabilities | 2,642 | 1,444 | 4,085 |
| Short-term liabilities | 2,388 | 599 | 2,987 |
| Total equity and liabilities | 7,737 | 2,043 | 9,780 |

$\left.\begin{array}{lrrrr} & & & \begin{array}{r}\text { First six } \\ \text { months } \\ \mathbf{2 0 1 9}\end{array} \\ \text { MSEK } & \begin{array}{r}\text { First six } \\ \text { months } \\ \text { 2019 }\end{array} & \begin{array}{r}\text { First six } \\ \text { monts }\end{array} \\ \text { 2018 }\end{array}\right\}$

| MSEK | Reconciliation leases <br> from IAS 17 to IFRS 16 |
| :--- | ---: |
| Operating lease obligations as of 31 December 2018 | 2,046 |
| Discounting effect to net present | -190 |
| value | -81 |
| Short term and assets of low value exceptions | 268 |
| Effect from extension options | $\mathbf{2 , 0 4 3}$ |
| Effect on the lease liability as of 1 January 2019 | 147 |
| Finance leases per 31 December 2018 | $\mathbf{2 , 1 9 0}$ |

The Group's average discount rate used for transition is 3.1 percent. The discount rate for the various agreements is in the range of 2.5 to 7.35 percent and is dependent on the currency, jurisdiction and the contract length.

## Segment reporting

The two business areas are reported as reportable segments, since this is how the Group is governed and the President has been identified as the highest executive decision-maker. The operations within each reportable segment have similar economic characteristics and resemble each other regarding the nature of their products and services, production processes and customer types. Sales between segments are made on market terms.

Until 31 December 2018 Elanders had three business areas, Supply Chain Solutions, Print \& Packaging Solutions and e-Commerce Solutions. As of 1 January 2019, e-Commerce Solutions was integrated into Print \& Packaging Solutions and the Swedish operations that was earlier included in Print \& Packaging Solutions is now included in Supply Chain Solutions. In 2018, the Swedish operations had net sales of MSEK 398.

The comparison periods have been adjusted to reflect the current segments.

## Disaggregation of revenue

Revenue has been divided into geographic markets, main revenue streams and customer segments since these are the categories the Group uses to present and analyze revenue in other contexts. Income for each category is presented per reportable segment. The Group's customer contracts are easy to identify and products and services in a contract are largely connected and dependent on each other, and therefore part of an integrated offer.

Main revenue streams are presented based on the internal names used in the Group. Sourcing \& Procurement services refer to the purchase and procurement of products for customers as well as handling the flows connected to these products. Freight and transportation services refer to revenue from freight and transportation with our own trucks as well as pure freight forwarding. Other supply chain services such as fulfilment, kitting, warehousing, assembly and after sales services are presented under Other contract logistics services. Other work/services refer to pure print services and other services that do not fit into any of the first three categories.

Intra-group invoicing regarding group functions is reported net in net sales to group companies.
For comparability between the quarters, adjustments have been made regarding historical figures for net sales per customer segment due to that some customers were moved between the customer segments.

## Financial assets and liabilities measured at fair value

The financial instruments recognized at fair value in the Group's report on financial position are derivatives identified as hedging instruments. The derivatives consist of forward contracts and are used for hedging purposes. Valuation at fair value of forward contracts is based on published forward rates on an active market. All derivates are therefore included in level 2 in the fair value hierarchy. Since all the financial instruments recognized at fair value are included in level 2 there have been no transfers between valuation levels.

Derivative instruments in hedge accounting relationships recognized at fair value is presented under other current assets and non-interest bearing short-term liabilities. These items gross are below MSEK 1 both per 30 June 2019 and the comparison periods.

The fair value of other financial assets and liabilities valued at their amortized purchase price is estimated to be equivalent to their book value.

## Divestiture of operations in 2018

In October 2018 Elanders signed a contract with the Edelmann Group to transfer its Beijing, China operations in Print \& Packaging Solutions to Edelmann. This unit had nearly 170 employees and annual net sales of around MSEK 80. The deal was concluded in the fourth quarter and had a positive effect on cash flow of about MSEK 23 and a minor negative effect on the operating result.

In November 2018 Elanders' subsidiary LGI signed a contract with Adecco for the divestiture of 51 percent of the shares in Logworks, Elanders' staffing services in Germany that employs around 500 people. The sales had a positive effect on cash flow of MSEK 1 and a minor positive effect on the result, and the deal was concluded in the fourth quarter.
