Sud Vannier wind farm produces its first kilowatt hours

Votalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, reinforces its local presence in the Grand-Est region in France and announces the commissioning of Sud Vannier wind farm.

With a capacity of 23.6 megawatts, Sud Vannier project is Votalia's first wind farm in the Grand-Est region and the third wind farm in the North-East quarter of France after Sarry (23.1 megawatts) and Molinons (10 megawatts) wind farms.

The electricity produced will be sold to Leroy Merlin under a 23-year contract, the first Corporate PPA¹ wind farm in France.

The production of this project is equivalent to the domestic consumption of about 26,000 people, approximately 15% of the population of the Haute-Marne department.

The Grand-Est region has important objectives in terms of renewable energy supply: to be energy positive and low carbon by 2050.

Next on the agenda: **Turnover Q1 2023**, on April 26, 2023 (after market close)
