EUROBIO SCIENTIFIC REACHES THE €50M SALES MARK IN 2018

Eurobio Scientific consolidated sales reached €50.6M in 2018, an 18% growth, confirming its position as a key player in *in vitro* diagnostics.

Activity grew by more than 6% at constant scope.

Paris, January 29, 2019 – 6:00 pm

Eurobio Scientific (FR0013240934, ALERS, eligible PEA-PME), a leading French group in the field of specialty *in vitro* medical diagnostics, presents its annual consolidated turnover at December 31, 2018.

**Eurobio Scientific reaches €50M sales mark in 2018.**

The Eurobio Scientific Group reached €50.6M annual consolidated turnover in 2018, an +18% increase compared to 2017.

At constant scope, which means including Eurobio sales during the first quarter of 2017, the turnover increased by +6%, a significant growth rate in a sluggish market.

Eurobio Scientific consolidates its market shares, with major new agreements won this year.

The turnover breakdown by activity will be presented with 2018 annual results.

(1) Turnover including sales made by Eurobio from the acquisition on March 30, 2017
(2) Turnover including sales made by Eurobio from January 1st, 2017

**Activity driven by the growth of molecular biology**

With overall trends similar to the 1st half of 2018, the activity of the Group remains driven by the growth of molecular biology which offsets the decrease of HLA sales in the Transplantation division, in a mature market.
Strong improvement of profitability expected for 2018 fiscal year

After reaching a positive EBITDA in the first half of 2018, the implemented savings program continues to have an impact on the second half of the year and allows the Group to anticipate a significant improvement of its overall profitability for the 2018 fiscal year compared to 2017.

« By crossing the €50M mark this year, we consolidate our critical size. The signing of several new distribution agreements strengthens our position as a leading Group in the field of specialty in vitro diagnostics. Our efforts to expand our range of proprietary products, associated with new distribution agreements, allows us to meet customer needs with innovative products. We confirm our goal to increase turnover by +25% by the end of 2020. Furthermore, as already announced at the beginning of 2018, our objective is to increase significantly our EBITDA during the year. During the first half of 2018, after showing, within a few months, our capacity to reach an EBITDA of more than 2 million euros, we anticipate a clear improvement of our global profitability for the full year » concludes Jean-Michel Carle, CEO of Eurobio Scientific.
