Hexatronic adjusts financial target

The board has reviewed Hexatronic Group AB (publ) financial targets in connection with the year-end 2022 financial statements.

Given Hexatronic's strong development, market position and future opportunities, the Board of Directors has decided to adjust Hexatronic's profitability target to 15-17 percent EBITA-margin (earnings before amortisation of intangible assets) over a business cycle. The previously set profitability target was at least 12 percent EBITA-margin over a business cycle.

Hexatronic's growth target of at least 20% over a business cycle remains the same.
