# Clarification of guidance for revenue and lower than expected operating profit in the 2023/24 financial year

According to the preliminary figures, revenue in the third quarter of 2023/24 was DKK 98.9 million and in the first nine months of 2023/24 DKK 298.2 million.

Based on the development in the third quarter of 2023/24 and the expectations for the remaining part of the financial year, expectations for revenue for the 2023/24 financial year are clarified. Hence, revenue in 2023/24 is expected to be in the DKK 400-415 million range against previously announced DKK 400-435 million and thus still within the most recently announced range.

Earnings in the third quarter of 2023/24 have been affected by one-off costs in connection with organizational changes, and, among other things, as a result of this, an operating result (EBITDA) of DKK 185-200 million is expected in 2023/24 against previously announced DKK 200-220 million.

Final figures for the third quarter 2023/24 and for the first nine months of 2023/24 will be included in the interim report for the third quarter 2023/24, which will be published on 8 May 2024.
