After the second quarter's dip, NAXS's net asset value per share recovered during the third quarter, increasing by 9.3% during the period. The increase in net asset value reflects the general valuation uplift of fund investments, based on improved trading conditions for portfolio companies and positive developments of comparative multiples.

During the third quarter, NAXS allocated some of the cash on its balance sheet, making a new commitment to Nordic Capital Fund X, the latest fund launched by Nordic Capital. The fund will focus on majority investments in companies in the Healthcare, Technology & Payments and Financial Services sectors.

Note 2

Financial assets and liabilities

NAXS's financial instruments consist of fund investments, cash and cash equivalents and accounts payable. Level 3 investments includes only the Company's publicly traded share of the fund holdings / securities of unlisted companies (in some cases, also listed companies). When observable prices are not available for these securities, the fund manager uses one or more valuation techniques (e.g. yield methods or income-based methods), or a combination of techniques, for which sufficient and reliable data are available. Within Level 3, the market approach generally uses earnings multiples of comparable companies, while the income-based approach generally uses the present value of estimated future cash flows, adjusted for liquidity, credit, market and/or other risk factors.

For NAXS, the book value of all financial assets and liabilities corresponds to fair value. All amounts are shown in the reported balance sheets.

Definitions and Alternative performance measures

NAXS applies the guidelines issued by the European Securities and Markets Authority (ESMA) for alternative key ratios. Alternative key figures are financial measures of historical or future earnings trend, financial position, financial results or cash flows that are not defined or specified in the applicable rules for financial reporting

Alternative key ratios are stated when, in their context, they provide clearer or more in-depth information than the measures defined in applicable financial reporting rules. The alternative key figures are derived from the consolidated financial statements. Alternative key ratios are stated when, in their context, they supplement the measures defined in IFRS. The starting point for the provided alternative key figures is that they are used by management to assess the financial development and are thus considered to provide valuable information to analysts and other stakeholders. NAXS regularly uses alternative key ratios as a complement to those key ratios that generally constitute good accounting practice.

The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.
