

Press Release – Paris, December 20, 2023

Danone publishes its Climate Transition Plan

After the release of its Danone Impact Journey in February 2023, Danone published today its Climate Transition Plan, available on [Danone's website](#).

This plan details Danone's roadmap to reach its 2030 1.5°C science-based targets and sets the Company on the pathway to achieve Net-Zero emissions by 2050 across its entire value chain. It also addresses the challenges that need to be overcome, involving its partners and its consumers.

This publication is a significant step in the roll-out and communication of Danone's climate strategy, following the validation by Science Based Targets initiative (SBTi) in December 2022 of its near-term GHG reduction targets, aligned with a 1.5°C pathway on all its scopes.
