III. PURPOSES OF ACTIVITIES AND TYPE OF ACTIVITIES OF THE COMPANY

11. The purpose of the Company is to accumulate Shareholders’ funds by public offering of Shares under the procedure set in these Articles of Association and, diversifying the risk, to invest them collectively into assets indicated in these Articles of Association in compliance with investment requirements indicated in legal acts. For this purpose, the Company shall rationalise the structure of the investment portfolio, shall perform investment and reinvestment activity, shall perform supervision over economic – financial activities of controlled companies.
12. The Company shall operate as a closed-ended type investment company under the procedure set by legal acts.
13. The Company shall perform economic and commercial activities following legal acts of the Republic of Lithuania and these Articles of Association.
14. The Shares of the Company are admitted to trading on the Nasdaq Vilnius stock exchange.
15. Management of the Company shall be assigned to the Management Company, whereas assets of the Company shall be transferred to the Depository for keeping. The Company shall transfer equity securities of Operational Companies acquired by it directly and assets acquired by SPV directly to be kept in the Depository. Assets possessed and/or managed by Operational Companies shall not be considered assets of the Company and the Depository shall not perform keeping, supervision or control functions in respect of such assets.

IV. INVESTMENT STRATEGY OF THE COMPANY

16. The purpose of the Company is to accumulate and invest the Shareholders’ funds in order to rationalise the structure of the investment portfolio (including improvement of management of Operational Companies, encouraging mutual cooperation among Operational Companies, etc.); to perform the activity of investment and reinvestment into investment objects; to perform supervision over economic – financial activities of controlled companies.
17. Diversifying investments and managing the risk, the Management Company shall seek to reduce the risk and to prevent possible reduction of investments value and to create value by selecting investment objects and making use of other market participants’ experience.
18. The aim sought by the Company is to earn return for Shareholders’ benefit from investments into Operational Companies, which are registered or perform activities in a Member State of the European

Union (the European Economic Area), Member States of the Organisation for Economic Cooperation and Development (OECD) and in Israel. For avoidance of doubt, Operational Companies can control and/or acquire companies in countries other than those indicated in this article, but that shall not be regarded as performance of activities of an Operational Company beyond the limits of the States indicated in this article.

19. The Management Company shall invest at least 70% of the Net Asset Value of the Company directly or by use of SPVs into shareholdings in Operational Companies indicated in Article 18 of these Articles of Association, enabling it to control Operational Companies or exercise decisive influence on them (after conclusion of the shareholders agreement or acting in concert with other investors or management of such companies).
20. Investing directly or by use of SPVs, the Management Company (on behalf of the Company) shall contribute to development of the companies and creation of value, i.e. will seek development of the business of such companies, more effective management of them and distribution of available resources and optimal processes of activities of such companies, enabling to expect successful development, increase of the market share, increase in profitability and other factors pertaining to long-term activities of such companies, implementation of goals. The Management Company will invest assets of the Company into Operational Companies for a definite period, seeking to sell their securities at a profit (due to increase in the value of companies) during the effective Term of Activities of the Company. The Management Company can take a decision to invest funds of the Company into Operational Companies it already has for 2 additional years after the end of the Investment Period.
21. Seeking to increase return from investments and ensure supervision over investments, the Management Company shall seek to participate in the management of investment objects as a member of the advisory body, management body of the company or in another form depending on specifics and geography of activities of a specific company. The Management Company shall also, involving its human resources, experience in the market and network of professional contacts, if necessary, will delegate professionals in a relevant field, who are of sufficiently good repute, to management bodies of investment objects, in order to ensure implementation of strategic goals and exploiting the potential of investment objects.
22. The Management Company shall manage the portfolio of investment instruments of the Company following these main principles of diversification (the conformity of the portfolio of investment instruments of the Company to the following principles shall be achieved within four years after obtaining a license for a closed-ended type investment company):
 - 22.1 No more than 30% of the Net Asset Value of the Company can be invested into transferrable securities or money market instruments of any newly established company and/or into transferrable securities or money market instruments issued by an existing company:
 - 22.1.1. that are not entered onto the trade list of the market, which according to the Law of the Republic of Lithuania on Markets in Financial Instruments is considered regulated and operating in the Republic of Lithuania or in another Member State of the European Union, or
 - 22.1.2. which are not admitted to trading on the market operating, recognised, supervised and available to the public according to rules set in another Member State of the European Union or another state with appropriate supervision standards.
 - 22.2 No more than 30% of the Net Asset Value can be invested into:
 - 22.2.1. deposits issued by one person for a term no longer than 12 months, which, upon demand, can be withdrawn in a credit institution, the registered office of which is in a Member State of the European Union or another state, where risk-limiting supervision is no less strict than in the European Union;

- 22.2.2. financial derivatives, which are admitted to trading on the multilateral trading facility, but which are not admitted to trading in the markets indicated in paragraphs 22.1.1-22.1.2 hereof and where the other party to the transactions, conducted outside the markets indicated in paragraphs 22.1.1-22.1.2 hereof, meets criteria established by the Supervisory Authority and is subject to risk-limiting supervision and which can be checked, assessed reliably and accurately every day and sold or otherwise realised in return for a consideration at their fair value at any time;
- 22.2.3. investment objects provided for in Article 145(5) of the Law of the Republic of Lithuania on Collective Investment Undertakings and issued by one person, including investment units and/or shares of closed-ended type collective investment undertakings, if the investment strategy of such collective investment undertakings, requirements for diversification of their investments and the period of their activities are in line with the Company's investment strategy, requirements for diversification of investments and the period of activities or the Company has a possibility to get back its investments at any time;
- 22.2.4. investment units and/or shares of collective investment undertakings issued by one person, if these collective investment undertakings:
 - 22.2.4.1. the sole purpose of such undertakings is to accumulate persons' funds by public offering of investment units or shares and by splitting them to collectively invest them into transferrable securities and/or the planned liquid assets and investments units or shares of which must be redeemed at any time upon request of their holder, these undertakings are licensed in the Republic of Lithuania and their supervision is no less strict than in the European Union or licensed in such a State, where supervision is no less strict than in the European Union, and the Supervisory Authority cooperates with the relevant supervisory authority of another Member State or third country;
 - 22.2.4.2. protection of rights of participants in the undertakings, including regulation of separation of assets, borrowing, lending and gratuitous transfer of assets, is no less strict than established for harmonised collective investment undertakings according to the Law of the Republic of Lithuania on Collective Investment Undertakings;
 - 22.2.4.3. the undertakings present semi-annual and annual reports on their activities, enabling to assess their assets and liabilities, profit and activities during a reporting period;
 - 22.2.4.4. no more than 10% of their net assets, according to their documents of incorporation, can be invested into investment units or shares of other collective investment undertakings.
- 22.3 For avoidance of doubt, the total amount of the investments indicated in Article 22 hereof into transferrable securities, Money Market Instruments, deposits issued by one person and liabilities arising out of transactions on Financial Derivatives with that person, cannot be more than 30% of the Net Asset Value.
- 22.4 Assets of the Company may be invested into shares of companies entered onto the trade list of the market, which according to the Law of the Republic of Lithuania on Markets in Financial Instruments is considered regulated and operating in the Republic of Lithuania or in another Member State of the European Union (European Economic Area), or into shares of companies, which are admitted to trading on the market operating, recognised, supervised and available to the public according to rules set in another Member State or another state provided that the sum of nominal values of the shares acquired by the Company account for at least 1/10 of the authorised capital of such company. The Company may invest into the shares of the companies referred to herein no more than 20% of the Net Asset Value.

23. For the sake of efficiency of the Company's activities and control over its investments, an Investment Committee shall be formed by a decision of the Board of the Management Company. The Investment Committee shall consist of maximum 4 members, who shall be persons authorised to take investment decisions. Members of the Investment Committee shall be appointed and removed from office by the Board of the Management Company. An approval of the Investment Committee must be obtained for all investments of the Company (directly to an Operational Company or through an SPV) and for their sale.
24. The procedure of formation, responsibilities, functions of the Investment Committee, decision-making procedure and other procedures of the Investment Committee shall be set in the regulations of the Investment Committee.
25. The strategy of investment of the Company's assets provided for in the Articles of Association can be changed by making relevant amendments to the Articles of Association by a decision of the general meeting of Shareholders.
26. In case of a change in the Company's investment strategy, all Shareholders must be informed about that in writing at least 2 months in advance. In such cases, the Shareholders must be given a possibility to demand redemption of the Shares owned by them without any additional deductions within a sufficient period of time, which cannot be shorter than 2 months after properly informing the Shareholders about the planned change of the investment strategy of the Company (redemption of the Shares shall be performed following Article 91 of these Articles of Association). Shareholders must be informed about this right by submitting a notification about the planned change of the investment strategy of the Company.
27. An investment object(s) of the Company (both managed directly or by use of an SPV) can be transferred only subject to prior consent of the Depository. Consents of the Depository indicated in this article hereof are not required if assets of the Operational Company, equity securities of which are kept with the Depository, are transferred.
28. The Company may own investment objects directly and it may own securities of SPVs. When investing through an SPV, the Depository is to be provided with all documents in connection with investments into the SPV in order that the Depository could perform its functions provided for in legal acts.
29. If necessary, funds may be borrowed (with or without pledge of the assets) in the name of the Company for the purpose of higher investment return (through additional financing investment objects acquired by the Company (or controlled companies through SPV). The Management Company can take a decision to borrow in the name of the Company up to 80% of the Net Asset Value as on the date of entry into the loan agreement (taking into account Net Asset Value calculated and published as described Articles of Association). Loan agreements of the Company must expire no later than 3 months until the end of the Term or extended Term of Activities of the Company.
30. The Company's assets will not be lent or used as a guarantee or security of obligations for other persons, excepted for SPV or Operational Companies in which the Company invests provided that the assets of such persons are invested in assets according to the Company's investment strategy and the following two conditions are met:
 - 32.1 Funds lent or a guarantee or security provided by the Company account for the part of the loan, guarantee or security amount provided to the person which is no more than the shareholding owned by the Company in the authorised capital of that person;
 - 32.2 The total amount of the funds lent or a guarantee and security provided to the person is not in excess of 50% of the Net Asset Value.
31. The Company shall not use a benchmark.
32. After incorporation of the Company, its investment portfolio can fail to meet the set diversification requirements for 4 years after the date when the Supervisory Authority issued a permit to approve documents of its incorporation and choose a depository. In all cases, the right not to meet the set

diversification requirements does not cancel the duty of the Management Company to invest assets of the Company in compliance with requirements set in Articles 18-21 hereof.

33. If after the end of the term set in Article 32 hereof investment requirements are violated for reasons that the Management Company cannot control, such situation must be eliminated as soon as possible, but in any case no later than within one year of the day on which the Management Company became aware of this situation. This term can be longer only in exceptional cases, when the Management Company cannot correct the situation due to reasons beyond its control. In such a case, after the end of the one-year term, the Management Company must immediately inform the Supervisory Authority in writing about the situation and reasons for it. The notification must also indicate the expected date of fulfilment of the requirement.

V. INVESTMENT RISKS

34. Investments into Shares are related to higher than average, long-term risk. The Company cannot guarantee that the Shareholders will get invested funds back. A Shareholder or a Person intending to become a Shareholder shall familiarize with the list and summary of risks that are presented in the Articles of Association, the Prospectus and the Company's Annual Report. The relevant list of risk factors associated with the Shares and (or) the Company's operations is presented in the Prospectus.

General risk

35. The value of investments into the Company can fluctuate significantly in the short term, depending on the situation in the market. Investments into the Company should be made for a long term in order that the Shareholder could avoid the risk of short-term price fluctuations.

Redemption of the Shares is limited, i.e. a Shareholder cannot demand that the Company or the Management Company, which took over its management, would redeem the Shares. But a Shareholder of the Company will have a possibility to sell Shares of the Company in the secondary market (see Articles 80-82 of the Articles of Association).

Risk of changes in the market of technologies

36. The business of information technologies and the market related to information technologies change particularly quickly. Therefore, there is a risk that due to unforeseen changes in the market the value of investments of the Company or the investment return from investment objects of the Company can decrease, the development of companies acquired by the Company will take longer and/or will cost more than planned, therefore, the Company's investments will not be profitable and/or their value will decrease.

Risk of the management and human resources

37. The success of the Company's investments will largely depend on heads of companies managed by the Company (directly or indirectly), also on decisions taken by persons in the Management Company who are responsible for management of the Company and on experience and capabilities of the said persons. There is no guarantee that the same employees will continue managing companies managed by the Company (directly or indirectly), as well as the Management Company throughout the whole Term of Activities of the Company.

Risk of conflicts of interest

38. There is a risk that there will be situations when interests of the Management Company (or persons related to it) and the Company or Shareholders will differ or interests of individual Shareholders will differ, i.e. there will be a conflict of interest. When it is impossible to avoid a conflict of interest, the Management Company must ensure that Shareholders are treated fairly. Employees of the Management Company and other persons related to the Management Company and persons, directly or indirectly related to the Management Company by relationship of control, must immediately, as soon as they become aware of such information, notify the Investment Committee and/or the Supervisory Board of the Company about

a potential or existing conflict of interest. The Investment Committee, approving of investment decisions, shall take into account the information presented to it about potential or existing conflicts of interest. The Investment Committee shall immediately inform the head and the Board of the Management Company about conflicts of interest it is aware of.

Following legal acts regulating organisation of activities of collective investment undertakings, the Management Company has implemented appropriate measures for avoiding conflicts of interest, which enable to perform the activities of managing the risk of conflicts of interest and managing conflicts of interest independently, in order to avoid or reduce the risk of conflicts of interest or properly manage a conflict of interest when it occurs.

Risk of liquidity of investments

39. There is a risk that investments into Operational Companies will be relatively illiquid and finding buyers for such companies can take some time. Furthermore, financing conditions can become worse due to deteriorating economic condition of the world, a region or a country. Therefore, sale of the Company's investments can take longer than planned or their return may be less than planned. When investing into Operational Companies, securities issued by which (shares, bonds and other Financial Instruments) are not admitted to trading on regulated markets, there is a probability of facing a situation when sale of securities, due to absence of demand or other conditions in the market, can take longer than planned or not be as profitable as planned or may even cause losses.

Risk of investments by Operational Companies

40. Operational Companies can control or acquire companies in countries other than those indicated in Article 18 of these Articles of Association and that shall not be considered as performance of the Company's activities beyond the limits of the countries indicated in Article 18 of these Articles of Association. However, there is a risk that companies acquired or controlled by Operational Companies will be relatively illiquid and finding buyers for such companies can take some time. Furthermore, financing conditions can become worse due to deteriorating economic condition of the world, a region or a country. Therefore, there is a probability of facing a situation when, due to activities of companies managed by an Operational Company or sale of companies managed by an Operational Company, the Operational Company will suffer losses, which will be reflected in the Net Asset Value.

Risk of changes in laws and regulation

41. There is a risk that upon changes in legal acts of the Republic of Lithuania or the States where assets of the Company are invested or where Operational companies, into which the Company invests, operate, such changes in legal acts can have a negative effect on the protection of the Company's investments, the activities, profitability and value of the Operational companies or such changes in legal acts can have a negative effect on rights and interests of the Company otherwise.

Tax risk

42. There is a risk that upon changes in economic conditions, political situation in the country or due to any other reasons, new taxes on Shareholders, the Company or investment objects of the Company will appear or the rates of current taxes will increase, therefore the price, liquidity and/or attractiveness of the Shares or the value of investments of the Company may decrease.

Risk of inflation and deflation

43. There is a risk that in case of inflation the value of a Share will grow slower than inflation, which would result in the return lower than inflation. In such a case, the real return earned by persons who sold Shares of the Company in the market from increase in the value of the Shares can be smaller than expected. In case of deflation, there would be a risk that the value of the Company's investments will decrease by reason of the drop of the general price level.

Credit risk

44. There is a risk that buyers of products and services of companies (directly or indirectly) owned by the Company will fail to fulfil their obligations in time – this would have a negative effect on the profit of the Company and/or companies (directly or indirectly) managed by it. In case of late performance of a large part of obligations, the ordinary business of the Company and/or companies (directly or indirectly) owned by it may be disrupted, it may be necessary to search for additional sources of financing, which may be not always available. The Company also incurs the risk of keeping funds in bank accounts or investing into short-term financial instruments.

Liquidity risk

45. There is a risk that due to deteriorating economic condition of the world, a region or a country it will become difficult and/or expensive for the Company (managed by the Management Company) to obtain new loans for acquisition of investment objects or to refinance old loans, therefore the value of the Company's investments can decrease. In order to reduce this risk, the Management Company will seek to maintain a sufficient level of liquidity in the Company or will ensure timely financing via arranging respective financing facilities from financial institutions or other parties.

Acquiring Shares, the Shareholders assume the risk of securities liquidity – in case of a drop in demand for Shares or delisting them from the stock exchange, investors would find it difficult to sell them. In case of deterioration of the Company's financial situation, the demand for Shares, as well as their price may decrease.

Currency risk

46. The Operational companies enter into a large portion of non-EUR denominated agreements in foreign markets, whereas some of their performance costs are incurred in euro, therefore a drop in rate of respective currencies can have a negative effect on profitability of managed companies. A large part of computers and other equipment is purchased from foreign manufactures where payments are also made in non-EUR currencies. Besides, having in mind that the Operational companies will operate in many states, there is a risk that the attractiveness or profitability of the Company's investments will decrease also due to fluctuations in rates of other currencies.

Interest rate risk

47. There is a risk that in case of fast recovery of the global economy or increase in inflation, central banks will increase interest rates and it will be more expensive to service loans in connection with the Company's investments, therefore, the value of the Company's investments can decrease.

Market risk

48. Acquisition of Shares entails the risk to incur losses due to unfavourable changes in the Share price in the market. A drop in the price of the Shares can be caused by negative changes in the value of assets and profitability of the Company, general share market trends in the region and in the world. Trade in Shares can depend on comments of financial brokers and analysts and announced independent analyses about the Company and its activities. If the analysts give an adverse opinion about prospects of the Shares, this can also have a negative effect on the price of Shares in the market. In assessing shares, non-professional investors are advised to address intermediaries of public trading or other specialists in this field for help.

Dividend payment risk

49. There is a risk that the Company will not pay dividend. A decision on payment of dividend will depend on profitability of activities, cash flows, investments plans and the general financial situation and other circumstances.

Geopolitical risk

50. There is a risk that geopolitical changes can have an effect on activities of the Company (e.g. conflicts of States, internal conflicts in neighbouring States, insurrections, wars) and for this reason the investment value of the Company can decrease or it may be impossible to sell the Company's investments at the desired time for the desired price.

Risk related to statements in the future tense

51. Statements in the future tense are based on estimate, opinion, expectations and forecasts regarding future events and financial trends that will possibly have an effect on the activities of the Company. Statements in the future tense include information about possible or presumable results of the Company's activities, investment strategy, contractual relationships, borrowing plans, investment conditions, effect of future regulation and other information. The Company cannot assure that statements in the future tense will reflect future events and circumstances fully and correctly. The Company, the Management Company and its employees do not undertake to adjust or modify statements in the future tense, except to the extent required by laws and these Articles of Association.

Risk of valuation of the Company's assets

52. The assets of the Company will be evaluated according to the main rules set in these Articles of Association and the Company's Accounting Policy established by the Management Company. Valuation of individual assets held by the Company shall be performed by at least one property appraiser, however such valuation of assets shall be only determining the value of the assets, which does not automatically mean the exact sale price of an investment held by the Company, which depends on many circumstances, for example, economic and other conditions, which cannot be controlled. Thus, the sale price of investments held by the Company can be higher or lower than the value of assets determined by a property appraiser.

Competition risk

53. The Company, investing into investment objects, will compete with other investors, including, without limitation, with other investment companies or private capital investment funds. Thus, there is a risk that competition with other investors will demand that the Company would conduct transactions at less favourable conditions than it would be possible in other cases.

Risk related to possible liability of the Company

54. There is a risk that the activities of the Company and the general performance results of the Company can be negatively affected by demands and claims regarding non-disclosed or non-identified obligations and/or violations in connection with investments acquired by the Company, which may result in the Company's liability for such obligations and/or violations and for this reason the value of the Company's investments and, at the same time, the price of the Shares can significantly decrease.

Risk of insolvency of Operational Companies

55. Operational Companies, in performance of their activities, can face insolvency problems (go bankrupt, undergo restructuring, etc.). Accordingly, such situations can have a negative effect on the price of the Shares or result in insolvency of the Company itself.

Risk of insolvency of the Company

56. In case of realisation of one or several of the above-indicated risks, which would have a negative effect on the value and/or liquidity of Operational Companies, this can result in the Company's solvency problems, when the Company will be incapable of fulfilling its obligations. In such a case, shareholders of the Company can lose all their funds invested into the Company.

Risk related to the duty to redeem Shares of the Company

57. Legal acts provide for a duty of the Company in certain circumstances to redeem its Shares from the Shareholders that requested such redemption (see Article 91 hereof). Accordingly, if the Company becomes subject to the duty to offer to the Shareholders redemption of Shares and if such a redemption is requested by the Shareholders holding a significant number of Shares, the Company can be forced to sell its investments urgently, which can significantly reduce the return earned by the Company from sale of its investments. This risk is planned to be managed by means stipulated in Article 98 hereof.

VI. SHARES OF THE COMPANY. PROCEDURE OF ISSUE OF NEW SHARES OF THE COMPANY. RIGHTS GRANTED TO SHAREHOLDERS

58. The number of Shares issued by the Company is 12,175,321, the authorised capital of the Company is EUR 3,530,843.09. The Company issues ordinary registered shares.
59. Shares are non-certificated. They are recorded by entries in Shareholders' personal securities accounts. These accounts are managed under the procedure set by legal acts regulating the market in financial instruments.
60. The nominal value of one Share shall be EUR 0.29 (twenty nine euro cents). The nominal values of all the Shares shall be equal.
61. The value of the Shares will change depending on the Net Asset Value.
62. The title to the Shares shall be proved by entries in personal securities (share) accounts.
63. The Shareholders shall have the following property rights:
 - 63.1 to receive a share of profit (dividend) of the Company if the general meeting of Shareholders decides to distribute it to Shareholders during the Term of Activities of the Company;
 - 63.2 to sell or otherwise transfer all or some of their Shares to the ownership of other persons on the secondary market or of the Company during share redemption;
 - 63.3 under the procedure set in legal acts of the Republic of Lithuania and in these Articles of Association, to receive a part of funds of the Company, disbursable in case of winding up of the Company (i.e. liquidation of the Company);
 - 63.4 other property rights provided for in legal acts and the Article of Association of the Company.
64. Shares shall give the Shareholders the following personal non-property rights:
 - 64.1 to take part in general meetings of Shareholders;
 - 64.2 to vote at general meetings of Shareholders according to rights carried by the Shares. One Share shall give one vote in the general meeting of Shareholders;
 - 64.3 to obtain information about the Company under the procedure set by legal acts of the Republic of Lithuania;
 - 64.4 to give questions to the Management Company in advance, related to issues on the agenda of general meetings of Shareholders;

- 64.5 other non-property rights provided for in legal acts of the Republic of Lithuania and in these Articles of Association.
65. New Shares can be issued by increasing the authorised capital of the Company by a decision of the general meeting of Shareholders upon a proposal of the Management Company. The proposal of the Management Company regarding increase of the authorised capital must *inter alia* discuss in detail the procedure of issue of new Shares and terms of payment for them, as well as the reason why it is proposed to increase the authorised capital of the Company.
 66. Current Shareholders will have the pre-emptive right to acquire newly issued Shares pro rata to the number of Shares held by them on the record date of the rights. A Shareholder shall not have the right to assign the pre-emptive right to acquire newly issued Shares to any other persons.
 67. Newly issued Shares can be offered to persons other than the Shareholders of the Company only in case the current Shareholders did not subscribe for all the Shares planned to be issued within a period set by a decision of the Management Company, which cannot be shorter than 10 calendar days and longer than 30 calendar days.
 68. Shares of a new Share issue must be paid within the term set in the Share subscription agreement, which cannot be longer than 30 Business Days.
 69. Shares may be paid in cash or in-kind contributions. The procedure for payment for Shares by in-kind contribution shall be established by the general meeting of Shareholders in line with legal requirements.
 70. New Shares shall be issued only after the money is credited to the bank account of the Company or once an in-kind contribution is owned by the Company.
 71. Newly issued Shares can be publicly offered only after the Company announces the Prospectus under the procedure set by legal acts of the Republic of Lithuania.
 72. The Company shall make the Prospectus publicly available in accordance with the procedure established by law by the start of the public offering of the Shares or their admission to trading on the regulated market.

VII. OFFERING AND REDEMPTION OF SHARES

Offering of Shares

73. If within the period set by the Management Company the Shareholders of the Company did not subscribe for all the Shares planned to be issued, new Shares can be offered to the public. The issue price of the Shares, which cannot be less than the minimal issue price set by the general meeting of Shareholders, shall be set by the Management Company. The Management Company, determining the issue price of newly issued Shares, shall seek that the issue price would not exceed the Net Asset Value or the weighted average price of the Shares during the past 6 months on the regulated market as possible.
74. The Shares shall be offered by the Management Company on behalf of the Company. The Management Company can enter into agreements on offering of the Shares with third parties.
75. At the time of offering of the Shares in the primary market the Shares shall be acquired by entering into simple written agreements with the Management Company acting on behalf of the Company.
76. The procedure of issue of new Shares of the Company is described in Chapter VI of the Articles of Association. Newly issued Shares shall be acquired by signing a Share subscription agreement and paying for the Shares in Euros no later than within a term indicated in the Share subscription agreement or by transferring the ownership of an in-kind contribution to the Company.
77. In the Share subscription agreement signed by a person and the Company, the Company shall undertake to deliver the Shares, whereas the person shall undertake to pay for the whole number of the subscribed Shares under the procedure set in effective legal acts, the Articles of Association and in the agreement.

78. The agreements for subscription of Shares must indicate that if a person who subscribed for Shares does not pay for the subscribed Shares in full within the term set in the Share subscription agreement, it shall be deemed that the Share subscription agreement was terminated and expired and a relevant number of Shares subscribed for by such a Share subscription agreement was not subscribed.
79. A person shall get the title to the Shares from the moment of making an entry in the personal securities account.

Trading in Shares on the secondary market

80. Shares shall be traded on the Nasdaq Vilnius stock exchange (secondary market).
81. Payment for Shares sold on the Nasdaq Vilnius stock exchange (secondary market) shall be effected under the procedure set by the Nasdaq Vilnius stock exchange and in the agreement with an intermediary in public trading. Accounts for sold Shares shall be settled with the Shareholder on the second Business Day after the transaction of sale of Shares on the stock exchange, unless the agreement with the intermediary in public trading establishes otherwise. The intermediary in public trading shall be responsible for timely and proper settlement of accounts under the procedure set by legal acts applicable to public trading in securities and the rules of the stock exchange.
82. A Shareholder may also transfer Shares to third parties, by conducting various over-the-counter transactions (sale and purchase, donation, etc.). A Shareholder, who conducted such transactions, must no later than within 5 days after the moment of the transaction, provide the transaction documents to the intermediary in public trading in order that the conducted transactions would be properly recorded, noting the change in the ownership of the Shares in securities accounts.

Redemption of Shares by the Company

83. The Company shall acquire Shares in accordance with the requirements of the Law of the Republic of Lithuania on Companies. The Company may acquire Shares either itself or through a person acting on his own behalf, but in the interests of the Company.

Redemption of Shares before the end of the Term of Activities of the Company

84. The Company may repurchase its own shares when the Shareholders have the option to sell or not to sell their Shares to reduce the difference in the price of the Company's Shares on the Nasdaq Vilnius Stock Exchange compared to the value of the Shares calculated according to the Net Asset Value of the Company. The share repurchase price is determined and justified by the proposal of the Management Company. The Company acquires its own Shares in accordance with the requirements of the Law on Companies of the Republic of Lithuania. The Company may acquire Shares itself or through a person acting in its own name but on behalf of the Company.
85. During the buy-out process of the Company's own Shares, when the aim is to distribute the funds to all Shareholders proportionally, the Company acquires the Shares in accordance with the requirements of the Law on Companies of the Republic of Lithuania. The Company may acquire Shares itself or through a person acting in its own name but on behalf of the Company.
86. Notwithstanding the above-mentioned exceptions, the redemption of Shares is restricted and in the absence of the above-mentioned conditions. During the Company's operation, the Shares will not be redeemed on request by the Shareholder. During the period of the Company's activity, the Shares will be redeemed only in the cases provided for in the Articles of Association.

Settlement of accounts with the Shareholders after the end of the Term of Activities of the Company

87. In accordance with the procedure and terms set in the Law of the Republic of Lithuania on Companies and the Law of the Republic of Lithuania on Collective Investment Undertakings, Shareholders must take a

decision on liquidation of the Company after the end of the Term of Activities of the Company or on the extension of the Term of Activities of the Company. In case of liquidation of the Company, the assets of the Company shall be sold and money remaining after fulfilment of debt obligations shall be distributed to Shareholders pro rata to the number of Shares held by them.

88. In case of liquidation of the Company, accounts with the Shareholders shall be settled by transferring the amounts payable to the Shareholders to the bank accounts indicated by the Shareholders or (if a Shareholder's data is unknown) to a deposit account under the procedure set by legal acts.
89. Accounts with the Shareholders shall be settled in Euros.
90. If the Management Company decides so, settlement of accounts with Shareholders of the Company in liquidation can be suspended or accounts can be settled only in part until the Company receives a confirmation of the tax administrator about settlement of accounts with state and/or municipal treasuries and state monetary funds.

Redemption of Shares when documents of incorporation of the Company and/or the Prospectus are amended and in other cases provided for in legal acts

91. If the general meeting of Shareholders of the Company takes a decision on making essential amendments to the documents of incorporation of the Company, which have an adverse effect on Shareholders' interests, or other decisions, taking of which gives the right to Shareholders, referring to the Law of the Republic of Lithuania on Collective Investment Undertakings, to demand that Shares held by them would be redeemed, the Company must ensure proper implementation of the Shareholders' right to demand that Shares held by them would be redeemed without any deductions. In cases when, according to the Law of the Republic of Lithuania on Collective Investment Undertakings, Shareholders are given the right to demand redemption of the Shares held by them and implementation of this right is ensured by the Company itself, Shares acquired by the Company from the Shareholders must be immediately annulled, whereas the decision on annulment of a relevant number of Shares must be taken together with the decision of the meeting of shareholders, which results in the duty to ensure the right for Shareholders to demand redemption of the Shares held by them.
92. The Management Company shall inform each Shareholder in writing about decisions of the general meeting of Shareholders, provided for in Article 91 hereof, no later than 1 month before the effective date of an amendment to relevant documents by sending respective notification, save for exceptions indicated in Articles 93-94 hereof.
93. The Management Company shall inform each Shareholder in writing about amendments to essential documents, related to changing the investment strategy of the Company, no later than 2 months before the effective date of amendments to relevant documents by sending respective notification.
94. The Management Company shall inform Shareholders about the decision to merge the Company with another collective investment undertaking after the Supervisory Authority gives a permission to merge the collective investment undertakings, but in any case no later than 30 days before the last day of the term, within which Shareholders of the Company have the right to demand that their Shares would be redeemed without any deductions. The Shareholder's right to make use of the right indicated in this article shall expire 5 business days before the planned merger completion date. The notification shall provide Shareholders with information, which must be provided according to applicable legal acts and other information important for Shareholders in the opinion of the Management Company.
95. A notification to Shareholders indicated in Articles 92-93 hereof must contain the following:
 - 95.1 the essence and content of the planned amendments;
 - 95.2 explanation of the influence that the planned amendments to documents will have on interests and investments of the Shareholders;

- 95.3 information about the Shareholders' right to make an objection against the essential amendments to the documents indicated in the notification and to demand redemption of their Shares without any deductions and the procedure and terms of exercising this right;
- 95.4 other information, which, in the opinion of the Management Company, is important for Shareholders.
96. The Shareholders shall have the right to make an objection and demand redemption of their Shares within 1 month before the effective date of amendments to relevant documents, except for cases when the investment strategy of the Company is being changed. When the investment strategy of the Company is being changed, the Shareholders can make an objection and demand redemption of their Shares within 2 months before the effective date of amendments to relevant documents. The Management Company can set longer terms than set in this article, within which the Shareholders can make use of their right to redemption of Shares.
97. Essential amendments to documents of incorporation of the Company and/or Prospectus (Article 100 hereof) shall be made only if no Shareholder objects to this. It is considered that no Shareholder objected if, following requirements of these Articles of Association and legal acts, the Shareholders, who objected to essential amendments to documents and demanded redemption of their Shares without any deductions, were ensured exercise of this Shareholder's right.
98. If the general meeting of Shareholders takes a decision on essential amendments to documents of incorporation of the Company and/or the Prospectus, having an effect on the Shareholders' interests, or another decision, taking of which, following the Law of the Republic of Lithuania on Collective Investment Undertakings, gives the right to Shareholders to demand redemption of the Shares held by them, the Management Company shall take a decision, where it shall be indicated, under what conditions essential amendments to documents of the Company will be made, including, without limitation, the decision on the number of Shares that can be redeemed, in case of exceeding of which the Company shall not perform the mandatory redemption of Shares from the Shareholders that demanded it and, accordingly, essential amendments to documents of the Company shall not be made.
99. The price of the redeemed Shares shall be calculated according to latest published Net Asset Value if there were no material changes in economic circumstances or real estate market that might make establishment of the Net Asset Value inevitable, taking into account all amounts actually paid to the shareholders since the publication of the respective Net Asset Value.
100. Amendments are deemed essential if:
- 100.1 such amendments can have a negative effect on the financial situation of the Company or Shareholders (the set fees, charges or deductions are increased or new fees, charges or deductions are introduced etc.);
- 100.2 these amendments restrict or cancel rights granted to the Shareholders or make other influence on the possibilities of the Shareholders to make use of their rights in connection with their investments;
- 100.3 they are included in the list of material changes to be approved by the Supervisory Authority.
101. The Board of the Management Company, taking into account the content, type, scope of the amendments to the documents of incorporation and/or the Prospectus and the impact of such amendments on Shareholders' interests, shall decide in each case, which is not indicated in Article 100 hereof, whether amendments to the documents are deemed essential or not.
102. Information on whether initiated amendments to the documents of incorporation and/or the Prospectus are deemed essential is indicated in the agenda of the general meeting of Shareholders.
103. The Management Company ensures that conditions of redemption of Shares would be indicated separately in the draft decisions of the organised general meeting of Shareholders.

104. A notification about redemption of Shares performed by the Company must be announced under the procedure set by legal acts of the Republic of Lithuania.
105. Decisions taken by the general meeting of Shareholders regarding essential amendments to the documents of incorporation of the Company shall come into effect following the procedure laid down in the legislation.
106. The Management Company does not have to inform Shareholders about essential amendments to documents if such amendments are made due to changes in provisions of legal acts of the Republic of Lithuania.

VIII. BODIES OF THE COMPANY. MANAGEMENT COMPANY AND ITS REPLACEMENT PROCEDURE

107. A collegial supervisory body - the Supervisory Board shall be formed at the Company. Management bodies of the Company shall not be formed.

115. The Management Company shall be replaced after receipt of a prior permission of the Supervisory Authority.

IX. SUPERVISORY BOARD

116. Supervisory Board is a collegial body supervising the activities of the Company. The Supervisory Board of the Company shall consist of 3 (three) members. The Supervisory Board shall be elected by the General Meeting of Shareholders for a term of 4 years. The Supervisory Board shall elect the Chairperson of the Supervisory Board from among its members. The number of terms of a member of the Supervisory Board shall not be limited, except as provided by law.
117. The Supervisory Board shall be elected and recalled in accordance with the procedure laid down in the Law on Companies of the Republic of Lithuania.
118. The competence of the Supervisory Board shall be determined by laws.
119. By decision of the general meeting of Shareholders, a remuneration for serving on the Supervisory Board may be set and paid to its members.
120. The Management Company, acting as the Board and the head of the Company, shall provide the Supervisory Board with all requested documents.
121. The responsibilities, functions, decision-making practices and procedures of the Supervisory Board shall be laid down in the Rules of Procedure adopted by the Supervisory Board.

X. COMPETENCE, PROCEDURE OF CONVOCAION OF THE GENERAL MEETING OF SHAREHOLDERS

122. The competence of the general meeting of Shareholders, the procedure of its convocation and taking of decisions thereat shall not differ from the competence and procedure set in the Law of the Republic of Lithuania on Companies to the extent these Articles of Association or the Law of the Republic of Lithuania on Collective Investment Undertakings Intended for Informed Investors do not indicate otherwise.
123. The right to initiate convocation of the meeting shall be vested in the Supervisory Board of the Company, Management Company and Shareholders, Shares owned by which carry at least 1/10 of all the votes in the general meeting of Shareholders.
124. The convocation of a general meeting of Shareholders shall be organised by the Management Company.
125. All decisions of the general meeting of Shareholders shall be taken by a 3/4 majority of votes carried by Shares of the Shareholders present in the meeting, except for the decisions indicated below, which shall be taken by a 2/3 majority of votes carried by Shares of the Shareholders present in the meeting, i.e. decisions:
- 125.1 to elect and remove a certified auditor or audit firm and establish terms of payment for audit services;

- 125.2 to approve sets of annual and interim financial statements;
- 125.3 on extension of the Term of Activities of the Company and making related amendments to the Articles of Association.
126. The below-indicated decisions of the general meeting of Shareholders can be taken only after taking into account the recommendations given by the Board of the Management Company and/or the Investment Committee of the Company and with regard to specified consequences of a relevant decision, i.e. decisions regarding:
- 126.1 amending the Articles of Association;
 - 126.2 formation, use, reduction and cancellation of reserves;

 - 126.6 approval of the agreement with the Depository, appointment of the person authorised to sign the approved agreement with the Depository on behalf of the Company, change of the Depository;
 - 126.7 liquidation of the Company or extension of the Term of Activities of the Company;
 - 126.8 restructuring of the Company.
127. The below-indicated decisions of the general meeting of Shareholders of the Company can be taken only after taking into account the recommendations given by the Board of the Management Company and/or the Investment Committee of the Company, and after taking into account the recommendations and responses of Supervisory Board, and with regard to specified consequences of a relevant decision, i.e. decisions regarding:
- 127.1 annual consolidated financial statements, draft profit (loss) distribution and the annual report of the Company;
 - 127.2 draft distribution of dividends for a period of less than one financial year as well as the interim consolidated financial statements and the interim report drawn up for the purpose of adopting the draft;
 - 127.3 draft rules for granting shares;
 - 127.4 draft remuneration policy and a draft remuneration report.
128. The Management Company must present its recommendations on draft decisions on issues indicated in Article 126 hereof together with the announced draft decisions proposed by the Management Company. The Board of the Management Company shall determine on which issues the Investment Committee of the Company shall make recommendations. The Management Company and the Supervisory Board must present its recommendations on draft decisions on issues indicated in Article 127 hereof together with the announced draft decisions proposed by the Management Company. In case draft decisions are proposed not by the Management Company but by Shareholders, the Management Company must, no later than within 5 Business Days after presentation of such a draft decision to the Company, prepare a relevant recommendation and announce it in the manner in which draft decisions are announced. In any case recommendations of the Management Company regarding all draft decisions on relevant issues of the agenda must be announced no later than 3 Business Days until the date of the general meeting of Shareholders.
129. In case the general meeting of Shareholders takes a decision not following the recommendations given by the Management Company, the Management Company shall not be responsible if such decisions violate requirements for management of the Company or there are other negative consequences.

130. An annual general meeting of shareholders must take place no later than by 30 April of the current year.
131. Authorised representatives of the Management Company shall have the right to take part in the general meetings of Shareholders with the advisory right.
132. An extraordinary general meeting of Shareholders must be convened if:
- 132.1 that is requested by Shareholders having the right to initiate convocation of the general meeting of Shareholders, the Supervisory Board or by the Management Company;
 - 132.2 the auditor or audit firm terminates its agreement with the Company and/or the Management Company or for any other reasons cannot audit the set of annual financial statements of the Company;
 - 132.3 when the Supervisory Board of the Company resigns, or when the number of members of the Supervisory Board becomes less than three;
 - 132.4 the Management Company seeks to terminate the management agreement with the Company or there are reasons why the agreement between the Company and the Management Company cannot be performed;
 - 132.5 in other cases set in legal acts of the Republic of Lithuania and in these Articles of Association.
133. The general meeting of Shareholders can take decisions and shall be deemed quorate irrespective of the number of votes carried by Shares held by the Shareholders present thereat.
134. The general meeting of Shareholders shall not have the right to take decisions, which are assigned to the competence of the Management Company by these Articles of Association or which in substance are management decisions.

XI. PROCEDURE OF DISTRIBUTION AND PAYMENT OF DIVIDEND TO SHAREHOLDERS

135. Dividend is a share of profit assigned to a Shareholder, proportionate to the nominal value of Shares owned by him.
136. Decision on payment of dividend shall be taken by the general meeting of Shareholders taking into account the recommendations of the Management Company and the recommendations and responses of Supervisory Board of the Company.
137. In case of payment of interim dividends, not later than 30 days before making a decision to distribute interim dividends, financial accounts of the Company must be prepared and audited.
138. The Company shall pay the distributed dividend within one month after the date of the decision of the general meeting of Shareholders to pay dividend, except for those cases when the Management Company decides to postpone payment of dividend following these Articles of Association.
139. The Management Company can, by its reasoned decision, postpone payment of dividend if payment of dividend:
- 139.1 would result in violation of the requirements for diversification of investments of the Company; or
 - 139.2 would pose a threat for sustainable finances of the Company;
 - 139.3 would pose a risk for proper fulfilment of obligations assumed by the Company or would pose a risk that the Company would be unable to complete the transactions of acquisition of Operational Companies or of additional investments into Operational Companies that started to be implemented (implementation of a transaction in this case is understood as a process from commencing negotiations with a counterparty until closing (fulfilment) of the transaction).

140. The Management Company must take a relevant decision and resume payment of dividend, ensuring that dividend would be paid to Shareholders no later than within one month after the moment of disappearance of the grounds for suspension of payment of dividend, but in any case payment of dividend cannot be postponed for more than one year after the date of taking a relevant decision of the general meeting of Shareholders to pay dividend.
141. Dividend payable to Shareholders shall be transferred to the bank accounts indicated by the Shareholders or (if a Shareholder's data is unknown) to a deposit account under the procedure set by legal acts.
142. The Company shall pay dividend in Euros.
143. The right to receive dividend shall be vested in persons who were Shareholders or had the right to dividend on any other lawful grounds at the end of the record date of the general meeting of Shareholders.

XII. CALCULATION OF THE NET ASSET VALUE

144. Accounts of the Company shall be kept and financial statements of the Company shall be prepared following the IAS, the Law of the Republic of Lithuania on Accounting, the Law of the Republic of Lithuania on Collective Investment Undertakings Intended for Informed Investors, legal acts adopted by the Board of the Bank of Lithuania, which define keeping of financial accounts and drawing up of financial statements, as well as other legal acts regulating financial accounting and financial statements.
145. The currency in which the Net Asset Value shall be calculated shall be the Euro.
146. The Net Asset Value shall be calculated by deducting liabilities, including the Management Fee commitments and the Success Fee commitments, from the assets of the Company.
147. The assets and liabilities of the Company shall be measured at fair value, except as defined in IAS. The fair value is the value, for which it is possible to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date.
148. Calculations of the Net Asset Value shall be performed at least once per year according to the valuation of Operational companies (directly or including SPVs) presented by an independent business valuator, having the right to engage in such an activity. The business valuator must meet the qualification, transparency and experience requirements provided for in the Company's Accounting Policy established by the Management Company and the rules for calculation of the Net Asset Value and in legal acts.
149. The calculation of the Net Asset Value shall be performed as on the last day of a calendar quarter and shall be announced no later than:
 - 149.1 within one month after end of a first and third quarter of the respective year;
 - 149.2 within two months after end of a two quarters of a year (semi-annual announcement);
 - 149.3 within four months after end of respective year.
150. The calculation of the Net Asset Value is discussed in detail in the Company's Accounting Policy established by the Management Company and the rules for calculation of the Net Asset Value.

- 151.32 discounting expenses of Management Fee and Success Fee (including corrections in accounting mandatory according to the IFRS, Accounting Policy or rules for calculation of the Net Asset Value).
152. The Success Fees shall be additionally paid to the Management Company under the procedure set in these Articles of Association. The Success Fees and discounting expenses of the Management Fee shall not be included in the maximum amount of expenses indicated in Article 153.
153. The total amount of expenses paid from the assets of the Company and related to the activities of the Company shall not exceed 4% of the Average Annual Net Asset Value. In case the Average Annual Net Asset Value decreases down to EUR 2.5 million and less, the total amount of expenses paid from the assets of the Company and related to the activities of the Company shall not exceed EUR 100,000.

Management Fee

154. The Management Fee is the remuneration paid to the Management Company for management of assets of the Company, which shall be payable for each quarter of a calendar year. The annual Management Fee during Investment Period for a full quarter shall be 0.625% while after its closure it shall be 0.5% of the weighted average capitalisation of the Company, calculated according to the following formula:

$$VM_{ketv} = VSK_{ketv} * A$$

where:

VM_{ketv} – the amount of the Management Fee;

A – the quarterly amount of the Management Fee expressed in percentage, used for calculation of quarterly size of the Management Fee;

VSK_{ketv} – weighted quarterly average of the Company’s capitalization calculated according to the following formula:

$$VSK_{ketv} = \frac{T_{ketv}}{Q_{ketv}} * \sum_{i=1}^{n_{ketv}} \frac{Vnt_i}{n_{ketv}}$$

where:

Vnt_i – number of Shares at the end of the Business day i ;

Q_{ketv} – number of Shares transferred in regulated market during respective quarter;

n_{ketv} – the number of the Business Days per quarter, irrespective of the number of trading days (save when not full is calculated for establishment of Management Fee; for this quarter proportionally lower number of the Business days will be employed in calculation);

T_{ketv} – turnaround of Shares during respective quarter according to market data, calculated according to the formula:

$$T_{ketv} = \sum_{j=0}^k (P_j * Q_j)$$

k – the number of transactions on the regulated market during respective quarter;

P_j – Share price in transaction j on the regulated market;

Q_j – the number of Shares traded in transaction j on the regulated market.

If the Management Fee will be calculated only for a part of calendar quarter of the year – the Management Fee expressed in percentage should be divided by number of business days in respective quarter and multiplied by the number of Business days in respective quarter.

If there was no trading in Shares throughout the entire calendar quarter, the Management Fee for the quarter of a calendar year during Investment period shall be equal to 0.625% and equal to 0.5% after its conclusion, of the average Net Asset Value of the Company in the quarter, which shall be calculated as the arithmetic average of values at the beginning and at the end of the quarter.

155. The Management Fee for the Investment Period shall be paid out in according to following rules:

155.1 80% of the Management Fee shall be paid out not later than within 5 Business Days after the last day of the quarter of a calendar year;

155.2 20% of the Management Fee (which shall not exceed EUR 750,000 during whole Investment period; after such limit is reached this part of Management fee is not accumulated and respective amount will be assigned to the equity) shall be paid out at the same time as the Success Fee is paid out (corresponding amount until the day it is being distributed to the Management Company shall be accumulated and reflected in financial statements as a liability to the Management Company. Should Management Company is not granted a Success Fee, aforementioned liability is being annulled and respective amount is shall be returned to the Shareholders' equity).

156. The Management Fee after the end of the Investment Period shall be paid out not later than within 5 Business Days after the last day of the quarter of a calendar year.

157. The Management Fee for the past four quarters of a calendar year shall be adjusted by auditors. Based on their conclusion regarding the Net Asset Value or weighted average quarterly price of the Shares of the Company overpayment or underpayment amount of the Management Fee might be detected. Underpaid amount shall be paid together with the Management Fee for next respective quarter. Overpaid amounts will be subtracted from the Management Fee for the next respective quarter.

158. The calculation, accounting and inclusion of the Management Fee in the Net Asset Value is detailed in the Company's Accounting Policy and Net Asset Value Calculation Rules established by the Management Company..

- 162.6 a positive flow is the Net Asset Value (before the Success Fee) on the date of calculation of the Success Fee;
- 162.7 a positive flow is the Success Fee paid to the Management Company;
- 162.8 a positive flow is any other payments to Shareholders;
- 162.9 a negative flow is the size of each new Share issue.
163. Money that constitute the Net Asset Value will be paid out to the Shareholders *pro rata* until the Shareholders will receive their initial investments in the Company equal to amount of negative flows provided in Article 162 of the Articles of Association.
164. Profit of the Company will be distributed in following way:
- 164.1 after distribution provided in Article 163, profit of the Company will be distributed to the Shareholders until distributed amount equals to average annual return of 8% calculated from annual return provided in Article 162 as negative flows;
- 164.2 after distributions provided in Articles 163 and paragraph 164.1, profit of the Company will be distributed solely to the Management company until profit of the Company distributed between the Shareholders and the Management Company in cash, as defined in paragraph 164.1 hereof, reaches the proportion of 80/20;
- 164.3 after distribution of profit described in paragraphs 164.1-164.2 80% of all remaining funds are distributed to the Shareholders and 20% to the Management company as the Success Fee.
165. The correctness of the calculation of the Success Fee shall be checked by the Depository.
166. The Success Fee shall be disbursed to the Management Company only after the Shareholders are paid their initial investment (indicated in Article 162 as negative flows) with annual return of 8%. Until then, the Success Fee shall be accumulated and reflected in financial statements as a liability to the Management Company according to the requirements of the IFRS and the Company's Accounting Policy established by the Management Company.
167. The Success Fee shall be disbursed to the Management Company each time when funds are disbursed to Shareholders if the condition provided in Article 166 hereof is satisfied.
168. The Success Fee commitment shall be recalculated on each Net Asset Value calculation day, taking into account the return of the Company from the date indicated in paragraph 162.1 until the relevant Net Asset Value Calculation day.
169. The calculation, accounting and inclusion of the Performance Fee liability in the Net Asset Value is detailed in the Company's Accounting Policy and Net Asset Value Calculation Rules established by the Management Company.
