Banco Sabadell and Amundi extend their partnership

Barcelona and Paris, 11 August 2026 - Banco Sabadell, the fourth largest banking group in Spain serving ~7m clients through digital and +1.000 branches, and Amundi, the European leader in asset management, today announce the extension of their partnership for the distribution of Amundi investment solutions across Banco Sabadell's networks in Spain.

The agreement, which started in 2020 and was initially set to run until 2030, has now been extended to cover an additional five-year period, until 2035.

Since its inception, the partnership has supported the development of Banco Sabadell's fund business and strengthened Amundi's position in Spain, one of Europe's major savings markets.

The partnership has delivered tangible benefits for both parties. Banco Sabadell's clients have access to a broad range of savings and investment solutions, supported by the active, passive and private markets expertise and capabilities of Europe's leading asset manager. At the same time, Amundi has further strengthened its footprint in Spain and increased its assets under management, notably from €20bn in 2020 to close to €30bn of assets for Banco Sabadell's networks clients at the end of 2025. Today more than 200,000 clients hold investment products managed through the Sabadell Asset Management and Amundi platform.

The extension of the agreement reflects successful collaboration between both organizations and the positive developments since the partnership began. Over these years, the combination of Banco Sabadell's understanding of its clients' needs and Amundi's global asset management expertise has contributed to business growth and the continuous enhancement of the investment solutions offering.

This renewal also illustrates their conviction that this partnership will enable them to continue capturing the significant growth potential of the Spanish savings and investment market. Both organizations reaffirm their commitment to continue working together to create long-term value for clients, shareholders, and employees, while maintaining a strong focus on service quality, innovation, and financial guidance.
