

Pixium Vision convenes a Combined General Meeting of Shareholders on April 19, 2022

Paris, France, March 14, 2022 – 19:00 CET– Pixium Vision SA (Euronext Growth Paris - FR0011950641; Mnemo: ALPIX), a bioelectronics company that develops innovative bionic vision systems to enable patients who have lost their sight to live more independent lives, announces today that it will hold a combined general meeting of shareholders (CGM) at 10:00 CET on April 19, 2022 at Pixium Vision’s headquarter office. The meeting will take place in person.

Pixium Vision is calling this Combined General Meeting to seek approval from shareholders to obtain the necessary financial authorizations to give all the opportunities for the Company to secure appropriate funding for its clinical activities and upcoming commercial structure and for the pursuing of its strategic ambitions. The Company is evaluating several future financing options and investigating the best funding opportunities.

Information and documents relating to this General Meeting will be available on the Company's website as from the convening of the shareholders in accordance with applicable laws and regulations.

The Company will probably review the calendar of its Annual Shareholders Meeting already set on June 1, 2022.

About Pixium Vision

Pixium Vision is creating a world of bionic vision for those who have lost their sight, enabling them to regain visual perception and greater autonomy. Pixium Vision’s bionic vision systems are associated with a surgical intervention and a rehabilitation period. Prima System sub-retinal miniature photovoltaic wireless implant is in clinical testing for patients who have lost their sight due to outer retinal degeneration, initially for atrophic dry age-related macular degeneration (dry AMD). Pixium Vision collaborates closely with academic and research partners, including some of the most prestigious vision research institutions in the world, such as Stanford University in California, Institut de la Vision in Paris, Moorfields Eye Hospital in London, Institute of Ocular Microsurgery (IMO) in Barcelona, University hospital in Bonn, and UPMC in Pittsburgh, PA. The company is EN ISO 13485 certified and qualifies as “Entreprise Innovante” by Bpifrance.
