

SCOR Investment Partners' sustainable investment approach is endorsed with the attainment of LuxFLAG ESG and LuxFLAG Environment labels across several funds.

SCOR Investment Partners, the asset management company of the SCOR group, is proud to announce that six of its investment vehicles have been granted the use of the LuxFLAG label.

Luxembourg Finance Labelling Agency (LuxFLAG) is an independent and international non-profit association created to support sustainable finance. It promotes sustainable investments by awarding a recognizable label to eligible investment vehicles.

- The **LuxFLAG ESG** label certifies that the Investment Product incorporates Environmental, Social & Governance (ESG) criteria throughout the entire investment process while screening 100% of the invested portfolio according to one of the ESG strategies and standards recognized by LuxFLAG.
- The **LuxFLAG Environment** label certifies that the Investment product primarily invests its assets in environment-related sectors in a responsible manner. The eligibility criteria for the LuxFLAG Environment label require eligible funds to have a portfolio of investments in environment-related sectors corresponding to at least 75% of the fund's total assets.

Four SCOR Investment Partners funds have been granted the LuxFLAG ESG label:

- The **SCOR Sustainable Euro Loans** fund (label renewal), classified as Article 8 under the European Sustainable Finance Disclosure Regulation (SFDR),
- The **SCOR Sustainable Euro High Yield** fund (label renewal), classified as Article 8 SFDR,
- The **SCOR Funds - ESG Euro Short Term Duration High Yield** fund, (label granted) newly classified as Article 8 SFDR following the strengthening of its sustainable investment process, and
- The **SCOR Euro Loans Natural Capital** fund ("Applicant Fund Status" label granted), launched in November 2022, classified as Article 9 SFDR. The fund aims to finance companies committed to limiting their environmental impact, through the sustainable use of water, energy, or a policy of waste reduction.

Two SCOR Investment Partners infrastructure debt funds have been granted the LuxFLAG Environment label:

- The **SCOR Infrastructure Loans III** fund (label renewal), classified as Article 8 SFDR, which has completed its investment period, and
- The **SCORLUX Infrastructure Loans IV** fund (label confirmed following the grant of an "Applicant Fund Status" label in 2021), classified as Article 9 SFDR. This fund is the fourth vintage of the senior infrastructure debt strategy. It invests exclusively in projects with a positive environmental or social impact. Fundraising and capital deployment are on-going.

Fabrice Rossary, CEO of SCOR Investment Partners, comments: "*These labels independently confirm both the strength of ESG criteria integration in our investment processes, as well as our capacity for innovation in private asset classes. We reaffirm our positioning as a responsible investor and our commitment to financing the sustainable development of societies, together.*"

- End -
