Note: The transaction will be completed only if the buyer obtains the necessary regulatory and other approvals, and the other conditions agreed upon by the parties are fulfilled. The base price indicated in the announcement will be recalculated at closing. The calculation will be based on the book value per share, multiplied by the number of shares sold and a coefficient of 1.2x agreed upon by the parties. The book value per share will be calculated by dividing the issuer's consolidated equity, as reported in the most recently publicly disclosed consolidated financial statements (interim results) prior to the closing date, by the total number of the issuer's shares outstanding on the closing date, excluding treasury shares. The issuer's consolidated equity will be adjusted to reflect any corporate actions (dividends, share buybacks or sales, changes in share capital) that have taken place between the end of the reporting period covered by the published financial statements and the closing date.
